Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Annual Oversight Cost Estimate
Completed Date: 12/05/2011
Comments: DTSC sent an estimate of hours and costs to CBS covering July 2011 through June 2012 for the Emeryville Mound Parcel.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Risk Assessment Report
Completed Date: 04/19/2010
Comments: DTSC approved the Feasibility Study/Remedial Action Plan (FS/RAP) on 4/19/10. The Human Health Risk Assessment Amendment is Appendix B of the FS/RAP.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Remedial Action Plan
Completed Date: 04/19/2010
Comments: DTSC approved the Feasibility Study/Remedial Action Plan (FS/RAP) on 4/19/10. The FS/RAP evaluates remedial alternatives and proposes a preferred remedial action that meets the identified remedial action objectives, including protection of human health and the environment; compliance with regulatory requirements; cost-effective implementation; and preference for a permanent remedy consistent with

EMERYVILLE MOUND PARCEL (Continued) **S116165219**

the planned future land use. The FS/RAP proposes the following suite of remedies for the Emeryville Mound Parcel: > Pre-excavation soil sampling for polychlorinated biphenyl congeners, > Targeted additional groundwater characterization and in-situ treatment, > Unsaturated and saturated soil excavation, > Vapor mitigation, > Continued function of an existing slurry wall, > Institutional controls, and > Monitored natural attenuation.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Fact Sheets
Completed Date: 11/04/2009
Comments: Pursuant to the Polanco Act, the City of Emeryville is the lead redevelopment agency responsible for the public review of the (a) Feasibility Study/Remedial Action Plan and (b) Initial Study/Mitigated Negative Declaration. The City will commence a 32-day public comment period on 11/7/09 and hold a public meeting on 11/19/09. The 32-day public comment period will end on 12/9/09.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Public Notice
Completed Date: 11/04/2009
Comments: Pursuant to the Polanco Act, the City of Emeryville is the lead redevelopment agency responsible for the public review of the (a) Feasibility Study/Remedial Action Plan and (b) Initial Study/Mitigated Negative Declaration. The City will commence a 32-day public comment period on 11/7/09 and hold a public meeting on 11/19/09. The 32-day public comment period will end on 12/9/09.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Design/Implementation Workplan
Completed Date: 02/11/2011
Comments: DTSC approved the RDIP; however, CBS cannot implement the RDIP until meeting the conditions below: Sub-Slab Venting System/Sub-Slab Depressurization System (SSVS/SSDS): As soon as the final building plan becomes available, please submit the SSVS/SSDS detailed design for DTSC s review and approval. Health and Safety Plan (HSP): Please submit all contractors HSPs to DTSC. Storm Water Pollution Prevention Plan (SWPPP): Please submit the State Water Resources Control Board-approved SWPPPs to DTSC prior to site disturbance. Community Update: Please prepare and submit a community update to DTSC for review and approval. CBS shall mail the community update to people on the project mailing list notifying them of the commencement of the cleanup activities. Monitoring Well Network: As soon as the final building design becomes available, please submit an updated figure depicting all monitoring well locations for DTSC s review and approval. Project Schedule: Please submit a project schedule outlining all cleanup activities.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Remedial Action Completion Report
Completed Date: 01/08/2021
Comments: Based on the information presented in the Final Remedial Implementation Report, DTSC concludes that Emery Station West LLC has

EMERYVILLE MOUND PARCEL (Continued) **S116165219**

installed the vapor intrusion mitigation system pursuant to (a) 2011 Remedial Design and Implementation Plan, (b) December 12, 2014 Sub-Slab Vapor Mitigation System Design Report, (c) February 1, 2016 Revised Sub-Slab Vapor Mitigation System Design Report, and (d) January 2017 Sub-Slab Vapor Mitigation System Modification in Hallway Area.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Operation and Maintenance Plan
Completed Date: 02/27/2020
Comments: The Operation and Maintenance Plan provides a framework for management of residual chemicals in soil, soil vapor, and groundwater at the site. This plan includes operation and maintenance protocols for the cap, sub-slab vapor mitigation system, and the groundwater monitoring wells.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Remedial Design - Preliminary/Intermediate
Completed Date: 02/25/2010
Comments: DTSC approved the "Workplan to Perform Analytical Groundwater Profiling and Injecting Testing" (Workplan). CBS proposes (a) total volatile organic compounds profiling to select in-situ groundwater treatment locations and (b) field testing to determine the appropriate injection rate for oxygen release compound.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Design/Implementation Workplan
Completed Date: 10/12/2010
Comments: On 10/12/10, DTSC approved the Volatile Organic Compound Mitigation Workplan for in-situ treatment of volatile organic compounds (VOC) at the subject site. CBS plans to inject chemical at specified locations to treat VOC-impacted groundwater before excavation commences.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Remedial Design - Preliminary/Intermediate
Completed Date: 09/09/2009
Comments: U.S. EPA approved the Workplan to Perform Pre-Excavation Soil Sampling for PCB Congeners on 9/9/09. The workplan proposes subsurface soil PCB congener data to be used in developing risk-based action levels for airborne dust generated during construction.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Remedial Design - Preliminary/Intermediate
Completed Date: 11/18/2009
Comments: During a conference call on 11/10/09, Mr. Stephen F. Tyahla of U.S. EPA agreed that further sampling or analysis of PCB dioxin-like congeners is not technically feasible or warranted. It was agreed that the PCB aroclor results collected during this investigation along with existing site data will be used to assist in developing risk-based action levels for airborne dust generated during construction activities.

Completed Document Type: Design/Implementation Workplan
Completed Date: 01/12/2016

EMERYVILLE MOUND PARCEL (Continued) **S116165219**

Comments: CBS completed excavation to target elevation and covered the native soil with approximately 18 inches of aggregate base, beneath a continuous piece of reinforced polymer sheeting. Site winterization is necessary while the developer awaits for building construction to begin later in 2016.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Design/Implementation Workplan
Completed Date: 02/01/2016
Comments: CBS updated the December 12, 2014 DTSC-approved "Sub-Slab Vapor Mitigation System Design Report" to account for changes in the elevator pits, footing locations, and occupied space within the first floor of the proposed new building at the subject site.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Fieldwork
Completed Date: 08/26/2016
Comments: The updated perimeter air monitoring program during installation of 77 piles, within a specified area, include VOC, PCB, and PM10 dust laboratory analyses three times a week.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Fieldwork
Completed Date: 10/13/2016
Comments: Perimeter Air Monitoring Results, 2016-09-07 through 2016-9-27

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Technical Workplan
Completed Date: 10/04/2016
Comments: WSP proposes management and disposition procedures for five types of materials generated during pile cap excavation at the site. DTSC agrees with the proposal and requires alternative disposition procedures for Type 2 material.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Technical Workplan
Completed Date: 01/23/2017
Comments: DTSC concurs with the following changes to geolsynthetic clay liner (GCL) installation: 1. The GCL anchor trench shall be omitted; 2. The GCL shall be extended at least 2 feet beyond the outside of the slurry wall where possible; 3. The GCL shall be run at least one foot up the side of the sheet pile (if sheet pile is within 2 feet) or of he remaining aggregate base outside of the slurry wall; and 4. The GCL/slurry wall interface will continue to be inspected to verify a good contact between the GCL and slurry wall.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Technical Workplan
Completed Date: 01/19/2017
Comments: DTSC agrees that an epoxy coating be applied to the floor surface of the hallway area above the Sub‐Slab Vapor Mitigation System

EMERYVILLE MOUND PARCEL (Continued) **S116165219**

where the gravel layer has been reduced due to construction constraint. DTSC will work with Wareham Development to include appropriate inspection and maintenance provisions in the upcoming Operation and Maintenance Plan for the site.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Remedial Action Completion Report
Completed Date: 12/18/2018
Comments: The Report documents the following remedial tasks conducted from June 2016 through June 2018: Collection, transportation, and disposal of 1,271 tons of polychlorinated biphenyl remediation waste generated during foundation construction activities; Management and disposal of 134,110 gallons of potentially impacted accumulated storm water; Installation of the geosynthetic clay liner; Installation of the sub-slab vapor mitigation system; and Installation of groundwater monitoring wells.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Unilateral Order (I/SE, RAO, CAO, EPA AO)
Completed Date: 03/13/1986
Comments: On March 13, 1986, U.S. EPA executed and recorded the Statement for Recordation of Consent Agreement and Order for the Emeryville Mound Parcel site.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Project Management
Completed Date: 06/30/2021
Comments: From July 1, 2020 through June 30 2021, DTSC performed various project management tasks for the subject project site such as EnviroStor update, Terradex Alert response and coordination, weekly/periodic update, project tracking, management briefing, management inquiry response, project history research, public inquiry response, public record act compliance and coordination, and other unspecified activities that are not associated with any document types or activities specified on the Multi Project Code list.

Completed Document Type: Annual Oversight Cost Estimate
Completed Date: 09/30/2020
Comments: The cost estimate projects hours to be incurred (by staff classification) for planned oversight activities in fiscal year 2020/2021, which started July 1, 2020 and ends June 30, 2021, and identifies the personnel labor rates.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Remedial Investigation Report
Completed Date: 05/05/2006
Comments: Approval of report characterizing soil, soil gas and groundwater contamination.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Community Profile
Completed Date: 09/13/2006
Comments: DTSC prepared community profile with final approval on 9/13/2006

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Design/Implementation Workplan
Completed Date: 12/19/2014
Comments: The sub-slab vapor mitigation system is intended to prevent the migration of volatile organic compound vapors from soil gas beneath the building slab into indoor air. In accordance with the Remedial Design and Implementation Plan, the vapor mitigation system will encompass ground-floor commercial/industrial space, elevator shafts, stairwells, and subsurface utility corridors. The vapor mitigation system will consist of a vapor barrier component and a sub-slab venting component.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Design/Implementation Workplan
Completed Date: 12/19/2014

EMERYVILLE MOUND PARCEL (Continued) **S116165219**

Comments: CBS proposes long-term groundwater monitoring at ten well locations.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Work Notice
Completed Date: 04/27/2015
Comments: The Work Notice informs the community about upcoming cleanup activities beginning the first week of May 2015 at the Emeryville Mound Parcel.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Other Report
Completed Date: 06/25/2014
Comments: Conducting the cleanup activities during the dry season is critically important to (a) alleviate the burden in pumping and treating enormous volume of PCB-impacted storm water accumulated in open excavation, (b) reduce the potential for PCB-impacted storm water from discharging into the San Francisco Bay, and (c) ensure that the Total Maximum Daily Load for PCBs is not exacerbated. Therefore, DTSC strongly recommends against soil excavation during the rainy months.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Design/Implementation Workplan
Completed Date: 04/02/2015
Comments: The proposed modification fine tunes the injection locations based on the final building foundation plan and updates the associated text and table.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Remedial Action Completion Report
Completed Date: 06/22/2015
Comments: The Injection Report documents the completion of chemical injection as required by the December 16, 2009 Feasibility Study/Remedial Action Plan and subsequent workplans. CBS, the property owner, conducted a one-time injection of treatment chemical to reduce volatile organic compound concentrations in groundwater within the area enclosed by the slurry wall and jump start the natural attenuation process.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Technical Workplan
Completed Date: 06/16/2015
Comments: DTSC agrees that pre-excavation in-]situ soil sampling for disposal characterization purpose is preferable. This approach would streamline waste handling, minimize dust generation, reduce the waste storage duration at the site, and enhance compliance of the Total Maximum Daily Load Program.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Technical Report
Completed Date: 07/27/2015
Comments: The Report includes perimeter air background sampling results and

Completed Document Type: CEQA - Responsible Agency Review
Completed Date: 04/19/2010
Comments: The City of Emeryville is the CEQA Lead Agency for the development of the project site. On 2/19/10 the City's adopted the Initial Study/Mitigated Negative Declaration (IS/MND) which include impact assessment for DTSC's cleanup project. As a CEQA Responsible Agency, DTSC used the IS/MND in making a discretionary decision on the cleanup project s Feasibility Study/Remedial Action Plan (FS/RAP). On 4/19/10 DTSC prepared the Responsible Agency Checklist, Statement of Findings and Notice of Determination (NOD) pursuant to CEQA. DTSC plans to file the NOD with the Governor's Office of Planning and Research by 4/23/10.

Completed Sub Area Name: Not reported
Completed Document Type: Risk Assessment Report
Completed Date: 04/19/2010
Comments: DTSC approved the Feasibility Study/Remedial Action Plan (FS/RAP) on 4/19/10. The Human Health Risk Assessment Amendment is Appendix B of the FS/RAP.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Remedial Action Plan
Completed Date: 04/19/2010
Comments: DTSC approved the Feasibility Study/Remedial Action Plan (FS/RAP) on 4/19/10. The FS/RAP evaluates remedial alternatives and proposes a preferred remedial action that meets the identified remedial action objectives, including protection of human health and the environment; compliance with regulatory requirements; cost-effective implementation; and preference for a permanent remedy consistent with the planned future land use. The FS/RAP proposes the following suite of remedies for the Emeryville Mound Parcel: > Pre-excavation soil sampling for polychlorinated biphenyl congeners, > Targeted additional groundwater characterization and in-situ treatment, > Unsaturated and saturated soil excavation, > Vapor mitigation, > Continued function of an existing slurry wall, > Institutional controls, and > Monitored natural attenuation.

Completed Document Type:	Design/Implementation Workplan
Completed Date:	02/11/2011
Comments:	DTSC approved the RDIP; however, CBS cannot implement the RDIP until meeting the conditions below: Sub-Slab Venting System/Sub-Slab Depressurization System (SSVS/SSDS): As soon as the final building plan becomes available, please submit the SSVS/SSDS detailed design for DTSC s review and approval. Health and Safety Plan (HSP): Please submit all contractors HSPs to DTSC. Storm Water Pollution Prevention Plan (SWPPP): Please submit the State Water Resources Control Board-approved SWPPPs to DTSC prior to site disturbance. Community Update: Please prepare and submit a community update to DTSC for review and approval. CBS shall mail the community update to people on the project mailing list notifying them of the commencement of the cleanup activities. Monitoring Well Network: As soon as the final building design becomes available, please submit an updated figure depicting all monitoring well locations for DTSC s review and approval. Project Schedule: Please submit a project schedule outlining all cleanup activities.
Completed Area Name:	PROJECT WIDE
Completed Sub Area Name:	Not reported
Completed Document Type:	Remedial Action Completion Report
Completed Date:	01/08/2021
Comments:	Based on the information presented in the Final Remedial Implementation Report, DTSC concludes that Emery Station West LLC has installed the vapor intrusion mitigation system pursuant to (a) 2011 Remedial Design and Implementation Plan, (b) December 12, 2014 Sub-Slab Vapor Mitigation System Design Report, (c) February 1, 2016 Revised Sub-Slab Vapor Mitigation System Design Report, and (d) January 2017 Sub-Slab Vapor Mitigation System Modification in Hallway Area.
Completed Area Name:	PROJECT WIDE
Completed Sub Area Name:	Not reported
Completed Document Type:	Operation and Maintenance Plan
Completed Date:	02/27/2020
Comments:	The Operation and Maintenance Plan provides a framework for management of residual chemicals in soil, soil vapor, and groundwater at the site. This plan includes operation and maintenance protocols for the cap, sub-slab vapor mitigation system, and the groundwater monitoring wells.
Completed Area Name:	PROJECT WIDE
Completed Sub Area Name:	Not reported
Completed Document Type:	Remedial Design - Preliminary/Intermediate
Completed Date:	02/25/2010
Comments:	DTSC approved the "Workplan to Perform Analytical Groundwater Profiling and Injecting Testing" (Workplan). CBS proposes (a) total

EMERYVILLE MOUND PARCEL (Continued) **S116165219**

volatile organic compounds profiling to select in-situ groundwater treatment locations and (b) field testing to determine the appropriate injection rate for oxygen release compound.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Design/Implementation Workplan
Completed Date: 10/12/2010
Comments: On 10/12/10, DTSC approved the Volatile Organic Compound Mitigation Workplan for in-situ treatment of volatile organic compounds (VOC) at the subject site. CBS plans to inject chemical at specified locations to treat VOC-impacted groundwater before excavation commences.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Remedial Design - Preliminary/Intermediate
Completed Date: 09/09/2009
Comments: U.S. EPA approved the Workplan to Perform Pre-Excavation Soil Sampling for PCB Congeners on 9/9/09. The workplan proposes subsurface soil PCB congener data to be used in developing risk-based action levels for airborne dust generated during construction.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Remedial Design - Preliminary/Intermediate
Completed Date: 11/18/2009
Comments: During a conference call on 11/10/09, Mr. Stephen F. Tyahla of U.S. EPA agreed that further sampling or analysis of PCB dioxin-like congeners is not technically feasible or warranted. It was agreed that the PCB aroclor results collected during this investigation along with existing site data will be used to assist in developing risk-based action levels for airborne dust generated during construction activities.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Remedial Investigation Workplan
Completed Date: 03/19/2009
Comments: The Work Plan proposes collection and analysis of groundwater samples from 12 existing wells for volatile organic compounds. The results will be used to supplement available data in the human health risk assessment.

Future Area Name: PROJECT WIDE
Future Sub Area Name: Not reported
Future Document Type: 5 Year Review Reports
Future Due Date: 2022
Schedule Area Name: PROJECT WIDE

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 07/29/2021

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Lists of Federal Delisted NPL sites

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

Lists of Federal RCRA TSD facilities

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Lists of state- and tribal hazardous waste facilities

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites
Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing
A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)
The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

WASTEWATER PITS: Oil Wastewater Pits Listing
Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water boards review found that more than one-third of the region's active disposal pits are operating without permission.

WDR: Waste Discharge Requirements Listing

In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data
Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

Elevation:	46 ft. above sea level

USGS TOPOGRAPHIC MAP

Target Property Map:	12016465 OAKLAND WEST, CA
Version Date:	2018

EDR’s GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

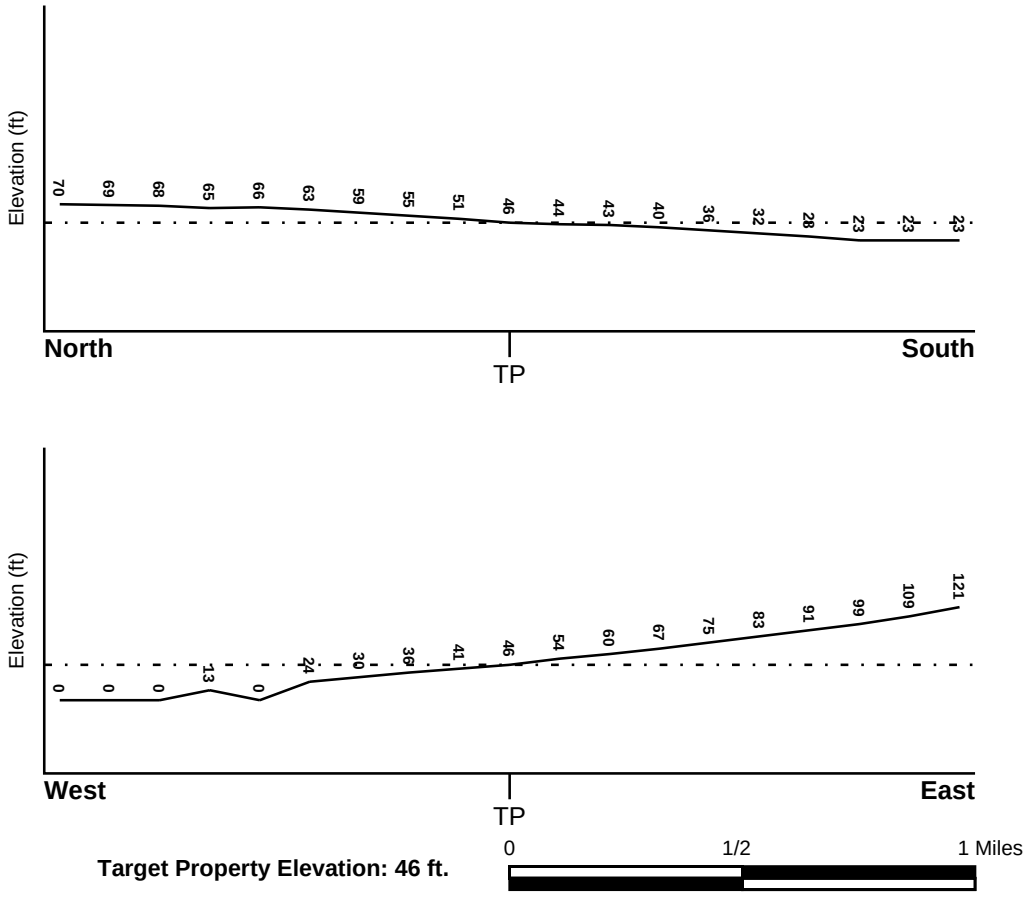
1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).



TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General WSW

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Target Property Elevation: 46 ft.

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Status:	Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: Urban land

Soil Surface Texture:
Hydrologic Group: Not reported

Soil Drainage Class:
Hydric Status: Partially hydric

Corrosion Potential - Uncoated Steel: Not Reported

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 153 inches

No Layer Information available.

Soil Map ID: 2

Soil Component Name: Urban land

Soil Surface Texture:
Hydrologic Group: Not reported

Soil Drainage Class:
Hydric Status: Partially hydric

Corrosion Potential - Uncoated Steel: Not Reported

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

No Layer Information available.

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map
Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.
Source: FEMA
Telephone: 877-336-2627
Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory
Source: Department of Fish and Wildlife
Telephone: 916-445-0411

HYDROGEOLOGIC INFORMATION

AQUIFLOW^{R} Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

OTHER STATE DATABASE INFORMATION

Groundwater Ambient Monitoring & Assessment Program
State Water Resources Control Board
Telephone: 916-341-5577
The GAMA Program is Californias comprehensive groundwater quality monitoring program. GAMA collects data by testing the untreated, raw water in different types of wells for naturally-occurring and man-made chemicals. The GAMA data includes Domestic, Monitoring and Municipal well types from the following sources, Department of Water Resources, Department of Heath Services, EDF, Agricultural Lands, Lawrence Livermore National Laboratory, Department of Pesticide Regulation, United States Geological Survey, Groundwater Ambient Monitoring and Assessment Program and Local Groundwater Projects.

Water Well Database
Source: Department of Water Resources
Telephone: 916-651-9648

California Drinking Water Quality Database
Source: Department of Public Health
Telephone: 916-324-2319
The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

California Oil and Gas Well Locations
Source: Dept of Conservation, Geologic Energy Management Division
Telephone: 916-323-1779
Oil and Gas well locations in the state.

California Earthquake Fault Lines
Source: California Division of Mines and Geology
The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

RADON

State Database: CA Radon
Source: Department of Public Health
Telephone: 916-210-8558
Radon Database for California

PHYSICAL SETTING SOURCE RECORDS SEARCHED

Area Radon Information
Source: USGS
Telephone: 703-356-4020
The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones
Source: EPA
Telephone: 703-356-4020
Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

EDR Environmental Lien and AUL Search

The EDR Environmental Lien and AUL Search Report provides results from a search of available current land title records for environmental cleanup liens and other activity and use limitations, such as engineering controls and institutional controls.

A network of professional, trained researchers, following established procedures, uses client supplied address information to:

- search for parcel information and/or legal description;
- search for ownership information;
- research official land title documents recorded at jurisdictional agencies such as recorders' offices, registries of deeds, county clerks' offices, etc.;
- access a copy of the deed;
- search for environmental encumbering instrument(s) associated with the deed;
- provide a copy of any environmental encumbrance(s) based upon a review of key words in the instrument(s) (title, parties involved, and description); and
- provide a copy of the deed or cite documents reviewed.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

Grant Deed

The undersigned Grantor declares under penalty of perjury that the following is true and correct:

THIS TRANSACTION IS NOT PURSUANT TO A SALE.

THIS TRANSFER IS NOT A CHANGE IN OWNERSHIP because the transfer of property is between legal entities that results solely in a change in the method of holding title to the real property and the proportional ownership interests of the grantors and the limited liability company, in the real property transferred, remains the same after the transfer. CAL. REV. & TAX. CODE § 62a(2).

DOCUMENTARY TRANSFER TAX IS NONE because this deed transfer property from the grantors to a limited liability company with identical ownership interests, and their proportional interest remains the same immediately after transfer. The transfer is exempt pursuant to CAL. REV. & TAX. CODE § 11925

GRANTORS: Rosaleen C. Kelly and Kevin J. Kelly, as Co-Trustees of The James P. Kelly and Rosaleen C. Kelly Trust dated November 12, 1991, as amended on August 27, 2016,

hereby **GRANT** to CORK-MAYO INVESTMENTS, LLC, a California Limited Liability Company,

all that certain real property situated in the City of Berkeley, County of Alameda, California:

SEE EXHIBIT "A" ATTACHED HERETO AND BY THIS REFERENCE MADE A PART HEREOF FOR LEGAL DESCRIPTION

Grant Deed

The undersigned Grantor declares under penalty of perjury that the following is true and correct:

THIS TRANSACTION IS NOT PURSUANT TO A SALE.

THIS TRANSFER IS NOT A CHANGE IN OWNERSHIP because the transfer of property is between legal entities that results solely in a change in the method of holding title to the real property and the proportional ownership interests of the grantors and the limited liability company, in the real property transferred, remains the same after the transfer. CAL. REV. & TAX. CODE § 62a(2).

DOCUMENTARY TRANSFER TAX IS NONE because this deed transfer property from the grantors to a limited liability company with identical ownership interests, and their proportional interest remains the same immediately after transfer. The transfer is exempt pursuant to CAL. REV. & TAX. CODE § 11925

GRANTORS: Rosaleen C. Kelly and Kevin J. Kelly, as Co-Trustees of The James P. Kelly and Rosaleen C. Kelly Trust dated November 12, 1991, as amended on August 27, 2016,

hereby **GRANT** to CORK-MAYO INVESTMENTS, LLC, a California Limited Liability Company,

USE PERMIT

APPLICATION

orders by Nov 3 June

Not display outside fence hedge tape on outside fence Stain or paint fence remove vine from fence or screen no outdoor display except plant material

TO THE BOARD OF ADJUSTMENTS OF THE PLANNING COMMISSION OF THE CITY OF BERKELEY:

The undersigned hereby applies for a USE PERMIT in accordance with Chapter 20 of Ordinance No. 3018 N.S., the Zoning Ordinance of the City of Berkeley and submits the following for your consideration:

1. That Holliday is the owner of certain real property located in the City of Berkeley, State of California, and more particularly described as follows:
2820 San Pablo Ave. Two story house & garage
on lot 50 ft by 134 ft.

2. That said real property is now located in a C-1 District.

3. That the applicant desires a Use Permit to allow the establishment of the following property use:
Nursery named "Pacific Gardens"
sec 9.1(C)

4. That the following statements and evidence are submitted to show why the Use Permit should be issued: (Attach plans, sketches, exhibits, etc., as may be necessary.)
To buy & sell nursery stock.

I hereby state that I am the applicant of this application; that owner of the property hereby approves this application and that the foregoing statements and answers herein made and all data, information and evidence herewith submitted is in all respects, to the best of my knowledge and belief, true and correct.

NOTES:
(1) Calculations were performed by the HASS 7.2 computer program under license no. 16060612 granted by
HRS Systems, Inc.
4792 LaVista Road
Tucker, GA 30084

(2) The system has been calculated to provide an average imbalance at each node of 0.003 gpm and a maximum imbalance at any node of 0.062 gpm.

(3) Velocity pressures are printed for information only and are not used in balancing the system. Maximum water velocity is 21.3 ft/sec at pipe 12.

WATER SUPPLY ANALYSIS

Static: 85.00 psi Resid: 82.00 psi Flow: 1404.0 gpm

OCT-24-2000 15:07 FROM EAST BAY MUNI UTILTY DIST TO 919256910742 P.01

EAST BAY
MUNICIPAL UTILITY DISTRICT

Date: 10/24/00

Dear: DAN

Company Name: MARKQUEE F/P FAX Number: (925)691-0742

Address Requested: 2817 10TH STREET

City: BERKELEY

SUBJECT: *Water Flow Data*

This is to confirm the EBMUD water flow data you requested.
The data provided was as follows:

DATE OF TEST 11/4/1936 SIZE, TYPE MAIN SERVICING TEST HYDRANT 6"A 52

TEST HYDRANT NO. 1679 LOCATION S/W CORNER OF 9TH STREET & GRAYSON STREET

STATIC PRESSURE 85 psi PITOT 70 psi GPM 1404

SECONDARY READING TEST LOCATION HOSE BIB @ 1004 GRAYSON STREET

STATIC 86 psi RESIDUAL 82 psi

Please note that the information above is provided as a courtesy and is based on a flow test through a 2-1/2" orifice, representing a set of specific distribution system conditions existing at the time of the test. These conditions are subject to continuous change and may not be conservative enough for fire protection system design.

Please use this hydrant flow information as a guideline of the approximate availability of flow. You should take into account any difference in elevation and any changes in pipeline size/condition between the hydrant (point of flow test information) and the service connection for the fire service.

If this flow information is not sufficient for your purposes, please contact the System Water Quality Section at (510) 287-1122.

Very truly yours,

Jeff Knipe

APPROVED TEMPERATURES

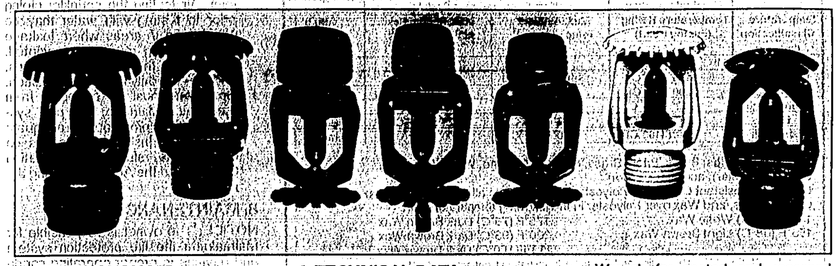
A - 135°F (57°C), 155°F (68°C), 175°F (79°C), 200°F (93°C), 286°F (141°C), 360°F (182°C)

B - 135°F (57°C), 155°F (68°C), 175°F (79°C), 200°F (93°C)

C - 155°F (68°C), 200°F (93°C), 286°F (141°C)

D - 286°F (141°C)

E - 135°F (57°C), 155°F (68°C), 175°F (79°C), 200°F (93°C) 212°F (100°C)



APPROVED FINISHES

1 - Brass, Bright Brass and Chrome.
2 - Brass, Bright Brass, Chrome White Polyester[8], and Black Polyester[8].
3 - Brass, Bright Brass, Chrome, Black Teflon®[8], White Polyester[8], and Black Polyester[8].
4 - Wax Coated Brass and Wax over Polyester. Corrosion Resistant.
5 - Wax Coated Brass. (For corrosion resistance).
6 - Wax Coated Brass, and White Polyester.
7 - 200°F (93°C) Wax coating. (For corrosion resistance.) Max. ambient temp. at ceiling = 150°F (65°C).

FOOTNOTES

[1] Base part number shown. For complete part number, see price list.
[2] This Chart shows the listings and approvals available at the time of printing. Other approvals are in process. Check with the manufacturer for any additional approvals.
[3] Approved by the New York City Board of Standards and Appeals under Calendar Number 219-76-SA.
[4] The sprinkler frame is identified with the nominal orifice size and the deflector has a protruding pintle. The sprinkler orifice is bushed.
[5] The sprinkler frame is identified with the nominal orifice size and the deflector has a protruding pintle.
[6] Refer to Sprinkler Accessories for approved escutcheons and other accessories.
[7] UL, ULC, FM, NYC approval indicated above is limited to light hazard, hydraulically calculated systems.
[8] UL, ULC & NYC approved as corrosion resistant sprinkler.
[9] E-1 Recessed Escutcheons and F-1 Adjustable Escutcheons must be ordered separately.
[10] FM approval of Recessed Standard Orifice and Large Orifice Model M Pendent Sprinklers with the E-1 Escutcheon is limited to Wet Systems and Preaction Systems qualifying as Wet Systems, for hazard occupancies up to and including Ordinary Group II.
FM approval of recessed Small Orifice Model M Pendent Sprinklers installed with the E-1 Escutcheon is limited to Wet Systems and Preaction Systems qualifying as Wet Systems, for Light Hazard Occupancies only.
[11] Metric K Factor shown is for use when pressure is measured in kPa. When pressure is measured in BAR, multiply the metric K Factor shown by 10.0.

VIKING® TECHNICAL DATA — MICROMATIC® SPRINKLER MODEL M

1. PRODUCT NAME
Viking Model "M"
Micromatic® Sprinkler
Style: Upright, Pendent and Conventional

2. MANUFACTURER
THE VIKING CORPORATION
210 N. Industrial Park Road
Hastings, Michigan 49058 U.S.A.
Telephone: (616) 945-9501
(800) 968-9501
Fax Number: (616) 945-9599
From outside U.S.A.
Telephone: +1 (616) 945-9501
Fax Number: +1 (616) 945-9599

3. PRODUCT DESCRIPTION
The Viking Micromatic® Sprinkler is a small, thermosensitive glass-bulb spray sprinkler. The sprinkler is available in several styles, finishes, temperature ratings and orifice sizes to meet design requirements. The small frame and rugged 8mm glass-bulb provide a pleasing aesthetic appearance. Used in conjunction with one of the various corrosion resistant coatings the unit provides protection against many corrosive environments. In addition, the special polyester or Teflon® coatings can also be used in decorative applications where the colors are desired.
During fire conditions, the heat sensitive liquid in the glass-bulb expands, causing the bulb to shatter, releasing the pip cap and sealing spring assembly. Water flowing through the sprinkler orifice strikes the sprinkler deflector forming a uniform spray pattern to extinguish or control the fire.
The sprinklers may be ordered and/or used as open sprinklers (glass-bulb and pip cap assembly removed) on deluge systems.

4. TECHNICAL DATA
See Charts (pages 13c and 13d) for list of approvals.
Maximum area of coverage: 130 sq. ft. (12 sq. meters) per sprinkler
Maximum spacing: 15 feet (4,57m)
Minimum spacing: 6 feet (1,8m)
Minimum operating pressure: 7 PSI (48,3 kPa)
Glass Bulb Fluid Temperature rated to -65°F (-55°C)
Rated 175 PSI (1 207 kPa) water working pressure
Factory tested hydrostatically to 500 PSI (3 448 kPa)
Materials:
Frame - Brass castings UNS-C84400
Deflector - Brass UNS-C26000
Bulb-Glass with Glycerin solution
Nominal 8mm diameter
Bushing-Brass UNS-C36000
Seal-Teflon® Tape
Spring-Nickel Alloy
Screw-Brass UNS-C36000
Pip Cap - Copper UNS - C11000
Teflon® Sprinklers:
Spring: Nickel Alloy; Exposed
Pintle Screw: Brass UNS-C36000
Tin plated, painted black for appearance only
Pip Cap: Copper UNS-C11000
Teflon® coated
Polyester Sprinklers:
Spring: Nickel Alloy; Exposed
Screw: Brass UNS-C36000
Tin plated, painted white for appearance only
Pip Cap-Copper UNS-C11000
Tin Plated
Accessories:
Sprinkler Wrench
Standard Micromatic wrench:
PN 05000CM
Wrench for coated and recessed sprinklers:
PN 07393W
Refer to "Sprinkler Accessories" for other accessories
Available Finishes:
Chrome, Brass, Bright Brass, White Polyester, Black Polyester, Black Teflon® or Wax Coated Brass or Polyester.

5. AVAILABILITY AND SERVICE
Viking sprinklers are available through a network of Domestic, Canadian, and International Distributors, see the Yellow Pages of the telephone directory (listed under "Sprinklers Automatic Fire") or write to The Viking Corporation.

6. GUARANTEES
Viking agrees to repair or replace goods found to be defective in material and workmanship for a period of one year from the date of shipment. For details of warranty, refer to price list.

7. INSTALLATION
WARNING: Viking sprinklers are manufactured and tested to meet the rigid requirements of the approving agency. The sprinklers are designed to be installed in accordance with recognized installation standards. Deviation from the standards or any alteration to the sprinkler after it leaves the factory including, but not limited to, painting, plating, coating or modification, may render the sprinkler inoperative and will automatically nullify the approval and any guarantee made by The Viking Corporation.
A. Sprinklers are to be installed in accordance with the latest published standards of the National Fire Protection Association, Factory Mutual, Loss Prevention Council, Assemblee

VIKING® TECHNICAL DATA — MICROMATIC® SPRINKLER MODEL M

Sprinkler Temperature Classification	Nominal Sprinkler Temperature Rating (Fusing Point)	Ceiling Temperature at Sprinkler: Max. Ambient Temp. Allowed[1]	Ceiling Temperature at Sprinkler: Max. Recommend. Ambient Temp.[2]	Bulb Color[3]
Ordinary	135°F(57°C)	115°F(46°C)	100°F(38°C)	Orange
Ordinary	155°F(68°C)	135°F(57°C)	100°F(38°C)	Red
Intermediate	175°F(79°C)	155°F(68°C)	150°F(65°C)	Yellow
Intermediate	200°F(93°C)	180°F(82°C)	150°F(65°C)	Green
Intermediate	212°F(100°C)	192°F(89°C)	150°F(65°C)	Green
High	286°F(141°C)	266°F(130°C)	225°F(107°C)	Blue
Extra High	360°F(182°C)	340°F(171°C)	300°F(149°C)	Mauve

Sprinkler Finishes: Brass, Bright Brass, Polished Chrome, White (Polyester), Black (Polyester), and Black Teflon®

Corrosion Resistant Coatings[4]: Polyester and Teflon® in all temperatures, Wax Coated brass, and Wax over Polyester in the following temperatures:

135°F (57°C) White Wax. 175°F (79°C) Dark Brown Wax
155°F (68°C) Light Brown Wax 200°F (93°C) Dark Brown Wax
212°F(100°C) Dark Brown Wax

[1] Based on National Fire Prevention and Control Administration Contract No. 7-34860.
[2] Based on NFPA-13. Other limits may apply depending on fire loading, sprinkler location and other authority having jurisdiction requirements. Refer to specific installation standards.
[3] Temperature rating is stamped on deflector.
[4] The Corrosion Resistant Coatings have passed the standard corrosion test required by the listed approving agencies. These tests cannot and do not represent all possible corrosive environments. Prior to installing, verify through the end user, that the coatings are compatible or suitable for the proposed environment. The coatings indicated are applied to the exposed exterior surfaces only and therefore cannot be used as open sprinklers. Note that the spring is exposed on the Teflon® coated sprinkler and the White Polyester sprinkler.

Pleniere, Verband der Sachversicherer, or other similar organizations and also with the provisions of governmental codes, ordinances and standards whenever applicable.

B. Sprinklers must be handled with care. They must be stored in a cool, dry place in their original shipping container. Never install sprinklers that have been dropped, damaged or exposed to temperatures in excess of the maximum ambient temperature allowed. Never install any glass bulb sprinkler if the bulb is cracked or if there is a loss of liquid from the bulb. (These sprinklers should be destroyed immediately.) With the 8mm glass bulb sprinkler held horizontal, a small air bubble should be present. The diameter of the air bubble varies from approximately 1/16 inch for the 135°F (57°C) rating to 1/8 inch for the 286°F (141°C) rating and is approximately 3/16 inch diameter for the 360°F (182°C)rating.
C. Corrosion resistant sprinklers must be installed when subject to corrosive atmospheres. When installing corrosion resistant sprinklers, care must be taken not to damage the corrosion resistant coating. Use only the special sprinkler wrench and immediately replace any damaged units.
D. The sprinklers must be installed after the piping is in place to prevent mechanical damage. Before installing, make sure the appropriate model, style, orifice size and temperature rating is used, as follows:
   1. Install escutcheon, (if used) which is designed to thread on to the external threads of the sprinkler. Refer to "Sprinkler Accessories" for approved escutcheons and other accessories.
   2. Apply a small amount of pipe joint compound or tape to the external threads only, taking care not to allow a build up of compound in the sprinkler orifice.
   3. Install the sprinkler on the piping using the special sprinkler wrench only, while taking care not to damage the sprinkler operating parts. (Any other type of wrench may damage the unit.) DO NOT use the sprinkler deflector to start or thread the sprinkler into a fitting.
E. After installation, the entire sprinkler system must be tested in accordance with the recognized[2] installation standards. The test is applied after the sprinkler installation to insure no damage has occurred to the sprinkler during shipping and installation, and to make sure the unit has been properly tightened. If a thread leak should occur, normally the sprinkler must be removed, new pipe joint compound or tape applied, and reinstalled. This is due to the fact that when the joint seal is damaged, the sealing compound or tape is washed out of the joint. Air testing the sprinkler piping prior to testing with water may be considered in areas where leakage during testing must be prevented. Refer to the Installation Guides, and the Authority Having Jurisdiction.
F. Sprinklers must be protected from mechanical damage. Wet pipe systems must be provided with adequate heat. When installing sprinklers on dry systems, refer to the Installation Guides, and the Authority Having Jurisdiction.

8. MAINTENANCE

NOTICE: The owner is responsible for maintaining the fire protection system and devices in proper operating condition. For minimum maintenance and inspection requirements, refer to the National Fire Protection Association Pamphlet that describes care and maintenance of sprinkler systems. In addition, the "Authority Having Jurisdiction" may have additional maintenance, testing and inspection requirements which must be followed.

A. The Sprinklers must be inspected on a regular basis for corrosion, mechanical damage, obstructions, paint, etc. The frequency of the inspections may vary due to corrosive atmospheres, water supplies and activity around the device.
B. Sprinklers that have been painted or mechanically damaged must be replaced immediately. Sprinklers showing signs of corrosion shall be tested and/or replaced immediately as required. Micromatic® Model M Sprinklers that are 50 years old shall be tested and/or replaced as required. Sprinklers that have operated cannot be reassembled or reused, but must be replaced. When replacing sprinklers, use only new sprinklers.
C. The sprinkler discharge pattern is critical for proper fire protection, therefore, nothing should be hung from, attached to, or otherwise obstruct the discharge pattern. All obstructions must be immediately removed or, if necessary, additional sprinklers installed.
D. When replacing existing sprinklers, the system must be removed from service. Refer to the appropriate system description and/or valve instructions. Prior to removing the system from service, notify all Authorities Having Jurisdiction. Consideration should be given to employment of a fire patrol in the affected area.

VIKING® TECHNICAL DATA — MICROMATIC® SPRINKLER MODEL M

1. Remove the system from service, draining all water and relieving all pressure on the piping.
2. Using the special sprinkler wrench, remove the old sprinkler and install the new unit. Care must be taken to replace the sprinkler with the proper model, style, orifice size and temperature rating. A fully stocked spare sprinkler cabinet should be provided for this purpose.
3. Place the system back in service and secure all valves. Check and repair all leaks.

E. Sprinkler systems that have been subjected to a fire must be returned to service as soon as possible. The entire system must be inspected for damage and repaired or replaced as necessary. Sprinklers that have been exposed to corrosive products of combustion or high ambient temperatures, but have not operated, should be replaced. Refer to the Authority Having Jurisdiction for minimum replacement requirements.

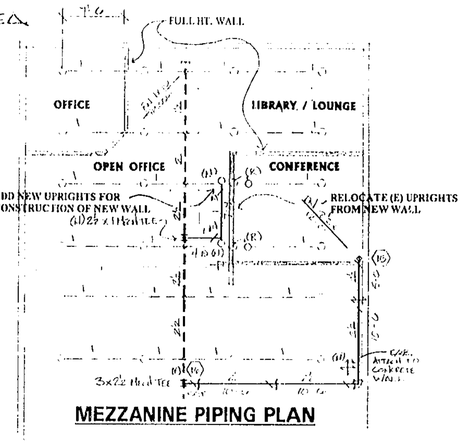
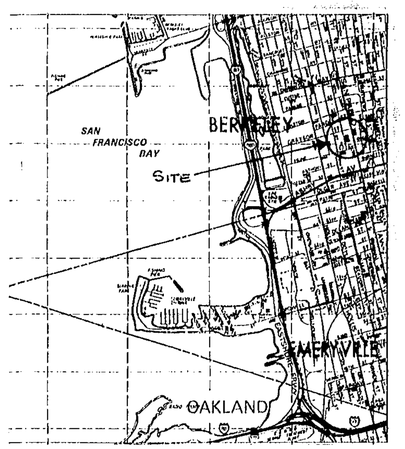
APPROVED FINISHES

1 - Brass, Bright Brass and Chrome.
2 - Brass, Bright Brass, Chrome White Polyester[B], and Black Polyester[C].
3 - Brass, Bright Brass, Chrome, Black Teflon®[B], White Polyester[B], and Black Polyester[B].
4 - Wax Coated Brass and Wax over Polyester. Corrosion Resistant.
5 - Wax Coated Brass. (For corrosion resistance).
6 - Wax Coated Brass, and White Polyester.
7 - 200°F (93°C) Wax coating. (For corrosion resistance.) Max. ambient temp. at ceiling = 150°F (65°C).



FOOTNOTES

[1] Base part number shown. For complete part number, see price list.
[2] This Chart shows the listings and approvals available at the time of printing. Other approvals are in process. Check with the manufacturer for any additional approvals.
[3] Approved by the New York City Board of Standards and Appeals under Calendar Number 219-76-SA.
[4] The sprinkler frame is identified with the nominal orifice size and the deflector has a protruding pintle. The sprinkler orifice is bushed.
[5] The sprinkler frame is identified with the nominal orifice size and the deflector has a protruding pintle.
[6] Refer to Sprinkler Accessories for approved escutcheons and other accessories.
[7] UL, ULC, FM, NYC approval indicated above is limited to light hazard, hydraulically calculated systems.
[8] UL, ULC & NYC approved as corrosion resistant sprinkler.
[9] Metric K Factor shown is for use when pressure is measured in kPa. When pressure is measured in BAR, multiply the metric K Factor shown by 10.0.



For listings and approvals for Recessed Pendent installations, see chart on page 13 d.

GENERAL INFORMATION

DATE OF PLANS | BUILDING CONDITIONED FLOOR AREA

BUILDING TYPE ☒ NONRESIDENTIAL ☐ HIGH RISE RESIDENTIAL ☐ HOTEL/MOTEL GUEST ROOM

PHASE OF CONSTRUCTION ☐ NEW CONSTRUCTION ☐ ADDITION ☒ ALTERATION ☐ UNCONDITIONED (file affidavit)

METHOD OF MECHANICAL COMPLIANCE ☒ PRESCRIPTIVE ☐ PERFORMANCE

PROOF OF ENVELOPE COMPLIANCE ☒ PREVIOUS ENVELOPE PERMIT ☐ ENVELOPE COMPLIANCE ATTACHED

STATEMENT OF COMPLIANCE

This Certificate of Compliance lists the building features and performance specifications need to comply with Title 24, Parts 1 and 6 of the California Code of Regulations. This certificate applies only to building mechanical requirements.

The documentation preparer hereby certifies that the documentation is accurate and complete.

DOCUMENTATION AUTHOR	SIGNATURE	DATE
LARRY CHU	Larry Chu	8/22/00

The Principal Mechanical Designer hereby certifies that the proposed building design represented in this set of construction documents is consistent with the other compliance forms and worksheets, with the specifications, and with any other calculations submitted with this permit application. The proposed building has been designed to meet the mechanical requirements contained in the applicable parts of Sections 110 through 115, 120 through 124, 140 through 142, 144 and 145.

Please check one:

☒ I hereby affirm that I am eligible under the provisions of Division 3 of the Business and Professions Code to sign this document as the person responsible for it's preparation; and that I am licensed in the State of California as a civil engineer or mechanical engineer, or I am a licensed architect.

☐ I affirm that I am eligible under the exemption to Division 3 of the Business and Professions Code by Section 5537.2 or 6737.3 to sign this document as the person responsible for its preparation; and that I am a licensed contractor performing this work.

☐ I affirm that I am eligible under the exemption to Division 3 of the Business and Professions Code to sign this document because it pertains to a structure or type of work described pursuant to Business and Professions Code sections 5537, 5538, and 6737.1.

(These sections of the Business and Professions Code are printed in full in the Nonresidential Manual.)

INSTRUCTIONS TO APPLICANT

For Detailed instructions on the use of this and all Energy Efficiency Standards compliance forms, please refer to the Nonresidential Manual published by the California Energy Commission.
MECH-1: Required on plans for all submittals. Part 2 may be incorporated in schedules on plans.
MECH-2: Required for all submittals, but may be incorporated in schedules on plans.
MECH-3: Required for all submittals unless required ventilation rates and airflows are shown on plans, See 4.3.4.
MECH-4: Required for all prescriptive submittals.

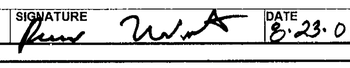
STATEMENT OF COMPLIANCE

This Certificate of Compliance lists the building features and performance specifications needed to comply with Title 24, Parts 1 and 6 of the California Code of Regulations. This certificate applies only to building lighting requirements.

The documentation preparer hereby certifies that the documentation is accurate and complete.

DOCUMENTATION AUTHOR	**SIGNATURE**	**DATE**
John Britton AIA, CABEC		8.21.00



The Principal Lighting Designer hereby certifies that the proposed building design represented in this set of construction documents is consistent with the other compliance forms and worksheets, with the specifications, and with any other calculations submitted with this permit application. The proposed building has been designed to meet the lighting requirements contained in Sections 110, 119, 130 through 132, and 146 or 149 of Title 24, Part 6.

Please check one:

[ ] I hereby affirm that I am eligible under the provisions of Division 3 of the Business and Professions Code to sign this document as the person responsible for its preparation; and that I am licensed in the State of California as a civil engineer or electrical engineer, or I am a licensed architect.

[ ] I affirm that I am eligible under the provisions of Division 3 of the Business and Professions Code by Section 5537.2 or 6737.3 to sign this document as the person responsible for its preparation; and that I am a licensed contractor performing this work.

[ ] I affirm that I am eligible under the exemption to Division 3 of the Business and Professions Code to sign this document because it pertains to a structure or type of work described as exempt pursuant to Business and Professions Code Sections 5537, 5538 and 6737.1.

LIGHTING MANDATORY MEASURES

Indicate location on plans of Note Block for Mandatory Measures: A-8

INSTRUCTIONS TO APPLICANT

For detailed instructions on the use of this and all Energy Efficiency Standards compliance forms, please refer to the Nonresidential Manual published by the California Energy Commission.

LTG-1: Required on plans for all submittals. Part 2 may be incorporated in schedules on plans.
LTG-2: Required on all submittals.
LTG-3: Optional. Use only if lighting control credits are taken.
LTG-4: Optional. Use only if Tailored method is used.
LTG-5: Optional. Use only if Tailored method is used.

LIGHTING MANDATORY MEASURES — LTG-MM

PROJECT NAME	DATE
Moyer Sound / Lighting Improvements	8/21/00

	DESCRIPTION	Designer	Enforcement
[X]	§ 131(d)1 Building Lighting Shut-off: The building lighting shut-off system consists of an automatic time switch, with a zone for each floor; or the building is separately metered and less than 5,000 square feet; exempt from the shut-off requirement.		
[ ]	§ 131(d)2 Override for Building Lighting Shut-off: The automatic building shut-off system is provided with a manual, accessible override switch in sight of the lights. The area of override is not to exceed 5,000 square feet.		
[ ]	§ 119(h) Automatic Control Devices Certified: All automatic control devices specified are certified, all alternate equipment shall be certified and installed as directed by the manufacturer.		
[X]	Fluorescent Ballast and Luminaires Certified: All fluorescent fixtures specified for the project are certified and listed in the Directory. All installed fixtures shall be certified.		
[ ]	§ 132 Tandem Wiring for One and Three Lamp Fluorescent Fixtures: All one and three lamp fluorescent fixtures are tandem wired with two lamp ballasts where required by Standards Section 132; or all three lamp fluorescent fixtures are specified with electronic high-frequency ballasts and are exempt from tandem wiring requirements.		
[X]	§ 131(a) Individual Room/Area Controls: Each room and area in this building is equipped with a separate switch or occupancy sensor device for each area with floor-to-ceiling walls.		
[X]	§ 131(b) Uniform Reduction for Individual Rooms: All rooms and areas greater than 100 square feet and more than 1.0 watts per square foot of lighting load shall be controlled with bi-level switching for uniform reduction of lighting within the room.		
[X]	§ 131(c) Daylight Area Control: All rooms with windows and skylights that are greater than 250 square feet and that allow for the effective use of daylight in the area shall have 50% of the lamps in each daylit area controlled by a separate switch; or the effective use of daylight cannot be accomplished because the windows are continuously shaded by a building on the adjacent lot. Diagram of shading during different times of the year is included on plans.		
[ ]	§ 131(f) Control of Exterior Lights: Exterior mounted fixtures served from the electrical panel inside the building are controlled with a directional photo cell control on the roof and a corresponding relay in the electrical panel.		
[ ]	§ 131(e) Display Lighting. Display lighting shall be separately switched on circuits that are 20 amps or less.

BUILDING PERMIT APPLICATION
(For FAX or Mail In Only)

CONTRACTOR LICENSE LAW

I declare under penalty of perjury (check one):

___ I am licensed under provisions of Chapter 9 Division 3 of the Business and Professions Code and my license is in full effect. License No._____, Classification_____ Contractor Name_____ Date_____

___ I, as the owner, or my employees with wages as sole compensation, will do the work, and the structure is not intended or offered for sale.

___ I, as the owner, am exclusively contracting with licensed contractors.

___ I am exempt under Sec. _____, B and P Code because _____

WORKER'S COMPENSATION INSURANCE

I declare under penalty of perjury (check one):

___ The permit is for $100.00 (valuation) or less.

___ *I have and will maintain a certificate of consent to self-insure for workers' compensation.

___ *I shall not employ any person in any manner so as to become subject to the workers compensation laws of California.

___ I have and will maintain worker's compensation insurance for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and policy number are, Carrier_____ Policy No._____

*WARNING: Failure to secure worker's compensation coverage is unlawful, and shall subject an employer to criminal penalties and civil fines up to one hundred thousand dollars ($100,000-), in addition to the cost of compensation, damages as provided for in Section 3706 of the Labor Code, interest, and attorney's fees.

CITY ORDINANCES (Ordinances available for viewing on request)

___ In conformance with the City of Berkeley Noise Ordinance, I understand my obligation to comply and work within prescribed hours.

___ I am aware of my responsibilities under the Relocation Ordinance.

___ I certify that I have read and shall use to the maximum extent practicable applicable portions of the state Storm water Best Management Practices Manual for construction.

CONSTRUCTION LENDING AGENCY

I hereby affirm that there is a construction lending agency for the performance of the work for which this permit is issued (Sec 3097, Civ. C.).
Lender's Name_____ Lender's Address_____

___ BUILDING & SAFETY- CERTIFICATE OF COMPLIANCE AND AUTHORIZATION OF ENTRY. I certify that I have read this application and state that the information given is correct. I agree to comply with all state laws and city ordinances relating to building construction and authorize a representative of the City of Berkeley , Building and Safety Division to enter upon the property for which I have applied for this permit for the purpose of making inspections.

___ PUBLIC WORKS - CERTIFICATE OF COMPLIANCE. I, HEREBY AGREE, to indemnify and hold harmless the City of Berkeley and its officers and employees from any and all claims arising from or out of work connected with this permit, to perform all work in accordance and compliance with BMC Title 16 and 17, as amended, specifications, detail plans and the Uniform Building Code of the City of Berkeley, all special provisions made a part of this permit, whether written or oral, and to the satisfaction of the Director of Public Works. I, furthermore agree to comply with all regulations and ordinances of the City of Berkeley.

Note: A permit applicant who files a signed document by facsimile transmission (fax) with the City of Berkeley Permit Service Center represents that the original signed document is in his or her possession or control. At any time after filing the document, the City may demand production of the original physically signed document. Notwithstanding any provision of the law to the contrary, the City of Berkeley will treat a signature produced by facsimile transmission as an orginal.

LARGER PRINT VERSION AVAILABLE UPON REQUEST

GENERAL NOTES

1. All work shall be done in compliance with all applicable codes, including but not limited to: 1997 California Building, Plumbing, Mechanical, Electrical Codes as amended by the city of Berkeley and 1998 Uniform Building Codes, National Electrical, Mechanical, Fire and Safety Codes, City, County, and State ordinances and regulations, California Title 24, Cal-OSHA and the State Safety Orders, the California Labor Code, and all other applicable and adopted codes governing construction. References to the above shall include additions, changes, amendments, and interpretations adopted by the enforcing agency, and in effect on the date of these Contract Documents. Nothing on the drawings or in written specifications shall be interpreted as requiring or permitting work that is contrary to theses rules, regulations, and codes.

2. The contractor shall review all plans and/or specifications before any work commences and/or fabricated and shall verify all dimensions and conditions shown on the drawings and to coordinate with the existing building conditions. Any variances and/or discrepancies that arise in the above review are to be reported to the Architect immediately for resolution. Written dimensions shall be followed in preference to scale, and detail drawings in preference to small scale drawings. The specifications and/or written notices and/or schedules on the drawings shall be followed in preference to the information furnished in the form of lines on the drawings. In the event of discrepancies between written information on the drawings and the information given in the specifications, the specifications shall govern.

3. The contractor shall verify all rough-in dimensions for the equipment provided in this contract or equipment provided by others. All dimensions noted "Verify in Field" are to be checked by contractor prior to commencement of construction and reported to the Architect.

SUMMARY OF WORK

Meyer Sound Laboratories, Inc. currently occupies the project site and performs light manufacturing and production of components for their speakers. Shipping, receiving, Inspection and testing are other activities that go on in the space. There are four support offices spread out among the other activities.

This project will centralize the offices above and below a new mezzanine at the rear of the right side building and add more workstations for associated engineering staff now located four doors down in another building on Tenth St.

In addition to the new mezzanine, accessible restrooms for each sex are being provided and the current lunchroom is being remodeled.

A mechanical ventilation system is being provided to condition the spaces along with an exhaust system that eliminates VOC's found in the manufacturing process.

Roof insulation and skylights are being added to improve natural lighting and conserve energy

Electrical upgrades to lighting and equipment, painting, floor repairs, and foam roofing are also included in the project.

TABLE 25-B-1—NAILING SCHEDULE

CONSTRUCTION	NAILS[a]
1. Joist to sill or girder, toenail	3-8d
2. Bridging to joist, toenail each end	2-8d
3. 1" x 6" (25 mm x 152 mm) subfloor or less to each joist, face nail	2-8d
4. Wider than 1" x 6" (25 mm x 152 mm) subfloor to each joist, face nail	3-8d
5. 2" (51 mm) subfloor to joist or girder, toenail and face nail	2-16d
6. Sole plate to joist or blocking, typical face nail Sole plate to joist or blocking, at braced wall panels	16d at 16" (406 mm) o.c. 3-16d per 24" (609 mm)
7. Top plate to stud, end nail	2-16d
8. Stud to sole plate	4-8d, toenail or 2-16d, end nail
9. Double studs, face nail	16d at 24" (610 mm) o.c.
10. Double top plates, typical face nail Double top plates, lap splice	16d at 16" (406 mm) o.c. 8-16d
11. Blocking between joists or rafters to top of 1" x 10" (25 mm x 254 mm) beam	3-16d
12. End joist to top plate, toe nail	4d at 6" (152 mm) o.c.
13. Top plate, laps and intersections, face nail	2-16d
14. Continuous header, two pieces	16d at 16" (406 mm) o.c. along each edge
15. Ceiling joists to plate, toenail	3-8d
16. Continuous header to stud, toenail	4-8d
17. Ceiling joists, laps over partitions, face nail	3-16d
18. Ceiling joists to parallel rafters, face nail	3-16d
19. Rafter to plate, toenail	3-8d
20. 1" (25 mm) brace to each stud and plate, face nail	2-8d
21. 1" x 8" (25 mm x 203 mm) sheathing or less to each bearing, face nail	2-8d
22. Wider than 1" x 8" (25 mm x 203 mm) sheathing to each bearing, face nail	3-8d
23. Built-up corner studs	16d at 24" (610 mm) o.c.
24. Built-up girder and beams	20d at 32" (813 mm) o.c. at top and bottom and staggered 2-20d at ends and at each splice
25. 1" (51 mm) planks	2-16d at each bearing
26. Wood structural panel and particleboard:[b] Subfloor and roof sheathing (at framing):[c] ⅜" (9.5 mm) and less[d] ½" (12.7 mm–15 mm) ⅝" (15.9 mm–18 mm) ¾" (19 mm–20 mm) Combination subfloor-underlayment (at framing):[c] ½" (12.7 mm) and less ⅝" (15.9 mm–18 mm) ¾" (19 mm–20 mm)	6d[e] 8d[e] 8d 10d[f] 8d[e] 8d 10d[f]
27. Panel siding (to framing):[g] ½" (12.7 mm) or less ⅝" (15 mm)	8d 8d
28. Fiberboard sheathing:[c] ½" (12.7 mm) ⅝" (16 mm)	No. 11 ga. 1½" long galvanized roofing nail, ⅞" head No. 10 ga. 1½" long galvanized roofing nail, ⅞" head No. 11 ga. 1¾" long galvanized roofing nail, ⅞" head No. 10 ga. 1¾" long galvanized roofing nail, ⅞" head
29. Interior paneling: ¼" (6.4 mm) ⅜" (9.5 mm)	6d[h] 4d[i]

[a] Common or box nails may be used except where otherwise stated.
[b] Nails spaced at 6 inches (152 mm) on center at edges, 12 inches (305 mm) at intermediate supports where spans are 48 inches (1219 mm) or less. For nailing of wood structural panel and particleboard used as a drywall and shear wall, refer to Sections 2211.9.3 and 2211.7. Nails spaced at 6 inches (152 mm) on center at edges, 12 inches (305 mm) at intermediate supports.
[c] Common or deformed shank.
[d] Subfloor sheathing may be used in lieu of combination subfloor underlayment.
[e] Minimum required siding or roofing nails conforming to the requirements of Section 2304.5.
[f] Common spiral 2 inches (76 mm) on center at exterior edges and 3 inches (152 mm) on center at intermediate supports.
[g] Panel siding to framing shall be with nails spaced at 6 inches (152 mm) on center along each stud. Shank diameter shall be at least the minimum required for 6d common nail [0.113 inch (2.9 mm)] and shall have sufficient penetration into framing to develop the required withdrawal resistance as specified in Section 2304.5.
[h] Hammer-driven finish nails with nominal ⅛ inch (11 mm) crown and 1½ inch (29 mm) length for ⅜ inch (9.5 mm) thickness and 1¾ inch (35 mm) length for ½ inch (12.7 mm) sheathing conforming to the requirements of Section 2304.5.
[i] Panel supports at 24 inches (610 mm) (studs) shall be permitted to be spaced 32 inches (813 mm) where the face grain is perpendicular to the supports. Casing or finish nails shall be long enough to penetrate supports at least 1½ inches (38 mm).

LIGHTING MANDATORY MEASURES — LTG-MM

PROJECT NAME: Meyer Sound / Lighting Improvements — DATE: 8/21/00

DESCRIPTION	Designer	Enforcement
[X] § 131(d) Building Lighting Shut-off: The building lighting shut-off system consists of an automatic time switch, with a zone for each floor; or the building is separately metered and less than 5,000 square feet; exempt from this shut-off requirement.		
[ ] § 131(d) Override for Building Lighting Shut-off: The automatic building shut-off system is provided with a manual, accessible override switch in sight of the lights. The area of override is not to exceed 5,000 square feet.		
[ ] § 119(h) Automatic Control Devices Certified: All automatic control devices specified as a certified, all alternate equipment shall be certified and installed as directed by the manufacturer.		
[X] Fluorescent Ballast and Luminaires Certified: All fluorescent fixtures specified for the project are certified and listed in the Directory. All installed fixtures shall be certified.		
[ ] § 132 Tandem Wiring for One and Three Lamp Fluorescent Fixtures: All one and three lamp fluorescent fixtures are tandem wired with two lamp ballasts where required by Standards Section 132; or all three lamp fluorescent fixtures are specified with electronic high-frequency ballasts and are exempt from tandem wiring requirements.		
[X] § 131(e) Individual Room/Area Controls: Each room and area in this building is equipped with a separate switch or occupancy sensor device for each area with floor-to-ceiling walls.		
[X] § 131(b) Uniform Reduction for Individual Rooms: All rooms and areas greater than 100 square feet and more than 1.0 watts per square foot of lighting load shall be controlled with bi-level switching for uniform reduction of lighting within the room.		
[X] § 131(c) Daylight Area Controls: All rooms with windows and skylights that are greater than 250 square feet and that allow for the effective use of daylight in the area shall have 60% of the lamps in each daylit area controlled by a separate switch; or the effective use of daylight cannot be accomplished because the windows are continuously shaded by a building on the adjacent lot. Diagram of shading during different times of the year is included on plans.		
[ ] § 131(f) Control of Exterior Lights: Exterior mounted fixtures served from the electrical panel inside the building are controlled with a directional photo cell control on the roof and a corresponding relay in the electrical panel.		
[ ] § 131(e) Display Lighting. Display lighting shall be separately switched on circuits that are 20 amps or less.

PHASE OF CONSTRUCTION: [ ] NEW CONSTRUCTION [ ] ADDITION [X] ALTERATION [ ] EXISTING + ADDITION

METHOD OF LIGHTING COMPLIANCE: [ ] COMPLETE BUILDING [X] AREA CATEGORY [ ] TAILORED [ ] PERFORMANCE

STATEMENT OF COMPLIANCE

This Certificate of Compliance lists the building features and performance specifications needed to comply with Title 24, Parts 1 and 6 of the California Code of Regulations. This certificate applies only to building lighting requirements.

The documentation preparer hereby certifies that the documentation is accurate and complete.

DOCUMENTATION AUTHOR: John Britton AIA, CABEC — SIGNATURE: [signature] — DATE: 8.21.00

The Principal Lighting Designer hereby certifies that the proposed building design represented in this set of construction documents is consistent with the other compliance forms and worksheets, with the specifications, and with any other calculations submitted with this permit application. The proposed building has been designed to meet the lighting requirements contained in Sections 110, 119, 130 through 132, and 146 or 149 of Title 24, Part 6.

Please check one:

[ ] I hereby affirm that I am eligible under the provisions of Division 3 of the Business and Professions Code to sign this document as the person responsible for its preparation; and that I am licensed in the State of California as a civil engineer or electrical engineer, or I am a licensed architect.

[ ] I affirm that I am eligible under the provisions of Division 3 of the Business and Professions Code by Section 6737.2 or 6737.3 to sign this document as the person responsible for its preparation; and that I am a licensed contractor performing this work.

[ ] I affirm that I am eligible under the exemption to Division 3 of the Business and Professions Code to sign this document because it pertains to a structure or type of work described as exempt pursuant to Business and Professions Code Sections 6537, 6538 and 6737.1.

Title 24 - MANDATORY MEASURES - HVAC

Piping, except those conveying fluids at temperatures between 60-F and 105-F, or within HVAC equipment, shall be insulated in accordance with Standards Section 123.

Air handling duct systems shall be constructed, installed, sealed and insulated as provided in Chapter 10 of the Universal Mechanical Code.

Each space-conditioning zone shall be controlled by an individual thermostatic control that responds to temperature within the zone. Where used to control heating, the control shall be adjustable down to 55-F or lower. For cooling, the control shall be adjustable up to 85-F or higher. Where used to control both heating and cooling, the control shall be capable of providing a dead band of at least 5-F within which the supply of heating and cooling is shut off or reduced to a minimum.

Thermostats shall have adjustable setpoint stops accessible only to authorized personnel.

All ventilation systems shall be documented per California Safety Code (Title 8, Section 5142(b)) to be providing the minimum required ventilation rate as determined using the following procedures:

Air Balancing: all space-conditioning and ventilation systems shall be balanced to the quantities specified in these plans, in accordance with the National Environmental Balancing Bureau (NEBB) Procedural Standards (1983), or Associated Air Balance Council (AABC) National Standards (1989).

NOTES:
(1) Calculations were performed by the HASS 7.2 computer program
under license no. 16060612 granted by
HRS Systems, Inc.
4792 LaVista Road
Tucker, GA 30084

(2) The system has been calculated to provide an average imbalance at each node of 0.004 gpm and a maximum imbalance at any node of 0.112 gpm.

(3) Velocity pressures are printed for information only and are not used in balancing the system. Maximum water velocity is 25.3 ft/sec at pipe 12.

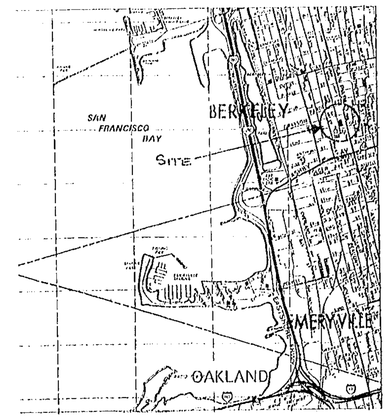
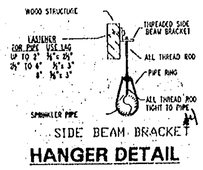
MEZZANINE PIPING PLAN

GROUND FLOOR PIPING PLAN



1. SPRINKLER HEAD DEFLECTOR SHALL NOT EXCEED 6" BELOW THE BOTTOM OF THE FRAMING.
2. ALL PIPING SHALL HANG AT 6" BOTTOM OF FRAMING.
3. NEW HANGERS SHALL BE #4 3/8" SIDE BEAM BRACKET, WITH 3/8"x 2½" LAG SCREW.
4. SPRINKLER DROP NIPPLES SHALL BE 1" x 1'-0" WITH 1" x ½" WITH 1" x " R.C. (U.N.O.).
5. ARM-OVERS TO DROP NIPPLES SHALL BE 1" x0'-4" WITH 1" x 90° ELL. (U.N.O.).
6. LINE PIPING SHALL BE SCHEDULE 40 STEEL (STANDARD) AND SHALL BE CUT GROOVED OR THREADED PER NFPA #13.



SCOPE OF WORK

MODIFY THE EXISTING FIRE SPRINKLER SYSTEM FOR NEW REMODEL.

PIPE STRAP #12

HANGER DETAIL

SEISMIC BRACING

SCALE: NONE

SWAY BRACING

GENERAL NOTES

1. THE AUTOMATIC SPRINKLER SYSTEM SHALL CONFORM TO THE REQUIREMENTS OF THE 1994 EDITION OF NFPA PAMPHLET #13.
2. PENETRATIONS OF RATED ASSEMBLIES SHALL BE FIRE-STOPPED.
3. MARQUEE FIRE PROTECTION TO BEGIN WORK FROM EXISTING PIPING.
4. ALL ELECTRICAL WORK TO BE DONE BY OTHERS.
5. ARM-OVERS 24" OR LONGER SHALL HAVE A HANGER.
6. THE EXISTING SYSTEM IS HYDRAULICALLY CALCULATED.
7. NEW PIPE SIZING SHALL MATCH EXISTING SYSTEM.
8. EARTHQUAKE BRACING SHALL BE INSTALLED PER NFPA #13.
9. BUILDING CONSTRUCTION, IS OF (NON) COMBUSTIBLE MATERIAL.
10. OWNER: MYERS SOUND.
11. EXCLUSIONS:
    1. CLEANING, PRIMING AND PAINTING OF PIPE.
    2. WIRING OF DEVICES AND ALARMS.
    3. ACCESS PANELS.
    4. CUTTING AND PATCHING.
    5. STRUCTURAL CALCULATIONS.

BUILDING PERMIT APPLICATION

CONTRACTOR LICENSE LAW

I declare under penalty of perjury (check one):

___ I am licensed under provisions of Chapter 9 Division 3 of the Business and Professions Code and my license is in full effect.
License No. 648049, Classification B
Date 10/3/00 Contractor Name LEVITCH ASSOCIATES

___ I, as the owner, or my employees with wages as sole compensation, will do the work, and the structure is not intended or offered for sale.

___ I, as the owner, am exclusively contracting with licensed contractors.

___ I am exempt under Sec. _____, B and P Code because

_____

WORKER'S COMPENSATION INSURANCE

I declare under penalty of perjury (check one):

___ The permit is for $100.00 (valuation) or less.

___ I have and will maintain a certificate of consent to self-insure for workers' compensation.

___ I shall not employ any person in any manner so as to become subject to the workers compensation laws of California.

___ I have and will maintain worker's compensation insurance for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and policy number are,
Carrier STATE COMP.
Policy No. GROUP 229-17042

WARNING: Failure to secure workers' compensation coverage is unlawful, and shall subject an employer to criminal penalties and civil fines up to one hundred thousand dollars ($100,000-), in addition to the cost of compensation, damages as provided for in Section 3706 of the Labor Code, interest, and attorney's fees.

CITY ORDINANCES (Ordinances available for viewing on request)

✓ In conformance with the City of Berkeley Noise Ordinance, I understand my obligation to comply and work within prescribed hours.

___ I am aware of my responsibilities under the Relocation Ordinance.

✓ I certify that I have read and shall use to the maximum extent practicable applicable portions of the state Storm Water Best Management Practices Manual for construction.

CONSTRUCTION LENDING AGENCY

I hereby affirm that there is a construction lending agency for the performance of the work for which this permit is issued (Sec 3097, Civ. C.).

Lender's Name _____

Lender's Address _____

✓ BUILDING & SAFETY - Certificate Of Compliance And Authorization Of Entry. I certify that I have read this application and state that the information given is correct. I agree to comply with all state laws and city ordinances relating to building construction and authorize a representative of the City of Berkeley Building and Safety Division to enter upon the property for which, I have applied for this permit for the purpose of making inspections.

___ PUBLIC WORKS - Certificate Of Compliance. I, Hereby Agree, to indemnify and hold harmless the City of Berkeley and its officers and employees from any and all claims arising from or out of work connected with this permit, to perform all work in accordance and compliance with BMC Title 16 and 17, as amended, specifications, detail plans and the Uniform Building Code of the City of Berkeley, all special provisions made a part of this permit, whether written or oral, and to the satisfaction of the Director of Public Works. I, furthermore agree to comply with all regulations and ordinances of the City of Berkeley.

Carrier STATE COMP.
Policy No. Group 229-17042

WARNING: Failure to secure workers' compensation coverage is unlawful, and shall subject an employer to criminal penalties and civil fines up to one hundred thousand dollars ($100,000-), in addition to the cost of compensation, damages as provided for in Section 3706 of the Labor Code, interest, and attorney's fees.

CITY ORDINANCES (Ordinances available for viewing on request)

✓ In conformance with the City of Berkeley Noise Ordinance, I understand my obligation to comply and work within prescribed hours.

✓ I am aware of my responsibilities under the Relocation Ordinance.

✓ I certify that I have read and shall use to the maximum extent practicable applicable portions of the state Storm Water Best Management Practices Manual for construction.

CONSTRUCTION LENDING AGENCY

I hereby affirm that there is a construction lending agency for the performance of the work for which this permit is issued (Sec 3097, Civ. C.).

Lender's Name _____

Lender's Address _____

✓ BUILDING & SAFETY - Certificate Of Compliance And Authorization Of Entry. I certify that I have read this application and state that the information given is correct. I agree to comply with all state laws and city ordinances relating to building construction and authorize a representative of the City of Berkeley Building and Safety Division to enter upon the property for which, I have applied for this permit for the purpose of making inspections.

___ PUBLIC WORKS - Certificate Of Compliance. I, Hereby Agree, to indemnify and hold harmless the City of Berkeley and its officers and employees from any and all claims arising from or out of work connected with this permit, to perform all work in accordance and compliance with BMC Title 16 and 17, as amended, specifications, detail plans and the Uniform Building Code of the City of Berkeley, all special provisions made a part of this permit, whether written or oral, and to the satisfaction of the Director of Public Works. I, furthermore agree to comply with all regulations and ordinances of the City of Berkeley.

Call 883-6566 to schedule inspections (24-hr. automated phone line)

Standard Comments

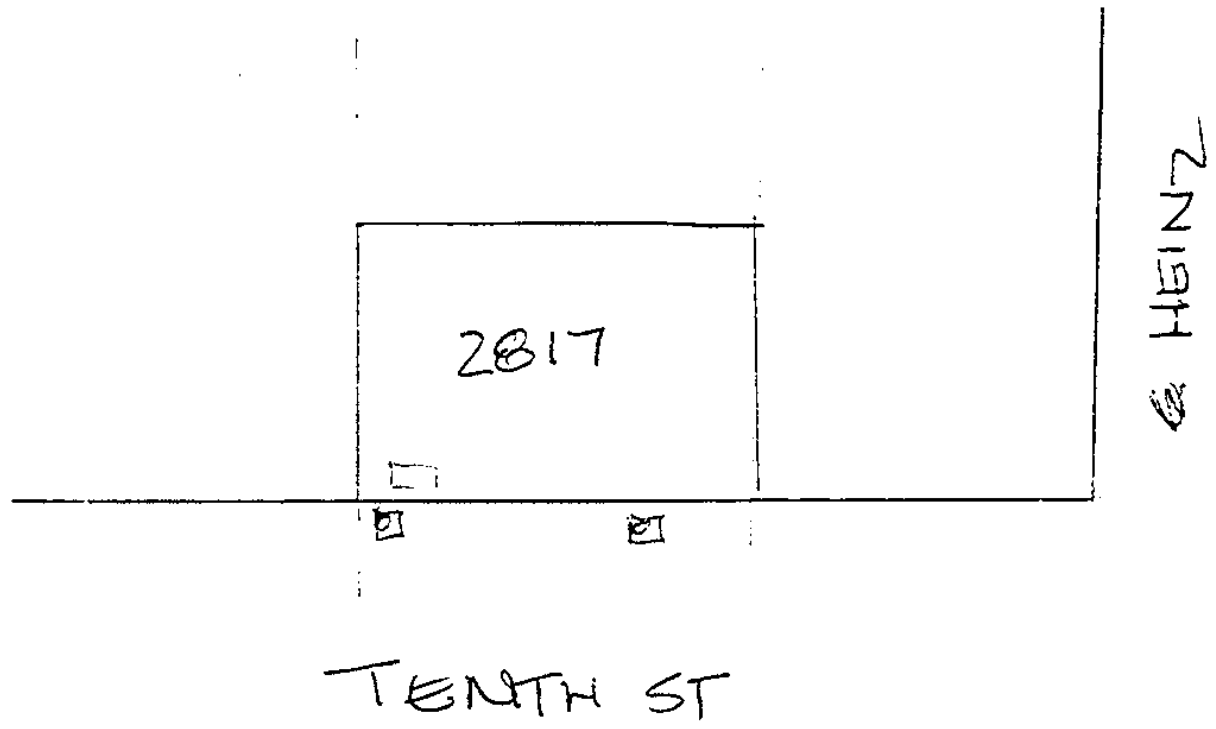
1. Temporary "No Parking" signs may be used only for the following:
   a) Curb clearance for house moving or heavy equipment moving.
   b) Curb clearance to provide for loading or unloading of materials.
   c) Curb clearance to provide access to property for construction or demolition.
   d) Curb clearance to allow temporary use of curb area for other than parking use.

2. **Signs must be posted at least 24 hours before prohibitions are enforced.** The date and time for which "No Parking" is desired must be clearly indicated on the sign. Signs must be removed to permit parking when the work is interrupted, and then reposted 24 hours before resuming the work.

3. If any construction or service vehicle is an essential part of the job and must be stopped for more than 20 minutes in the temporary "No Parking" zone herein established, a cab card must be obtained and displayed on the driver's side of the vehicle. Requests for cab cards shall be made at time of permit issuance.

4. This permit does not constitute a waiver for the necessity of obtaining a Street Use Permit if required under Ordinance No. 4111-N.S.

5. Signs must be removed from the street immediately upon expiration or work completion.



*Note: Permit does **NOT** override **STREETSWEEPING**.*

I, HEREBY AGREE, to indemnify and hold harmless the City of Berkeley and its officers and employees from any and all claims arising from or out of work connected with this permit and to comply with the above regulatins and to the satisfaction of the Director of Public Works. I recognize that failure to comply with required regulations will preclude further issuance of signs to me.

Inspections completed on this date at this facility

Inspection Number	Inspection Type	Record ID	Program
DAH5B9YNJ	ROUTINE INSPECTION	PR0001879	HMBP
DANL00I4Q	ROUTINE INSPECTION	PR0002054	HAZ WASTE GENERATOR

Summary of Violations and Notice to Comply

No violations observed on date of inspection.

General Comments and Observations

HMBP

All haz mat handlers receive annual hazardous materials handling training. All employees receive Right to Know training, covering hazard communication, response procedures, and evacuation. Records were available and compliant. Hazardous materials are properly stored and reflective of inventory provided on CERS. No outdoor activity.

HAZ WASTE GENERATOR

Meyer Sound Lab has multiple facilities. 2809 10th, 2817 10th, and 2832 10th are reported under 2817 10th st, CERS ID 10602589. EPA ID Number for 2817 10th, CAL000356050, is currently active.
Walk through of 2817: hazardous materials and waste onsite is consistent with inventory. Emergency information and equipment was available and properly maintained. Hazardous waste is properly maintained and labeled. 2809 10th and 2832 10th do not store hazardous materials or waste.
Record Review: All hazardous waste handlers are properly trained. Hazardous waste manifests were available for review and compliant.

OFFICIAL INSPECTION REPORT

Facility Name: MEYER SOUND LABORATORIES INC. Inspection Date : 1/18/18

The City of Berkeley Toxics Management Division, a Certified Unified Program Agency (CUPA), appreciates your efforts to comply with the CUPA and Stormwater laws and regulations.

OWNER/BUILDER
I hereby affirm that I am exempt from the Contractor's License Law for the following reason (Sec. 7031.5, Business and Professions Code): Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he is licensed pursuant to the provisions of the Contractor's License Law (Chapter 9 (commencing with Sec. 7000) of Division 3 of the Business and Professions Code), or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500).
[ ] I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code: The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or through his own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale).
[ ] I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code: The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractor's License Law).
[ ] I am exempt under Sec. _____, B.& P.C. for this reason _____

ADDRESS 2820 San Pablo

Office of the City Manager
Neighborhood Services – Code Enforcement Division

NOTICE OF VIOLATION
BLIGHT

April 24, 2019

Personal Identifying Information

Based on the request for service, history of the property and the inspection of the exterior conducted on April 18, 2019 by Enforcement Officer Wanda Drouillard, the City of Berkeley has determined that 2820 San Pablo Avenue, is in violation of Berkeley Municipal Code (BMC) as stated below.

Conditions related to BMC Chapter 12.92 – Anti-Blight

1. Pursuant to BMC Section 12.92.030 (A-F), blighted conditions present on the property the Code Enforcement Unit has determined that the property at 2820 San Pablo Avenue is in violation of the following conditions:

   - The conditions of the property is unsafe and inadequately maintained, in that such substandard conditions constitutes a hazard in this dilapidated condition that may endanger the life & health of residents therein or in the vicinity of thereof. The roof is severally damaged and roofing materials is peeling away including the eaves dry rotted leaving the unit exposed to the elements. Further, the crawl space area from foundation work has been left unfinished and uncovered exposing the structure to the elements, considered an unlawful nuisance and having a significant adverse visual impact on the neighborhood and substantially contributes to the dilapidated appearance of the neighborhood. (BMC Section 12.92.010, 19.28.010, 19.30.010 19.32.010 19.34.010 and BMC Title 23D.04.060).

   - Buildings designed for residential use that stand vacant for more than 120 consecutive days, must meet all codes, is ready for occupancy and is actively being offered for sale, lease or rent.

FINDINGS AND CONDITIONS

Based on these conditions that endanger the health and safety of the occupants and the surrounding neighborhood and the conditions that are visible from a public right-of-way and neighboring property, which have a significant adverse visual impact on the neighborhood and that have a detriment to neighbors, you are hereby ordered to correct the above violations by taking the following actions:

FOR THE BLIGHTED CONDITIONS YOU ARE HEREBY ORDERED to take the following actions:

- Within fifteen (15) days of the date of this notice,
    - Submit a maintenance schedule to the Code Enforcement Unit that includes at a minimum weekly monitoring to ensure that the above conditions are abated.
- Within thirty (30) days of the date of this notice, clear all remaining blighted conditions on the property including:
    - Replace the roof including the dry rotten fascia and eaves; and
    - Restore the property by meeting all building codes, making it ready for occupancy for either for sale, lease or rent;
        - Respond to plan check comments issued by all reviewing agencies within fifteen (15) days of issuance of comments; and
        - Within fifteen (15) days of issuance of the required zoning permit, obtain all required building, electrical, plumbing, and mechanical permits from the Building and Safety Division; and
        - Upon issuance of building permits, complete all work within one hundred and eighty (180) days of issuance of permits;

FAILURE TO COMPLY

Failure to comply with this Notice of Violation in any respect subjects you to the following penalties under BMC Chapters 12.92 and 19.28:

- Violations of BMC Chapter 12.92 may be declared a public nuisance and the City may abate the nuisance, without further notice, including the power to condemn and destroy any property constituting the nuisance if the nuisance cannot be abated without destruction of such property. Said abatement may be pursued by City personnel or a private contractor. The costs of abatement, including administrative and incidental expenses, shall be billed to the owner and shall be due and payable within thirty days thereafter. The cost of abatement, including incidental expenses, incurred by the City shall constitute a nuisance abatement lien or a special assessment lien on the property whereon the nuisance existed as determined by the City and shall be recorded as such pursuant to the procedures set forth in the City's recovery of abatement costs ordinance or any other procedures at law which provide for the recovery of abatement costs. Any property owner ordered by the City to abate a property nuisance pursuant to this chapter on two or more separate occasions within a one year period, shall be liable to the City for a civil penalty of five hundred dollars for each separate order to abate beginning with the second such order within a one year period, except as provided in Section 12.92.170B. (BMC Section 12.92.030, 140, 170).
- Violations of BMC Chapter 19.28 may be charged as either an infraction or a misdemeanor at the election of the enforcing officer, the building official, or by the City Attorney. Failure to promptly comply with a notice of violation may result in additional enforcement including an additional inspection that may result in the building official ordering buildings on the Property unsafe. Any structure that the building official orders unsafe is a public nuisance and subject to abatement by repair, rehabilitation, demolition or removal in accordance with Chapters 1.24 and 19.28 (BMC Section 19.28.010-020;

CBC Section 105.1, 114.1-4, 116.1) Violations of BMC Chapters 19.29, 19.30, 19.32 and 19.34 are governed by the administrative provisions of 19.28 (BMC Sections 19.29.030, 19.30.030, 19.32.030 and 19.34.030.)

In addition to the above-listed penalties, failure to comply may result in the City entering the Property and abating the unsafe and hazardous conditions and public nuisance pursuant to BMC Chapter 1.24 or filing a legal action for injunctive relief from the Superior Court pursuant to Chapter 1.26. If the City abates the unsafe and hazardous conditions and public nuisance at the Property and you fail to pay its costs, the City may place a special assessment lien on the Property that will be collected at the same time and in the same manner as property taxes.

CITATIONS

If you do not correct the violations described above within the time periods set forth, you may be issued administrative citations for violating the BMC pursuant to Chapter 1.28. **You may be cited for a separate violation for each day that the violation exists.** Penalties will begin at a rate of one hundred dollars ($100.00) per violation, per day and may increase with subsequent citations to two hundred dollars ($200.00) per violation, per day and five hundred dollars ($500.00) per violation, per day.

LIENS

The property may also be liened in the amount of any outstanding administrative penalties, and for costs of abatement if the City is forced to abate unsafe and hazardous conditions and public nuisance at the Property, as noted above.

This Notice of Violation must be included when submitting any permit application with the City of Berkeley. You may request an electronic copy of this Notice of Violation by e-mailing Code Enforcement Officer Wanda Drouillard at wdrouillard@cityofberkeley.info.

If you have any questions regarding this Notice of Violation you may contact Wanda Drouillard at (510) 981-2482.

Sincerely,

Wanda Drouillard

BUILDING PERMIT APPLICATION

LICENSED CONTRACTORS DECLARATION. I hereby affirm that I am licensed under provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code and my license is in full force and effect.

License Number: 241345 Classification: C-39

OWNER-BUILDER DECLARATION. I hereby affirm that I am exempt from the Contractors License Law for the following reason (Section 7031.5, Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he/she is licensed pursuant to the provisions of the Contractors License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he/she is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500):)

☐ I as owner of the property or my employees with wages as their sole compensation will do the work and the structure is not intended or offered for sale (Section 7044 Business and Professions Code: The Contractor's License Law does not apply to an owner of property who builds or improves thereon and who does such work himself or through his own employees provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale.)

☐ I as owner of the property, am exclusively contracting with licensed contractors to construct the project. The Contractor's License Law does not apply to an owner of property who builds or improves thereon and who contracts for such projects with a contractor(s) licensed pursuant to the Contractor's License Law. (Section 7044 Business and Professions Code.)

☐ I am exempt under Section _____ B & PC (Attach Certificate)

Date: _____ Owner: _____

WORKERS' COMPENSATION DECLARATION. I hereby affirm under penalty of perjury one of the following declarations:

☐ I have and will maintain a certificate of consent to self-insure for worker's compensation, as provided for by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued.

☐ I have and will maintain workers' compensation insurance as required by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued. My worker's compensation insurance carrier and policy number are:

Carrier: Cal Comp

Policy Number: W 9620150 86

(This section need not be completed if the permit is for one hundred dollars ($100 or less).

☐ I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California and agree that if I should become subject to the workers' compensation provisions of Section 3700 of the Labor Code, I shall forthwith comply with those provisions.

Date: 10-16-96 Applicant: [signature]

WARNING: FAILURE TO SECURE WORKERS' COMPENSATION COVERAGE IS UNLAWFUL AND SHALL SUBJECT AN EMPLOYER TO CRIMINAL PENALTIES AND CIVIL FINES UP TO ONE HUNDRED THOUSAND DOLLARS ($100,000). IN ADDITION TO THE COST OF COMPENSATION, DAMAGES AS PROVIDED FOR IN SECTION 3706 OF THE LABOR CODE, INTEREST, AND ATTORNEY'S FEES.

CITY ORDINANCES

In conformance with City of Berkeley Noise Ordinance No. 5500-N.S., I understand my obligation to comply with Section 13.40.070(7) and work within the prescribed hours.

I am aware of my responsibilities under the Relocation Ordinance.

I have been given the information on the Relocation Ordinance and understand that I have certain responsibilities to perform.

I certify that I have read and shall use to the maximum extent practicable applicable portions of the state Stormwater Best Management Practices Manual for construction activity. A copy of which is available at the Codes and Inspection permit counter.

CALIF. DIV. OF OCCUPATIONAL SAFETY & HEALTH PERMIT CERTIFICATION

I hereby certify that no excavation five (5) or more feet in depth into which a person is required to descend will be made in connection with work authorized by the permit and that no building structure, scaffolding, falsework or demolition or dismantling thereof will be more than thirty-six (36) feet in height (Chapter 32, Group 2, Article 2, Section 341, Title 8 CAC).

As owner-builder I will not employ anyone to do work which would require a permit from the City of Berkeley as noted above unless such person has a permit to do such work from the Division.

DOSH Permit No.: _____

CONSTRUCTION LENDING AGENCY. I hereby affirm that there is a construction lending agency for the performance of the work for which this permit is issued (Section 3097, CIV C).

Lender's Name: _____

Lender's Address: _____

CERTIFICATE OF COMPLIANCE AND AUTHORIZATION OF ENTRY. I certify that I have read this application and state that the information given is correct. I agree to comply with all state laws and city ordinances relating to building construction and authorize a representative of the City of Berkeley, Codes and Inspection Division to enter upon the property for which I have applied for this permit for the purpose of making inspections.

Re: Seismic Upgrade of 2821 10th St., Berkeley

OFFICE COPY

Dear Inspector,

This is in response to your recent correction notice.

- The correct size of strap on detail 7/S-4 is 1/4" x 4" and only 4-7/8" bolts are required for connection to an existing wood post.
- A new 3" x 1/4" strap with #12 x 3" long wood screws at 4" O.C. was installed as a drag member instead of a continuous 4 x nailer on detail 15/S4.

Should you need additional information please contact me at (510) 601-4868.

Sincerely,

Mojgan Yousefkhan

BUILDING PERMIT APPLICATION

CONTRACTOR LICENSE LAW

I declare under penalty of perjury (check one):

X I am licensed under provisions of Chapter 9 Division 3 of the Business and Professions Code and my license is in full effect.

License No. 265556, Classification C-57A

Date 12/21/00 Contractor Name PC Excavation

___ I, as the owner, or my employees with wages as sole compensation, will do the work, and the structure is not intended or offered for sale.

___ I, as the owner, am exclusively contracting with licensed contractors.

___ I am exempt under Sec. _____, B and P Code because

_____

WORKER'S COMPENSATION INSURANCE

I declare under penalty of perjury (check one):

___ The permit is for $100.00 (valuation) or less.

___ I have and will maintain a certificate of consent to self-insure for workers' compensation.

___ I shall not employ any person in any manner so as to become subject to the workers compensation laws of California.

X I have and will maintain worker's compensation insurance for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and policy number are,

Carrier American Home Ins.

Policy No. WC1027729

WARNING: Failure to secure workers' compensation coverage is unlawful, and shall subject an employer to criminal penalties and civil fines up to one hundred thousand dollars ($100,000-), in addition to the cost of compensation, damages as provided for in Section 3706 of the Labor Code, interest, and attorney's fees.

CITY ORDINANCES (Ordinances available for viewing on request)

X In conformance with the City of Berkeley Noise Ordinance, I understand my obligation to comply and work within prescribed hours.

X I am aware of my responsibilities under the Relocation Ordinance.

X I certify that I have read and shall use to the maximum extent practicable applicable portions of the state Storm Water Best Management Practices Manual for construction.

CONSTRUCTION LENDING AGENCY

I hereby affirm that there is a construction lending agency for the performance of the work for which this permit is issued (Sec 3097, Civ. C.).

Lender's Name _____

Lender's Address _____

___BUILDING & SAFETY - Certificate Of Compliance And Authorization Of Entry. I certify that I have read this application and state that the information given is correct. I agree to comply with all state laws and city ordinances relating to building construction and authorize a representative of the City of Berkeley Building and Safety Division to enter upon the property for which, I have applied for this permit for the purpose of making inspections.

X PUBLIC WORKS - Certificate Of Compliance. I, Hereby Agree, to indemnify and hold harmless the City of Berkeley and its officers and employees from any and all claims arising from or out of work connected with this permit, to perform all work in accordance and compliance with BMC Title 16 and 17, as amended, specifications, detail plans and the Uniform Building Code of the City of Berkeley, all special provisions made a part of this permit, whether written or oral, and to the satisfaction of the Director of Public Works. I, furthermore agree to comply with all regulations and ordinances of the City of Berkeley.

Company or Individual Company Rep.

Contact: GARY MULKEY Phone #: (925) 426-5395

Call 883-566 to schedule inspections (24-hr. automated phone line)

Standard Comments

1. Temporary "No Parking" signs may be used only for the following:
   a) Curb clearance for house moving or heavy equipment moving.
   b) Curb clearance to provide for loading or unloading of materials.
   c) Curb clearance to provide access to property for construction or demolition.
   d) Curb clearance to allow temporary use of curb area for other than parking use.

2. **Signs must be posted at least 24 hours before prohibitions are enforced.** The date and time for which "No Parking" is desired must be clearly indicated on the sign. Signs must be removed to permit parking when the work is interrupted, and then reposted 24 hours before resuming the work.

3. If any construction or service vehicle is an essential part of the job and must be stopped for more than 20 minutes in the temporary "No Parking" zone herein established, a cab card must be obtained and displayed on the driver's side of the vehicle. Requests for cab cards shall be made at time of permit issuance.

4. This permit does not constitute a waiver for the necessity of obtaining a Street Use Permit if required under Ordinance No. 4111-N.S.

5. Signs must be removed from the street immediately upon expiration or work completion.

*Note: Permit does **NOT** override **STREETSWEEPING.***

I, HEREBY AGREE, to indemnify and hold harmless the City of Berkeley and its officers and employees from any and all claims arising from or out of work connected with this permit and to comply with the above regulatins and to the satisfaction of the Director of Public Works. I recognize that failure to comply with required regulations will preclude further issuance of signs to me.

BUILDING PERMIT APPLICATION

I hereby affirm (check one):

☒ LICENSED CONTRACTOR'S DECLARATION. I am licensed under provisions of Chapter 9 (commencing with Sec. 7000) of the Business and Professions Code, and my license is in full force and effect.
License No. 669193 Classification General B

☐ OWNER-BUILDER DECLARATION. I am exempt from the Contractor's License Law for the following reason (Sec. 7031.5, Business and Professions Code): Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he is licensed pursuant to the provisions of the Contractor's License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500.00).

☐ I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code): The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or through his own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvements is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale.

☐ I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code): The Contractor's License Law does not apply to an owner of property who builds or improves thereon; and who contracts for such projects with a contract(s) licensed pursuant to the Contract's License Law).

I am exempt under Sec. _____, Business and Professions Code, for this reason:

_____

WORKER'S COMPENSATION DECLARATIONS (Sec. 3800 LAB.C.). (check one):

☐ I hereby affirm that I have a certificate of consent to self-insure, or a certificate of Workers Compensation Insurance, or a certified copy thereof.

Policy No. _____ Company _____

☐ Certified copy is hereby furnished.

☐ Certified copy is filed with the City of Berkeley Building Division

☑ I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the Workers' Compensation Laws of California.

☑ The permit is for $100.00 (valuation) or less.

NOTE TO APPLICANT: If, after making this Certificate of Exemption, you should become subject to the Worker's Compensation provisions of the Labor Code, you must comply with such provisions or this permit shall be deemed revoked.

CONSTRUCTION LENDING AGENCY (Sec. 3097, Civil Code)

I hereby affirm that there (check one)

☐ is ☐ is not a construction lending agency for the performance of the work for which this permit is issued.

Lender's Name _____

Lender's Address _____

I certify that I have read this application and state that the above information is correct. I agree to comply with all City ordinances and State laws relating to building construction, and hereby authorize representatives of the City of Berkeley to enter upon the above-mentioned property for inspection purposes.

I also agree to waive, indemnify and hold harmless the City and it's agents against all liabilities, judgments, costs, and expenses which may in any way accrue against said agency in consequence of the granting of this permit.

Re: leak in baffled underground tank

Dear Mr.Garriety:

During an inspection of an underground tank test performed on 11 April 1990, Britt Johnson discovered the second section of the baffled tank contained water, was sealed off and is not being used. If the water came into the tank through a leak, and then it is likely that the previously stored material had leaked out. In view of this, a subsurface investigation will be necessary to determine the existence and extent of contamination.

The California Water Quality Control Board, San Francisco Bay Region (RWQCB), requires a subsurface investigation to be conducted at all sites having confirmed releases from underground storage tanks containing hazardous substances. Of immediate concern is the possibility of the presence of floating product and vapors and their potential for migration into underground structures such as basements, utility vaults, sewers and storm drains (explosion hazard). In order to address these concerns, it is necessary to install ground water monitoring well(s) where confirmed releases have occurred. RWQCB guidelines, revised to 9 November 1989, with Attachment 1-Guidelines for monitoring wells (attached) documents should be followed for site investigation and mitigation.

RWQCB is responsible for the oversight of soil and ground water pollution cases which threaten or impact waters of the State. Due to the large number of fuel leak cases reported, the RWQCB staff is not able to respond to each incident. In Berkeley, the Division of Environmental Health works with the RWQCB and is taking the lead role for case handling. Regardless of the level of oversight from agencies, you are responsible for the timely reporting, investigation, and cleanup of soil and ground water pollution such that the beneficial uses of waters of the State are protected, and appropriate policies are in compliance.

The California Administrative Code, Title 23, Section 2652, requires all unauthorized releases to be reported. **An engineering report containing the following information must be submitted within 60 days:**

1. List of type, quantity, and concentration of hazardous substances released.

2. The results of all investigations completed to determine the lateral and vertical extent of soil or ground water or surface water contamination due to the release.

3. Assess the local and regional hydrogeology as appropriate to evaluate migration potential and actual or potential impacts of soil or ground water pollution on beneficial uses of surface and/or ground water.

4. Evaluate and implement appropriate remedial action alternatives, and the approximate cost of these actions.

5. Remove all floating or free product. Dissolved constituents and polluted soil should be remediated consistent with State Water Resources Control Board Resolution No. 68-16.

6. Method and location of disposal of the released hazardous substance and any contaminated soils or ground water or surface water (indicate whether a hazardous waste manifest(s) is utilized).

The report should include a proposal for remedial actions (such as soil excavation or removal of free product from ground water), along with a time schedule for their implementation.

It is our understanding that the Department of Health Services (DHS) Toxic Substances Control Division, considers soils contaminated at concentrations which exceed 1,000 ppm of total hydrocarbons as hazardous waste and should be managed as such. Soils contaminated with less than 1,000 ppm may be managed as non-hazardous but are subject to Waste Discharge Requirements of the RWQCB.

The owner/operator is responsible for the enlistment of a qualified professional to assume the technical responsibility for performance, interpretation and report preparation for the investigation. The RWQCB considers a State Certified Geologist, Engineering Geologist or a State Registered Civil Engineer as qualified for the above.

All proposals and reports which contain engineering or geological information, interpretations, or other opinions as specified by the Business and Professional Code must be signed and STAMPED by an appropriately registered professional. In general, all reports on investigation and remediation require this type of signature. Each individual entry in the Quarterly Summary Report need not be signed, provided that the individual technical report for each site is properly signed, and that the Summary Report is signed by an appropriate professional familiar with all cases in the summary.

All proposals and reports submitted must be accompanied by a cover letter from the responsible party which states, at a minimum, the following:

> "I declare, under penalty of perjury, that the information and/or recommendations contained in the attached proposal or report is true and correct."

This letter must be signed by an officer or legally authorized representative of your company.

Until cleanup is complete, you must submit reports to the City of Berkeley,

Division of Environmental Health and the California Water Quality Control Board, San Francisco Bay Region, 1800 Harrison Street, Room 700, Oakland, CA 94612, every (3) months, or at a more frequent interval specified by the City of Berkeley or the Regional Board. The reports shall include the information requested above in the format attached.

Under the auspices of the RWQCB and DHS, the City of Berkeley, Environmental Health Division will be responsible for review and approval of investigation and cleanup plans. The City of Berkeley will actively review and/or comment on all investigation and remediation reports submitted.

You should proceed per the RWQCB "Guidelines" to investigate and clean up contaminated soils, groundwater and/or free product. The City of Berkeley Environmental Health staff will be able to provide limited guidance over the telephone.

All cases are subject to review. If it is evident that investigation and cleanup has not been done in a manner that protects public health and the environment, you may be subject to civil and criminal penalties.

Should you have questions, please contact me at (415) 644-6510.

Sincerely,

Gail Lee
Assistant Environmental Health Specialist

PERMIT
BUILDING - ELECTRICAL - MECHANICAL - PLUMBING

- Permits shall expire if a major inspection is not passed within 180 days of permit issue or within 180 days of a previously passed major inspection.
- Issuance of a permit shall not be construed as an approval of any violation of Building, Electrical, Mechanical, Plumbing or Municipal codes.
- Clearances from all departments and jurisdictions and payment of all applicable fees are required before final inspections will be made.

I hereby affirm (check one):

☒ LICENSED CONTRACTOR'S DECLARATION. I am licensed under provisions of Chapter 9 (commencing with Sec. 7000) of the Business and Professions Code, and my license is in full force and effect. License No. 446361 Classification C10

☐ OWNER-BUILDER DECLARATION. I am exempt from the Contractor's License Law for the following reason (Sec. 7031.5, Business and Professions Code): Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he is licensed pursuant to the provisions of the Contractor's License Law [Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code] or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500.00).

☐ I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code): The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or through his own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvements is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale.

☐ I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code): The Contractor's License Law does not apply to an owner of property who builds or improves thereon; and who contracts for such projects with a contract(s) licensed pursuant to the Contract's License Law).

I am exempt under Sec. _____ , Business and Professions Code, for this reason:

WORKER'S COMPENSATION DECLARATIONS (Sec. 3800 LAB.C.).
(check one):

☐ I hereby affirm that I have a certificate of consent to self insure, or a certificate of Workers Compensation insurance, or a certified copy thereof.
Policy No. 91PC 926131 Company Republic Indemnity

☐ Certified copy is hereby furnished.

☒ Certified copy is filed with the City of Berkeley Building Division

☐ I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the Workers' Compensation Laws of California.

☐ The permit is for $100.00 (valuation) or less.

NOTE TO APPLICANT: If, after making this Certificate of Exemption, you should become subject to the Worker's Compensation provisions of the Labor Code, you must comply with such provisions or this permit shall be deemed revoked.

CONSTRUCTION LENDING AGENCY (Sec. 3097, Civil Code)
I hereby affirm that there (check one)

☐ is ☐ is not a construction lending agency for the performance of the work for which this permit is issued.

Lender's Name _____

Lender's Address _____

I certify that I have read this application and state that the above information is correct. I agree to comply with all City ordinances and State laws relating to building construction, and hereby authorize representatives of the City of Berkeley to enter upon the above-mentioned property for inspection purposes.

I also agree to waive, indemnify and hold harmless the City and it's agents against all liabilities, judgments, costs, and expenses which may in any way accrue against said agency in consequence of the granting of this permit.

BUILDING PERMIT APPLICATION

I hereby affirm (check one):

☒ LICENSED CONTRACTOR'S DECLARATION. I am licensed under provisions of Chapter 9 (commencing with Sec. 7000) of the Business and Professions Code, and my license is in full force and effect.
License No. 553984 Classification B-C61/D40

☐ OWNER-BUILDER DECLARATION. I am exempt from the Contractor's License Law for the following reason (Sec. 7031.5, Business and Professions Code): Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he is licensed pursuant to the provisions of the Contractor's License Law [Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code] or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500.00).

☐ I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code): The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or through his own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvements is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale.

☐ I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code): The Contractor's License Law does not apply to an owner of property who builds or improves thereon; and who contracts for such projects with a contractor(s) licensed pursuant to the Contract's License Law).

I am exempt under Sec. _____ . Business and Professions Code, for this reason:

_____

WORKER'S COMPENSATION DECLARATIONS (Sec. 3800 LAB.C.).
(check one):

☒ I hereby affirm that I have a certificate of consent to self-insure, or a certificate of Workers Compensation Insurance, or a certified copy thereof.
Policy No. 3017349 Company FARMER

☐ Certified copy is hereby furnished.

☐ Certified copy is filed with the City of Berkeley Building Division

☐ I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the Workers' Compensation Laws of California.

☐ The permit is for $100.00 (valuation) or less.

NOTE TO APPLICANT: If, after making this Certificate of Exemption, you should become subject to the Worker's Compensation provisions of the Labor Code, you must comply with such provisions or this permit shall be deemed revoked.

CONSTRUCTION LENDING AGENCY (Sec. 3097, Civil Code)
I hereby affirm that there (check one)

☐ is ☒ is not a construction lending agency for the performance of the work for which this permit is issued.

Lender's Name _____

Lender's Address _____

I certify that I have read this application and state that the above information is correct. I agree to comply with all City ordinances and State laws relating to building construction, and hereby authorize representatives of the City of Berkeley to enter upon the above-mentioned property for inspection purposes.

I also agree to waive, indemnify and hold harmless the City and it's agents against all liabilities, judgments, costs, and expenses which may in any way accrue against said agency in consequence of the granting of this permit.

X _____ Date 9/24/20
Signature of Applicant

☐ Owner ☒ Contractor ☐ Agent

CONTRACTOR'S LAW

I hereby affirm that I am licensed under provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect.

I hereby affirm (check one):

☑ LICENSED CONTRACTOR'S DECLARATION. I am licensed under provisions of Chapter 9 (commencing with Sec. 7000) of the Business and Professions Code, and my license is in full force and effect.
License No. 332850 Classification C 39

☐ OWNER-BUILDER DECLARATION. I am exempt from the Contractor's License Law for the following reason (Sec. 7031.5, Business and Professions Code): Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he is licensed pursuant to the provisions of the Contractor's License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500.00).

☐ I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code): The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or through his own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale.

☐ I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code): The Contractor's License Law does not apply to an owner of property who builds or improves thereon; and who contracts for such projects with a contract(s) licensed pursuant to the Contractor's License Law.)

I am exempt under Sec. _____, Business and Professions Code, for this reason:

WORKER'S COMPENSATION DECLARATIONS (Sec. 3800 LAB.C.).
(check one):
☑ I hereby affirm that I have a certificate of consent to self-insure, or a certificate of Workers' Compensation Insurance, or a certified copy thereof.
Policy No. RC99110? Company REPUBLIC INDEMNITY
☐ Certified copy is hereby furnished.
☑ Certified copy is filed with the City of Berkeley Building Division

☐ I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the Workers' Compensation Laws of California.

☐ The permit is for $100.00 (valuation) or less.

NOTE TO APPLICANT: If, after making this Certificate of Exemption, should you become subject to the Workers' Compensation provisions of the Labor Code, you must comply with such provisions or this permit shall be deemed revoked.

CONSTRUCTION LENDING AGENCY (Sec. 3097, Civil Code)
I hereby affirm that there (check one)
☐ is ☐ is not a construction lending agency for the performance of the work for which this permit is issued.
Lender's Name _____
Lender's Address _____

I certify that I have read this application and state that the above information is correct. I agree to comply with all City ordinances and State laws relating to building construction, and hereby authorize representatives of the City of Berkeley to enter upon the above-mentioned property for inspection purposes. I also agree to waive, indemnity and hold harmless the City and it's agents against all liabilities, judgments, costs, and expenses which may in any way accrue against said agency in consequence of the granting of this permit.

INSPECTION SERVICES DEPARTMENT

SPECIAL INSPECTION CERTIFICATE

Certain portions of construction of the project named below must be done under continuous inspection by a qualified person, whose services shall be furnished by the owner, all as required and defined by notification letter addressed to:

Emerald Packaging, Inc. Ink Storage Room Dated: June 27, 1975

JOB DATA

Job Address 2821 Tenth Street, Berkeley, Ca. Permit No. _____

Reinf. Conc. _____ Reinf. Masonry X Filling of Cells Other _____

INSPECTOR

The undersigned inspector hereby agrees that he will be present continuously at the construction site during all working hours for the sole purpose of providing continuous inspection of all work described above. Inspection will include specifically the placement of ~~reinforcing steel and inserts~~, the handling and placing of concrete ~~and/or masonry, and the work of other trades as noted above~~.

Name Robert E. Grewer, Architect Job Phone No. 452-0155

Representing Design Group - I Phone No. 452-0155

Approved _____
City of Berkeley

Date _____

CERTIFICATION

The approved inspector certifies by his signature below that he has performed the continuous inspection services as described above; that all work is now complete; and that all approved drawings, specifications and applicable codes have been complied with.

The inspector's signature below is required before a final inspection of the completed project will be made.

Signed Robert E. Grewer

Continuous Inspection Letter

Date May 8, 1975

Design drawings submitted for the contemplated construction located at:

2821 - 10th Street, Berkeley, California

BUILDING PERMIT NUMBER C5097513 revealed the need of special inspection services as described in certain aspects of the work as indicated below:

X concrete and reinforcement placing

_____ gypsum-board nailing

_____ high-tensile bolting

_____ masonry grouting

X masonry, reinforcement and grouting

_____ pile driving

_____ pre-stressing of concrete

_____ welding, field and shop

_____ other _____

Each special inspector is expected to furnish regular written reports advising this office of progress of the work as well as any special problems and steps taken for their resolution. Any emergency situation or stoppage of the work should be immediately reported. Upon completion of the work to which he is assigned, the inspector is to report back to this office for release from his assignment.

Please advise this office when arrangements have been made for the required services. This information should be brought to the attention of J. A. Moore, Plan Check Engineer. Telephone 644-6526. Building permit will not be issued prior to our receipt of this information.

Very truly yours,

CHRONOLOGICAL REPORT ON THE PLANS FOR 2821 10th STREET APRIL 10 DRAFT

On or about the 10th of January, 1975 an architect by the name of Mr. Robert E. Grewer came into the office with a set of plans for a flammable storage room for 2821-10th Street. At this time he presented a set of preliminary plans to determine what our requirements would be. At this time a consultation was held with the Fire Dept. as to their requirements. At this time it was decided that an explosion relief panel would be required. The architect was notified at this time of these requirements.

On January 24, 1975 two sets of plans were submitted to this Department for approval. A check of the plans revealed that no arrangements had been made to supply the explosion relief panel. It had been completely omitted from the plans. The plans were given an preliminary check at this time with notations mex on the plans as follows:

1. Provide a complete list of all of the flammable liquids. Identify each.
2. Provide the rated flash point rating of each.
3. If the combination of materials are involved, identify the hazards involved with the combination.
4. Provide an approved explosion proof vent or vents designed by competent authority as to the size, type and location, if required.

The plans were then turned back to the counter to be returned to the Architect. Instead for some reason the plans were forwarded to the Fire Dept. where they apparently remained for quite some time.

On Friday, April 4, a meeting was held between the Fire Dept. and the owner and his engineer. Also the Fire Rating Bureau was consulted. It was then decided that the type of flammables involved were such as not requiring the explosion relief panel.

On Monday, April 7, 1975, these plans again came to light. This time they had an approval from the Fire Dept. signed by Neil Lochhead. At this time a meeting was held in the office of Inspection XXXXXXXXX Services between Chief Brock,

Niel Lochhead, and Ray Hyatt of the Fire Dept. and XXXX Jerry Moore and Howard Mardis of the Building Dept. Again going over the requirements for the plans. It again felt the hazards were such as not to x justify the installation of the blow-out xxfxf relief panels. XXX At this time the plans will be completed for check and if there are no other problems involved the plans will be approved for a building permit.

EMERALD PACKAGING COMPANY
2821 - 10TH STREET
BERKELEY, CALIFORNIA

REF: 2821 - 10TH STREET, BERKELEY

ATTN: MR. HAWKLEY

DEAR MR. HAWKLEY:

ON AUGUSY 10, 1971, AN INSPECTION WAS MADE OF THE SYRUCTURE LOCATED AT THE ABOVE REFERENCED ADDRESS JOINTLY BY THE FIRE PREVENTION BUREAU AND THE INSPECTION SERVICES DEPARTMENT.

AT THAT TIME, A NUMBER OF VIOLATIONS WERE NOTED OF CITY ORDINANCES. THE ITEMS NOTED ARE COMPILED IN A LIST AS FOLLOWS:

(1) PLANS SUBMITTED FOR THE NEW WAREHOUSE SHOWS TWO OPENINGS BETWEEN THE EXISTING AREA AND THE NEW AREA. THESE OPENINGS CALL FOR A 3-HOUR FIRE RESISTIVE ASSEMBLY. AN INSPECTION REVEALS THESE ASSEMBLIES TO BE MISSING. THESE SHALL BE INSTALLED AS REQUIRED BY THE ORIGINAL PLAN.

(2) THE PARTITION BETWEEN THE EXISTING MANUFACTURING AREA AND THE EXISTING WAREHOUSE AREA SHALL BE NOT LESS THAN A 1-HOUR FIRE RESISTIVE SEPARATION. IF THE 3-HOUR DOOR IS REMOVED AND RELOCATED IN BETWEEN THE NEW BUILDING AND THE OLD, A 1-HOUR RATED DOOR WILL BE REQUIRED AT THIS LOCATION. ALSO, THE NEW DOOR THAT WAS CUT THROUGH THE WALL AT THE REAR SECTION OF THE BUILDING MUST ALSO BE PROVIDED WITH A 1-HOUR FIRE RATED ASSEMBLY.

(3) PROVIDE AN APPROVED 1-HOUR FIRE RESISTIVE ROOM FOR THE STORAGE OF FLAMMABLE MATERIALS. THE FOLLOWING SHALL BE REQUIRED OF THIS ROOM:

(A) AREA SHALL BE MADE 1-HOUR FIRE RESISTIVE THROUGHOUT.
(B) ALL DOORS INTO THIS AREA SHALL BE 1-HOUR LABELED DOORS. THEY SHALL BE PROVIDED WITH APPROVED SELF-CLOSING DEVICES AND AN APPROVED LOCKING DEVICE.
(C) THIS AREA SHALL BE VENTED DIRECTLY TO THE OUTSIDE AS REQUIRED BY THE UNIFORM BUILDING CODE. A MINIMUM OF FOUR (4) COMPLETE CHANGES OF AIR PER HOUR WILL BE REQUIRED. IT ALSO SHALL BE SPRINKLED. THE NUMBER OF HEADS REQUIRED WILL DEPEND UPON THE SIZE OF THE ROOM. IF THE WATER SERVICE IS ADEQUATE, THESE HEADS MAY BE SUPPLIED BY THE DOMESTIC WATER SYSTEM.

(4) PROVIDE APPROVED UNDERGROUND STORAGE TANKS FOR ALL FLAMMABLE LIQUIDS, SOLVENTS, HEXANE, ETC. IN LIEU OF THE ABOVE STORAGE TANKS, A ONE DAY'S SUPPLY OF THESE LIQUIDS ONLY WILL BE PERMITTED ON THE PREMISES AT ANY ONE TIME. A LETTER WILL BE REQUIRED TO ESTABLISH THE QUANTITIES USED FOR A ONE DAY'S OPERATION.

(5) ALL FLAMMABLE LIQUIDS SHALL BE TRANSPORTED FROM THE FLAMMABLE STORAGE AREA TO THE POINT OF USE IN APPROVED SAFETY CANS.

(6) ALL INK CONTAINERS, REGARDLESS OF LOCATION, SHALL BE PROPERLY COVERED AT ALL TIMES EXCEPT WHEN BEING TRANSFERRED FROM THE CONTAINER TO THE PRESS.

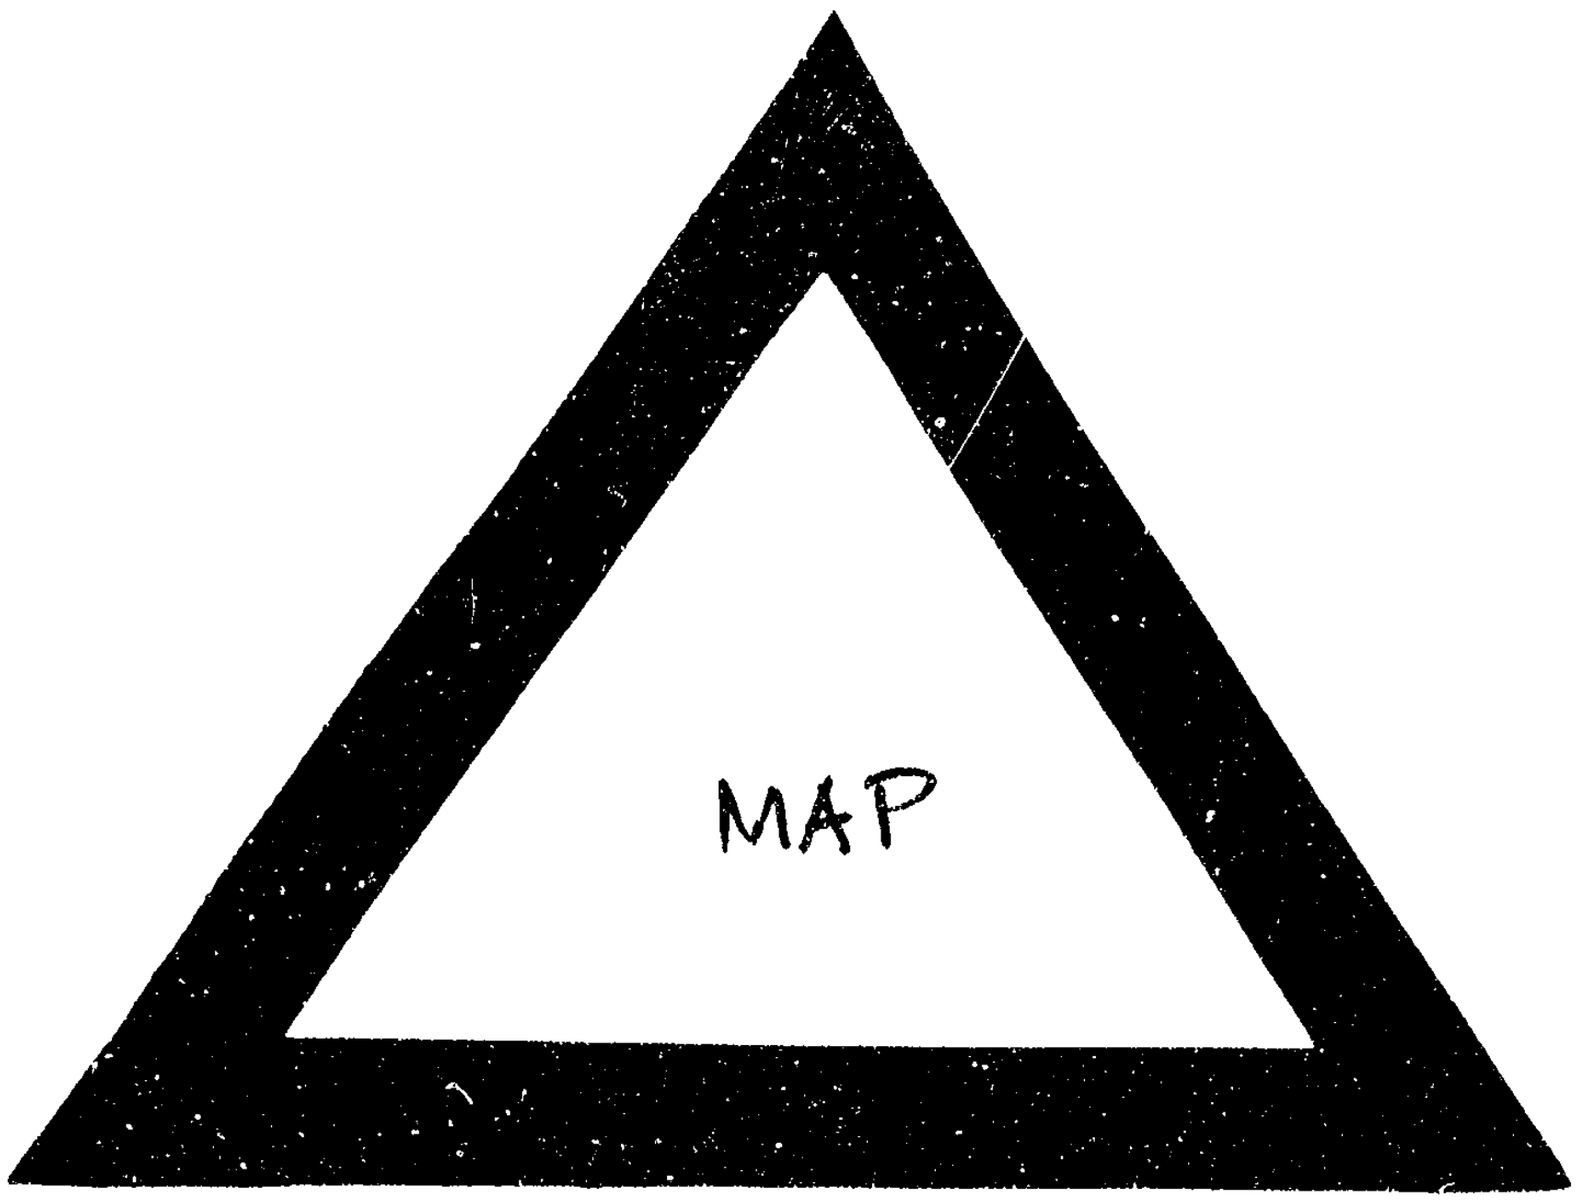
(7) PROVIDE APPROVED METAL CONTAINERS WITH TIGHT-FITTING LIDS FOR WASTE MATERIALS, USED WIPING RAGS, ETC.

(8) PROVIDE THE PARTS-WASHING TANK WITH AN APPROVED SPRING LOADED COVER WITH A FUSABLE LINK.

PLEASE BE ADVISED THAT THE ABOVE VIOLATIONS SHALL BE CORRECTED AT ONCE. PLEASE NOTIFY THIS DEPARTMENT WHEN COMPLETED SO THAT AN INSPECTION MAY BE MADE. SHOULD FURTHER INFORMATION BE REQUIRED, PLEASE FEEL FREE TO CONTACT THIS DEPARTMENT AT 644-6560.

VERY TRULY YOURS,

JOHN S. ATKINS, DIRECTOR
INSPECTION SERVICES DEPARTMENT



BY _____
HOWARD J. HARDIS, BUILDING INSPECTOR

FIRE PREVENTION BUREAU

BY _____
JOHN SMITH, FIRE INSPECTOR

H.H:EJ

NOTE: (9) PROVIDE A CURB IN THE FLAMMABLE STORAGE AREA CAPABLE OF RETAINING 100% OF THE FLAMMABLE LIQUIDS STORED THEREIN, SHOULD ALL MATERIAL BE RELEASED FROM THEIR CONTAINERS.

2821 - 10th Street
Berkeley, California

Emerald Packaging, Incorporated
2821 - Tenth Street
Berkeley, California

Attention: Mr. William M. Temple, President

Dear Sir:

OK This is to confirm our discussion today regarding the sump water drainage being conducted from your property across the public sidewalk on San Pablo Avenue. This installation does not conform to the City of Berkeley Plumbing Code and must be corrected.

OK We also remind you that a legibly displayed street number is a City requirement.

Your prompt attention to these matters will be much appreciated by all concerned.

Yours truly,

J. S. Atkins, Director
INSPECTION SERVICES DEPARMENT

William B. King
Housing Representative

WBK:ey

REQUEST FOR SERVICE

Report back by:

Bk. Bl. 2821 Par. Fire Z Zoning Z File No.

Address about the 2800 block of ~~2833~~ 10th Street Taken By G.Y. Date 1-21-71

Owner Emerald Packaging Address Telephone

Reported By Mercurio Printing Address 2830 San Pablo Telephone 845-2600

Request sump pump is pumping water to the back of the building; water is going onto the back property driveway; man from 2830 San Pablo called and said he is not sure of the address but it is behind his property.

Report 1-21-71 Inspection reveals sump water piped out rear of bldg along driveway & across sidewalk on San Pablo Ave. I spoke with Mr. Temple of Emerald Packaging who will correct. Check w/bldg who did job & be informed.

Also pointed out no street number displayed. WSK

RESOLUTION NO. 43,761 N.S.

GRANTING PERMISSION TO OLIVER AND KOWES TO INSTALL AND MAINTAIN TWO TEMPORARY TRAILER MOUNTED OFFICE STRUCTURES AT 2821 TENTH STREET DURING THE PERIOD FROM SEPTEMBER 19, 1970 TO FEBRUARY 18, 1971, INCLUSIVE.

BE IT RESOLVED by the Council of the City of Berkeley as follows:

WHEREAS, Oliver and Kowes has applied for permission to install and maintain two temporary trailer mounted office structures at 2821 Tenth Street during the period from September 19, 1970 to February 18, 1971, inclusive; and

WHEREAS, the application has been investigated by the Director of Inspection Services as required by Ordinance No. 413-N.S., and has been approved by all departments of the City concerned with such matter, subject to certain conditions.

NOW, THEREFORE, Be It Resolved that permission be and it is hereby granted to Oliver and Kowes to install and maintain two temporary trailer mounted office structures at 2821 Tenth Street during the period from September 19, 1970 to February 18, 1971, inclusive, subject to the following conditions:

1. An obstruction permit shall be obtained from the City of Berkeley Public Works Department and a fee in the amount of $30.00 for the first month and $25.00 for each month thereafter shall be paid. There shall be filed with the Public Works Department a surety company faithful performance bond in the amount of $7,400.00 or, in lieu thereof, a cash deposit of $350.00.

2. All applicable permits shall be obtained from the Inspection Services Department.

Teamsters Unanimous
1 - 22 - 71 2:00

3. A four (4) foot wide walkway shall be constructed around the temporary office structures. Such walkway shall be level, equipped with handrails, and constructed in such a manner that the gutter will be kept clear.

4. Incandescent lighting for the hours of darkness shall be provided.

5. The structures shall be promptly removed upon termination of the five month period.

6. The permittee shall indemnify and hold harmless the City of Berkeley, its officers and employees from any and all claims for injury or damage to persons or property resulting from granting this permit.

7. The permit granted herein may not be transferred or assigned without the written consent of the City Manager.

8. The permission hereby granted may be revoked by the City Manager of the City of Berkeley at any time without notice upon failure of the permittee to comply with any of the conditions herein set forth, or if, in the exercise of the reasonable discretion of the City Manager, such revocation is necessary in the interest of public health and safety.

9. This resolution will not become effective until the permittee files with the City Clerk of the City of Berkeley a signed copy of this resolution or a letter agreeing to comply with all of the terms and conditions hereof.

Approved as to form:

ROBERT T. ANDERSON
City Attorney

RESOLUTION

No. 43,761 N. S.

Dated May 19, 1970

Adopted by the Council of the City of Berkeley by the following vote:

Ayes: Councilmen DeBonis, May, McLaren, Price, Sweeney, Widener and ~~President Johnson.~~

Noes: None.

Absent: Councilman Dellums.

WALLACE J. S. JOHNSON
Mayor and President of the Council

Attest: ~~Deputy~~ ELIZABETH J. BRICKELL
City Clerk and Clerk of the Council

266.11

2821 10th Street
Berkeley, California

Emerald Packaging, Incorporated
2821 - Tenth Street
Berkeley, California

Attention: Mr. William M. Temple, President

Dear Sir:

This is to confirm our discussion today regarding the sump water drainage being conducted from your property across the public sidewalk on San Pablo Avenue. This installation does not conform to the City of Berkeley Plumbing Code and must be corrected.

We also remind you that a legibly displayed street number is a City requirement.

Your prompt attention to these matters will be much appreciated by all concerned.

Yours truly,

J. S. Atkins, Director
INSPECTION SERVICES DEPARTMENT

William B. King
Housing Representative

Memorandum

TO: WILLIAM C. HARLEY, CITY MANAGER — DATE: May 15, 1970

FROM: JOHN S. ATKINS, Director, Inspection Services

SUBJECT: APPLICATION OF OLIVER AND KOHN, 1935 CARLETON STREET REQUESTING PERMISSION TO INSTALL TRAILER OFFICES AT 2321 - 10TH STREET.

An inspection was made at 2321 - 10th Street on May 14, 1970. It is proposed that two temporary office structures be set up in such a way that one of them will encroach on the sidewalk six and one-half feet leaving thirty inches for pedestrians. Such structures will be needed five months from September 19, 1970.

We recommend approval if the following conditions are met:

1. Obtain obstruction permit from Public Works Department and:

   a) Deposit $350.00 cash or $2,400.00 Bond;
   b) Remit $30.00 for first month's use and $25.00 for each month thereafter.

2. Obtain all applicable permits from Inspection Services.

3. Construct a four-foot-wide walkway around the temporary office structures. Such walkway should be level, equipped with handrails, and constructed in such a manner that the gutter will be clear.

4. Provide incandescent lighting for the hours of darkness.

5. Make provisions for the prompt removal of structures upon termination of the five-month period.

ADDRESS

Form No. 254-86 City of Berkeley

2821 - 10th

COMPLETE

BUILDING PERMIT APPLICATION

X LICENSED CONTRACTORS DECLARATION. I hereby affirm that I am licensed under provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code and my license is in full force and effect.

License Number: B 646640 Classification: B

OWNER-BUILDER DECLARATION. I hereby affirm that I am exempt from the Contractors License Law for the following reason (Section 7031.5, Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he/she is licensed pursuant to the provisions of the Contractors License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he/she is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500):)

☐ I as owner of the property or my employees with wages as their sole compensation will do the work and the structure is not intended or offered for sale (Section 7044 Business and Professions Code: The Contractor's License Law does not apply to an owner of property who builds or improves thereon and who does such work himself or through his own employees provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale.)

☐ I as owner of the property, am exclusively contracting with licensed contractors to construct the project. The Contractor's License Law does not apply to an owner of property who builds or improves thereon and who contracts for such projects with a contractor(s) licensed pursuant to the Contractor's License Law. (Section 7044 Business and Professions Code.)

☐ I am exempt under Section _____ B & PC (Attach Certificate)

Date: _____ Owner: _____

WORKERS' COMPENSATION DECLARATION. I hereby affirm under penalty of perjury one of the following declarations:

☐ I have and will maintain a certificate of consent to self-insure for worker's compensation, as provided for by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued.

X I have and will maintain workers' compensation insurance as required by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued. My worker's compensation insurance carrier and policy number are:

Carrier: ST. PAUL FUND

Policy Number: 14789

(This section need not be completed if the permit is for one hundred dollars ($100 or less).

☐ I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California and agree that if I should become subject to the workers' compensation provisions of Section 3700 of the Labor Code, I shall forthwith comply with those provisions.

Date: 7-3-96 Applicant: Joseph Saar

WARNING: FAILURE TO SECURE WORKERS' COMPENSATION COVERAGE IS UNLAWFUL, AND SHALL SUBJECT AN EMPLOYER TO CRIMINAL PENALTIES AND CIVIL FINES UP TO ONE HUNDRED THOUSAND DOLLARS ($100,000), IN ADDITION TO THE COST OF COMPENSATION, DAMAGES AS PROVIDED FOR IN SECTION 3706 OF THE LABOR CODE, INTEREST, AND ATTORNEY'S FEES.

CITY ORDINANCES

☐ In conformance with City of Berkeley Noise Ordinance No. 5500-N.S., I understand my obligation to comply with Section 13.40.070(7) and work within the prescribed hours.

☐ I am aware of my responsibilities under the Relocation Ordinance.

☐ I have been given the information on the Relocation Ordinance and understand that I have certain responsibilities to perform.

☐ I certify that I have read and shall use to the maximum extent practicable applicable portions of the state Storm-water Best Management Practices Manual for construction activity. A copy of which is available at the Codes and Inspection permit counter.

CALIF. DIV. OF OCCUPATIONAL SAFETY & HEALTH PERMIT CERTIFICATION

I hereby certify that no excavation five (5) or more feet in depth into which a person is required to descend will be made in connection with work authorized by the permit and that no building structure, scaffolding, falsework or demolition or dismantling thereof will be more than thirty-six (36) feet in height (Chapter 32, Group 2, Article 2, Section 301, Title 8 CAC).

As owner-builder I will not employ anyone to do work which would require a permit from the City of Berkeley as noted above unless such person has a permit to do such work from the Division.

DOSH Permit No.: _____

CONSTRUCTION LENDING AGENCY. I hereby affirm that there is a construction lending agency for the performance of the work for which this permit is issued (Section 3097, Civ C).

Lender's Name: _____

Lender's Address: _____

CERTIFICATE OF COMPLIANCE AND AUTHORIZATION OF ENTRY. I certify that I have read this application and state that the information given is correct. I agree to comply with all state laws and city ordinances relating to building construction and authorize a representative of the City of Berkeley, Codes and Inspection Division to enter upon the property for which I have applied for this permit for the purpose of making inspections.

BUILDING PERMIT APPLICATION

☐ **LICENSED CONTRACTORS DECLARATION.** I hereby affirm that I am licensed under provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code and my license is in full force and effect.

License Number: _____ Classification: _____

OWNER-BUILDER DECLARATION. I hereby affirm that I am exempt from the Contractors License Law for the following reason (Section 7031.5, Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he/she is licensed pursuant to the provisions of the Contractors License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he/she is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500):)

☐ I as owner of the property or my employees with wages as their sole compensation will do the work and the structure is not intended or offered for sale (Section 7044 Business and Professions Code: The Contractor's License Law does not apply to an owner of property who builds or improves thereon and who does such work himself or through his own employees provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale.)

☐ I as owner of the property, am exclusively contracting with licensed contractors to construct the project. The Contractor's License Law does not apply to an owner of property who builds or improves thereon and who contracts for such projects with a contractor(s) licensed pursuant to the Contractor's License Law. (Section 7044 Business and Professions Code:)

☐ I am exempt under Section _____ B & PC (Attach Certificate)

Date: _____ Owner: _____

WORKERS' COMPENSATION DECLARATION. I hereby affirm under penalty of perjury one of the following declarations:

☐ I have and will maintain a certificate of consent to self-insure for worker's compensation, as provided for by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued.

☐ I have and will maintain workers' compensation insurance as required by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued. My worker's compensation insurance carrier and policy number are:

Carrier: _____

Policy Number: _____

(This section need not be completed if the permit is for three hundred dollars ($300 or less).

☐ I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California and agree that if I should become subject to the workers' compensation provisions of Section 3700 of the Labor Code, I shall forthwith comply with those provisions.

Date: _____ Applicant: _____

WARNING: FAILURE TO SECURE WORKERS' COMPENSATION COVERAGE IS UNLAWFUL, AND SHALL SUBJECT AN EMPLOYER TO CRIMINAL PENALTIES AND CIVIL FINES UP TO ONE HUNDRED THOUSAND DOLLARS ($100,000), IN ADDITION TO THE COST OF COMPENSATION, DAMAGES AS PROVIDED FOR IN SECTION 3706 OF THE LABOR CODE, INTEREST, AND ATTORNEY'S FEES.

CITY ORDINANCES

☐ In conformance with City of Berkeley Noise Ordinance No. 5500 N.S., I understand my obligation to comply with Section 13.40.070(7) and work within the prescribed hours.

☐ I am aware of my responsibilities under the Relocation Ordinance.

☐ I have been given the information on the Relocation Ordinance and understand that I have certain responsibilities to perform.

☐ I certify that I have read and shall use to the maximum extent practicable applicable portions of the state Stormwater Best Management Practices Manual for construction activity. A copy of which is available at the Codes and Inspection permit counter.

CALIF. DIV. OF OCCUPATIONAL SAFETY & HEALTH PERMIT CERTIFICATION

I hereby certify that no excavation five (5) or more feet in depth into which a person is required to descend will be made in connection with work authorized by the permit and that no building structure, scaffolding, falsework or demolition or dismantling thereof will be more than thirty six (36) feet in height (Chapter 32, Group 2, Article 2, Section 341, Title 8 CAC).

As owner builder I will not employ anyone to do work which would require a permit from the City of Berkeley as noted above unless such person has a permit to do such work from the Division.

DOSH Permit No: _____

CONSTRUCTION LENDING AGENCY. I hereby affirm that there is a construction lending agency for the performance of the work for which this permit is issued (Section 3097, CIV C).

Lender's Name: _____

Lender's Address: _____

CERTIFICATE OF COMPLIANCE AND AUTHORIZATION OF ENTRY. I certify that I have read the application and state that the information given is correct. I agree to comply with all state laws and City ordinances relating to building construction and authorize a representative of the City of Berkeley, Codes and Inspection Division to enter upon the property for which I have applied for this permit for the purpose of making inspections.

Standard Comments

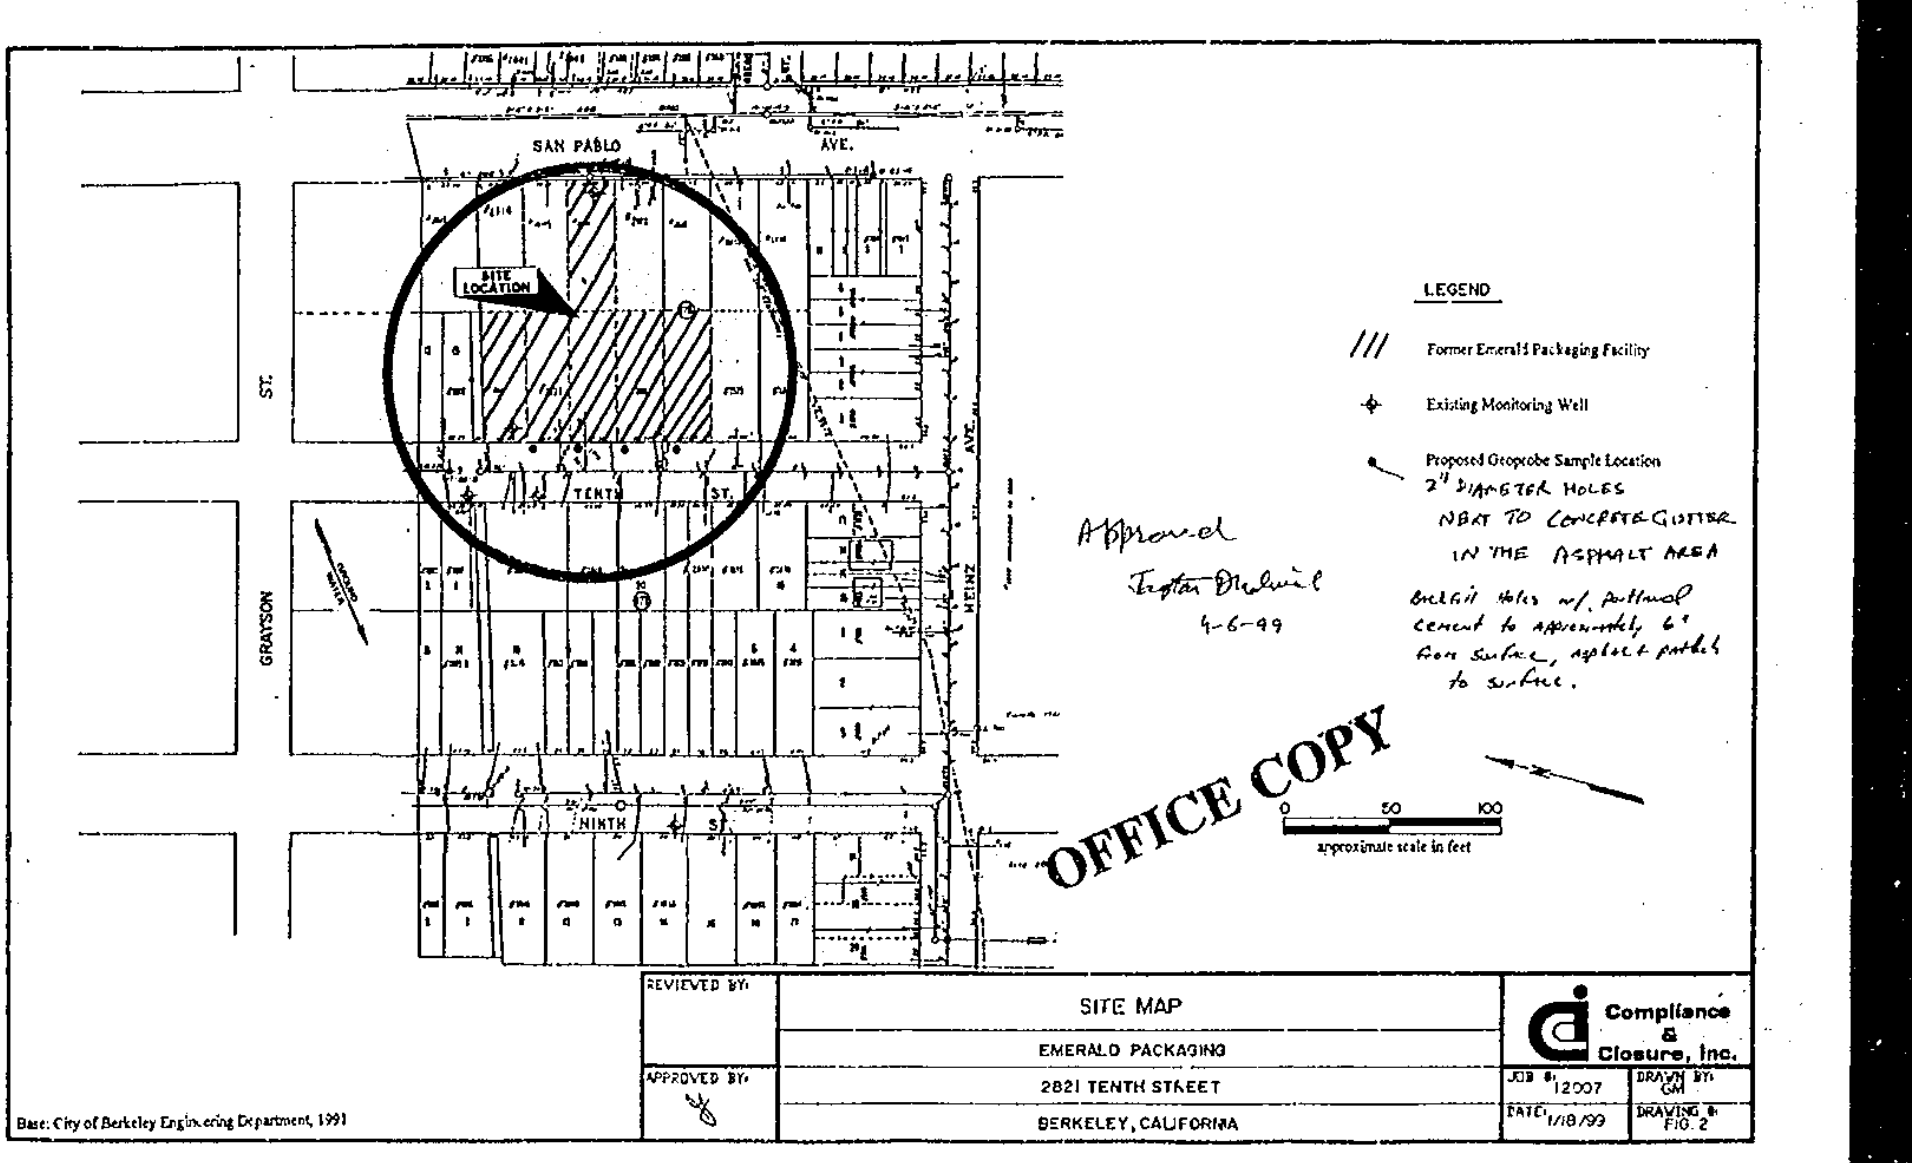
1. Temporary "No Parking" signs may be used only for the following:
   a) Curb clearance for house moving or heavy equipment moving.
   b) Curb clearance to provide for loading or unloading of materials.
   c) Curb clearance to provide access to property for construction or demolition.
   d) Curb clearance to allow temporary use of curb area for other than parking use.

2. **Signs must be posted at least 24 hours before prohibitions are enforced.** The date and time for which "No Parking" is desired must be clearly indicated on the sign. Signs must be removed to permit parking when the work is interrupted, and then reposted 24 hours before resuming the work.

3. If any construction or service vehicle is an essential part of the job and must be stopped for more than 20 minutes in the temporary "No Parking" zone herein established, a cab card must be obtained and displayed on the driver's side of the vehicle. Requests for cab cards shall be made at time of permit issuance.

4. This permit does not constitute a waiver for the necessity of obtaining a Street Use Permit if required under Ordinance No. 4111-N.S.



5. Signs must be removed from the street immediately upon expiration or work completion.

*Note: Permit does **NOT** override **STREETSWEEPING**.*

I, HEREBY AGREE, to indemnify and hold harmless the City of Berkeley and its officers and employees from any and all claims arising from or out of work connected with this permit and to comply with the above regulatins and to the satisfaction of the Director of Public Works. I recognize that failure to comply with required regulations will preclude further issuance of signs to me.

MEMORANDUM

October 1, 1990

To: Carmen Nevarez, M.D., Berkeley City Health Officer
Rafat Shahid, for Carl Smith, Alameda County Health Officer
and Alameda County Board of Supervisors
Bay Cities News Service

From: Vincent Spencer, Manager of Health Protection

Subject: ILLEGAL DISCHARGE OR THREATENED ILLEGAL DISCHARGE OF HAZARDOUS WASTE FROM UNDERGROUND STORAGE TANKS AT 2821 - 10TH STREET

Pursuant to Section 25180.7 of the California Health and Safety Code, we are transmitting to you the attached reports.

If you have any questions concerning this matter, please contact me at (415) 644-6510.

Approved for Distribution:

MICHAEL F. BROWN
City Manager

cc: Emmett E. Jones, Assistant City Manager, Health and Human Services
Gary Cates, Fire Chief, Berkeley Fire Department
Eve Bach, Assistant City Manager, Planning and Community Development
Jordan Rich, Assistant City Manager, Public Works
Gil Jensen, Alameda County Senior Deputy District Attorney

HAZARDOUS WASTE ILLEGAL DISCHARGE REPORT

I. SITE INFORMATION

A. Location and Type of Site

2821 - 10th Street
Berkeley, CA
Industrial Area
Emerald Packaging Inc.

B. Description of Hazardous Waste(s)

Analysis of water samples taken from monitoring wells around an underground storage tank at the above location found sufficient concentrations of Acetone, Isopropanol and Trichloroethane and lessor concentrations of other volatile organic solvents. The tank has been tested and found not to be leaking. The business owner claims that the tank is not leaking.

C. Threat to Public Health, Safety and Environment

The business owner has been granted a permit to remove the tank. We anticipate this will occur during the week of October 1, 1990. The removal of the tank would allow physical inspection of the tank and surrounding soil.

As in all tank removals, samples will be collected and tested to determine the extent of the contamination, if any. If contamination is found, the owner will be notified in writing that he must follow the Regional Water Quality Control Board Guidelines and conduct a subsurface investigation and clean up the site as required under their regulations, which the City enforces.

ILLEGAL DISCHARGES OR THREATENED ILLEGAL DISCHARGES OF A HAZARDOUS WASTE THAT ARE LIKELY TO CAUSE SUBSTANTIAL INJURY TO THE PUBLIC HEALTH OR SAFETY ARE TO BE REPORTED PURSUANT TO SECTION 25180.7 OF THE CALIFORNIA HEALTH AND SAFETY CODE. THIS REPORT IS BASED UPON THE BEST AVAILABLE INFORMATION AT THE TIME THIS REPORT IS PREPARED. INFORMATION CONTAINED IN THIS REPORT MAY HAVE NOT BEEN VERIFIED DUE TO THE MANDATORY REQUIREMENT THAT REPORTS BE MADE WITHIN SEVENTY-TWO (72) HOURS OF NOTIFICATION OF AN ILLEGAL DISCHARGE.

Re: leak in baffled underground tank

Dear Mr.Garriety:

During an inspection of an underground tank test performed on 11 April 1990, Britt Johnson discovered the second section of the baffled tank contained water, was sealed off and is not being used. If the water came into the tank through a leak, and then it is likely that the previously stored material had leaked out. In view of this, a subsurface investigation will be necessary to determine the existence and extent of contamination.

The California Water Quality Control Board, San Francisco Bay Region (RWQCB), requires a subsurface investigation to be conducted at all sites having confirmed releases from underground storage tanks containing hazardous substances. Of immediate concern is the possibility of the presence of floating product and vapors and their potential for migration into underground structures such as basements, utility vaults, sewers and storm drains (explosion hazard). In order to address these concerns, it is necessary to install ground water monitoring well(s) where confirmed releases have occurred. RWQCB guidelines, revised to 9 November 1989, with Attachment 1-Guidelines for monitoring wells (attached) documents should be followed for site investigation and mitigation.

RWQCB is responsible for the oversight of soil and ground water pollution cases which threaten or impact waters of the State. Due to the large number of fuel leak cases reported, the RWQCB staff is not able to respond to each incident. In Berkeley, the Division of Environmental Health works with the RWQCB and is taking the lead role for case handling. Regardless of the level of oversight from agencies, you are responsible for the timely reporting, investigation, and cleanup of soil and ground water pollution such that the beneficial uses of waters of the State are protected, and appropriate policies are in compliance.

The California Administrative Code, Title 23, Section 2652, requires all unauthorized releases to be reported. **An engineering report containing the following information must be submitted within 60 days:**

1. List of type, quantity, and concentration of hazardous substances released.

2. The results of all investigations completed to determine the lateral and vertical extent of soil or ground water or surface water contamination due to the release.

3. Assess the local and regional hydrogeology as appropriate to evaluate migration potential and actual or potential impacts of soil or ground water pollution on beneficial uses of surface and/or ground water.

4. Evaluate and implement appropriate remedial action alternatives, and the approximate cost of these actions.

5. Remove all floating or free product. Dissolved constituents and polluted soil should be remediated consistent with State Water Resources Control Board Resolution No. 68-16.

6. Method and location of disposal of the released hazardous substance and any contaminated soils or ground water or surface water (indicate whether a hazardous waste manifest(s) is utilized).

The report should include a proposal for remedial actions (such as soil excavation or removal of free product from ground water), along with a time schedule for their implementation.

It is our understanding that the Department of Health Services (DHS) Toxic Substances Control Division, considers soils contaminated at concentrations which exceed 1,000 ppm of total hydrocarbons as hazardous waste and should be managed as such. Soils contaminated with less than 1,000 ppm may be managed as non-hazardous but are subject to Waste Discharge Requirements of the RWQCB.

The owner/operator is responsible for the enlistment of a qualified professional to assume the technical responsibility for performance, interpretation and report preparation for the investigation. The RWQCB considers a State Certified Geologist, Engineering Geologist or a State Registered Civil Engineer as qualified for the above.

All proposals and reports which contain engineering or geological information, interpretations, or other opinions as specified by the Business and Professional Code must be signed and STAMPED by an appropriately registered professional. In general, all reports on investigation and remediation require this type of signature. Each individual entry in the Quarterly Summary Report need not be signed, provided that the individual technical report for each site is properly signed, and that the Summary Report is signed by an appropriate professional familiar with all cases in the summary.

All proposals and reports submitted must be accompanied by a cover letter from the responsible party which states, at a minimum, the following:

> "I declare, under penalty of perjury, that the information and/or recommendations contained in the attached proposal or report is true and correct."

This letter must be signed by an officer or legally authorized representative of your company.

Until cleanup is complete, you must submit reports to the City of Berkeley,

Division of Environmental Health and the California Water Quality Control Board, San Francisco Bay Region, 1800 Harrison Street, Room 700, Oakland, CA 94612, every (3) months, or at a more frequent interval specified by the City of Berkeley or the Regional Board. The reports shall include the information requested above in the format attached.

Under the auspices of the RWQCB and DHS, the City of Berkeley, Environmental Health Division will be responsible for review and approval of investigation and cleanup plans. The City of Berkeley will actively review and/or comment on all investigation and remediation reports submitted.

You should proceed per the RWQCB "Guidelines" to investigate and clean up contaminated soils, groundwater and/or free product. The City of Berkeley Environmental Health staff will be able to provide limited guidance over the telephone.

All cases are subject to review. If it is evident that investigation and cleanup has not been done in a manner that protects public health and the environment, you may be subject to civil and criminal penalties.

Should you have questions, please contact me at (415) 644-6510.

Sincerely,

Re: Emerald Packaging
2821 Tenth Street

Personal Identifying Information

Regarding the inspection of your dispensing operation, the use of listed self closing valve or self closing faucet is acceptable for the flammable liquids which cannot be pumped. Liquids which are not too viscous to be pumped, shall be dispensed by a top draw pump. The grounding procedure used on the 55 gallon drums is in need of repair. Repair as needed and provide a back up system of grounding cable and clamp for each drum. It is still my recommendation that the 55 gallon drums be placed in a rack that holds them on their side. If that can't be done, then some other earthquake protection should be provided.

As a reminder, you are limited to 2,500 container gallons of flammable liquid storage in your flammable liquid handling room. Empty containers, unless properly cleaned, are to be treated the same as full containers and counted as such.

If you have any questions, please call this office at 644-6158.

Sincerely,

David L. Orth
Acting Assistant Fire Marshal

RE: Sprinkler System
Flammable Liquids Storage Room

Dear M Personal Identifying Information

This is to confirm information developed as a result of our recent visit to your plant site and our phone conversation of November 7, 1974.

We have checked with Personal Identifying Information of the Insurance Services Office of California who has indicated that, by present standards, polyethylene sheets in rolls or stacked in cardboard cartons is considered to be a Class IV commodity. In the warehouse building (Section III), these articles are stored on slatted wooden pallets on single and double metal racks, no wider than four feet with 8-foot aisles to a maximum height of 20 feet. For such storage, this warehouse area should be sprinklered with a hydraulically balanced sprinkler system calculated to deliver .415 GPM/4,000 sq. ft., or any point on curve E of Fig. 6-12-1d in NFPA Pamphlet 231C, using 286 degree sprinklers. These calculations contemplate the above storage methods as being the "worst possible condition." Calculations contained in a letter to you from Mr. Vic Descovich of Automatic Sprinkler Engineering Company on September 23, 1974 are deficient, in that they contemplate only 16-foot palletized storage. Let me stress the importance of having the sprinkler system calculated to deliver enough water at adequate pressures for the hazards involved. In addition, to ensure maximum insurance rate credit for the sprinkler system, the proper hydraulic calculations should be made.

Rec'd 1-21-75 HF

The manufacturing area (Section II) should be calculated for an ordinary hazard, Group III occupancy to deliver .18/3,000 using 286 degree sprinklers to contemplate the hazard of printing on plastic sheeting. The small warehouse (Section I) will have Class IV commodities stored on wood pallets to a maximum height of 15 feet. This area should be calculated to deliver .21/2,400 using 286 degree sprinklers. The flammable liquids storage room should be provided with sprinklers on an Extra Hazard Pipe Schedule.

Regarding the flammable liquids storage room, for the proper protection of this hazard, we recommend concrete block walls, properly reinforced, filled and grouted with a liquid tight seal around the entire perimeter of the room, including the doorway rising four inches above the floor. The opening into the compressor room should be filled with masonry materials similar to the new wall for this room and the pedestrian opening into the building should be through a less hazardous area. Doorways from the flammable liquids room opening into the building should be UL-approved, Class A, 3-hour fire doors.

The ceiling should be masonry, designed with a fire-resistance of three hours, approved by the Underwriters Laboratories. You should obtain the services of a licensed architect for assistance in this matter. In addition, all electrical wiring in the flammable liquids storage room should be approved for Class I atmospheres, according to Article 500 of the National Electric Code, and all flammable liquids containers should be properly grounded and include grounding straps connected from the drum to the filled container while filling.

The above calculations should be used when obtaining future sprinkler bids and we suggest that you obtain as many bids as possible. Preliminary sprinkler plans should be approved by the Insurance Services Office of California and by this office prior to construction.

Very truly yours,

Steve Neville

Personal Identifying Information

We are pleased to confirm our quotation in the amount of $21,984.00 for the installation of a fire sprinkler system in your plant as follows:

A new 6" fire service connection to the existing city water main, and Emerald would pay them directly for their installation.

Contractor would connect to their valve at the curb and install new underground piping to main riser at the front of the building. We include the cost of breaking and replacing the sidewalk.

The main riser will contain the main control valve, alarm valve and the water motor gong, fire department connection, inspectors test, guages, etc. as required. From the main riser piping will be installed to protect all areas of the three buildings, a total of approximately 25,000 sq. ft.

In the large warehouse building, the sprinkler system will be hydraulically designed to deliver a density of .415 gpm over the most remote ~~4,000~~ 2,400 sq. ft., and sprinklers will also be provided in the attic space and below the ceilings of the office areas.

In the middle building where printing is taking place, sprinklers will be installed on a calculated system to a density of .18 gpm over 3,000 sq. ft., and sprinklers will also be provided under the mezzanine, under the arch way of the press and below the ceiling of the plant office.

In the far building where the Ink Storage occurs, sprinklers will be installed on a hydraulically calculated system with a density of .21 gpm over 4,000 sq. ft. Sprinklers will also be provided in the existing ink room, toilet rooms, and under the loading dock canopy. The sprinklers will be spaced in to accomodate the proposed new walls of the ink storage area. This piping will be in accordance with an extra hazard schedule.

Rec'd
1-21-75
N.L.

October 22, 1974

A system of fire hose racks and piping will be installed, one hose rack in each building, with required control valve.

The working drawings and the completed installation shall merit the acceptance of the Insurance Services Office, the Fred S. James Co., and the Berkeley Fire Marshal.

We HAVE NOT INCLUDED sprinklers in the storage racks in the warehouse area or any exterior exposure sprinklers.

We thank you for the opportunity to submit our quotation and guarantee this price for (30) days.

sincerely,
ALLIED FIRE PROTECTION

Mr. Gary Mulkey
Compliance & Closure, Inc.
7020 Koll Center Parkway, Suite 134
Pleasanton, CA 94566

Subject: Request for Site Closure, Additional Information
Former Emerald Packaging Facility
2821 10th Street
Berkeley, California

Dear Mr. Mulkey:

The City of Berkeley Toxics Management Division (TMD) has reviewed Compliance & Closure Inc.'s (CCI) "Additional Information" letter dated September 11, 1998, for the former Emerald Packaging Facility located at 2821 Tenth Street in Berkeley, California. The TMD has the following responses to the Additional Information letter and site closure request.

Impact to Groundwater
Gasoline Constituents

Gasoline-impacted groundwater has been reported at elevated concentrations at upgradient grab-sample locations B-2 and B-3 and to a lesser extent from other sampling areas. Gasoline constituents are absent from the upgradient monitoring well MW-5. Groundwater samples from B-2, B-3, and MW-1 did not detect 1,1-DCA, suggesting the 1,1-DCA may not be associated with the off-site source of gasoline contaminated groundwater.

Acetone and MEK

Acetone and methyl-ethyl ketone (MEK) were detected in water samples from MW-1. MEK has not been detected at downgradient locations (MW-2, MW-3, or B-4) or from upgradient locations. Acetone and MEK are reported to have never been stored or used in the former Emerald Packaging underground storage tanks, indicating an alternative source of these constituents. High volatility, miscibility, and vapor pressure have been postulated to explain the absence of these constituents in downgradient monitoring wells.

These characteristics (high volatility, miscibility, and vapor pressure) and the absence of MEK and acetone in upgradient, cross-gradient, or downgradient locations suggest an on-site source of these materials.
However, since MEK and acetone have diminished in MW-1 to concentrations below standard detection limits, no further monitoring or assessment, with respect to the MEK or acetone associated with conditions at MW-1, is required at this time.

Chlorinated Hydrocarbons - Trichloroethylene

The chlorinated hydrocarbons (VOC) detected in downgradient wells MW-2 and MW-3 and in grab-water samples from B-4 appear to contain a distinctly different suite of constituents from those detected in groundwater from MW-1. These results may be consistent with off-site releases impacting leaking sewer lines or may be the result of undiscovered releases from other sources. The former Emerald Packaging Company is upgradient of the detected VOCs in groundwater and is considered a potential source for these constituents.

Groundwater Monitoring

Monitoring well MW-5 is appropriately located to monitor upgradient groundwater quality. VOCs and gasoline constituents have not been detected in monitoring well MW-5. The monitoring wells west and downgradient of the site show significant VOCs in groundwater and their source has not been identified. The sewer lines, other utilities, and adjacent properties are postulated by CCI as potential sources of the VOCs in the groundwater, although no substantive groundwater analysis of these areas has been performed. Samples from the underground tank excavation, MW-5, and MW-1 are the only on-site areas evaluated.

Monitoring well MW-1 is reported to be anomalous with respect to the regional conditions indicated by monitoring wells MW-2, 3, 4, and 5. MW-1 is reported to have: unconformable water levels; high specific conductance relative to other monitoring wells; a peculiar sewage odor; the presence of coliform bacteria; possible precipitate or sludge-forming reactions; and uncharacteristic water quality as compared to upgradient and downgradient water quality. The TMD, on the basis of these conditions, considers MW-1 to be significantly limited in its representation of the site groundwater quality.

Requirements for Site Closure

The TMD requires the submittal of a work plan to determine if the VOCs in downgradient monitoring wells are from the Emerald Packaging or are from an off-site source. Because of the suspect nature of the groundwater quality samples from monitoring well MW-1, the TMD recommends a scope of work to collect representative soil and groundwater samples from locations which accurately represent the subsurface conditions at the former Emerald Packaging site. The absence of significant VOCs at the site and/or the demonstration of an offsite source for the VOCs reported for downgradient monitoring wells would allow the TMD to recommend site closure with no requirement for further remedial or investigative action.

The TMD recognizes Emerald Packaging's record of diligence in resolving the soil and groundwater quality issues and we look forward to conclusion of these remaining issues in a timely manner. If you have any questions or would like to schedule an appointment to discuss the required site investigation work, please call us at (510) 705-8150.

Please submit $360.00 for staff time to review the additional information letter and to prepare this response to the request for site closure. This payment is due within 30 days.

Sincerely,

Geoffery A. Fiedler, RG
Hazardous Materials Specialist

Subject: RE: Meyer Sound HMBP facilities

Should I rename the 3 building areas by the address of the EPA number for each building. For example, instead of 2832 San Pablo, use **1033 Heinz** as that is the address on The EPA number? Also do I need to add the 2 new addresses we just moved into even though they are office and ware house space with no chemical use or storage?

1033 Heinz would include 2832 san Pablo Ave and 1033 Heinz
2817 Tenth street would include 2817 Tenth, 2807 tenth , and 2809 Tenth
2976 Tenth street would include 2976 San Pablo, 2900 San Pablo, 2910 San Pablo. 2912 San Pablo, 2930 San Pablo,2936 san Pablo, 2954 San Pablo ,1090 Heinz , 1080 Heinz and 1020 Heinz .
The additional new spaces are 2832 Tenth and 2836 Tenth. With no chemical use or storage.

I have attached a different company map that shows the location of these addresses.

Subject: Meyer Sound HMBP facilities

Hi Gary, Carrie and I met and reviewed Meyer Sounds' maps. It looks like you do have 3 facilities now. They would be:

1. 2807 10th Street, 2809 10th Street and 2817 10th Street
2. 1033 Heinz Street (which is currently filed as 2832 San Pablo); and
3. 1080 Heinz, 1020 Heinz, 2976 San Pablo

I have attached maps that I marked up a bit based on my understanding of our discussion. Carrie needs to set up additional accounts for you. SO if you want to get started, you can start with the 2832 San Pablo facility which includes 1033 Heinz.

Let me know if you have further questions.
Thanks,
Meridith

Re: Request for Closure
2821 10th Street – Former Emerald Packaging

Dear Ms. Graham:

The Toxics Management Division (TMD) has reviewed Compliance and Closure, Inc.'s (CCI) "Site Closure Summary" report dated August 17,1999. The report includes a relatively complete site history which includes the chemical storage history of the former underground storage tank, the results of the sampling of the soil and groundwater at the time of removal, site environmental investigations, groundwater quality history, and relevant correspondence regarding the groundwater contamination concerns. The TMD is satisfied that the site investigation is complete and that the environmental conditions have been appropriately addressed. Based on the information in the above-referenced report and the provision that the information provided in the report is accurate and representative of site conditions, no further investigation or remedial action is required.

The investigations at the site found fuel constituents in upgradient wells and chlorinated solvents (VOCs) in downgradient wells. The source does not appear to be the result of releases or residual contamination from the former Emerald Packaging site. The referenced summary report includes an investigation of groundwater quality from areas between the facility and the downgradient monitoring wells. The investigation was performed at the request of the TMD to assess potential preferential pathways, such as current and former drains and sewer lines. A copy of the Site Closure Summary report by CCI and Site Closure Summary Forms are attached for your review.

I have attached a copy of the Site Closure Summary Report by Compliance and Closure, Inc., for your review. Please give me a call if you have any questions at (510) 705-8150.

Sincerely,

Geoffery A. Fiedler
Hazardous Materials Specialist

Oakland, California 94612

Subject: No Further Action Request For LUST Case – Emerald Packaging, Inc. 2821 10th St, Berkeley, Alameda County

Dear Ms. McCaulou:

The City of Berkeley, Toxics Management Division (TMD) has reviewed project files and site assessment documentation for the former Emerald Packaging site. TMD reviewed the attached Site Closure Summary dated August 17, 1999 and the non-petroleum case was subsequently approved for no further action by the RWQCB on October 19, 2000 (attached). We believe the LUST case is erroneous, possibly related to an upgradient, offsite, detection of gasoline and related constituents from sampling location B-2. TMD would like to correct this apparent error in GeoTracker and close the erroneously listed LUFT case. The TMD recommends closing the petroleum case in GeoTracker, as there is no indication of a petroleum release at the Former Emerald Packaging site.

The attached Site Closure Summary Form and excerpted portions of the site characterization and monitoring reports are included for your consideration. Please give me a call if you have any questions.

Sincerely,

Geoffery A. Fiedler
Hazardous Materials Specialist, II

Re: Former Emerald Packaging Facility – Request for Closure
2821 Tenth Street

Dear Mr. Kelly:

The Toxics Management Division (TMD) has reviewed Compliance and Closure, Inc.'s (CCI) "Site Closure Summary" report dated August 17,1999. The report includes a relatively complete site history which includes the chemical storage history of the former underground storage tank, the results of the sampling of the soil and groundwater at the time of removal, site environmental investigations, groundwater quality history, and relevant correspondence regarding the groundwater contamination concerns. The TMD is satisfied that the site investigation is complete and that the environmental conditions have been appropriately addressed. Based on the information in the above-referenced report and the provision that the information provided in the report is accurate and representative of site conditions, no further investigation or remedial action is required.

The investigations at the site found fuel constituents in upgradient wells and chlorinated solvents (VOCs) in downgradient wells. The source does not appear to be the result of releases or residual contamination from the former Emerald Packaging site. The referenced summary report details an investigation of groundwater quality from areas between the facility and the downgradient monitoring wells. The investigation was performed at the request of the TMD. The investigation was developed to assess potential preferential pathways, such as current and former drains and sewer lines. A copy of the Site Closure Summary and Site Closure Summary Form are attached for your review.

The TMD will forward a request for closure to the Regional Water Quality Control Board for final closure determination. You will receive an invoice for three hours of staff time, $288.00, for staff review of documents, preparation of closure letters to you and to the Regional Water Quality Control Board, and administrative work. Please give me a call if you have any questions at (510) 705-8150.

Sincerely,

Tabatha,

I have transferred the two new facilities to the Meyer Sound business organization in CERS. You now have access to all Meyer Sound facilities in Berkeley. Please be aware that if you submit any submittal elements in CERS for any of the facilities, you will be required to submit a full new HMBP through CERS, including complying with City of Berkeley thresholds.

Alternatively, you may update the information in the local reporting system, www.berkeleycupa.com, for this reporting year. Unfortunately, this information in the local reporting system has not yet been transferred to CERS. We anticipate this information will be transferred to CERS in the next 1-2 months where you will have access to that information in CERS, along with inspection and enforcement information.

Please let me know if you have any questions.

Summary of Violations and Notice to Comply

HMBP

Violation Observed: **1010004** **MINOR VIOLATION** **Comply by 11/18/2021**

Failure to electronically submit complete and accurate hazardous material inventory information for all hazardous materials on site at or above reportable quantities. HSC 6.95 25506, 25505(a)(1), 25508(a)(1), 25508(a)(3)

Observation and Corrective Action:

Observation: Hazardous materials inventory currently in CERS is very inaccurate.

Corrective Action: Update inventory to reflect materials on-site including approximate annual waste throughput within 30 days.

General Comments and Observations

HAZ WASTE GENERATOR

Toxics Management Division (TMD) met with facility representative on-site to conduct routine Hazardous Materials Business Plan (HMBP), Hazardous Waste (HW), and Stormwater (SW) inspections. EPA ID# CAL000356052 was active at time of inspection. TMD observed Fire Extinguishers current as of November 2020, eyewash station, first aid kit, and spill kits. A part for the speaker system is dipped in a large bath of pulp and ink, which is discharged to POTW; per operator, this bath is nonhazardous. Employee training records were provided to inspector. Waste was properly stored and labeled. Hazardous Waste manifests were provided to the inspector.

TMD observed:
-1x 55gal mixed solvent dated 9-02-2021
-1x 55gal flammable liquids dated 8-03-2021

OFFICIAL INSPECTION REPORT

Facility Name : MEYER SOUND LABORATORIES INC. Inspection Date : 9/29/21

HMBP

Toxics Management Division (TMD) met with facility representative on-site to conduct routine Hazardous Materials Business Plan (HMBP), Hazardous Waste (HW), and Stormwater (SW) inspections. TMD observed Fire Extinguishers current as of November 2020, eyewash station, first aid kit, and spill kits. A part for the speaker system is dipped in a large bath of pulp and ink, which is discharged to POTW; per operator, this bath is nonhazardous. Employee training records were provided to inspector.

TMD observed:
*Chemical Storage Room:
-14x 5gal misc. flammables
- 10x 55gal hazardous liquids
- 3x 30gal hazardous liquids
Mixing Room:
- 2x flammable liquid waste
- 6x 55gal flammble liquids
- 1x 15gal solvent (in mixing tank)
- 16x 5gal hazardous materials

This report shall serve as a "Notice to Comply" for minor violations, and a "Notice of Violation" for Major violations. You are hereby ordered to correct the above noted violations within 30 days, or as noted in the Summary of Violations above.
Formal enforcement and/or penalty assessment may be initiated for any violations noted, and for those not corrected in a timely manner.

By signing this document, I have been notified of the regulatory violations noted in this report. I understand that failure to return to compliance within the specified time frame could result in a re-inspection of this facility with an additional fee and possible enforcement action including penalties.

UNIFIED PROGRAM CONSOLIDATED PERMIT AND REGISTRATION
City of Berkeley Toxics Management Division

CONDITIONS:

In order to maintain this Consolidated Permit and Registration, the permittee/registrant must comply with the following:

1233. This permit is subject to all applicable local, state and federal ordinances, laws, statutes, codes, rules and regulations relating to the storage, handling, generation and disposal of hazardous materials and/or hazardous waste.

1234. This permit is not transferable. Any permit or registration issued to a particular person or for a designated place, operation, purpose or object shall not be valid for use by or for any other person, place, operation, purpose or object.

1235. The permittee/registrant shall retain this permit at its facility, immediately available upon request by an inspector or the hazardous materials manager.

1236. The permittee/registrant shall notify the Toxics Management Division within 30 days of any changes in the operation of the facility that may affect the permit, or changes of the owner or operator.

1237. The permittee/registrant shall pay an annual fee as designated each year, and all applicable state surcharge fees.

1238. The permittee/registrant shall authorize representatives of the Toxics Management Division to enter the facility for inspection purposes to ascertain compliance and cause correction of any violation of the Unified Program Permit/Registration Conditions and of any applicable ordinances, codes, laws, statutes, rules, or regulations.

1239. The permittee/registrant shall take all necessary steps to ensure the discovery, containment and clean up of any confirmed or unconfirmed unauthorized release of any hazardous material/hazardous waste and shall notify the Toxics Management Division of such unauthorized release if the release or threatened release presents or may present a significant threat to human life, property or the environment.

1240. For hazardous materials sites, at least 45 days prior to the closure of a regulated unit or the facility, the permittee/registrant will submit a closure application to the Toxics Management Division addressing the appropriate removal of all hazardous materials and hazardous wastes from the facility.

Failure to comply with any of the foregoing conditions may result in revocation of this permit and/or a penalty assessment.

HAZARDOUS MATERIALS INSPECTION AND VIOLATION REPORT

Date: 4-16-15 Time: 1500 Page: 1 of 2
Facility Name: Meyer Sound Labs, Inc.
Address: 2832 Tenth St. Phone: 486-1166
Owner/Operator Name: Meyer Sound Labs, Inc.
Facility Representative(s): Gary Robinson

Permitted CUPA Activities: ☒ HMBP ☒ HW (☐ LQG ☒ SQG ☐ CESQG) ☐ UW ☐ TP (TIER: _____) ☐ UST ☐ APSA ☐ CalARP
Inspections Conducted: ☒ HMBP ☒ HW (☐ RCRA LQG) ☐ UW ☐ TP (TIER: _____) ☐ UST ☐ APSA ☐ CalARP ☒ SW ☐ GB
Unannounced: ☐ Yes ☒ No
Purpose of Inspection: ☒ Routine ☐ Follow-up Inspection ☐ RTC QA ☐ Closure ☐ Permit Screen ☐ Other _____
Consent Granted for: ☒ Inspection ☒ Photos (include log) ☐ Samples; Consent Granted By: G. Robinson

SUMMARY OF VIOLATIONS, CORRECTIVE ACTIONS, FINDINGS:

Class (M, II, I)	Violation Code/ Observation and PE	Citation, Description, Corrective Action Required, and/or Observation
		Here today to inspect for hazardous materials/wastes and Stormwater Pollution Prevention Compliance
	OBS HMBP	Locations, amounts, and types of haz. mats. are consistent with 2015 HMBP Submittal. Training records maintained
		appropriate to facility operations and chemical handling.
	OBS Haz Waste	Training, manifest records, container, and waste management
		labeling and records are complete. Ref. Ecos. Per ERP/Contin. Plan.
	OBS Storm.	Limited potential for non-stormwater discharge. Loading
		dock and surrounding parking areas clean & well maintained.
		No observed HAZMAT, haz waste, or Stormwater
		violations.

Note: The facility is subject to re-inspection at any time (re-inspection fees may apply).

☐ CUPA violations cited on page(s) _____ shall be corrected within ____ days.
☐ SW violations cited shall be corrected within____ days or before the next rain event.
☐ Submit Certification of Return to Compliance form within 30 days.

I. FACILITY IDENTIFICATION

FACILITY ID # (Agency Use Only)	FA0000928 [1]	EPA ID # (Hazardous Waste Only) cal000356050 [2]
BUSINESS NAME (Same as Facility Name of DBA-Doing Business As)	MEYER SOUND LABORATORIES INC. [3]	
BUSINESS SITE ADDRESS	2817 TENTH ST [103]	
BUSINESS SITE CITY	BERKELEY [104]	CA ZIP CODE 94702 [105]

II. ACTIVITIES DECLARATION

NOTE: If you check YES to any part of this list, please submit the Business Owner/Operator Identification page.

Does your facility…	If Yes, please complete these pages of the UPCF….	
A. HAZARDOUS MATERIALS Have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	☒ YES	HAZARDOUS MATERIALS INVENTORY – CHEMICAL DESCRIPTION
B. REGULATED SUBSTANCES Have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	☐ YES	Coordinate with your local agency responsible for CalARP.
C. UNDERGROUND STORAGE TANKS (USTs) Own or operate underground storage tanks?	☐ YES	UST FACILITY (Formerly SWRCB Form A) UST TANK (one page per tank) (Formerly Form B)
D. ABOVE GROUND PETROLEUM STORAGE Own or operate ASTs above these thresholds: Store greater than 1,320 gallons of petroleum products (new or used) in aboveground tanks or containers.	☐ YES	NO FORM REQUIRED TO CUPAs
E. HAZARDOUS WASTE Generate hazardous waste?	☒ YES	EPA ID NUMBER – provide at the top of this page
Recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	☐ YES	RECYCLABLE MATERIALS REPORT (one per recycler)
Treat hazardous waste on-site?	☐ YES	ON-SITE HAZARDOUS WASTE TREATMENT – FACILITY ON-SITE HAZARDOUS WASTE TREATMENT – UNIT (one page per unit)
Treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	☐ YES	CERTIFICATION OF FINANCIAL ASSURANCE
Consolidate hazardous waste generated at a remote site?	☐ YES	REMOTE WASTE / CONSOLIDATION SITE ANNUAL NOTIFICATION
Need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	☐ YES	HAZARDOUS WASTE TANK CLOSURE CERTIFICATION
Generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month, or accumulate at any time, 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate or accumulate at any time more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	☐ YES	Obtain federal EPA ID Number, file Biennial Report (EPA Form 8700-13A/B), and satisfy requirements for RCRA Large Quantity Generator.
Household Hazardous Waste (HHW) Collection site?	☐ YES	See CUPA for required forms.

F. LOCAL REQUIREMENTS [15]

(You may also be required to provide additional information by your CUPA or local agency.)

CALIFORNIA ENVIRONMENTAL REPORTING SYSTEM (CERS)

CONSOLIDATED EMERGENCY RESPONSE / CONTINGENCY PLAN

Prior to completing this Plan, please refer to the INSTRUCTIONS FOR COMPLETING A CONSOLIDATED CONTINGENCY PLAN

A. FACILITY IDENTIFICATION AND OPERATIONS OVERVIEW

FACILITY ID # 1.	CERS ID A1.	DATE OF PLAN PREPARATION/REVISION A2.
FA0000928		

BUSINESS NAME *(Same as Facility Name or DBA - Doing Business As)* 3.
MEYER SOUND LABORATORIES INC.

BUSINESS SITE ADDRESS 103.
2817 TENTH ST

BUSINESS SITE CITY 104.		ZIP CODE 105.
BERKELEY	CA	94702

TYPE OF BUSINESS (e.g., Painting Contractor) A3.	INCIDENTAL OPERATIONS (e.g., Fleet Maintenance) A4.

THIS PLAN COVERS CHEMICAL SPILLS, FIRES, AND EARTHQUAKES INVOLVING: (Check all that apply) A5.
☐ 1. HAZARDOUS MATERIALS; ☐ 2. HAZARDOUS WASTES

B. INTERNAL RESPONSE

INTERNAL FACILITY EMERGENCY RESPONSE WILL OCCUR VIA: (Check all that apply) B1.
☐ 1. CALLING PUBLIC EMERGENCY RESPONDERS (i.e., 9-1-1)
☐ 2. CALLING HAZARDOUS WASTE CONTRACTOR
☐ 3. ACTIVATING IN-HOUSE EMERGENCY RESPONSE TEAM

C. EMERGENCY COMMUNICATIONS, PHONE NUMBERS AND NOTIFICATIONS

Whenever there is an imminent or actual emergency situation such as an explosion, fire, or release, the Emergency Coordinator (or his/her designee when the Emergency Coordinator is on call) shall:
1. Activate internal facility alarms or communications systems, where applicable, to notify all facility personnel.
2. Notify appropriate local authorities (i.e., call 9-1-1).
3. Notify the California Emergency Management Agency at (800) 852-7550.

Before facility operations are resumed in areas of the facility affected by the incident, the emergency coordinator shall notify the California Department of Toxic Substances Control (DTSC), the local Unified Program Agency (UPA), and the local fire department's hazardous materials program that the facility is in compliance with requirements to:
1. Provide for proper storage and disposal of recovered waste, contaminated soil or surface water, or any other material that results from an explosion, fire, or release at the facility; and
2. Ensure that no material that is incompatible with the released material is transferred, stored, or disposed of in areas of the facility affected by the incident until cleanup procedures are completed.

INTERNAL FACILITY EMERGENCY COMMUNICATIONS OR ALARM NOTIFICATION WILL OCCUR VIA: (Check all that apply) C1.
☐ 1. VERBAL WARNINGS; ☐ 2. PUBLIC ADDRESS OR INTERCOM SYSTEM; ☐ 3. TELEPHONE;
☐ 4. PAGERS; ☐ 5. ALARM SYSTEM; ☐ 6. PORTABLE RADIO

NOTIFICATIONS TO NEIGHBORING FACILITIES THAT MAY BE AFFECTED BY AN OFF-SITE RELEASE WILL OCCUR BY: (Check all that apply) C2.
☐ 1. VERBAL WARNINGS; ☐ 2. PUBLIC ADDRESS OR INTERCOM SYSTEM; ☐ 3. TELEPHONE;
☐ 4. PAGERS; ☐ 5. ALARM SYSTEM; ☐ 6. PORTABLE RADIO

EMERGENCY RESPONSE PHONE NUMBERS:

AMBULANCE, FIRE, POLICE AND CHP	9-1-1
CALIFORNIA EMERGENCY MANAGEMENT AGENCY (CAL/EMA)	(800) 852-7550
NATIONAL RESPONSE CENTER (NRC)	(800) 424-8802
POISON CONTROL CENTER	(800) 222-1222
LOCAL UNIFIED PROGRAM AGENCY (UPA/CUPA)	(510) 981-7460 City of Berkeley Toxic Mgt. Div C3.
OTHER (Specify): C4.	C5.

NEAREST MEDICAL FACILITY / HOSPITAL NAME: Alta Bates Summit C6. (510) 204-1303 C7.

AGENCY NOTIFICATION PHONE NUMBERS:

CALIFORNIA DEPT. OF TOXIC SUBSTANCES CONTROL (DTSC)	(916) 255-3545
REGIONAL WATER QUALITY CONTROL BOARD	(510) 622-2300 SF Bay Regio C8.
U.S. ENVIRONMENTAL PROTECTION AGENCY (US EPA)	(800) 300-2193
CALIFORNIA DEPT OF FISH AND WILDLIFE (CDFW)	(916) 358-2900
U.S. COAST GUARD	(202) 267-2180

STATE FIRE MARSHAL	(916) 445-8200
OTHER (Specify): C9.	C10.
OTHER (Specify): C11.	C12.

D. EMERGENCY CONTAINMENT AND CLEANUP PROCEDURES

SPILL PREVENTION, CONTAINMENT, AND CLEANUP PROCEDURES: (Check all boxes that apply to indicate your procedures for containing spills, releases, fires or explosions; and. preventing and mitigating associated harm to persons, property, and the environment.)

D1.

- ☐ 1. MONITOR FOR LEAKS, RUPTURES, PRESSURE BUILD-UP, ETC.;
- ☐ 2. PROVIDE STRUCTURAL PHYSICAL BARRIERS (e.g., Portable spill containment walls);
- ☐ 3. PROVIDE ABSORBENT PHYSICAL BARRIERS (e.g., Pads, pigs, pillows);
- ☐ 4. COVER OR BLOCK FLOOR AND/ OR STORM DRAINS;
- ☐ 5. BUILT-IN BERM IN WORK / STORAGE AREA;
- ☐ 6. AUTOMATIC FIRE SUPPRESSION SYSTEM;
- ☐ 7. ELIMINATE SOURCES OF IGNITION FOR FLAMMABLE HAZARDS (e.g. Flammable liquids, Propane);
- ☐ 8. STOP PROCESSES AND/OR OPERATIONS;
- ☐ 9. AUTOMATIC / ELECTRONIC EQUIPMENT SHUT-OFF SYSTEM;
- ☐ 10. SHUT-OFF WATER, GAS, ELECTRICAL UTILITIES AS APPROPRIATE;
- ☐ 11. CALL 9-1-1 FOR PUBLIC EMERGENCY RESPONDER ASSISTANCE / MEDICAL AID;
- ☐ 12. NOTIFY AND EVACUATE PERSONS IN ALL THREATENED AREAS;
- ☐ 13. ACCOUNT FOR EVACUATED PERSONS IMMEDIATELY AFTER EVACUATION CALL;
- ☐ 14. PROVIDE PROTECTIVE EQUIPMENT FOR ON-SITE RESPONSE TEAM;
- ☐ 15. REMOVE OR ISOLATE CONTAINERS / AREA AS APPROPRIATE;
- ☐ 16. HIRE LICENSED HAZARDOUS WASTE CONTRACTOR;
- ☐ 17. USE ABSORBENT MATERIAL FOR SPILLS WITH SUBSEQUENT PROPER LABELING, STORAGE, AND HAZARDOUS WASTE DISPOSAL AS APPROPRIATE;
- ☐ 18. SUCTION USING SHOP VACUUM WITH SUBSEQUENT PROPER LABELING, STORAGE, AND HAZARDOUS WASTE DISPOSAL AS APPROPRIATE;
- ☐ 19. WASH / DECONTAMINATE EQUIPMENT W/ CONTAINMENT and DISPOSAL OF EFFLUENT / RINSATE AS HAZARDOUS WASTE;
- ☐ 20. PROVIDE SAFE TEMPORARY STORAGE OF EMERGENCY-GENERATED WASTES;
- ☐ 21. OTHER (Specify):

D2.

E. FACILITY EVACUATION

THE FOLLOWING ALARM SIGNAL(S) WILL BE USED TO BEGIN EVACUATION OF THE FACILITY (CHECK ALL THAT APPLY): E1.

- ☐ 1. BELLS;
- ☐ 2. HORNS/SIRENS;
- ☐ 3. VERBAL (i.e., SHOUTING);
- ☐ 4. OTHER (Specify):

E2.

THE FOLLOWING LOCATION(S) IS/ARE EVACUEE EMERGENCY ASSEMBLY AREA(S) (i.e., Front parking lot, specific street corner, etc.) E3.

Note: The Emergency Coordinator must account for all on site employees and/or site visitors after evacuation.

☐ EVACUATION ROUTE MAP(S) POSTED AS REQUIRED E4.

Note: The map(s) must show primary and alternate evacuation routes, emergency exits, and primary and alternate staging areas, and must be prominently posted throughout the facility in locations where it will be visible to employees and visitors.

F. ARRANGEMENTS FOR EMERGENCY SERVICES

Explanation of Requirement: Advance arrangements with local fire and police departments, hospitals, and/or emergency services contractors should be made as appropriate for your facility. You may determine that such arrangements are not necessary.

ADVANCE ARRANGEMENTS FOR LOCAL EMERGENCY SERVICES (Check one of the following) F1.

- ☐ 1. HAVE BEEN DETERMINED NOT NECESSARY; *or*
- ☐ 2. THE FOLLOWING ARRANGEMENTS HAVE BEEN MADE (Specify):

F2.

G. EMERGENCY EQUIPMENT

Check all boxes that apply to list emergency response equipment available at the facility and identify the location(s) where the equipment is kept and the equipment's capability, if applicable. [e.g., ☒ CHEMICAL PROTECTIVE GLOVES | Spill response kit | One time use, Oil & solvent resistant only.]

TYPE	EQUIPMENT AVAILABLE G1.	LOCATION	CAPABILITY *(If applicable)*
Safety and First Aid	1. ☐ CHEMICAL PROTECTIVE SUITS, APRONS, OR VESTS	G2.	G3.
	2. ☐ CHEMICAL PROTECTIVE GLOVES	G4.	G5.
	3. ☐ CHEMICAL PROTECTIVE BOOTS	G6.	G7.
	4. ☐ SAFETY GLASSES / GOGGLES / SHIELDS	G8.	G9.
	5. ☐ HARD HATS	G10.	G11.
	6. ☐ CARTRIDGE RESPIRATORS	G12.	G13.
	7. ☐ SELF-CONTAINED BREATHING APPARATUS (SCBA)	G14.	G15.
	8. ☐ FIRST AID KITS / STATIONS	G16.	G17.
	9. ☐ PLUMBED EYEWASH FOUNTAIN / SHOWER	G18.	G19.
	10. ☐ PORTABLE EYEWASH KITS	G20.	G21.
	11. ☐ OTHER	G22.	G23.
	12. ☐ OTHER	G24.	G25.
Fire Fighting	13. ☐ PORTABLE FIRE EXTINGUISHERS	G26.	G27.
	14. ☐ FIXED FIRE SYSTEMS / SPRINKLERS / FIRE HOSES	G28.	G29.
	15. ☐ FIRE ALARM BOXES OR STATIONS	G30.	G31.
	16. ☐ OTHER	G32.	G33.
Spill Control and Clean-Up	17. ☐ ALL-IN-ONE SPILL KIT	G34.	G35.
	18. ☐ ABSORBENT MATERIAL	G36.	G37.
	19. ☐ CONTAINER FOR USED ABSORBENT	G38.	G39.
	20. ☐ BERMING / DIKING EQUIPMENT	G40.	G41.
	21. ☐ BROOM	G42.	G43.
	22. ☐ SHOVEL	G44.	G45.
	23. ☐ SHOP VAC	G46.	G47.
	24. ☐ EXHAUST HOOD	G48.	G49.
	25. ☐ EMERGENCY SUMP / HOLDING TANK	G50.	G51.
	26. ☐ CHEMICAL NEUTRALIZERS	G52.	G53.
	27. ☐ GAS CYLINDER LEAK REPAIR KIT	G54.	G55.
	28. ☐ SPILL OVERPACK DRUMS	G56.	G57.
	29. ☐ OTHER	G58.	G59.
Communi-cations and Alarm Systems	30. ☐ TELEPHONES (Includes cellular)	G60.	G61.
	31. ☐ INTERCOM / PA SYSTEM	G62.	G63.
	32. ☐ PORTABLE RADIOS	G64.	G65.
	33. ☐ AUTOMATIC ALARM CHEMICAL MONITORING EQUIPMENT	G66.	G67.
Other	34. ☐ OTHER	G68.	G69.
	35. ☐ OTHER	G70.	G71.

H. EARTHQUAKE VULNERABILITY

Identify areas of the facility that are vulnerable to hazardous materials releases / spills due to earthquake-related motion. These areas require immediate isolation and inspection.

VULNERABLE AREAS: (Check all that apply) H1.	LOCATIONS (e.g., shop, outdoor shed, forensic lab)
☐ 1. HAZARDOUS MATERIALS / WASTE STORAGE AREA	H2.
☐ 2. PROCESS LINES / PIPING	H3.
☐ 3. LABORATORY	H4.
☐ 4. WASTE TREATMENT AREA	H5.

Identify mechanical systems vulnerable to releases / spills due to earthquake-related motion. These systems require immediate isolation and inspection.

VULNERABLE SYSTEMS: (Check all that apply) H6.	LOCATIONS
☐ 1. SHELVES, CABINETS AND RACKS	H7.
☐ 2. TANKS (EMERGENCY SHUTOFF)	H8.
☐ 3. PORTABLE GAS CYLINDERS	H9.
☐ 4. EMERGENCY SHUTOFF AND/OR UTILITY VALVES	H10.
☐ 5. SPRINKLER SYSTEMS	H11.
☐ 6. STATIONARY PRESSURIZED CONTAINERS (e.g., Propane dispensing tank)	H12.

I. EMPLOYEE TRAINING

Explanation of Requirement: Employee training is required for all employees handling hazardous materials and hazardous wastes in day-to-day or clean-up operations including volunteers and/or contractors. Training must be:

- Provided within 6 months for new hires;
- Amended as necessary prior to change in process or work assignment;
- Given upon modification to the Emergency Response / Contingency Plan, and updated/refreshed annually for all employees.

Required content includes all of the following:

- Material Safety Data Sheets;
- Hazard communication related to health and safety;
- Methods for safe handling of hazardous substances;
- Fire hazards of materials / processes;
- Conditions likely to worsen emergencies;
- Coordination of emergency response;
- Notification procedures;
- Applicable laws and regulations;
- Communication and alarm systems;
- Personal protective equipment;
- Use of emergency response equipment (e.g. Fire extinguishers, respirators, etc.);
- Decontamination procedures;
- Evacuation procedures;
- Control and containment procedures;
- UST monitoring system equipment and procedures (if applicable).

INDICATE HOW EMPLOYEE TRAINING PROGRAM IS ADMINISTERED (Check all that apply) I1.

☐ 1. FORMAL CLASSROOM; ☐ 2. VIDEOS; ☐ 3. SAFETY / TAILGATE MEETINGS;

☐ 4. STUDY GUIDES / MANUALS (Specify): _____ I2.

☐ 5. OTHER (Specify): _____ I3.

☐ 6. NOT APPLICABLE BECAUSE FACILITY HAS NO EMPLOYEES

Large Quantity Generator (LQG) Training Records: Large quantity hazardous waste generators (i.e., who generate more than 270 gallons/1,000 kilograms of hazardous waste per month) must retain written documentation of employee hazardous waste management training sessions which includes:

- A written outline/agenda of the type and amount of both introductory and continuing training that will be given to persons filling each job position having responsibility for the management of hazardous waste (e.g., labeling, manifesting, compliance with accumulation time limits, etc.).
- The name, job title, and date of training for each hazardous waste management training session given to an employee filling such a job position; and
- A written job description for each of the above job positions that describes job duties and the skills, education, or other qualifications required of personnel assigned to the position.
- Current employee training records must be retained until closure of the facility.
- Former employee training records must be retained at least three years after termination of employment.

J. LIST OF ATTACHMENTS

(Check one of the following) J1.

☐ 1. NO ATTACHMENTS ARE REQUIRED; *or*

☐ 2. THE FOLLOWING DOCUMENTS ARE ATTACHED: J2.

K. SIGNATURE / CERTIFICATION

Certification: Based on my inquiry of those individuals responsible for obtaining the information, I certify under penalty of law that I have personally examined and am familiar with the information submitted and believe the information is true, accurate, and complete, and that a copy is available on site.

FEE SUMMARY SHEET
For Permit Period FY14 (Base Reporting Period: 2013)

Business Name: Meyer Sound [CID: 11784]

Address: 2817 Tenth St.

Total Aggregate Quantities Stored or Handled at This Facility

The row heading "Hazardous Materials" requires a sum of all amounts reported on the Chemical Description pages, including data reported for hazardous wastes.

Quantities Summarized:

Chemicals:	CY2013 ***Liquids***	CY2013 ***Solids***	CY2013 ***Gases***	Last Reported	FY2014 Permit
Total number of ***all*** chemicals:	7	1	2		10
Total no. of ***waste*** chemicals:	1	—			
	Gallons ***All liquids***	***Pounds*** ***All solids***	***Cu. Ft.*** ***All gases***		
Hazardous Materials: (***ALL*** Chemicals) - Sum of *all* Box 218s – Max. Daily Amt.	770	459	1200		A3
Hazardous Wastes: (***ONLY*** Wastes) – Sum of *all* Box 219s – Annual Waste Amt.	500	—			<5
Underground Storage Tanks: No. of USTs: 0					
Universal Waste:	CESQUWG —	HANDLER —	DESTINATION —	Date entered into HTE (and initials)	
Other Billing Categories:	Tiered —	etiologic —	radiologic —		
inert gas fee — / nano —	CalARP —	EPCRA —	APSA —

FACILITY INFORMATION

BUSINESS ACTIVITIES

I. FACILITY IDENTIFICATION

FACILITY ID # (Agency Use Only)	FA0000928 [1]	EPA ID # (Hazardous Waste Only) cal000356050 [2]
BUSINESS NAME (Same as Facility Name of DBA-Doing Business As)	MEYER SOUND LABORATORIES INC. [3]	
BUSINESS SITE ADDRESS	2817 TENTH ST [103]	
BUSINESS SITE CITY	BERKELEY [104]	CA ZIP CODE 94710 [105]

II. ACTIVITIES DECLARATION

NOTE: If you check YES to any part of this list, please submit the Business Owner/Operator Identification page.

Does your facility…	If Yes, please complete these pages of the UPCF….	
A. HAZARDOUS MATERIALS Have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	☒ YES	HAZARDOUS MATERIALS INVENTORY – CHEMICAL DESCRIPTION
B. REGULATED SUBSTANCES Have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	☐ YES	Coordinate with your local agency responsible for CalARP.
C. UNDERGROUND STORAGE TANKS (USTs) Own or operate underground storage tanks?	☐ YES	UST FACILITY (Formerly SWRCB Form A) UST TANK (one page per tank) (Formerly Form B)
D. ABOVE GROUND PETROLEUM STORAGE Own or operate ASTs above these thresholds: Store greater than 1,320 gallons of petroleum products (new or used) in aboveground tanks or containers.	☐ YES	NO FORM REQUIRED TO CUPAs
E. HAZARDOUS WASTE Generate hazardous waste?	☒ YES	EPA ID NUMBER – provide at the top of this page
Recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	☐ YES	RECYCLABLE MATERIALS REPORT (one per recycler)
Treat hazardous waste on-site?	☐ YES	ON-SITE HAZARDOUS WASTE TREATMENT – FACILITY ON-SITE HAZARDOUS WASTE TREATMENT – UNIT (one page per unit)
Treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	☐ YES	CERTIFICATION OF FINANCIAL ASSURANCE
Consolidate hazardous waste generated at a remote site?	☐ YES	REMOTE WASTE / CONSOLIDATION SITE ANNUAL NOTIFICATION
Need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	☐ YES	HAZARDOUS WASTE TANK CLOSURE CERTIFICATION
Generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month, or accumulate at any time, 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate or accumulate at any time more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	☐ YES	Obtain federal EPA ID Number, file Biennial Report (EPA Form 8700-13A/B), and satisfy requirements for RCRA Large Quantity Generator.
Household Hazardous Waste (HHW) Collection site?	☐ YES	See CUPA for required forms.

F. LOCAL REQUIREMENTS [15]

(You may also be required to provide additional information by your CUPA or local agency.)

CONSOLIDATED EMERGENCY RESPONSE / CONTINGENCY PLAN

Prior to completing this Plan, please refer to the INSTRUCTIONS FOR COMPLETING A CONSOLIDATED CONTINGENCY PLAN

A. FACILITY IDENTIFICATION AND OPERATIONS OVERVIEW

FACILITY ID # 1.	CERS ID A1.	DATE OF PLAN PREPARATION/REVISION A2.
FA0000928		04/08/2014

BUSINESS NAME *(Same as Facility Name or DBA - Doing Business As)* 3.
MEYER SOUND LABORATORIES INC.

BUSINESS SITE ADDRESS 103.
2817 TENTH ST

BUSINESS SITE CITY 104.		ZIP CODE 105.
BERKELEY	CA	94710

TYPE OF BUSINESS (e.g., Painting Contractor) A3.	INCIDENTAL OPERATIONS (e.g., Fleet Maintenance) A4.
Pro audio Manufacturer	

THIS PLAN COVERS CHEMICAL SPILLS, FIRES, AND EARTHQUAKES INVOLVING: (Check all that apply) A5.
☒ 1. HAZARDOUS MATERIALS; ☒ 2. HAZARDOUS WASTES

B. INTERNAL RESPONSE

INTERNAL FACILITY EMERGENCY RESPONSE WILL OCCUR VIA: (Check all that apply) B1.
☒ 1. CALLING PUBLIC EMERGENCY RESPONDERS (i.e., 9-1-1)
☐ 2. CALLING HAZARDOUS WASTE CONTRACTOR
☐ 3. ACTIVATING IN-HOUSE EMERGENCY RESPONSE TEAM

C. EMERGENCY COMMUNICATIONS, PHONE NUMBERS AND NOTIFICATIONS

Whenever there is an imminent or actual emergency situation such as an explosion, fire, or release, the Emergency Coordinator (or his/her designee when the Emergency Coordinator is on call) shall:
1. Activate internal facility alarms or communications systems, where applicable, to notify all facility personnel.
2. Notify appropriate local authorities (i.e., call 9-1-1).
3. Notify the California Emergency Management Agency at (800) 852-7550.

Before facility operations are resumed in areas of the facility affected by the incident, the emergency coordinator shall notify the California Department of Toxic Substances Control (DTSC), the local Unified Program Agency (UPA), and the local fire department's hazardous materials program that the facility is in compliance with requirements to:
1. Provide for proper storage and disposal of recovered waste, contaminated soil or surface water, or any other material that results from an explosion, fire, or release at the facility; and
2. Ensure that no material that is incompatible with the released material is transferred, stored, or disposed of in areas of the facility affected by the incident until cleanup procedures are completed.

INTERNAL FACILITY EMERGENCY COMMUNICATIONS OR ALARM NOTIFICATION WILL OCCUR VIA: (Check all that apply) C1.

☒ 1. VERBAL WARNINGS;	☐ 2. PUBLIC ADDRESS OR INTERCOM SYSTEM;	☒ 3. TELEPHONE;
☐ 4. PAGERS;	☐ 5. ALARM SYSTEM;	☐ 6. PORTABLE RADIO

NOTIFICATIONS TO NEIGHBORING FACILITIES THAT MAY BE AFFECTED BY AN OFF-SITE RELEASE WILL OCCUR BY: (Check all that apply) C2.

☒ 1. VERBAL WARNINGS;	☐ 2. PUBLIC ADDRESS OR INTERCOM SYSTEM;	☒ 3. TELEPHONE;
☐ 4. PAGERS;	☐ 5. ALARM SYSTEM;	☐ 6. PORTABLE RADIO

EMERGENCY RESPONSE PHONE NUMBERS:

AMBULANCE, FIRE, POLICE AND CHP	9-1-1
CALIFORNIA EMERGENCY MANAGEMENT AGENCY (CAL/EMA)	(800) 852-7550
NATIONAL RESPONSE CENTER (NRC)	(800) 424-8802
POISON CONTROL CENTER	(800) 222-1222
LOCAL UNIFIED PROGRAM AGENCY (UPA/CUPA)	(510) 981-7460 City of Berkeley Toxic Mgt. Div C3.
OTHER (Specify): C4.	C5.

NEAREST MEDICAL FACILITY / HOSPITAL NAME: Alta Bates Summit C6. (510) 204-1303 C7.

AGENCY NOTIFICATION PHONE NUMBERS:

CALIFORNIA DEPT. OF TOXIC SUBSTANCES CONTROL (DTSC)	(916) 255-3545
REGIONAL WATER QUALITY CONTROL BOARD	(510) 622-2300 SF Bay Regio C8.
U.S. ENVIRONMENTAL PROTECTION AGENCY (US EPA)	(800) 300-2193

OTHER (Specify): C9.	C10.
OTHER (Specify): C11.	C12.

D. EMERGENCY CONTAINMENT AND CLEANUP PROCEDURES

SPILL PREVENTION, CONTAINMENT, AND CLEANUP PROCEDURES: (Check all boxes that apply to indicate your procedures for containing spills, releases, fires or explosions; and. preventing and mitigating associated harm to persons, property, and the environment.)

D1.

- ☐ 1. MONITOR FOR LEAKS, RUPTURES, PRESSURE BUILD-UP, ETC.;
- ☒ 2. PROVIDE STRUCTURAL PHYSICAL BARRIERS (e.g., Portable spill containment walls);
- ☒ 3. PROVIDE ABSORBENT PHYSICAL BARRIERS (e.g., Pads, pigs, pillows);
- ☒ 4. COVER OR BLOCK FLOOR AND/ OR STORM DRAINS;
- ☐ 5. BUILT-IN BERM IN WORK / STORAGE AREA;
- ☒ 6. AUTOMATIC FIRE SUPPRESSION SYSTEM;
- ☒ 7. ELIMINATE SOURCES OF IGNITION FOR FLAMMABLE HAZARDS (e.g. Flammable liquids, Propane);
- ☒ 8. STOP PROCESSES AND/OR OPERATIONS;
- ☐ 9. AUTOMATIC / ELECTRONIC EQUIPMENT SHUT-OFF SYSTEM;
- ☒ 10. SHUT-OFF WATER, GAS, ELECTRICAL UTILITIES AS APPROPRIATE;
- ☒ 11. CALL 9-1-1 FOR PUBLIC EMERGENCY RESPONDER ASSISTANCE / MEDICAL AID;
- ☒ 12. NOTIFY AND EVACUATE PERSONS IN ALL THREATENED AREAS;
- ☒ 13. ACCOUNT FOR EVACUATED PERSONS IMMEDIATELY AFTER EVACUATION CALL;
- ☐ 14. PROVIDE PROTECTIVE EQUIPMENT FOR ON-SITE RESPONSE TEAM;
- ☐ 15. REMOVE OR ISOLATE CONTAINERS / AREA AS APPROPRIATE;
- ☐ 16. HIRE LICENSED HAZARDOUS WASTE CONTRACTOR;
- ☒ 17. USE ABSORBENT MATERIAL FOR SPILLS WITH SUBSEQUENT PROPER LABELING, STORAGE, AND HAZARDOUS WASTE DISPOSAL AS APPROPRIATE;
- ☐ 18. SUCTION USING SHOP VACUUM WITH SUBSEQUENT PROPER LABELING, STORAGE, AND HAZARDOUS WASTE DISPOSAL AS APPROPRIATE;
- ☐ 19. WASH / DECONTAMINATE EQUIPMENT W/ CONTAINMENT and DISPOSAL OF EFFLUENT / RINSATE AS HAZARDOUS WASTE;
- ☐ 20. PROVIDE SAFE TEMPORARY STORAGE OF EMERGENCY-GENERATED WASTES;
- ☐ 21. OTHER (Specify):

D2.

E. FACILITY EVACUATION

THE FOLLOWING ALARM SIGNAL(S) WILL BE USED TO BEGIN EVACUATION OF THE FACILITY (CHECK ALL THAT APPLY): E1.

- ☐ 1. BELLS;
- ☐ 2. HORNS/SIRENS;
- ☒ 3. VERBAL (i.e., SHOUTING);
- ☒ 4. OTHER (Specify): phones

E2.

THE FOLLOWING LOCATION(S) IS/ARE EVACUEE EMERGENCY ASSEMBLY AREA(S) (i.e., Front parking lot, specific street corner, etc.) E3.

Tenth and Grayson streets

Note: The Emergency Coordinator must account for all on site employees and/or site visitors after evacuation.

☒ EVACUATION ROUTE MAP(S) POSTED AS REQUIRED E4.

Note: The map(s) must show primary and alternate evacuation routes, emergency exits, and primary and alternate staging areas, and must be prominently posted throughout the facility in locations where it will be visible to employees and visitors.

F. ARRANGEMENTS FOR EMERGENCY SERVICES

Explanation of Requirement: Advance arrangements with local fire and police departments, hospitals, and/or emergency services contractors should be made as appropriate for your facility. You may determine that such arrangements are not necessary.

ADVANCE ARRANGEMENTS FOR LOCAL EMERGENCY SERVICES (Check one of the following) F1.

- ☐ 1. HAVE BEEN DETERMINED NOT NECESSARY; *or*
- ☐ 2. THE FOLLOWING ARRANGEMENTS HAVE BEEN MADE (Specify):

F2.

G. EMERGENCY EQUIPMENT

Check all boxes that apply to list emergency response equipment available at the facility and identify the location(s) where the equipment is kept and the equipment's capability, if applicable. [e.g., ☒ CHEMICAL PROTECTIVE GLOVES | Spill response kit | One time use, Oil & solvent resistant only.]

TYPE	EQUIPMENT AVAILABLE G1.	LOCATION	CAPABILITY *(If applicable)*
Safety and First Aid	1. ☒ CHEMICAL PROTECTIVE SUITS, APRONS, OR VESTS	G2.	G3.
	2. ☒ CHEMICAL PROTECTIVE GLOVES	G4.	G5.
	3. ☐ CHEMICAL PROTECTIVE BOOTS	G6.	G7.
	4. ☒ SAFETY GLASSES / GOGGLES / SHIELDS	G8.	G9.
	5. ☐ HARD HATS	G10.	G11.
	6. ☒ CARTRIDGE RESPIRATORS	G12.	G13.
	7. ☐ SELF-CONTAINED BREATHING APPARATUS (SCBA)	G14.	G15.
	8. ☒ FIRST AID KITS / STATIONS	G16.	G17.
	9. ☒ PLUMBED EYEWASH FOUNTAIN / SHOWER	G18.	G19.
	10. ☐ PORTABLE EYEWASH KITS	G20.	G21.
	11. ☐ OTHER	G22.	G23.
	12. ☐ OTHER	G24.	G25.
Fire Fighting	13. ☒ PORTABLE FIRE EXTINGUISHERS	G26.	G27.
	14. ☒ FIXED FIRE SYSTEMS / SPRINKLERS / FIRE HOSES	G28.	G29.
	15. ☒ FIRE ALARM BOXES OR STATIONS	G30.	G31.
	16. ☐ OTHER	G32.	G33.
Spill Control and Clean-Up	17. ☒ ALL-IN-ONE SPILL KIT	G34.	G35.
	18. ☒ ABSORBENT MATERIAL	G36.	G37.
	19. ☐ CONTAINER FOR USED ABSORBENT	G38.	G39.
	20. ☒ BERMING / DIKING EQUIPMENT	G40.	G41.
	21. ☐ BROOM	G42.	G43.
	22. ☐ SHOVEL	G44.	G45.
	23. ☒ SHOP VAC	G46.	G47.
	24. ☒ EXHAUST HOOD	G48.	G49.
	25. ☐ EMERGENCY SUMP / HOLDING TANK	G50.	G51.
	26. ☐ CHEMICAL NEUTRALIZERS	G52.	G53.
	27. ☐ GAS CYLINDER LEAK REPAIR KIT	G54.	G55.
	28. ☐ SPILL OVERPACK DRUMS	G56.	G57.
	29. ☐ OTHER	G58.	G59.
Communi-cations and Alarm Systems	30. ☒ TELEPHONES (Includes cellular)	G60.	G61.
	31. ☐ INTERCOM / PA SYSTEM	G62.	G63.
	32. ☐ PORTABLE RADIOS	G64.	G65.
	33. ☐ AUTOMATIC ALARM CHEMICAL MONITORING EQUIPMENT	G66.	G67.
Other	34. ☐ OTHER	G68.	G69.
	35. ☐ OTHER	G70.	G71.

H. EARTHQUAKE VULNERABILITY

Identify areas of the facility that are vulnerable to hazardous materials releases / spills due to earthquake-related motion. These areas require immediate isolation and inspection.

VULNERABLE AREAS: (Check all that apply)		LOCATIONS (e.g., shop, outdoor shed, forensic lab)	
☒ 1. HAZARDOUS MATERIALS / WASTE STORAGE AREA	H1.	Mixing room	H2.
☐ 2. PROCESS LINES / PIPING			H3.
☐ 3. LABORATORY			H4.
☐ 4. WASTE TREATMENT AREA			H5.

Identify mechanical systems vulnerable to releases / spills due to earthquake-related motion. These systems require immediate isolation and inspection.

VULNERABLE SYSTEMS: (Check all that apply)		LOCATIONS	
☒ 1. SHELVES, CABINETS AND RACKS	H6.	mixing room	H7.
☐ 2. TANKS (EMERGENCY SHUTOFF)			H8.
☐ 3. PORTABLE GAS CYLINDERS			H9.
☐ 4. EMERGENCY SHUTOFF AND/OR UTILITY VALVES			H10.
☐ 5. SPRINKLER SYSTEMS			H11.
☐ 6. STATIONARY PRESSURIZED CONTAINERS (e.g., Propane dispensing tank)			H12.

I. EMPLOYEE TRAINING

Explanation of Requirement: Employee training is required for all employees handling hazardous materials and hazardous wastes in day-to-day or clean-up operations including volunteers and/or contractors. Training must be:

- Provided within 6 months for new hires;
- Amended as necessary prior to change in process or work assignment;
- Given upon modification to the Emergency Response / Contingency Plan, and updated/refreshed annually for all employees.

Required content includes all of the following:

- Material Safety Data Sheets;
- Hazard communication related to health and safety;
- Methods for safe handling of hazardous substances;
- Fire hazards of materials / processes;
- Conditions likely to worsen emergencies;
- Coordination of emergency response;
- Notification procedures;
- Applicable laws and regulations;
- Communication and alarm systems;
- Personal protective equipment;
- Use of emergency response equipment (e.g. Fire extinguishers, respirators, etc.);
- Decontamination procedures;
- Evacuation procedures;
- Control and containment procedures;
- UST monitoring system equipment and procedures (if applicable).

INDICATE HOW EMPLOYEE TRAINING PROGRAM IS ADMINISTERED (Check all that apply) I1.

☒ 1. FORMAL CLASSROOM; ☐ 2. VIDEOS; ☒ 3. SAFETY / TAILGATE MEETINGS;

☐ 4. STUDY GUIDES / MANUALS (Specify): _____ I2.

☐ 5. OTHER (Specify): _____ I3.

☐ 6. NOT APPLICABLE BECAUSE FACILITY HAS NO EMPLOYEES

Large Quantity Generator (LQG) Training Records: Large quantity hazardous waste generators (i.e., who generate more than 270 gallons/1,000 kilograms of hazardous waste per month) must retain written documentation of employee hazardous waste management training sessions which includes:

- A written outline/agenda of the type and amount of both introductory and continuing training that will be given to persons filling each job position having responsibility for the management of hazardous waste (e.g., labeling, manifesting, compliance with accumulation time limits, etc.).
- The name, job title, and date of training for each hazardous waste management training session given to an employee filling such a job position; and
- A written job description for each of the above job positions that describes job duties and the skills, education, or other qualifications required of personnel assigned to the position.
- Current employee training records must be retained until closure of the facility.
- Former employee training records must be retained at least three years after termination of employment.

J. LIST OF ATTACHMENTS

(Check one of the following) J1.

☐ 1. NO ATTACHMENTS ARE REQUIRED; *or*

☐ 2. THE FOLLOWING DOCUMENTS ARE ATTACHED: J2.

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Terraphase Engineering Inc. were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1920 through 2017. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

A summary of the information obtained is provided in the text of this report.

RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

EDR Historical Topo Map Report

11/22/21

Site Name:

Tenth Street & San Pablo Aver
2817-2821 Tenth St and 2820 S
Berkeley, CA 94710
EDR Inquiry # 6761947.4

Client Name:

Terraphase Engineering Inc.
610 SW Broadway Ste 407
Portland, OR 97205
Contact: Jensen Perrick

EDR Topographic Map Library has been searched by EDR and maps covering the target property location as provided by Terraphase Engineering Inc. were identified for the years listed below. EDR's Historical Topo Map Report is designed to assist professionals in evaluating potential liability on a target property resulting from past activities. EDRs Historical Topo Map Report includes a search of a collection of public and private color historical topographic maps, dating back to the late 1800s.

Search Results:

P.O.# P061.001.001
Project: NA

Coordinates:

Latitude:	37.855267 37° 51' 19" North

Appendix H

Photograph Log

Photograph 1:

View of the production floor of Wheelskins, the tenant at 2821 Tenth Street. Photo facing east.

Date: November 29, 2021

Photograph 2:

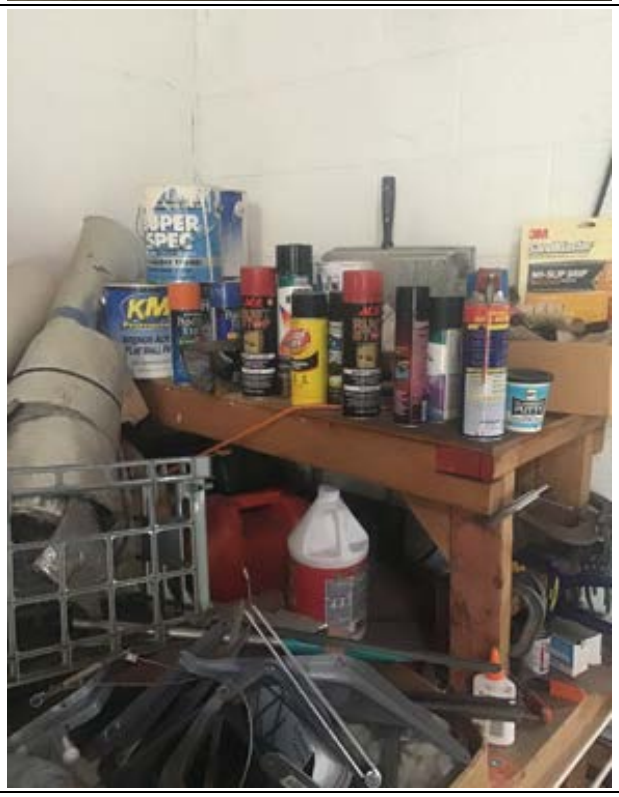
One of two forklifts used at 2821 Tenth Street. An additional forklift was reported to be inoperable due to missing parts. Photo facing north.

Date: November 29, 2021

	**Photograph 3:** Forklift battery charging stations located along northern wall within 2821 Tenth Street. No staining observed. Photo facing north. Date: November 29, 2021
	**Photograph 4:** Cabinets containing consumer cleaning products in household-sized containers observed in a storage rack in the 2821 Tenth Street space. Photo facing west. Date: November 29, 2021

Photograph 5:

The interior production room for Wheelskins at 2821 Tenth Street. Photo facing north.



Date: November 29, 2021

Photograph 6:

View of a filled-in trench drain within Wheelskins tenant space.. Photo facing east.

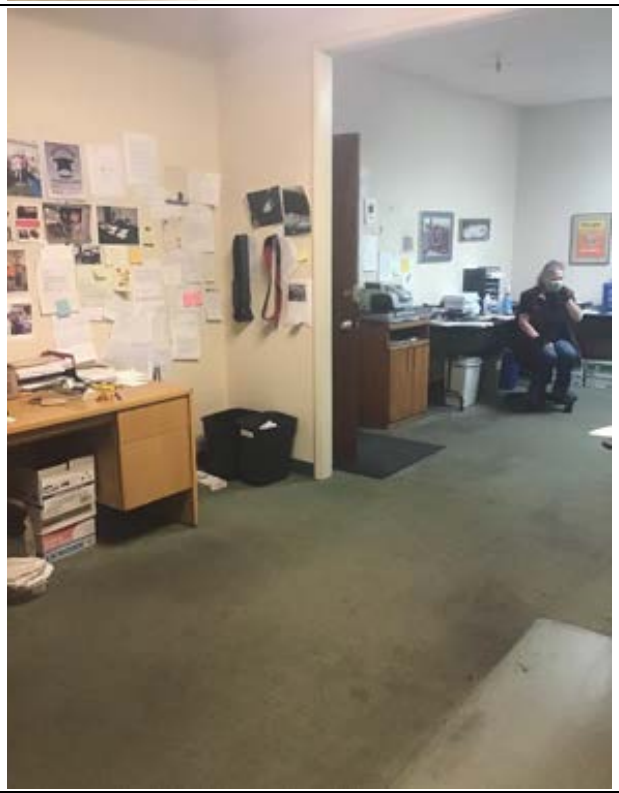
Date: November 29, 2021

	**Photograph 7:** A worker kitchen area located along the western side of the 2821 Tenth Street tenant space. Photo facing west. Date: November 29, 2021
	**Photograph 8:** A table on which household-sized cleaning supplies was observed, which was located on eastern wall of 2821 Tenth Street. Photo facing southeast. Date: November 29, 2021

	**Photograph 9:** Two sump-pumps located along easter wall of 2821 Tenth Street. Photo facing south. Date: November 29, 2021
	**Photograph 10:** The location where sump pump pipes exit the building at 2821 Tenth Street. The pump enclosure is located on exterior of building. Photo facing east. Date: November 29, 2021

Photograph 11:

View of the eastern exterior of the roll-up door at 2821 Tenth Street. Due to the flooding concerns of the building, a dam was built at the top of the incline to the roll-up door (observed in the foreground). Photo facing east.



Date: November 29, 2021

Photograph 12:

Additional view of the wooden dam along the eastern exterior of 2821 Tenth Street. Photo facing southeast.

Date: November 29, 2021

	**Photograph 13:** A sump located in center of 2821 Tenth Street building. Photo facing west. Date: November 29, 2021
	**Photograph 14:** Office spaces located in northwestern portion of 2821 Tenth Street building. Photo facing south. Date: November 29, 2021

	**Photograph 15:** Unused office spaces located in northwestern portion of 2821 Tenth Street. Photo facing southwest. Date: November 29, 2021
	**Photograph 16:** View of thermoplastic glue pellets used for leather gluing for Wheelskins production at 2821 Tenth Street. Photo facing west. Date: November 29, 2021

Photograph 17:

View of pre-treated leather ready for production at 2821 Tenth Street. Photo facing south.

Date: November 29, 2021

Photograph 18:

Location of roll-up door on western side of 2821 Tenth Street building. Doors lead to loading dock on western side of building on Tenth Street. Photo facing west.

Date: November 29, 2021

Photograph 19:

View of external wooden dam located along eastern side of building at 2821 Tenth Street. Photo facing west.

Date: November 29, 2021

Photograph 20:

View of an external sump pump enclosure along eastern side of building at 2821 Tenth Street. Photo facing southwest.

Date: November 29, 2021

Photograph 21:

View of a sump pump enclosure located along eastern portion of 2821 Tenth Street and western 2820 San Pablo Avenue. Photo facing north.

Date: November 29, 2021

Photograph 22:

View of the condition of the foundation framing of the residential structure located at 2820 San Pablo Avenue. Photo facing northeast.

Date: November 29, 2021

Photograph 23:

View of 2820 San Pablo Avenue. Asbestos abatement was observed during the Subject Property reconnaissance. Photo taken from San Pablo Avenue, facing west.

Date: November 29, 2021

Photograph 24:

Side view of the residential structure at 2820 San Pablo Avenue. Photo facing southeast.

Date: November 29, 2021

Photograph 25:

Additional view of 2820 San Pablo Avenue with asbestos abatement activities occurring. Photo facing east.

Date: November 29, 2021

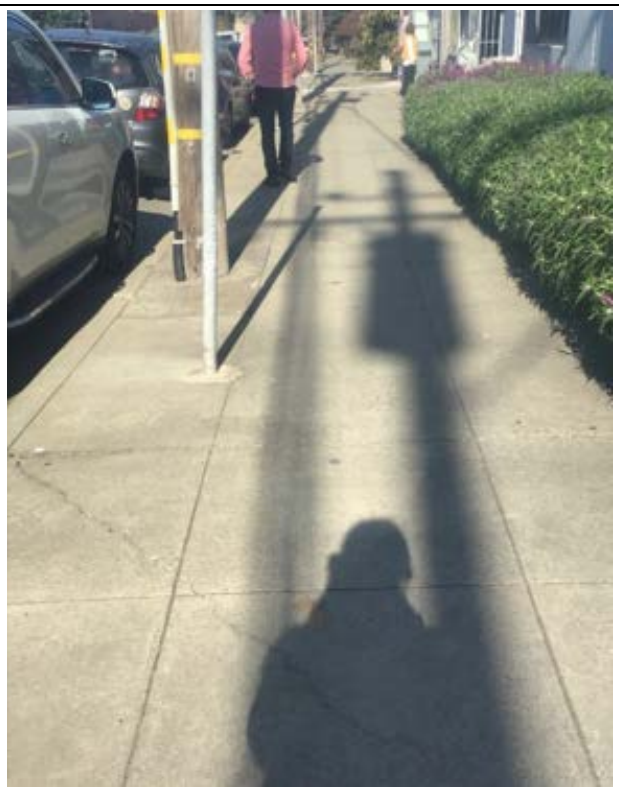
Photograph 26:

View of a storm drain located in the loading dock along the western side of 2821 Tenth Street building. Photo facing south.

Date: November 29, 2021

Photograph 27:

The south-adjoining property at 2831 Tenth Street, with tenant TWP. Photo facing east.



Date: November 29, 2021

Photograph 28:

View of the sidewalk located on the western side of 2821 Tenth Street. Photo facing south.

Date: November 29, 2021

Photograph 29:

View of the sidewalk located along the western side of 2821 Tenth Street. Photo facing north.

Date: November 29, 2021

Photograph 30:

View of a water utility box located outside of 2821 Tenth Street on the western side. Photo facing north.

June 18, 2021

STORMWATER REQUIREMENTS WORKSHEET

Stormwater Requirements Checklist

Municipal Regional Stormwater Permit (MRP 2.0)
Stormwater Controls for Development Projects

City of Berkeley
Public Works Dept.
Engineering Division

I. Applicability of C.3 and C.6 Stormwater Requirements

I.A. Enter Project Data *(For "C.3 Regulated Projects," data will be reported in the municipality's stormwater Annual Report.)*

I.A.1 Project Name: San Pablo 10

I.A.2 Project Address (include cross street): 2820 San Pablo Ave and 2821 10th St (closest cross streets: San Pablo Ave and Heinz Ave)

I.A.3 Project APN: 053-166-101-100 & 053-166-102-701 I.A.4 Project Watershed[1]: Potter and Derby Creeks

I.A.5 Applicant Name: Kevin Kelly I.A.6 Date Submitted:

I.A.7 Applicant Address: 5586 Bacon Road, Oakland, CA 94619

I.A.8 Applicant Phone: (510) 482-5944 I.A.9 Applicant Email Address: erin.jaeb@sbcglobal.net

I.A.10 Development type: (check all that apply)

- ☑ Residential ☑ Commercial ☐ Industrial ☑ Mixed-Use ☐ Streets, Roads, etc.
- ☑ 'Redevelopment' as defined by MRP: creating, adding and/or replacing exterior existing impervious surface on a site where past development has occurred[2]
- ☐ 'Special land use categories' as defined by MRP: (1) auto service facilities[3], (2) retail gasoline outlets, (3) restaurants[3], (4) uncovered parking area (stand-alone or part of a larger project)

I.A.11 Project Description[4]: (Also note any past or future phases of the project.) Multi-story mixed-use office and residential building with covered parking garage. Building is to be developed on a site currently occupied by a single family residence and a warehouse.

I.A.12 Total Area of Site: 0.46 acres I.A.13 Slope on Site: ~5% %

I.A.14 Total Area of land disturbed during construction (include clearing, grading, excavating and stockpile area: 0.46 acres.

I.B. Is the project a "C.3 Regulated Project" per MRP Provision C.3.b?

I.B.1. Enter the amount of impervious surface[4] created and/or replaced by the project (if the total amount is 5,000 sq.ft. or more):

Table of Impervious and Pervious Surfaces

Type of Impervious Surface	a Pre-Project Impervious Surface (sq.ft.)	b Existing Impervious Surface to be Replaced[7] (sq.ft.)	C New Impervious Surface to be Created[7] (sq.ft.)	d Post-project pervious surface (sq.ft.)
Roof area(s) – excluding any portion of the roof that is vegetated ("green roof")	13,756	11,820	864	N/A
Impervious[5] sidewalks, patios, paths, driveways	5,417	5,060	0	
Impervious[5] uncovered parking[6]	0	0	0	
Streets (public)		0	0	
Streets (private)		0	0	
Totals:				2,293
Area of Existing Impervious Surface to remain in place	0	N/A		
Total New Impervious Surface *(sum of totals for columns b and c)*:	17,744			

[1] Watershed is defined by the maps from the Alameda County Flood Control District at http://acfloodcontrol.org/resources/explore-watersheds
[2] Roadway projects that replace existing impervious surface are subject to C.3 requirements only if one or more lanes of travel are added.
[3] Standard Industrial Classification (SIC) codes are in Section 2.3 of the C.3 Technical Guidance (download at www.cleanwaterprogram.org)
[4] Project description examples: 5-story office building, industrial warehouse, residential with five 4-story buildings for 200 condominiums, etc.
[5] Per the MRP, pavement that meets the following definition of pervious pavement is NOT an impervious surface. Pervious pavement is defined as pavement that stores and infiltrates rainfall at a rate equal to immediately surrounding unpaved, landscaped areas, or that stores and infiltrates the rainfall runoff volume described in Provision C.3.d.
[6] Uncovered parking includes top level of a parking structure.
[7] "Replace" means to install new impervious surface where existing impervious surface is removed. "Create" means to install new impervious surface where there is currently no impervious surface.

I.B. Is the project a "C.3 Regulated Project" per MRP 2.0 Provision C.3.b? (continued)

		Yes	No	NA
I.B.2	In Item I.B.1, does the Total New Impervious Surface equal 10,000 sq.ft. or more? *If YES, skip to Item I.B.5 and check "Yes." If NO, continue to Item I.B.3.*	◉	○	☐
I.B.3	Does the Item I.B.1 Total New Impervious Surface equal 5,000 sq.ft. or more, but less than 10,000 sq.ft? *If YES, continue to Item I.B.4. If NO, skip to Item I.B.5 and check "No."*	☐	☐	☐
I.B.4	Is the project a "Special Land Use Category" per Item I.A.10? For uncovered parking, check YES only if there is 5,000 sq.ft or more uncovered parking. *If NO, go to Item I.B.5 and check "No." If YES, go to Item I.B.5 and check "Yes."*	☐	☐	☐
I.B.5	Is the project a C.3 Regulated Project? *If YES, go to Item I.B.6; if NO, continue to Item I.C.*	☑	☐	☐
I.B.6	Does the total amount of Replaced impervious surface equal 50 percent or more of the Pre-Project Impervious Surface? *If YES, stormwater treatment requirements apply to the whole site; if NO, these requirements apply only to the impervious surface created and/or replaced.*	☑	☐	☐
I.B.7	Is the project installing a total of 3,000 sq.ft. or more (excluding private-use patios in single family homes, townhomes, or condominiums) of new pervious pavement systems? (Pervious pavement systems include pervious concrete, pervious asphalt, pervious pavers and grid pavers etc. and are described in the C3 Technical Guidance at www.cleanwaterprogram.org) If YES, stormwater treatment system inspection requirements (C.3.h) apply; (Municipal staff – add this site to your list of sites needing a final inspection at the end of construction and on-going O&M inspections.) If NO, inspection requirements only apply if there are other treatment systems installed on the project.	☐	☑	☐

I.C. Projects that are NOT C.3 Regulated Projects

If you answered NO to Item I.B.5, or the project creates/replaces less than 5,000 sq. ft. of impervious surface, then the project is NOT a C.3 Regulated Project, and stormwater treatment is not required, BUT the municipality may determine that source controls and site design measures are required. Skip to Section II.

I.D. Projects that ARE C.3 Regulated Projects

If you answered YES to Item I.B.5, then the project is a C.3 Regulated Project. The project must include appropriate site design measures and source controls AND hydraulically-sized stormwater treatment measures. Hydromodification management may also be required; refer to Section II to make this determination. If final discretionary approval was granted on or after **DECEMBER 1, 2011**, Low Impact Development (LID) requirements apply, except for "Special Projects." See Section II.

I.E. Identify C.6 Construction-Phase Stormwater Requirements

		Yes	No
I.E.1	Does the project disturb 1.0 acre (43,560 sq.ft.) or more of land? (See Item I.A.14). *If Yes, obtain coverage under the state's Construction General Permit at https://smarts.waterboards.ca.gov/smarts/faces/SwSmartsLogin.jsp. Submit to the municipality a copy of your Notice of Intent and Storm Water Pollution Prevention Plan (SWPPP) before a grading or building permit is issued.*	○	◉
I.E.2	Is the site a "High Priority Site" that disturbs less than 1.0 acre (43,560 sq.ft.) of land? (Municipal staff will make the final determination.) "High Priority Sites" are sites having any of the following criteria: ▪ that require a grading permit, ▪ are adjacent to a creek, ▪ or are otherwise high priority for stormwater protection during construction (see MRP 2.0 Provision C.6.e.ii.(2)(c))	☐	☑
I.E.3	Is the site a "Hillside Site" that disturbs 5,000 sq.ft. or more, but less than 1.0 acre (43,560 sq.ft.) of land? (Municipal staff will make the final determination.) ▪ "Hillside Sites" are located on hillsides, as indicated on a jurisdictional map of hillside development areas or as indicated by meeting jurisdictional hillside development criteria. ▪ If no map or criteria exist, then Hillside Sites are sites with a slope of 15% or more (see I.A.13 above and MRP 2.0 Provision C.6.e.ii.(2)(b)).	☐	☑

- NOTE TO APPLICANT: All projects require appropriate stormwater best management practices (BMPs) during construction. Refer to the Section II to identify appropriate construction BMPs.

- NOTE TO MUNICIPAL STAFF: If the answer is "Yes" to I.E.1, I.E.2, OR I.E.3, refer this project to construction site inspection staff to be added to their list of projects that require stormwater inspections at least monthly during the wet season (October 1 through April 30) and other times of the year as appropriate.

II. Implementation of Stormwater Requirements

II.A. Complete the appropriate sections for the project. For non-C.3 Regulated Projects, Sections II.B, II.C, and II.D apply. For C.3 Regulated Projects, all sections of Section II apply.

II.B. Select Appropriate Site Design Measures

- *Required for C.3 Regulated Projects.*
- *Starting December 1, 2012, projects that create and/or replace 2,500 - 10,000 sq.ft. of impervious surface, and stand-alone single family homes that create/replace 2,500 sq.ft. or more of impervious surface, must include one of Site Design Measures a through f.*[8]
- *All other projects are encouraged to implement site design measures, which may be required at municipality discretion.*
- *Consult with municipal staff about requirements for your project.*

II.B.1 Is the site design measure included in the project plans?

Yes	No	Plan Sheet No.	
☑	☐		a. Direct roof runoff into cisterns or rain barrels and use rainwater for irrigation or other non-potable use.
☑	☐		b. Direct roof runoff onto vegetated areas.
☑	☐		c. Direct runoff from sidewalks, walkways, and/or patios onto vegetated areas.
☐	☑		d. Direct runoff from driveways and/or uncovered parking lots onto vegetated areas.
☐	☑		e. Construct sidewalks, walkways, and/or patios with pervious surfaces. Use the specifications in the C3 Technical Guidance (Version 4.1) or for small projects see the BASMAA Pervious Paving Factsheet. For these documents and others go to www.cleanwaterprogram.org and click on "Resources."
☐	☑		f. Construct bike lanes, driveways, and/or uncovered parking lots with pervious surfaces. Use the specifications in the C3 Technical Guidance (Version 4.1) or for small projects see the BASMAA Pervious Paving Factsheet. For these documents and others go to the program website at: www.cleanwaterprogram.org and click on "Resources."
☑	☐		g. Minimize land disturbance and impervious surface (especially parking lots).
☑	☐		h. Maximize permeability by clustering development and preserving open space.
☐	☑		i. Use micro-detention, including distributed landscape-based detention.
☑	☐		j. Protect sensitive areas, including wetland and riparian areas, and minimize changes to the natural topography.
☐	☑		k. Self-treating area (see Section 4.1 of the C.3 Technical Guidance)
☐	☑		l. Self-retaining area (see Section 4.2 of the C.3 Technical Guidance)
☐	☑		m. Plant or preserve interceptor trees (Section 4.5, C.3 Technical Guidance)

[8] See MRP Provision C.3.a.i(6) for non-C.3 Regulated Projects, C.3.c.i(2)(a) for Regulated Projects, C.3.i for projects that create/replace 2,500 to 10,000 sq.ft. of impervious surface and stand-alone single family homes that create/replace 2,500 sq.ft. or more of impervious surface.

II.C. Select appropriate source controls *(Applies to C.3 Regulated Projects; encouraged for other projects. Consult municipal staff.[9])*

Are these features in project?		Features that require source control measures	Source control measures (Refer to Local Source Control List for detailed requirements)	Is source control measure included in project plans?		
Yes	No			Yes	No	Plan Sheet No.
☑	☐	Storm Drain	Mark on-site inlets with the words "No Dumping! Flows to Bay" or equivalent.	⊙	○	
☑	☐	Floor Drains	Plumb interior floor drains to sanitary sewer[10] [or prohibit].	☐	☐	
☑	☐	Parking garage	Plumb interior parking garage floor drains to sanitary sewer.[9]	☐	☐	
☑	☐	Landscaping	▪ Retain existing vegetation as practicable. ▪ Select diverse species appropriate to the site. Include plants that are pest- and/or disease-resistant, drought-tolerant, and/or attract beneficial insects. ▪ Minimize use of pesticides and quick-release fertilizers. ▪ Use efficient irrigation system; design to minimize runoff.	☐	☐	
☐	☑	Pool/Spa/Fountain	Provide connection to the sanitary sewer to facilitate draining.[9]	☐	☐	
☐	☑	Food Service Equipment (non-residential)	Provide sink or other area for equipment cleaning, which is: ▪ Connected to a grease interceptor prior to sanitary sewer discharge.[9] ▪ Large enough for the largest mat or piece of equipment to be cleaned. ▪ Indoors or in an outdoor roofed area designed to prevent stormwater run-on and run-off, and signed to require equipment washing in this area.	☐	☐	
☐	☑	Refuse Areas	▪ Provide a roofed and enclosed area for dumpsters, recycling containers, etc., designed to prevent stormwater run-on and runoff. ▪ Connect any drains in or beneath dumpsters, compactors, and tallow bin areas serving food service facilities to the sanitary sewer.[9]	☐	☐	
☐	☑	Outdoor Process Activities [11]	Perform process activities either indoors or in roofed outdoor area, designed to prevent stormwater run-on and runoff, and to drain to the sanitary sewer.[9]	☐	☐	
☐	☑	Outdoor Equipment/ Materials Storage	▪ Cover the area or design to avoid pollutant contact with stormwater runoff. ▪ Locate area only on paved and contained areas. ▪ Roof storage areas that will contain non-hazardous liquids, drain to sanitary sewer[9], and contain by berms or similar.	☐	☐	
☐	☑	Vehicle/ Equipment Cleaning	▪ Roofed, pave and berm wash area to prevent stormwater run-on and runoff, plumb to the sanitary sewer[9], and sign as a designated wash area. ▪ Commercial car wash facilities shall discharge to the sanitary sewer.[9]	☐	☐	
☐	☑	Vehicle/ Equipment Repair and Maintenance	▪ Designate repair/maintenance area indoors, or an outdoors area designed to prevent stormwater run-on and runoff and provide secondary containment. Do not install drains in the secondary containment areas. ▪ No floor drains unless pretreated prior to discharge to the sanitary sewer.[9] ▪ Connect containers or sinks used for parts cleaning to the sanitary sewer.[9]	☐	☐	
☐	☑	Fuel Dispensing Areas	▪ Fueling areas shall have impermeable surface that is a) minimally graded to prevent ponding and b) separated from the rest of the site by a grade break. ▪ Canopy shall extend at least 10 ft in each direction from each pump and drain away from fueling area.	☐	☐	
☐	☑	Loading Docks	▪ Cover and/or grade to minimize run-on to and runoff from the loading area. ▪ Position downspouts to direct stormwater away from the loading area. ▪ Drain water from loading dock areas to the sanitary sewer.[9] ▪ Install door skirts between the trailers and the building.	☐	☐	
☑	☐	Fire Sprinklers	Design for discharge of fire sprinkler test water to landscape or sanitary sewer.[9]	☐	☐	
☑	☐	Miscellaneous Drain or Wash Water	▪ Drain condensate of air conditioning units to landscaping. Large air conditioning units may connect to the sanitary sewer.[9] ▪ Roof drains shall drain to unpaved area where practicable. ▪ Drain boiler drain lines, roof top equipment, all washwater to sanitary sewer[9].	☐	☐	
☐	☑	Architectural Copper	▪ Discharge rinse water to sanitary sewer[9], or collect and dispose properly offsite. See flyer "Requirements for Architectural Copper."	☐	☐	

[9] See MRP Provision C.3.a.i(7) for non-C.3 Regulated Projects and Provision C.3.c.i(1) for C.3 Regulated Projects.
[10] Any connection to the sanitary sewer system is subject to sanitary district approval.
[11] Businesses that may have outdoor process activities/equipment include machine shops, auto repair, industries with pretreatment facilities.

II.D. Implement Construction Best Management Practices (BMPs) *(Applies to all projects – see Provision C.6 for more details.)*

Yes	No	Best Management Practice (BMP)
☑	☐	Attach the municipality's construction BMP plan sheet to project plans and require contractor to implement the applicable BMPs on the plan sheet.
☑	☐	Temporary erosion controls to stabilize all denuded areas until permanent erosion controls are established.
☐	☑	Delineate with field markers clearing limits, easements, setbacks, sensitive or critical areas, buffer zones, trees, and drainage courses.
☑	☐	Provide notes, specifications, or attachments describing the following: ▪ Construction, operation and maintenance of erosion and sediment controls, include inspection frequency; ▪ Methods and schedule for grading, excavation, filling, clearing of vegetation, and storage and disposal of excavated or cleared material; ▪ Specifications for vegetative cover & mulch, include methods and schedules for planting and fertilization; ▪ Provisions for temporary and/or permanent irrigation.
☐	☑	Perform clearing and earth moving activities only during dry weather.
☐	☑	Use sediment controls or filtration to remove sediment when dewatering and obtain all necessary permits.
☑	☐	Protect all storm drain inlets in vicinity of site using sediment controls such as berms, fiber rolls, or filters.
☑	☐	Trap sediment on-site, using BMPs such as sediment basins or traps, earthen dikes or berms, silt fences, check dams, soil blankets or mats, covers for soil stock piles, etc.
☑	☐	Divert on-site runoff around exposed areas; divert off-site runoff around the site (e.g., swales and dikes).
☑	☐	Protect adjacent properties and undisturbed areas from construction impacts using vegetative buffer strips, sediment barriers or filters, dikes, mulching, or other measures as appropriate.
☑	☐	Limit construction access routes and stabilize designated access points.
☑	☐	No cleaning, fueling, or maintaining vehicles on-site, except in a designated area where washwater is contained and treated.
☑	☐	Store, handle, and dispose of construction materials/wastes properly to prevent contact with stormwater.
☑	☐	Contractor shall train and provide instruction to all employees/subcontractors re: construction BMPs.
☑	☐	Control and prevent the discharge of all potential pollutants, including pavement cutting wastes, paints, concrete, petroleum products, chemicals, washwater or sediments, rinse water from architectural copper, and non-stormwater discharges to storm drains and watercourses.

PROJECTS THAT ARE NOT C.3 REGULATED PROJECTS STOP HERE!

II.E. Biotreatment, Infiltration and Rain Water Harvesting and Use.

MRP 2.0 no longer requires that a feasibility analysis of infilration and rainwater harvesting be conducted. However, applicants using biotreatment are encouraged to maximize infiltration of stormwater if site conditions allow. If feasible and desired, infiltration and rainwater harvesting may be cost effective solutions depending on the project.

II.F. Stormwater Treatment Measures (Applies to C.3 Regulated Projects)

II.F.1 Check the applicable box and indicate the treatment measures to be included in the project.

Yes	No	
☑	☐	Is the project a Special Project? (See Appendix K of the C.3 Technical Guidance for criteria.) If Yes, complete the Special Projects Worksheet (go to the program website at: www.cleanwaterprogram.org and click on "Resources") and consult with municipal staff about the need to prepare a discussion of the feasibility and infeasibility of 100% LID treatment. Indicate the type of non-LID treatment to be used, the hydraulic sizing method*, and percentage of the amount of runoff specified in Provision C.3.d that is treated: Non-LID Treatment / Hydraulic sizing method* / % of C.3.d amount of runoff treated ☑ Media filter — 80% Capture — 42% ☐ Tree well filter
☑	☐	Is the project using biotreatment to treat the C.3.d amount of runoff? For more information on infiltration and rainwater harvesting and use of stormwater, refer to the C3 Technical Guidance downloadable at the program website: www.cleanwaterprogram.org If Yes, indicate the biotreatment measures to be used, and the hydraulic sizing method: Biotreatment Measures / Hydraulic sizing method* ☐ Bioretention area ☑ Flow-through planter — 4% Method ☐ Other (specify):
☑	☐	Is the project using infiltration or rainwater harvesting/use? For more information on infiltration and rainwater harvesting and use of stormwater, refer to the C3 Technical Guidance downloadable at the program website: www.cleanwaterprogram.org If Yes, indicate the measures to be used, and hydraulic sizing method: LID Treatment Measure (non-biotreatment) / Hydraulic sizing method* ☑ Rainwater harvesting and use — 80% Capture ☐ Bioinfiltration[12] ☐ Infiltration trench ☐ Other (specify):_____

***Hydraulic Sizing Method:** Indicate which of the following Provision C.3.d.i hydraulic sizing methods were used:

1. Volume based approaches – Refer to Provision C.3.d.i.(1):
   1(a) Urban Runoff Quality Management approach, or
   1(b) 80% capture approach (recommended volume-based approach).

2. Flow-based approaches – Refer to Provision C.3.d.i.(2):
   2(a) 10% of 50-year peak flow approach,
   2(b) Percentile rainfall intensity approach, or
   2(c) 0.2-Inch-per-hour intensity approach (this is recommended flow-based approach AND the basis for the 4% rule of thumb described in Section 5.1 of the C.3 Technical Guidance).

3. Combination hydraulic sizing approach -- Refer to Provision C.3.d.i.(3):
   If a combination flow and volume design basis was used, indicate which flow-based and volume-based criteria were used.

[12] See Section 6.1 of the C.3 Technical Guidance for conditions in which bioretention areas provide bioinfiltration.

II.G. Is the project a Hydromodification Management[13] (HM) Project? (Complete this section for C.3 Regulated Projects)

II.G.1 Does the project create and/or replace 1 acre (43,560 sq. ft.) or more of impervious surface? (Refer to Item I.B.1.)

- ☐ Yes. *Continue to Item II.G.2.*
- ☑ No. *The project is NOT required to incorporate HM measures. Skip to Item II.G.6 and check "No."*

II.G.2 Is the total impervious area increased over the pre-project condition? (Refer to Item I.B.1.)

- ☐ Yes. *Continue to Item II.G.3.*
- ☐ No. *The project is NOT required to incorporate HM measures. Skip to Item II.G.6 and check "No."*

II.G.3 Is the site located in a tidally influenced/depositional area, or in the extreme eastern portion of the county that is not subject to HM requirements? *(See HMP Susceptibility Map in Appendix I of the C.3 Technical Guidance.)*

- ☐ Yes. *Project is exempt from HM requirements. Attach map indicating project location. Skip to II.G.6 and check "No".*
- ☐ No. *Continue to II.G.4.*

II.G.4 Is the site located in a high slope zone or special consideration watershed, as shown on the HMP Susceptibility Map?

- ☐ Yes. *Project is subject to HM requirements. Attach map indicating project location. Skip to II.G.6 and check "Yes."*
- ☐ No. *Continue to II.G.5.*

II.G.5 For sites located in a white area on the HMP Susceptibility Map, has an engineer or qualified environmental professional determined that runoff from the project flows only through a hardened channel or enclosed pipe along its entire length before emptying into a waterway in the exempt area?

- ☐ Yes. *Project is exempt from HM requirements. Attach signed statement by qualified professional. Go to II.G.6 and check "No."*
- ☐ No. *Project is subject to HM requirements. Attach map indicating project location. Go to Item G.6 and check "Yes."*

II.G.6 Is the project a Hydromodification Management Project?

- ☐ Yes. *The project is subject to HM requirements in Provision C.3.g of the Municipal Regional Stormwater Permit.*
- ☑ No. *The project is EXEMPT from HM requirements.*
- ☐ HM requirements are impracticable. *(Attach documentation needed to comply with the impracticability provision in MRP Attachment B.)*

➢ *If the project is subject to the HM requirements, incorporate in the project flow duration stormwater control measures designed such that post-project stormwater discharge rates and durations match pre-project discharge rates and durations. The Bay Area Hydrology Model (BAHM) has been developed to size flow duration controls. See www.bayareahydrologymodel.org. Guidance is provided in Chapter 7 of the C.3 Technical Guidance.*

II.H Stormwater Treatment Measure and/HM Control Owner or Operator's Information:

Name:_____

Address:_____

Phone:_____ Email:_____

➢ *Applicant must call for inspection and receive inspection within 45 days of installation of treatment measures and/or hydromodification management controls.*

Name of applicant completing the form: Casey Walker, PE, QSP/QSD

Signature:_____ Date: 4/26/2021

[13] Hydromodification is the modification of a stream's hydrograph, caused in general by increases in flows and durations that result when land is developed (made more impervious). The effects of hydromodification include, but are not limited to, increased bed and bank erosion, loss of habitat, increased sediment transport and deposition, and increased flooding. Hydromodification management control measures are designed to reduce these effects.

III. For Completion By Municipal Staff

III.1 Alternative Certification: Was the treatment system sizing and design reviewed by a qualified third-party professional that is not a member of the project team or agency staff?

☐ Yes ☐ No Name of Reviewer_____

III.2. Confirm Operations and Maintenance (O&M) Submittal:

The following questions apply to C.3 Regulated Projects and Hydromodification Management Projects.

		Yes	No	N/A
III.2.a	Was maintenance plan submitted?	☐	☐	☐
III.2.b	Was maintenance plan approved?	☐	☐	☐
III.2.c	Was maintenance agreement submitted? (Date executed:_____)	☐	☐	☐

- *Attach the executed maintenance agreement as an appendix to this checklist.*

III.3 Incorporate HM Controls (if required)

Are the applicable items for HM compliance included in the plan submittal?

Yes	No	NA	Documentation for HM Compliance
☐	☐	☐	Site plans with pre- and post-project impervious surface areas, surface flow directions of entire site, locations of flow duration controls and site design measures per HM site design requirement
☐	☐	☐	Soils report or other site-specific document showing soil types at all parts of site
☐	☐	☐	If project uses the Bay Area Hydrology Model (BAHM), a list of model inputs.
☐	☐	☐	If project uses custom modeling, a summary of the modeling calculations with corresponding graph showing curve matching (existing, post-project, and post-project with HM controls curves), goodness of fit, and (allowable) low flow rate.
☐	☐	☐	If project uses the Impracticability Provision, a listing of all applicable costs and a brief description of the alternative HM project (name, location, date of start up, entity responsible for maintenance).
☐	☐	☐	If the project uses alternatives to the default BAHM approach or settings, a written description and rationale.

- *Municipal staff: Refer to the "Flow Duration Control Review Worksheet for HM Submittals" to review the documentation submitted for HM compliance.*

III.4 Annual Operations and Maintenance (O&M) Submittals:

For C.3 Regulated Projects and Hydromodification Management Projects, indicate the dates on which the Applicant submitted annual reports for project O&M: _____

_____

III.5 Comments:

_____

_____

_____

_____

III.6 Notes:

Section I Notes:_____

Section II Notes:_____

Section III Notes:_____

III.7 Project Close-Out:

III.7.a Were final Conditions of Approval met? ☐ ☐

III.7.b	Was initial inspection of the completed treatment/HM measure(s) conducted? (Date of inspection:_____)	☐	☐	☐
III.7.c	Was maintenance plan submitted? (Date executed:_____)	☐	☐	☐
III.7.d	Was project information provided to staff responsible for O&M verification inspections? (Date provided to inspection staff:_____)	☐	☐	☐

Name of staff confirming project is closed out:_____

Signature:_____ Date:_____

Name of O&M staff receiving information:_____

Signature:_____ Date:_____

Appendices

Appendix A: O&M Agreement
Appendix B: O&M Annual Report Form

SPECIAL PROJECTS WORKSHEET

MRP 2.0 Special Projects Worksheet

Complete this worksheet for projects that appear to meet the definition of "Special Project", per Provision C.3.e.ii of the Municipal Regional Stormwater Permit (MRP 2.0). The form assists in determining whether a project meets Special Project criteria, and the percentage of low impact development (LID) treatment reduction credit. Special Projects that implement less than 100% LID treatment must provide a narrative discussion of the feasibility or infeasibility of 100% LID treatment. See Appendix J of the C.3 Technical Guidance (excerpt attached, download at www.cleanwaterprogram.com) for more information.

Project Name: San Pablo 10

Project Address: 2820 San Pablo Ave and 2821 10th St, Berkeley, CA 94710

Applicant/Developer Name: Kevin Kelly

1. "Special Project" Determination *(Check the boxes to determine if the project meets any of the following categories.)*

Special Project Category "A"

Does the project have ALL of the following characteristics?

- ☐ Located in a municipality's designated central business district, downtown core area or downtown core zoning district, neighborhood business district or comparable pedestrian-oriented commercial district, or historic preservation site and/or district[1];
- ☐ Creates and/or replaces 0.5 acres or less of impervious surface;
- ☐ Includes no surface parking, except for incidental parking for emergency vehicle access, ADA access, and passenger or freight loading zones;
- ☐ Has at least 85% coverage of the entire site by permanent structures. The remaining 15% portion of the site may be used for accessory uses[2].

☐ No (continue) ☐ Yes – complete Section 2 of the Special Project Worksheet

Special Project Category "B"

Does the project have ALL of the following characteristics?

- ☐ Located in a municipality's designated central business district, downtown core area or downtown core zoning district, neighborhood business district or comparable pedestrian-oriented commercial district, or historic preservation site and/or district[1];
- ☐ Creates and/or replaces more than 0.5 acres of impervious area and less than 2.0 acres;
- ☐ Includes no surface parking, except for incidental parking for emergency access, ADA access, and passenger or freight loading zones;
- ☐ Has at least 85% coverage of the entire site by permanent structures. The remaining 15% portion of the site may be used for accessory[2] uses;
- ☐ Minimum Gross Density[3] (GD) of either 50 dwelling units (DU) per acre (for residential projects) or a Floor Area Ratio[4] (FAR) of 2:1 (for commercial). Either criterion can be used for mixed use projects.

☐ No (continue) ☐ Yes – complete Section 2 of the Special Project Worksheet

Special Project Category "C"

Does the project have ALL of the following characteristics?

- ☑ At least 50% of the project area is within 1/2 mile of an existing or planned transit hub[5] or 100% within a planned Priority Development Area[6];
- ☑ The project is characterized as a non-auto-related use[7]; and
- ☐ Minimum GD of 25 DU per acre (residential) or a FAR of 2:1 (commercial). Either criterion for mixed use.

☐ No ☑ Yes – complete Section 2 of the Special Project Worksheet

[1] And built as part of a municipality's stated objective to preserve/enhance a pedestrian-oriented type of urban design.
[2] Accessory Uses: safety access, parking structure entrances, trash and recycling service, utility access, pedestrian connections, public uses, landscaping and stormwater treatment.
[3] Gross Density (GD) – The total number of residential units divided by the acreage of the entire site area, including land occupied by public right-of-ways, recreational, civic, commercial and other non-residential uses.
[4] Floor Area Ratio (FAR) – The Ratio of the total floor area on all floors of all buildings at a project site (except structures, floors, or floor areas dedicated to parking) to the total project site area.
[5] "Transit hub" is defined as a rail, light rail, or commuter rail station, ferry terminal, or bus transfer station served by three or more bus routes. (A bus stop with no supporting services does not qualify.)
[6] A "planned Priority Development Area" (PDA) is an infill development area formally designated by the Association of Bay Area Government's / Metropolitan Transportation Commission's FOCUS regional planning program.
[7] Category C specifically excludes stand-alone surface parking lots; car dealerships; auto and truck rental facilities with onsite surface storage; fast-food restaurants, banks or pharmacies with drive-through lanes; gas stations; car washes; auto repair and service facilities; or other auto-related project unrelated to the concept of transit oriented development.

Special Projects Worksheet (continued)

2. LID Treatment Reduction Credit Calculation *(If more than one category applies, choose only one of the applicable categories and fill out the table for that category.)*

Category	Impervious Area Created/Replaced (sq. ft.)	Site Coverage (%)	Project Density or FAR	Density/Criteria	Allowable Credit (%)	Applied Credit (%)
A			N.A.	N.A.	100%	
B				Res ≥ 50 DU/ac or FAR ≥ 2:1	50%	
				Res ≥ 75 DU/ac or FAR ≥ 3:1	75%	
				Res ≥ 100 DU/ac or FAR ≥ 4:1	100%	
C	18,585	93%		**Location credit (select one)[8]:**		
				Within ¼ mile of transit hub	50%	
				Within ½ mile of transit hub	25%	
				Within a planned PDA	25%	25%
				Density credit (select one):		
				Res ≥ 30 DU/ac or FAR ≥ 2:1	10%	10%
				Res ≥ 60 DU/ac or FAR ≥ 4:1	20%	
				Res ≥ 100 DU/ac or FAR ≥ 6:1	30%	
				Parking credit (select one):		
				≤ 10% at-grade surface parking[9]	10%	
				No surface parking	20%	20%
				TOTAL TOD CREDIT =		55%

3. Narrative Discussion of the Feasibility/Infeasibility of 100% LID Treatment:

If project will implement less than 100% LID, prepare a discussion of the feasibility or infeasibility of 100% LID treatment, as described in Appendix J of the C.3 Technical Guidance (excerpt attached), discussing both technical and economic feasibility/infeasibility. The infeasibility of 100% LID treatment must be established prior to approval of any non-LID treatment.

4. Select Certified Non-LID Treatment Measures:

If the project will include non-LID treatment measures, select a treatment measure certified by a government agency, such as the "Basic" General Use Level Designation (GULD) by the Washington State Department of Ecology's Technical Assessment Protocol – Ecology (TAPE). Guidance is provided in Section Appendix J of the C.3 Technical Guidance (download at www.cleanwaterprogram.com – excerpt attached).[10] If a different certification program is used, specify the design operating rate for which the product received the relevant certification.

Special Projects Worksheet Completed by:

Signature _____ Date _____

Casey Walker, PE, QSD/QSP

Print or Type Name

[8] To qualify for the location credit, at least 50% of the project's site must be located within the ¼ mile or ½ mile radius of an existing or planned transit hub, as defined on page 1, footnote 2. A planned transit hub is a station on the MTC's Regional Transit Expansion Program list, per MTC's Resolution 3434 (revised April 2006), which is a regional priority funding plan for future transit stations in the San Francisco Bay Area. To qualify for the PDA location credit, 100% of the project site must be located within a PDA, as defined on page 1, footnote 3.

[9] The at-grade surface parking must be treated with LID treatment measures.

[10] TAPE certification is used in order to satisfy Special Project's reporting requirements in the MRP.

MRP 2.0 Special Projects Worksheet (continued)

Attachment 1

Excerpts from Appendix J of the C.3 Technical Guidance

J.6 LID Infeasibility Requirement for Special Projects

In order to be considered a Special Project, in addition to documenting that all applicable criteria for one of the above-described Special Project categories have been met, the applicant must provide a narrative discussion of the feasibility or infeasibility of using 100 percent LID treatment onsite, offsite, or at a Regional Project. The narrative discussion is required to address the following:

1. The infeasibility of treating 100% of the amount of runoff identified in Provision C.3.d for the Regulated Project's drainage area with LID treatment measures onsite;
2. The infeasibility of treating 100% of the amount of runoff identified in Provision C.3.d for the Regulated Project's drainage area with LID treatment measures offsite or paying in-lieu fees to treat 100% of the Provision C.3.d runoff with LID treatment measures at an offsite or Regional Project; and
3. The infeasibility of treating 100% of the amount of runoff identified in Provision C.3.d for the Regulated Project's drainage area with some combination of LID treatment measures onsite, offsite, and/or paying in-lieu fees towards at an offsite or Regional Project.

The discussion is required to contain enough technical and/or economic detail to document the basis of any infeasibility that is determined.

J.6.1 On-site LID Treatment

The narrative discussion should describe how the routing of stormwater runoff has been optimized to route as much runoff as possible to LID treatment measures. A discussion should also be provided for each area of the site for which runoff must be treated with non-LID treatment measures, and should include the following:

1. Uses of impervious surfaces that preclude the use of LID treatment; and
2. Technical constraints that preclude the use of any landscaped areas for LID treatment, such as:
   a. Inadequate size to accommodate biotreatment facilities that meet the sizing requirements for the drainage area;
   b. Slopes too steep to terrace;
   c. Proximity to an unstable bank or slope;
   d. Environmental constraints (e.g., landscaped area is within riparian corridor);
   e. High groundwater or shallow bedrock;
   f. Conflict with subsurface utilities;
   g. Cap over polluted soil or groundwater;
   h. Lack of head or routing path to move collected runoff to the landscaped area or from the landscaped area to the disposal point;
   i. Other conflicts or required uses that preclude use for stormwater treatment (explain).

J.6.2 Off-site LID Treatment.

The applicant must demonstrate to the municipality performing the project review that it is infeasible to provide LID treatment of an equivalent amount of runoff offsite either by paying in-lieu fees to a regional project or on other property owned by the project proponent in the same watershed (in other words, that alternative compliance, as described in Chapter 9, is infeasible).

Check with the local municipality to determine if there are any regional projects available for alternative compliance purposes (at the time of completion of this Appendix, there were none in Alameda County). These considerations should be documented in the narrative discussion of the feasibility and infeasibility of providing 100% LID treatment.

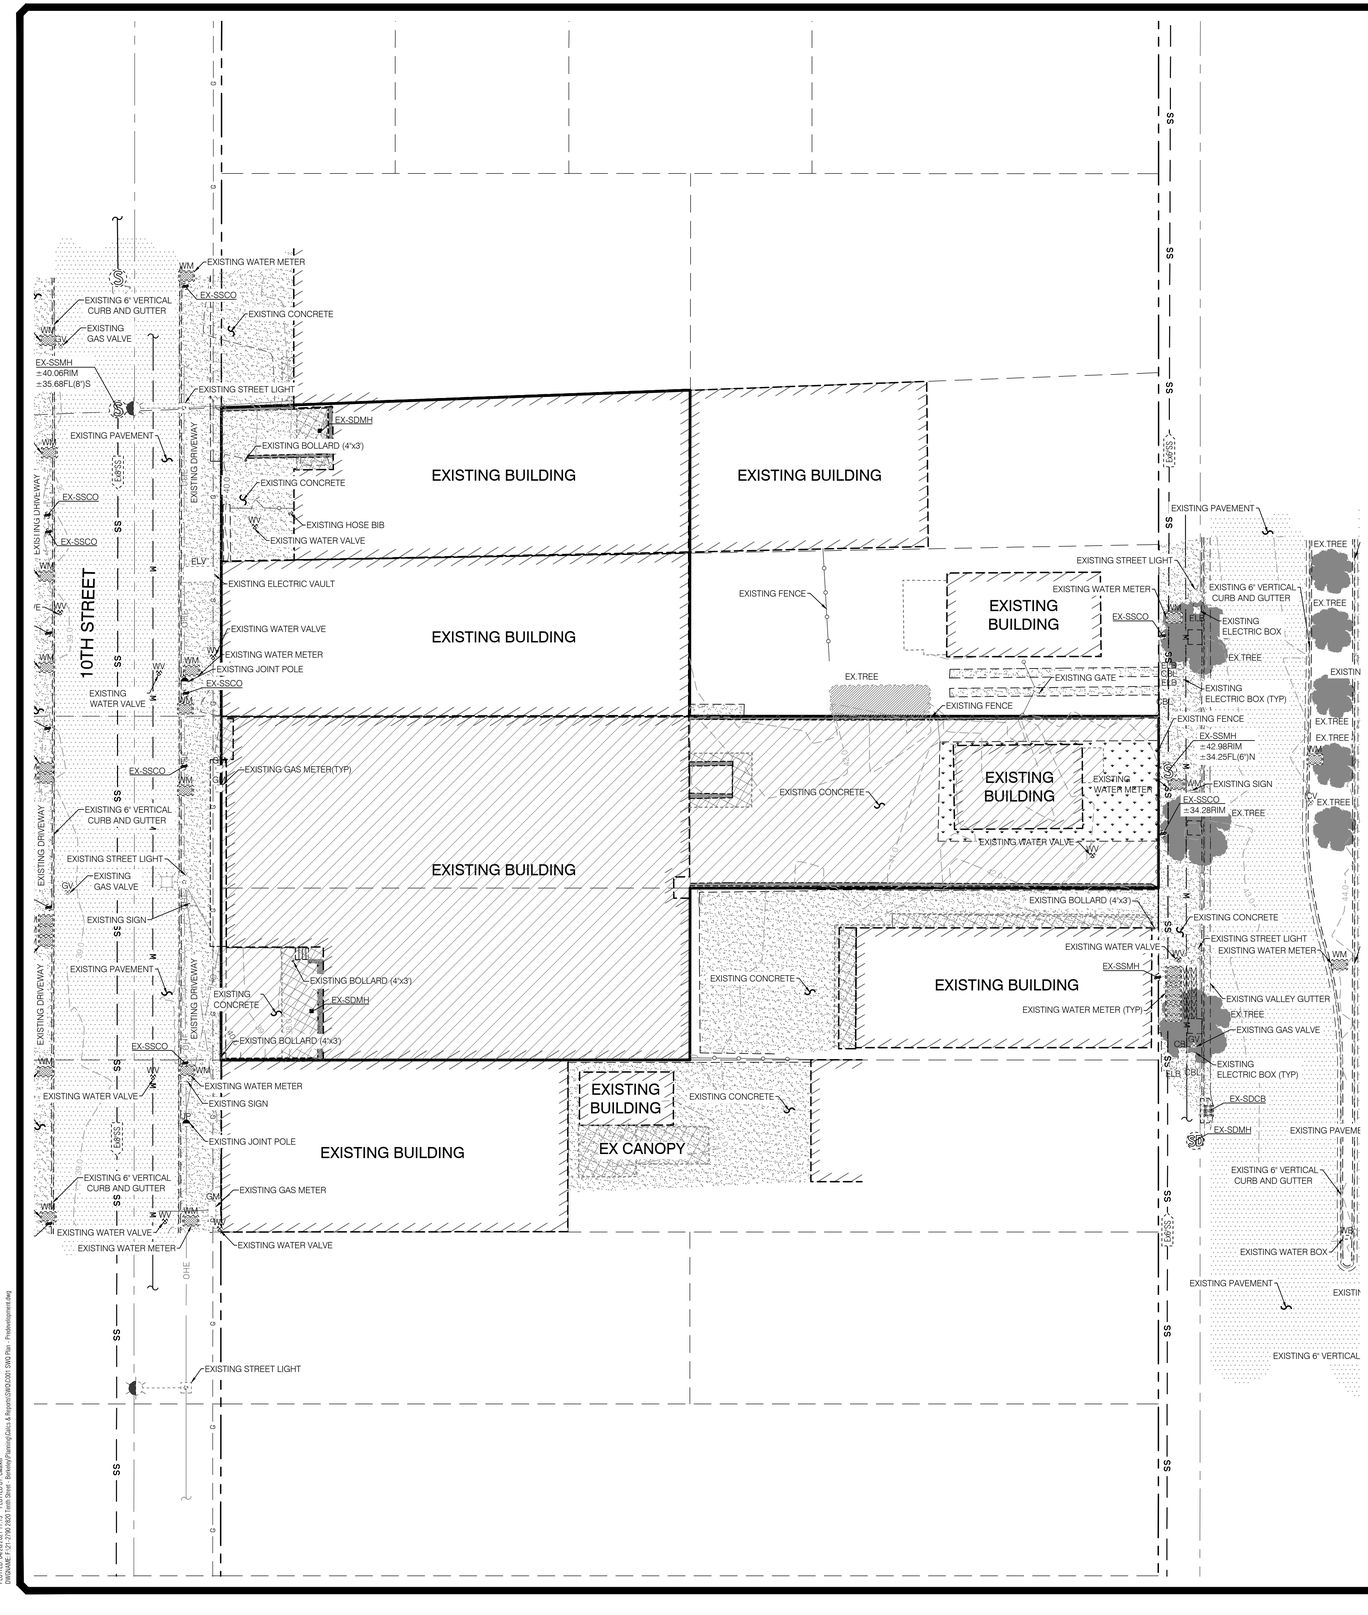
J.6.3 Combination of On-site and Off-site LID Treatment

The applicant must also demonstrate to the municipality performing the project review that it is infeasible to provide LID treatment of 100% of the amount of runoff specified in Provision C.3.d with some combination of LID measures on-site, offsite, and or paying in-lieu fees to a regional project.

After determining the extent to which stormwater runoff can be optimized to route as much runoff as possible to LID treatment measures, if that amount is less than 100%, and if there are no options to provide LID treatment off-site on a property owned by the project proponent in the same watershed, check with the municipality to determine if there are any regional projects available for alternative compliance purposes for the remainder of the C.3.d amount of runoff. These considerations should be documented in the narrative discussion of the feasibility and infeasibility of providing 100% LID treatment.

J.7 Select Non-LID Treatment Measures Certified by a Government Agency

MRP Provision C.3.e.vi.(3)(i) requires municipalities to report to the Regional Water Board, for each non-LID treatment measure that the municipality approves, "whether the treatment system either meets minimum design criteria published by a government agency or received certification issued by a government agency, and reference the applicable criteria or certification."



For Special Projects that are allowed to use non-LID treatment measures, applicants are advised to use treatment measures that have been certified by the Washington State Department of Ecology's Technical Assessment Protocol – Ecology (TAPE), under General Use Level Designation (GULD) for Basic Treatment.[11] You can identify proprietary media filters and high flow rate tree well filters currently holding this certification at the following link: http://www.ecy.wa.gov/programs/wq/stormwater/newtech/technologies.html.

The municipality may require that any non-LID treatment measures used in a Special Project be TAPE-certified, or the municipality may allow the use of non-LID treatment measures certified by another governmental program.

If the TAPE system is used, treatment measures must be sized based on the hydraulic sizing criteria specified in MRP Provision C.3.d and the design operating rate for which the product received TAPE GULD certification for Basic Treatment. If a different certification program is used, specify the design operating rate for which the product received the relevant certification.

[11] "General Use" is distinguished from a pilot or conditional use designation. "Basic Treatment" is distinguished from treatment effectiveness for phosphorus removal. Basic treatment is intended to achieve 80 percent removal of total suspended solids (TSS) for influent concentrations from 100 mg/L to 200 mg/L TSS and achieve 20 mg/L TSS for less heavily loaded influents.

Sizing Calculations - A-1:

Post-Project Runoff Volume

Site Element	ft^2	I*
Roofs/Impervious	5,102	1.00
Flow-Through Planter	1,125	1.00
Total Site Area/"Composite I"	**6,227**	**1.00**

*Imperviousness ratio come from Alameda County Clean Water Program Technical Guidance Manual

Needed Planter Area Calculations:

$A_p = 0.04 * A$

Where: A_p = Total flow-through planter area required

A = Total tributary impervious area

A = 6,227 ft^2

A_p = **249** ft^2

Planter area provided = **1,125** ft^2

Sizing Calculations - A-2:

Post-Project Runoff Volume

Site Element	ft^2	I*
Roofs/Impervious	1,749	1.00
Landscape/Roof Planter	113	0.10
Total Site Area/"Composite I"	**1,862**	**0.95**

*Imperviousness ratio come from Alameda County Clean Water Program Technical Guidance Manual

Rainwater Harvesting Calculations:

Rainwater harvesting cisterns will be designed to store the runoff generated by the storms per the Alameda Countywide Clean Water Program Technical Guidance Manual section 6.9.

Sizing Calculations - A-3:

Post-Project Runoff Volume

Site Element	ft^2	I*
Roofs/Impervious	893	1.00
Flow-Through Planter	87	1.00
Landscape/Roof Planter	596	0.10
Total Site Area/"Composite I"	**1,576**	**0.66**

*Imperviousness ratio come from Alameda County Clean Water Program Technical Guidance Manual

Needed Planter Area Calculations:

$A_p = 0.04 * A$

Where: A_p = Total flow-through planter area required

A = Total tributary impervious area

$A =$ 1,576 ft^2

$A_p =$ **63** ft^2

Sizing Calculations - A-4:

Post-Project Runoff Volume

Site Element	ft^2	C*
Roofs/Impervious	3,257	0.90
Landscape/Roof Planter	278	0.10
Total Site Area/"Composite C"	**3,535**	**0.84**

*Runoff coefficients come from Alameda County Clean Water Program Technical Guidance Manual

Stormwater Quality Design Flow Calculation

$SQDF = i \times C \times A_{eff}$

Where:
- SQDF = Stormwater Quality Design Flow (gpm)
- i = Rainfall intensity (in/hr)
- C = Runoff coefficient
- A_{eff} = Effective project area (acres)

i =	0.20	in/hr
C =	0.84	(for area served by stormfilter)

$A_{eff} = A - A_{cred}$

Where:
- A = Total Runoff area not treated by bioretention (ft^2)
- A_{cred} = Area credit (ft^2)

A =	3,535	ft^2
A_{cred} =	0	ft^2 (assuming no bioretention treatment)
A_{eff} =	**0.08**	acres

SQDF =	**0.01**	ft^3/sec
	6.10	gpm

Contech Stormfilter Calculations:

Cartridge Size =	LOW DROP		
System Hydraulic Drop =	1.8	ft	(Per Manufacturer Specifications)
Media Specific Flow Rate =	1	gpm/ft^2	(Per Manufacturer Specifications)
Cartridge Flow Rate =	5	gpm	(Per Manufacturer Specifications)
Number of Cartridges Required =	**2**	**cartridges**	(N = SQDF/Cartridge Flow Rate)

Sizing Calculations - A-5:

Post-Project Runoff Volume

Site Element	ft^2	I*
Roofs/Impervious	1,865	1.00
Flow-Through Planter	93	1.00
Total Site Area/"Composite I"	**1,958**	**1.00**

*Imperviousness ratio come from Alameda County Clean Water Program Technical Guidance Manual

Needed Planter Area Calculations:

$A_p = 0.04 * A$

Where: A_p = Total flow-through planter area required

A = Total tributary impervious area

$A =$ 1,958 ft^2

$A_p =$ **78** ft^2

Sizing Calculations - A-6:

Post-Project Runoff Volume

Site Element	ft^2	C*
Roofs/Impervious	4,879	0.90
Total Site Area/"Composite C"	**4,879**	**0.90**

*Runoff coefficients come from Alameda County Clean Water Program Technical Guidance Manual

Stormwater Quality Design Flow Calculation

$SQDF = i \times C \times A_{eff}$

Where:

SQDF = Stormwater Quality Design Flow (gpm)
i = Rainfall intensity (in/hr)
C = Runoff coefficient
A_{eff} = Effective project area (acres)

i = 0.20 in/hr
C = 0.90 (for area served by stormfilter)

$A_{eff} = A - A_{cred}$

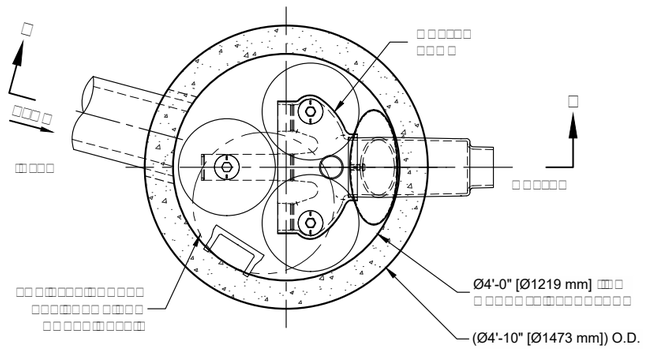
Where:

A = Total Runoff area not treated by bioretention (ft^2)
A_{cred} = Area credit (ft^2)

A = 4,879 ft^2
A_{cred} = 0 ft^2 (assuming no bioretention treatment)
A_{eff} = **0.11** acres

SQDF = **0.02** ft^3/sec
9.05 gpm

Contech Stormfilter Calculations:



Cartridge Size =	LOW DROP		
System Hydraulic Drop =	1.8	ft	(Per Manufacturer Specifications)
Media Specific Flow Rate =	1	gpm/ft^2	(Per Manufacturer Specifications)
Cartridge Flow Rate =	5	gpm	(Per Manufacturer Specifications)
Number of Cartridges Required =	**2**	**cartridges**	(N = SQDF/Cartridge Flow Rate)

Summary:

1 Introduction

1.1 Environmental Review Process

On August 21, 2024, the City of Berkeley published a Notice of Intent (NOI) to Adopt a Mitigated Negative Declaration for a 30-day comment period to receive input on the IS/MND. The NOI was filed with the Alameda County Clerk, published in a local newspaper, mailed to public agencies (including the State Clearinghouse), organizations, and individuals considered likely to be interested in the project and its potential impacts. In accordance with CEQA Guidelines Section 15074 (b), the City of Berkeley's decision makers must consider the IS/MND together with comments received during the public review process prior to approving the project. The City received six comment letters (including emails) on the IS/MND during the public comment period. Copies of those written comments are included in Chapter 3 of this document.

1.2 Purpose of the Response to Comments Document

Pursuant to CEQA Guidelines Section 15088, a lead agency is not required to prepare written responses received on an IS/MND. However, prior to approving a project, the decision-making body must consider the proposed IS/MND together with any comments received during the public review process. For this reason, the City has elected to prepare the following written responses.

This document includes responses to comments received on the IS/MND for the proposed 2820 San Pablo Avenue and 2817-2821 Tenth Street Mixed-Use Project (project). This Response to Comments document, together with the IS/MND, constitutes the Final IS/MND for the proposed project.

1.3 Document Organization

This Response to Comments document consists of the following chapters:

- *Chapter 1: Introduction*. This chapter discusses the purpose and organization of this Response to Comments document and summarizes the environmental review process for the project.
- *Chapter 2: Comments and Responses*. This chapter contains a list of the agencies, individuals, and organizations that submitted written comments during the public review period on the IS/MND. This chapter contains reproductions of comment letters and e-mails received on the IS/MND. Written responses to comments raising significant environmental issues received during the public review period are provided. Each response is keyed to the corresponding comment.

2 Comments and Responses

This chapter includes a list of comment letters (including emails) received during the public review period (August 21, 2024, to September 20, 2023), describes the organization of the letters and comments, and provides written responses to each comment letter received. Comment letters are provided in their entirety. Revisions to the IS/MND in response to the comments received are included in Chapter 3, IS/MND Revisions, of this document.

2.1 Organization of Comment Letters and Responses

The comment letters are listed in Table 1 below. The responses to each comment identify first the number of the comment letter, and then the number assigned to each comment (Response 1.1, for example, indicates that the response is for the first issue raised in comment letter 1).

2.2 Comments Received

The following written comments were submitted to the City during the public review period.

Table 1 List of Letter Numbers and Commenters

Letter Number and Commenter		Page Number
1	Yunsheng Luo, California Department of Transportation (Caltrans)	4
2	David J. Rehnstrom, East Bay Municipal Utility District	8
3	Katharine Fisher	12
4	John Koenigshofer	15
5	Peter Weiner	17
6	Peter Weiner	19

2.3 Comments and Responses

CEQA Guidelines section 15088 requires that a lead agency respond to comments raising significant environmental issues. Text within individual letters that has not been numbered for reference in the responses does not specifically raise environmental issues nor relate directly to the adequacy of the information or analysis within the IS/MND, and therefore no comment is enumerated or response required, pursuant to State CEQA Guidelines sections 15088 and 15132. Comments on the project's merits or features of the proposed project itself do not raise significant environmental issues or provide input about the environmental analysis or conclusions in the IS/MND. Although these comments do not address the analysis in the IS/MND, they are important for the City to consider, so they are included in the record for consideration by the decision making body before taking action on the project.

Comment letters and responses are provided below. None of the comments resulted in revisions to the IS/MND, and no recirculation of the IS/MND would be required.

Letter

Re: 2820 San Pablo Avenue and 2817-2821 Tenth Street Mixed-Use Project – Mitigated Negative Declaration (MND)

Dear Allison Riemer:

Thank you for including the California Department of Transportation (Caltrans) in the environmental review process for the 2820 San Pablo Avenue and 2817-2821 Tenth Street Mixed-Use Project. The Local Development Review (LDR) Program reviews land use projects and plans to ensure consistency with our mission and state planning priorities. The following comments are based on our review of the August 2024 MND.

Please note this correspondence does not indicate an official position by Caltrans on this project and is for informational purposes only.

Project Understanding

The proposed project would demolish the existing building at 2821 Tenth Street and construct two connected, adjacent buildings at 2821 Tenth Street and 2820 San Pablo Avenue. The proposed building at 2821 Tenth Street would be a two-story mixed-use commercial office with light-industrial use, a ground floor parking garage and lobby, and a mezzanine above the second story. The proposed building at 2820 San Pablo Avenue would be a four-story mixed-use building with commercial offices, a residential unit, and a roof deck. The project would include 23 automobile parking spaces (including one Americans with Disabilities Act (ADA) Van parking space, and four EV charging spaces), 14 bicycle parking spaces, and three loading spaces for use by tenants. The proposed project is directly adjacent to State Route (SR) 123. 1.

Hydrology
Site Plan Sheet C002, Storm Water Control Plan: Please show direction of water flow or if the water flow connects to the existing State Drainage System on San Pablo Avenue.
Site Plan Sheet G020, Rainwater Leader Diagram: Please include lines showing the structure design.

Site Plan Sheet SFMH48, Storm Filter Standard Detail: Please include lines showing the structure design. 1.

If the project involves drainage work that flows into the State Drainage System, please provide a drainage design memo. Please show how the proposed drainage system flows on the Plans. The drainage design memo should include pre- and post- project flows to the existing drainage system. The Drainage Plan and Profile Sheets should include lengths, size, and types of new and existing pipes, inlets, outlets, and systems showing any utility conflicts. Please include drainage details and profiles for connection to the existing drainage system. Any assumptions and calculations used in designing the drainage system should be shown.

Construction-Related Impacts
Project work that requires movement of oversized or excessive load vehicles on State roadways requires a transportation permit that is issued by Caltrans. To apply, please visit Caltrans Transportation Permits (*link*).

Prior to construction, coordination may be required with Caltrans to develop a Transportation Management Plan to reduce construction traffic impacts to the State Transportation Network. 1.

Project Coordination
Please note that the Alameda County Transportation Commission (ACTC) is developing a project titled "San Pablo Ave Safety Enhancement" on postmile ALA-123 -2.09/5.1. The proposed project will include bus bulb bulb-outs at AC Transit Rapid Bus stops, lighting upgrades, ADA curb ramp and traffic signal upgrades, and bus stop relocations to improve safety. Caltrans will be the Implementing Agency for Construction. Please contact Caltrans D4 Program and Project Management at jack.siauw@dot.ca.gov for potential project coordination. 1.

Equitable Access
If any Caltrans facilities are impacted by the project, those facilities must meet ADA Standards after project completion. As well, the project must maintain bicycle and pedestrian access during construction. These access considerations support Caltrans' equity mission to provide a safe, sustainable, and equitable transportation network for all users. 1.

Encroachment Permit
Please be advised that any permanent work or temporary traffic control that encroaches onto Caltrans' Right-of-Way (ROW) requires a Caltrans-issued encroachment permit. As part of the encroachment permit submittal process, you may be asked by the Office of Encroachment Permits to submit a completed encroachment permit application package, digital set of plans clearly delineating Caltrans' ROW, digital copy of signed, dated and stamped (include stamp expiration date) traffic control plans, this comment letter, your response to the comment letter, and where applicable, the following items: new or amended Maintenance Agreement (MA), approved Design Standard Decision Document (DSDD), approved encroachment exception request, and/or airspace lease agreement. 1.

The Office of Encroachment Permit requires 100% complete design plans and supporting documents to review and circulate the permit application package. To obtain more information and download the permit application, please visit Caltrans Encroachment Permits (*link*). Please note that the checklist TR-0416 is used to determine the appropriate Caltrans review process for encroachment projects. Your application package may be emailed to D4Permits@dot.ca.gov.

Thank you again for including Caltrans in the environmental review process. Should you have any questions regarding this letter, please contact Melissa Hernandez, Associate Transportation Planner via LDR-D4@dot.ca.gov.

For future early coordination opportunities or project referrals, please visit Caltrans LDR website (*link*) or contact LDR-D4@dot.ca.gov.

Sincerely,

YUNSHENG LUO
Branch Chief, Local Development Review
Office of Regional and Community Planning

c: State Clearinghouse

Letter 1

COMMENTER: Yunsheng Luo, California Department of Transportation (Caltrans)

DATE: September 20, 2024

Response 1.1

The commenter summarizes the project description from the Draft IS/MND. No further response is required.

Response 1.2

Potential project impacts related to hydrology are discussed in Section 10, *Hydrology and Water Quality*, of the Draft IS/MND. As discussed therein, the project would not substantially increase runoff from the project site and impacts would be less than significant. The requested information is not necessary to determine the significance of this impact. However, the City Building and Safety Division will review drainage patterns in compliance with state and local regulations prior to construction during review of the building permit for the proposed project.

Response 1.3

Impacts related to transportation are discussed in Section 17, *Transportation*, of the Draft IS/MND. As discussed therein, the project would not result in significant impacts related to construction traffic. The City would require the applicant to prepare a transportation construction plan (TCP) in compliance with the standard Condition of Approval . The TCP is required to include the locations of material and equipment storage, trailers, worker parking, a schedule of site operations that may block traffic, and provisions for traffic control. The City also acknowledges that the applicant may be required to obtain a transportation permit from Caltrans or coordinate with Caltrans to develop a Transportation Management Plan.

Response 1.4

The comment is noted and the information provided will be forwarded to the applicant, appropriate City staff, and decision making body for consideration. Impacts related to transportation are discussed in Section 17, *Transportation*, of the Draft IS/MND. As discussed therein, the project would not result in significant impacts related to pedestrian, bicycle or bus facilities or travel.

Response 1.5

The comment is noted and will be forwarded to the applicant, appropriate City staff, and decision making body for consideration. Impacts related to transportation are discussed in Section 17, *Transportation*, of the Draft IS/MND. As discussed therein, the project would not result in significant impacts related to pedestrian, bicycle, or bus facilities, or travel.

Response 1.6

The comment is noted and will be forwarded to the applicant and appropriate City staff.

EAST BAY
MUNICIPAL UTILITY DISTRICT

September 13, 2024

Letter

Allison Riemer
City of Berkeley, Land Use Planning Division
1947 Center Street, 2nd Floor
Berkeley, CA 94704

Re: Notice of Intent to Adopt an Initial Study/Mitigated Negative Declaration for the 2820 San Pablo Avenue and 2817-2821 Tenth Street Mixed-Use Project, Berkeley

Dear Ms. Riemer:

East Bay Municipal Utility District (EBMUD) appreciates the opportunity to comment on the Initial Study/Mitigated Negative Declaration (IS/MND) for the 2820 San Pablo Avenue and 2817-2821 Tenth Street Mixed-Use Project located in the City of Berkeley (City). EBMUD has the following comments.

WATER SERVICE

Effective January 1, 2018, water service for new multiunit structures shall be individually metered or sub-metered in compliance with Section 537 of California's Water Code & Section 1954.201-219 of California's Civil Code, which encourages conservation of water in multifamily residential, mixed-use multi-family, and commercial buildings by requiring metering infrastructure for each dwelling unit, including appropriate water billing safeguards for both tenants and landlords. EBMUD water services shall be conditioned for all development projects that are subject to these metering requirements and will be released only after the project sponsor has satisfied all requirements and provided evidence of conformance with Section 537 of California's Water Code & Section 1954.201-2019 of California's Civil Code.

2.

EBMUD's Central Pressure Zone, with a service elevation between 0 and 100 feet, will serve the proposed development. When the development plans are finalized, the project sponsor should contact EBMUD's New Business Office and request a water service estimate to determine costs and conditions for providing water service to the project. Engineering and installation of water services require substantial lead time, which should be provided for in the project sponsor's development schedule.

EBMUD's Standard Site Assessment Report and the project's IS/MND indicate the potential for contaminated soils or groundwater to be present within the project site boundaries. The project sponsor should be aware that EBMUD will not install piping or services in contaminated soil or groundwater (if groundwater is present at any time during the year at the depth piping is to be installed) that must be handled as a hazardous waste or that may be hazardous to the health and safety of construction and maintenance personnel wearing Level D personal protective equipment. Nor will EBMUD install piping or services in areas where groundwater contaminant concentrations exceed specified limits for discharge to the sanitary sewer system and sewage treatment plants. The project

2.

sponsor must submit copies to EBMUD of all known information regarding soil and groundwater quality within or adjacent to the project boundary and a legally sufficient, complete, and specific written remediation plan establishing the methodology, planning and design of all necessary systems for the removal, treatment, and disposal of contaminated soil and groundwater.

EBMUD will not design piping or services until soil and groundwater quality data and remediation plans have been received and reviewed and will not start underground work until remediation has been carried out and documentation of the effectiveness of the remediation has been received and reviewed. If no soil or groundwater quality data exists, or the information supplied by the project sponsor is insufficient, EBMUD may require the project sponsor to perform sampling and analysis to characterize the soil and groundwater that may be encountered during excavation, Alternatively, EBMUD may perform such sampling and analysis at the project sponsor's expense. If evidence of contamination is discovered during EBMUD work on the project site, work may be suspended until such contamination is adequately characterized and remediated to EBMUD standards.

WASTEWATER

EBMUD's Main Wastewater Treatment Plant (MWWTP) and interceptor system are anticipated to have adequate dry weather capacity to accommodate the proposed wastewater flows from this project and to treat such flows provided that the wastewater generated by the project meets the requirements of the EBMUD Wastewater Control Ordinance. However, wet weather flows are a concern. The East Bay regional wastewater collection system experiences exceptionally high peak flows during storms due to excessive infiltration and inflow (I/I) that enters the system through cracks and misconnections in both public and private sewer lines. EBMUD has historically operated three Wet Weather Facilities (WWFs) to provide primary treatment and disinfection for peak wet weather flows that exceed the treatment capacity of the MWWTP. Due to reinterpretation of applicable law, EBMUD's National Pollutant Discharge Elimination System (NPDES) permit now prohibits discharges from EBMUD's WWFs. Additionally, the seven wastewater collection system agencies that discharge to the EBMUD wastewater interceptor system ("Satellite Agencies") hold NPDES permits that prohibit them from causing or contributing to WWF discharges. These NPDES permits have removed the regulatory coverage the East Bay wastewater agencies once relied upon to manage peak wet weather flows. 2.

A federal consent decree, negotiated among EBMUD, the Satellite Agencies, the Environmental Protection Agency (EPA), the State Water Resources Control Board (SWRCB), and the Regional Water Quality Control Board (RWQCB), requires EBMUD and the Satellite Agencies to eliminate WWF discharges by 2036. To meet this requirement, actions will need to be taken over time to reduce I/I in the system. The consent decree requires EBMUD to continue implementation of its Regional Private Sewer Lateral Ordinance (www.eastbaypsl.com), construct various improvements to its interceptor system, and identify key areas of inflow and rapid infiltration over a 22-year period. Over the same time period, the consent decree requires the Satellite Agencies to perform I/I reduction work including sewer main rehabilitation and elimination of inflow sources. EBMUD and the Satellite Agencies must jointly demonstrate at specified intervals that this work has resulted in a sufficient, pre-determined level of reduction in WWF

discharges. If sufficient I/I reductions are not achieved, additional investment into the region's wastewater infrastructure would be required, which may result in significant financial implications for East Bay residents.

To ensure that the project contributes to these legally required I/I reductions, the lead agency should require the project applicant to comply with EBMUD's Regional Private Sewer Lateral Ordinance. Additionally, it would be prudent for the lead agency to require the following mitigation measures for the project: (1) replace or rehabilitate any existing sanitary sewer collection systems, including sewer lateral lines to ensure that such systems and lines are free from defects or, alternatively, disconnected from the sanitary sewer system, and (2) ensure any new wastewater collection systems, including sewer lateral lines, for the project are constructed to prevent I/I to the maximum extent feasible while meeting all requirements contained in the Regional Private Sewer Lateral Ordinance and applicable municipal codes or Satellite Agency ordinances.

WATER CONSERVATION

The project presents an opportunity to incorporate water conservation measures. EBMUD requests that the City include in its conditions of approval a requirement that the project sponsor comply with Assembly Bill 325, "Model Water Efficient Landscape Ordinance," (Division 2, Title 23, California Code of Regulations, Chapter 2.7, Sections 490 through 495). The project sponsor should be aware that Section 31 of EBMUD's Water Service Regulations requires that water service shall not be furnished for new or expanded service unless all the applicable water-efficiency measures described in the regulation are installed at the project sponsor's expense. 2.

If you have any questions concerning this response, please contact Sandra Mulhauser, Senior Civil Engineer, Major Facilities Planning Section at (510) 287-7032.

Sincerely,

David J. Rehnstrom
Manager of Water Distribution Planning

Berkeley, California 94710

Letter 2

COMMENTER: David J Rehnstrom, Manager of Water Distribution Planning, East Bay Municipal Utilities District (EBMUD)

DATE: September 13, 2024

Response 2.1

Water infrastructure is discussed in Section 19, *Utilities and Service Systems*, wherein EBMUD is acknowledged as the service provider. The project applicant would be required to adhere to relevant State and local regulations regarding water supply and service; these would be enforced by the City during project implementation and review of the associated building permits.

Response 2.2

As discussed in Section 9, *Hazards and Hazardous Materials*, several mitigation measures (HAZ-1 through HAZ-5) would be implemented prior to demolition and construction activities. These include regulatory agency submittal, a subsurface investigation, a soil and groundwater management plan, remediation, and a vapor mitigation system (if necessary). Mitigation implementation would occur in conjunction with implementation of the City's standard conditions of approval related to site contamination. Implementation of mitigations measures and COAs would ensure that contaminated soil and groundwater would be documented and remediated if necessary. All documentation would be available to the applicant and subsequently EBMUD.

Response 2.3

The City recognizes EBMUD's concern regarding Wet Weather Facilities (WWF) discharges. The applicant would be required to comply with EBMUD requirements and permits, as noted in Section 10, *Hydrology and Water Quality*. As described in Section 19, *Utilities and Service Systems,* of the IS/MND, EBMUD would have adequate wastewater treatment capacity to service the project. In addition, the project would be required to comply with the City of Berkeley's Private Sewer Lateral (PSL) Ordinance (Berkeley Municipal Code (BMC) Chapter 17.24). The PSL Ordinance is consistent with the requirements of EBMUD's Regional Private Sewer Lateral Ordinance and includes regulations for the inspection, testing, repair, replacement, and ongoing maintenance of private sewer laterals. Under the PSL Ordinance, the project applicant would be required to upgrade or verify the condition of PSLs within the site before approval of project building permits. The Ordinance would also require that the project eliminate wet-weather infiltration and inflow to avoid impacts related to significant increases in wastewater flow during storms.

Response 2.4

As noted on page 13 under *Green Building Features* in the *Project Description*, the project would be required to comply with the California Water Efficient Landscape Ordinance (pursuant to California Code of Regulations Title 23, Chapter 2.7, Division 2) and outdoor landscaped areas would employ landscape irrigation and water efficiency best practices.

Hello, Katharine: Thank you for your email. The Design Review Committee (DRC) will be discussing the building design Thursday evening and will forward any comments or recommendations on to the Zoning Adjustments Board (ZAB) as they will be reviewing the whole project in a Use Permit Public Hearing. I will make sure this email is included in any information that our DRC gets about this project, and am also including the Use Permit Planner, Allison Riemer, on this response so that she can include this with any correspondence that the ZAB gets on this project. Thank you. - Anne

Subject: Seeking to make a comment about the proposal for 2820 San Pablo Ave

WARNING: This is not a City of Berkeley email. Do not click links or attachments unless you trust the sender and know the content is safe.

Hello there, I'm not sure if this is the right place to contact in regards to a concern I have about Studio KDA's proposal to build a 4 story building at 2820 San Pablo Ave.

I have been a resident next door at 2822 San Pablo Ave for 7 years. As far as I can tell, it looks like the plans will put our entire building in shadow, and we already get very little sunlight or cross breeze as it is! I understand the need for more residential units, and I would be more willing to cope if this building was going to be affordable housing - but it looks like this is going to primarily be a research and development building, only housing one family.

3.

Our apartment complex is primarily working-class people who don't have many other options for where we can live. To make it impossible to get any sunlight in our few apartment windows feels cruel. I grow plants on my balcony, a small luxury for apartment dwelling - this proposal would make it impossible for me to grow the herbs and vegetables I supplement my food stamps with. A 3 story building would have less impact on our light and air flow, but still be a compromise.

I hope you will take this into consideration. Many of the people in this building have been here for over 5 years, and we love our home. While we may be renters, we still deserve to have a comfortable place to live, not in the shadow of industry.

Katharine Fisher

Letter 3

COMMENTER: Katharine Fisher

DATE: August 24, 2024

Response 3.1

As noted in Section 1, *Aesthetics,* of the IS/MND, the proposed project is located within a transit priority area (TPA). Pursuant to Senate Bill 743, aesthetic impacts of a residential project within a TPA are no longer considered as a significant impact to the environment. For this reason, potential impacts to views, scenic resources, visual character, or light and glare are not evaluated in the IS/MND. However, compliance with the City's development standards and potential shadow impacts are evaluated at the staff level pursuant to BMC Section 23.204050(D), 23.322.030, and 23.406.040. This analysis is provided to the decision-making body prior to their decision on the project.

Regarding air flow, the project site and neighboring buildings have frontage on public streets and sufficient space between abutting and confronting structures so that new development of the type and massing proposed would not cause changes in air flow that could affect human health. As shown on page 9 in Table 1, Proposed Project Features, in the *Project Description* section of the Draft IS/MND, the project's proposed setbacks from the adjacent streets and buildings would meet or exceed BMC requirements for the subject zone districts.

Subject: Comments - Project at 2820 San Pablo Ave & 2817-2821 10th St Re: Lighting & Street Trees

Follow Up Flag: Follow up
Flag Status: Flagged

WARNING: This is not a City of Berkeley email. Do not click links or attachments unless you trust the sender and know the content is safe.

Hell Allison,

I am writing you **regarding the project at 2820 San Pablo Avenue and 2817-2821 10th St**.

I live at and own 2818 10th Street, (directly across the street from the 10th Street portion of this project.)

I have two concerns.

4.

1. I want to make sure any **lighting** on and around the building on the 10th St. portion of this project is **significantly downward directional and originates as low to the ground as possible**, only illuminating sidewalks and entry areas and not spreading out and polluting the street or general area.

The design of lighting is important to the future character and quality of the neighborhood. Such a project represents an opportunity to improve the overall environment of the neighborhood.

4.

2. I want to make sure **street trees are planted in front of the building**. With the exception of my home and one other, **there are no trees on the entire block**.

Trees not only improve the aesthetics of a neighborhood and help support bird and other animal life but are as significant low-cost natural way to counteract the heating impact of urban areas.

Please keep me posted as to the lighting and tree situation.

Best regards

John

John **K**oenigshofer

Letter 4

COMMENTER: John Koenigshofer

DATE: August 28, 2024

Response 4.1

As noted in Section 1, *Aesthetics,* of the IS/MND, the proposed project is located within a TPA. Pursuant to Senate Bill 743, aesthetic impacts of a residential project within a TPA are no longer considered as a significant impact to the environment. For this reason, potential impacts to views, scenic resources, visual character, or light and glare are not evaluated in the IS/MND. However, compliance with BMC Section 23.304.100, Site Features in Residential Districts, would require that all exterior lighting for the project will be shielded and directed downward and away from lot lines to prevent excessive glare beyond the property line.

Response 4.2

The City of Berkeley does not require the applicant to plant street trees in the public right-of-way, unless a street tree is proposed for removal. The Design Review Committee (DRC) did recommend that the applicant include street trees on Tenth where possible. This comment and DRC recommendations will be provided to the decision-making body for consideration.

WARNING: This is not a City of Berkeley email. Do not click links or attachments unless you trust the sender and know the content is safe.

Allison,

I am writing on behalf of Shoshana Uribe, who owns the building next door to 2820 San Pablo Avenue (2818 San Pablo), described in your IS/MND as a wellness center. We have read the IS/MND in detail, and are concerned with regard to some construction timing and noise issues and a couple of project "neighborliness" issues. We understand that we can file public comments and otherwise participate in the permit proceeding, but thought it might be best to speak with you first. A copy of the IS/MND is appended to the bottom of this email for your convenience.

5.

Would you have some time this week for a virtual or in-person meeting. I don't think it would take longer than 30 minutes. Please let us know some days and times you might be available.
Thanks so much,
Peter

Allison, in preparation for our meeting today, I wanted to provide you with some information that is easily available on the internet about options for reducing jack hammer noise during construction, a primary concern that Shoshana has for the operation of her wellness clinic.
I had the privilege of visiting the Atlas Copco factory in Sweden in 1980, where they pioneered noise reduction in jackhammers. You will see from the website that there are now various products available. In addition, the use of echo barriers can really reduce noise for neighbors.
We are hoping that these issues have been addressed in your project requirements, and look forward to discussing this further with you this afternoon.

COMMENTER: Peter Weiner

DATE: September 12, 2024

Response 6.1

As discussed in Section 13, *Noise,* of the IS/MND, impacts related to construction noise would be less than significant with required adherence to the City's standard conditions of approval, which include limits on construction hours; submitting and complying with a construction noise reduction program that specifically addresses equipment operation and noise; vibration control; and notices to neighbors regarding construction timing, among other measures. The suggested list of construction equipment will be provided to the decision-making body for consideration.
