Public

Certified Local Government Program -- 2022-2023 Annual Report

(Reporting period is from October 1, 2022, through September 30, 2023)

Some projects are reviewed at the staff level without commission review.

What is the threshold between staff-only review and full-commission review?

The Commission reviews Structural Alteration Permits submitted for work on Landmark properties requiring City permits. Projects that adhere to the Landmarks Preservation Ordinance Section 3.24.220 for permit application exceptions (i.e. ordinary maintenance and repairs) are reviewed administratively through building permit plan check.

2. California Environmental Quality Act (CEQA)

- Explain the historic preservation staff and commission role in *providing input* to CEQA documents prepared for or by the local government.
Use Permits with public hearings are required for projects that involve the demolition of buildings, and staff reviews for the potential to adversely affect historical resources under CEQA, requiring DPR forms and/or standards analyses as appropriate. The Municipal Code requires a referral to the LPC for the demolition of non-residential buildings and structures forty or more years of age. This requirement also provides an opportunity for the Commission to have input in the CEQA historical resource determination. Staff reviews technical reports for CEQA exemptions on residential projects for buildings over 40 years old.
- Explain the staff and commission role in *reviewing* CEQA documents for projects that are proposed within the jurisdiction of the local government.
If an Environmental Impact Report (EIR) identifies potential impacts to historical resources, the LPC is alerted of the preparation and scoping meeting(s). If the City is the lead agency, staff reviews the administrative Draft EIR (DEIR). The DEIR is taken to the LPC for review and comment during circulation. The LPC comments are forwarded to the project planner for inclusion in the Response to Comments document. The Zoning Adjustments Board is the decision-making body on the Final EIR (FEIR) certification, but the LPC considers and adopts any FEIR certification required for Structural Alteration Permit decisions.

3. Section 106 of the National Historic Preservation Act

- Explain the staff and commission role in *providing input* to Section 106 documents prepared for, or by, the local government.
Preservation staff coordinates with the City's Department of Health Housing & Community Development Services (HHCS) staff to present environmental assessments for housing development projects receiving federal funds to the LPC. Preservation and HHCS staff solidify the Commission's comments about historic resources in the area of potential effect (APE), in accordance with Section 106 of the National Preservation Act.

Public

Certified Local Government Program -- 2022-2023 Annual Report

(Reporting period is from October 1, 2022, through September 30, 2023)

- Explain the staff and commission role in *reviewing* Section 106 documents for projects that are proposed within the jurisdiction of the local government?
Staff reviews and forwards to the Commission Section 106 documents for projects that are proposed within the jurisdiction of the local government. Under such projects, the LPC opens a public consultation meeting so that the Commission may provide comments to the City on potential project effects on historic resources. The Commission consultation focus is on whether: 1) The APE is of the proper size and scope; 2) There are any historic properties present; 3) The undertaking would have adverse or beneficial effects (or both) on the property, and what those specific effects would be. Comments and/or findings are forwarded to the City Council for comment to the Lead Agency and SHPO.

II. Establish an Adequate and Qualified Historic Preservation Review Commission by State or Local Legislation.
