Hello all Design Review Committee Members and Zoning Adjustment Board Members, Anne Burns and staff,

I am forwarding a note to you that I received from Kieron Slaughter from the Office of Economic Development. The note was unexpected and it is a short article just like the title How Planning for Birds Makes Our Communities and Economies Healthier.

The article is right on topic of the issues I have been bringing to you for many months.

I have, of course, ordered the book and am thrilled the article is with an urban planner.

Kelly Hammargren
