Hi Sharon

Included is the updated submittal for The Berkeley Collection at 2801 Adeline and 2900 Shattuck. We have included the original incompleteness letters, response letters, plans and supporting documents.

As mentioned in the response letter, there are a few items that we will need to address during the next review. We apologize for the inconvenience, however, we feel that it is important to go through one more review before we finalize Civil and traffic.

Please find the included revised plans and supporting documents and contact me with any questions or comments.

Thanks,
