ACTION CALENDAR

To: Honorable Mayor and Members of the City Council

From: Paul Buddenhagen, City Manager

Submitted by: Mark Numainville, City Clerk

Subject: 2026 City Council Referral Prioritization Results Using Re-Weighted Range Voting (RRV)

RECOMMENDATION

Review the completed Re-Weighted Range Voting (RRV) rankings for all outstanding City Council referrals and adopt a Resolution approving the list of prioritized referrals to city staff.

FISCAL IMPACTS OF RECOMMENDATION

There are no direct fiscal impacts related to the review and approval of the referral list.

CURRENT SITUATION AND ITS EFFECTS

Through the December 2, 2025 City Council meeting, there were 53 outstanding long-term referrals to staff. The list did not include referrals that the City Manager classified as short-term referrals or budget referrals.

On January 27, 2026, the Council reviewed the raw scores assigned by Council, reviewed the referrals marked for removal, and took action to remove 14 referrals from the list.

After the January 27 meeting, staff applied the RRV formula to the scores for the remaining 39 referrals, resulting in a prioritized list. These results are presented to the Council as Exhibit A to the resolution in Attachment 1. Adopting the resolution will formally set the Council referrals prioritization for 2026.

This year, three referrals tied for the top score. In accordance with the intended function of the RRV system, all three referrals were assigned the #1 priority and the algorithm was engaged starting with the next highest scored referral. This prevents any lower scored referral from jumping over one of the referrals that tied for the top score when the algorithm and weighted votes are applied.

These results will guide the City Manager and the Budget & Finance Committee in development of Strategic Plan projects and funding allocations needed for the referrals. Some flexibility in the order in which the referrals are assigned will need to be exercised by the City Manager to ensure that staff in each department has the available capacity to

start work on the highly rated referrals and that there are adequate funding resources to complete the referrals.

BACKGROUND

In 2016, the City Council adopted a system of Re-weighted Range Voting (RRV) to prioritize City Council referrals to staff. The RRV system enables City Council to provide direction to staff on which referrals are highest priority and should be completed first.

Reweighted Range Voting is a proportional voting system designed for a blend of fairness and consensus, meaning that it ensures some representation for minority views as well. It accomplishes this by reducing the influence of Councilmembers in proportion to the points they have awarded to the referrals prioritized thus far.

Under RRV, Each Councilmember rates every referral on a scale of zero to five. There is no limit to repeat scores (i.e. a Councilmember could give every referral a five). When the scores are tallied, the referral with the highest total score becomes the 1st priority. Once the first referral is assigned, the scores for the remaining referrals are reweighted based on how much influence each Councilmember has had up to that point (based on the score they assigned, 0 - 5). If a Councilmember assigns high scores to several referrals, they use up the strength of their weighted vote more quickly and exercise diminishing influence when the scores are reweighted for subsequent referrals. This guarantees equal influence throughout the full list. If a Councilmember did not score a referral, the default score was set to zero.

ENVIRONMENTAL SUSTAINABILITY AND CLIMATE IMPACTS

There are no identifiable environmental effects or opportunities, or climate impacts, associated with the subject of this report.

RATIONALE FOR RECOMMENDATION

This recommendation carries out the direction of the Council to implement a prioritization process for City Council referrals to staff.

ALTERNATIVE ACTIONS CONSIDERED

Council may decide to forgo a prioritization process and continue the referral process with no structured tracking or prioritization of referrals.

Exhibit A: 2026 RRV Prioritized Referral List

RESOLUTION NO. ##,###-N.S.

APPROVING THE 2026 LIST OF PRIORITIZED CITY COUNCIL REFERRALS USING
THE REWEIGHTED RANGE VOTING SYSTEM

WHEREAS, On March 8, 2016 the City Council approved the use of Re-weighted Range Voting (RRV) for the prioritization of City Council referrals to staff; and

WHEREAS, the City Council has assigned scores to all the referrals; and

WHEREAS, the Re-Weighted Range Voting formula was applied to the ratings to create a weighted list of prioritization.

NOW THEREFORE, BE IT RESOLVED by the Council of the City of Berkeley that the list of prioritized referrals contained in Exhibit A, with the removal of certain referrals by Council direction, is hereby approved.

BE IT FURTHER RESOLVED that the City Council grants the City Manager the authority to assign referrals to staff in a manner that ensures equitable distribution among departments and does not exceed the capacity of departmental staff to start work on the highly rated referrals even if that results in the referrals being assigned in an order that differs from the approved list.

DMND0004008	3/8/2022	Referral to Implement State Law AB 43 for Reduced Speed Limits on High-Injury Commercial Corridors?DMND0004008	Refer to the City Manager to implement state law AB 43 on High-injury commercial corridors as identified in our Vision Zero Annual Report, 2020-2021 in order to allow a reduction in speed limits by 5 miles per hour; - Any other corridors covered by AB 43, as appropriate, in order to implement reduced prima facie speed limits and identify those corridors for future traffic studies where prima facie limits are presently unsafe. Upon completion of this referral, we note that a budget allocation would be needed in the amount of \$25,000 to \$50,000 for new speed limit signage. Funding will be requested later (likely for the FY 2023-24 budget) in order to allow time for staff to determine the applicable streets for additional signage. Structured Bond Issuance Framework Refer to the City Manager assessment, analysis, and presentation to the Council of a potential comprehensive fiscal policy every two years that institutionalizes, codifies, and makes publicly accessible, a regular, predictive schedule for general obligation bond issuance. This potential policy, in addition to and alongside existing practices, may be informed by actuarial and capital market analysis of the City's bonding capacity and be modeled on established frameworks utilized in fiscally disciplined jurisdictions such as San Francisco, Santa Monica, and others. The goal is to remediate the City's substantial deferred maintenance liabilities and strategically advance the Capital Improvement Program (CIP).</p> <p>2. Modernize Investment Policy. Refer to the City Manager the enactment of a detailed review and performance benchmarking of the City's current investment policies, ordinances, and resolutions. Based on this review, the City Manager may consider: -Amendments to align Berkeley's portfolio management practices with those of peer jurisdictions in the Bay Area; -Asset strategies that maintain compliance with CA Government Code §53600 et seq. while improving yields through enhanced diversification and duration matching;</p> <p>3. Comparative Bond Issuance Analysis and Timeline Refer the City Manager to conduct a comprehensive analysis of historical general obligation bond issuance and debt service rates in Berkeley and comparable jurisdictions. The analysis may consider the following: -Examine 30 years of municipal bond trends, showing the consistency of low interest rates during fiscally disciplined cycles; -Compare Berkeley's historical borrowing costs with those of San Francisco, Santa Monica, Palo Alto, and other cities; -Demonstrate the efficacy of maintaining a regular issuance schedule every 6–10 years to preserve low borrowing rates and steady bond ratings; -Present a 30-year fiscal projection showing that with prudent debt layering and consistent retirement of obligations, Berkeley can issue up to \$250–\$300 million in bonds in successive tranches while maintaining fiscal health and AAA-quality debt service</p>	Terry Taplin	Finance	2

Specifically, the rezoning of Gilman Street should consider the following:</p> <p>Potential for applying the Manufacturing, Research and Development (M-RD) zoning district currently planned for the Pacific Steel Casting site to a portion of Gilman Street. The M-RD zoning district seeks to better align with Berkeley's goals and needs by: allowing research and development, office, laboratory, and light manufacturing uses currently not permitted by the existing Manufacturing (M) zoning; and removing protections for existing manufacturing uses and constraints associated with certain development standards; and/or</p> <p>Consider a new zoning designation for a portion of Gilman Street west of San Pablo Avenue to I-80 that maximizes revenue productivity per acre via permitted uses and associated development standards; and</p> <p>Extend West Berkeley Commercial District (C-W) zoning on Gilman Street from Ninth Street further west for a certain number of blocks and enhance the flexibility of C-W development standards to increase the likelihood of redevelopment—in coordination with "Keep Innovation in Berkeley" Council referral (passed on Sept. 13, 2022) that seeks to allow research and development uses in C zones.1</p> <p>Refer \$250,000 to the FY 2024-25 budget process for consulting services to assist with the planning process and associated environmental review and economic analyses.</p>	Rashi Kesarwani, Terry Taplin, Susan Wengraf, Rigel Robinson	PLANNING & DEVELOPMENT	4
