

UC Berkeley KDSAP

Kidney Disease Screening and Awareness Program

Berkeley KDSAP is a student-run organization, partnering with local physicians and communities to provide **free kidney screenings and health education** across the Bay Area.

OPEN TO THE PUBLIC

FREE, ACCESSIBLE KIDNEY DISEASE SCREENING

No Health Insurance or Appointment Necessary!

What is Chronic Kidney Disease (CKD)?

CKD is irreversible damage to the kidneys that occurs over several months or years, leading to kidney failure. Symptoms do not appear until later stages of CKD, but early detection and treatment can prevent further damage.

Services provided:

- Blood Pressure Check
- Blood Glucose Test
- BMI/WHR Measurement
- Urinalysis (Urine Testing)
- **FREE** Physician Consultation from UCSF and Stanford Nephrologists
- **FREE** Health Information and Resources
