CERS Description: Hazardous Waste Generator

CERS:
Name: VALITOR, INC.
Address: 820 HEINZ AVE
City,State,Zip: BERKELEY, CA 94710
Site ID: 420250
CERS ID: 10687603
CERS Description: Chemical Storage Facilities

Evaluation:
Eval General Type: Compliance Evaluation Inspection
Eval Date: 01-18-2017
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: Toxics Management Division (Jewel Mauricio) arrived on site for hazardous waste generator only program inspection. (First inspection at the new site after moving from Stanley Hall Site). Observation: - Observed 5 gallons bucket for hazardous waste, labels were intact and completely filled out. The container was completely closed. - Emergency response form was posted on the bend area and office. - The company has an active calepa ID number and facility has an agreement with the Alameda County for Conditionally Exempt Small Quantity program (They take their waste to the Alameda County Household hazardous waste facility). - CalEPA ID# 000418002 Check hwts - Active account- No violations observed
Eval Division: Berkeley City Toxics Management Division
Eval Program: HW
Eval Source: CERS

Eval General Type: Compliance Evaluation Inspection
Eval Date: 01-21-2020
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: Laboratory is in the business of research and development of pharmaceuticals for progressively debilitating illnesses related to the eyes and joints. Business recently moved to new space January 2020. Business occupies office spaces and two laboratory areas. Hazrdous waste observed: HPLC Waste containing Water, Acetonitrile, Isopropanol, Sodium Azide, hexafluoroisopropanol. Hazardous waste is stored in 4L amber glass bottles. Accumulation start dates: 10/1/19

VALITOR, INC. (Continued) **S121780534**

10/3/19 11/9/19 11/7/19 12/11/19 10/28/19 9/24/19 Note: Small quantity generators must ship off hazardous waste within 180 days of accumulation start date. Hazardous materials observed: Potassium phosphate Nickel(II) Sulfate hexahydrate Sodium carboxymethyl cellulose Sodium bicarboonate Sodium hydroxide Adipic Dihydrazide Ammonium Sulfate TWEEN 80 Triton Zinc sulfate heptahydrate Deuterium oxide Fluorescein Evans Blue L-Glutathione oxidized heparin sodium salt Sodium acetate [Truncated]

CERS HAZ WASTE:
Name: AAVALIUM, INC.
Address: 820 HEINZ AVE
City,State,Zip: BERKELEY, CA 94710
Site ID: 523861
CERS ID: 10805578
CERS Description: Hazardous Waste Generator

Violations:
Site ID: 523861
Site Name: Aavalium, Inc.
Violation Date: 11-14-2019
Citation: 40 CFR 1 262.34(d)(5)(ii) - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 262.34(d)(5)(ii)
Violation Description: Failure to post the following information next to the telephone: (A) The name and telephone number of the emergency coordinator; (B)

Map ID
Direction
Distance
Elevation | Site | MAP FINDINGS | Database(s) | EDR ID Number
EPA ID Number

AAVALIUM, INC. (Continued) **S124446772**

Location of fire extinguishers and spill control material, and, if present, fire alarm; and (C) The telephone number of the fire department, unless the facility has a direct alarm.

Violation Notes: Returned to compliance on 11/14/2019. Observation: No emergency response posting was apparent upon inspection. Corrective Action: Complete and place emergency response posting on lab bench. Submit proof to TMD.
Violation Division: Berkeley City Toxics Management Division
Violation Program: HW
Violation Source: CERS

Site ID: 523861
Site Name: Aavalium, Inc.
Violation Date: 11-14-2019
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Description: Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.
Violation Notes: Returned to compliance on 11/14/2019. Observation: Hazardous waste container was labeled as "waste", with accumulation start date and chemical characteristics, but was lacking other required information. Corrective Action: Label container with all required information and submit proof to TMD.
Violation Division: Berkeley City Toxics Management Division
Violation Program: HW
Violation Source: CERS

Evaluation:
Eval General Type: Other/Unknown
Eval Date: 04-19-2019
Violations Found: No
Eval Type: Other, not routine, done by local agency
Eval Notes: Facility began operations in December 2018. Chemicals are under threshold currently, only about 5 gallons of new materials are on site. Facility will be generating hazardous waste. You will need to obtain a hazardous waste permit through my office. Please go to cers.calepa.ca.gov and complete the hazardous waste generator reporting form and submit it by 5/17/2019.
Eval Division: Berkeley City Toxics Management Division
Eval Program: HMRRP
Eval Source: CERS

Eval General Type: Compliance Evaluation Inspection
Eval Date: 11-14-2019
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: On site to conduct first routine hazardous waste inspection for Aavalium, Inc. Per operator Chulin Tang, this site develops pharmaceuticals. This is their first year of operation in Berkeley. They occupy part of a bench top at 820 Heinz Avenue and other areas of the room and benchtops are divided between other companies. Observed MSDS binder in laboratory and 2 fire extinguishers on site current as of April 2019. Chunlin has no employees and is the only person working in the laboratory, so no employee training records were present or

required. Observed approximately 200 mL of hazardous waste on site with accumulation start date of May 18, 2019. Because Aavalium is a CESQG/VSQG, they can accumulate waste up to 100 kg and then have 90 days to ship waste off site and should ship off by May, 2020. Hazardous Waste Manifests must be maintained on site for 3 years. Observed hazardous materials in quantities below reporting thresholds for Hazardous Materials Business [Truncated]

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Name: MEMPHIS MEATS
Address: 804 HEINZ AVE STE 200
City,State,Zip: BERKELEY, CA 94710
Site ID: 520353
CERS ID: 10788367
CERS Description: Chemical Storage Facilities

Violations:
Site ID: 520353
Site Name: Memphis Meats
Violation Date: 09-18-2019
Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Description: Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.
Violation Notes: Returned to compliance on 10/04/2019. Business has acquired more chemicals due to R&D. Inventory should be updated to reflect current storage - please see observations for chemicals observed. Corrective action: Update inventory and resubmite on CERS.calepa.ca.gov.
Violation Division: Berkeley City Toxics Management Division
Violation Program: HMRRP
Violation Source: CERS

Site ID: 520353
Site Name: Memphis Meats
Violation Date: 09-18-2019
Citation: HSC 6.95 25505(a)(4) - California Health and Safety Code, Chapter 6.95, Section(s) 25505(a)(4)
Violation Description: Failure to provide initial and annual training to all employees in safety procedures in the event of a release or threatened release of a hazardous material or failure to document and maintain training records for a minimum of three years.
Violation Notes: Returned to compliance on 10/07/2019. Business failed to train employees on hazard communication, emergency response, and hazardous waste handling. Corrective action: Conduct training for all employees and submit records to TMD for review.
Violation Division: Berkeley City Toxics Management Division
Violation Program: HMRRP
Violation Source: CERS

Evaluation:
Eval General Type: Compliance Evaluation Inspection

MEMPHIS MEATS (Continued) **S113015530**

Eval Date:	09-18-2019
Violations Found:	No
Eval Type:	Routine done by local agency
Eval Notes:	Manifest review: EPA ID #, CAL 000 435 043, is active First pickup was 9/13/19 - manifest was available for review. Wastes shipped - Flammable liquid (ethanol); toxic solids (Ethidium Bromine). Manifests will be sent to the DTSC. Assay Development solution was shipped off as Non-RCRA hazardous waste liquid. Safety: Eyewash stations were available throughout the facility - last inspected 5/2019. Emergency Shower is available and properly inspected/maintained. Safety equipment should be inspected per manufacturer specifications or monthly. Fire extinguishers were available throughout facility. Extinguishers were last serviced February 2019. Dials are on green and pins are in place. Emergency evacuation map and phone numbers are posted. Spill kits are available throughout the facility under the sinks. Spill kits are equipped with absorbent materials and bags to collect contaminated absorbent.
Eval Division:	Berkeley City Toxics Management Division
Eval Program:	HW
Eval Source:	CERS

Eval General Type:	Compliance Evaluation Inspection
Eval Date:	09-18-2019
Violations Found:	Yes
Eval Type:	Routine done by local agency
Eval Notes:	Business is involved in R&D and manufacturing meat. Hazardous Materials were stored with compatible materials and in flammable cabinets if needed. Hazardous materials were primarily kept in original containers - secondary containers such as squirt bottles were labeled. The map provided on CERS is consistent with observations during inspection. Walk through: Room 214 Hazardous Waste, properly labeled, stored in secondary containment, waste container is kept closed when not adding or removing materials. Solid Waste- Ethidium -Accumulation Start Date: 8/7/19. HPLC machines and waste Room 246 - Bio Safety Level 1 2 CO2 cylinders. Vac waste Room 212 2 Nitrogen dewers connected to freezers. Freezers in room are storing media, tissues, enzymes, cells Room 247 MagNA Pure Waste - Accumulation Start Date 9/13/19. Waste is doubly contained and kept closed. Room 248 Storing primarily cleaning supply. Room is equipped with an autoclave and a glass [Truncated]

Site Name:	Rodan & Fields LLC 804 Heinz
Violation Date:	12-14-2015
Citation:	HSC 6.5 Multiple Sections - California Health and Safety Code, Chapter 6.5, Section(s) Multiple Sections
Violation Description:	Haz Waste Generator Program - Operations/Maintenance - General
Violation Notes:	Returned to compliance on 01/12/2016. Facility did not meet the requirements of 25200.3.1(b) while accumulating hazardous waste in a laboratory accumulation area. Observed open containers of hazardous waste throughout the labs as noted on pages 2 and 3. Many containers had parafilm as the only closure, but this does not meet the closed container requirements. Observed containers of hazardous waste not labeled properly and hazardous waste which has been accumulating onsite for longer than one year as noted on pages 2 and 3. Corrective action: Immediately arrange for the removal of hazardous waste that has been onsite for longer than one year. Supply TMD with a copy of the manifest showing disposal. Mark all hazardous waste containers with the words "Hazardous waste", composition, physical state, hazard property and name and address of generator. Provide lids or appropriate closures for all hazardous waste containers to meet the closed container requirement.

Citation:	HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Description:	Failure to complete and electronically submit a business plan when storing/handling a hazardous material at or above reportable quantities.
Violation Notes:	Returned to compliance on 09/22/2019. Facility failed to establish and adequately implement a Hazardous Materials Business Plan (HMBP). The facility exceeds the specified thresholds of hazardous materials required to submit a HMBP in accordance with BMC 15.12.050. Therefore, the facility meets the requirements to report hazardous materials inventory and submit a HMBP. Corrective Action: Please establish a Hazardous Materials Business Plan (HMBP) within 30 days, by September 22nd, 2019. To complete a HMBP, please go to cers.calepa.ca.gov and create an account. Report complete list of HazMat inventory, Site Map, and Emergency Response/Training Plans. Call Toxics Management Division for help at (510) 981-7460.

Eval Division:	Berkeley City Toxics Management Division
Eval Program:	HW
Eval Source:	CERS

Eval General Type:	Other/Unknown
Eval Date:	08-23-2019
Violations Found:	Yes
Eval Type:	Other, not routine, done by local agency
Eval Notes:	Conducted a screening for hazardous materials and hazardous waste. At any one time during a year, if a facility uses, handles, stores, or generates combined (aggregate) quantities of hazardous materials and hazardous waste in amounts = 55 gallons for liquids, 500 pounds for solids, and/or 200 cubic feet of compressed gases, the facility must submit a Hazardous Materials Business Plan (HMBP), and must submit a Hazardous Waste Generator form for any amount of waste. Facility has laboratories and produces biomaterials including putty for expedited bone-healing. Facility is kept clean and aisles are clear; fire extinguishers are current and need servicing in October of 2019. Flammable storage lockers are in use and self-shutting. Representative states that no hazardous waste or biohazardous waste is generated at the facility - sodium bicarbonate is used to neutralize all wastes which are then washed into sanitary sewer. TMD to verify that this is an acceptable [Truncated]

Eval Division:	Berkeley City Toxics Management Division
Eval Program:	HMRRP
Eval Source:	CERS
Eval General Type:	Compliance Evaluation Inspection
Eval Date:	06-28-2016
Violations Found:	Yes
Eval Type:	Routine done by local agency
Eval Notes:	Onsite to confirm information in Hazardous Materials Business Plan submitted 6/1/2016 is consistent with site operations. Naturalyte is mixed in mixer according to strength then transferred to holding tanks via piping. Naturalyte solutions of less common strengths are stored in 55 gallon drums. the transfer tubing is stored in the second bung hole of the drum and is open. TMD recommends all openings remain closed unless removing material. Confirmed fire extinguishers and eyewash/safety shower onsite along with spill kit. Gina and Tim indicate training is completed annually on the business Intralearn system. They also conduct regular drills with patients.

CERS:

Name:	MICROBYRE, INC.
Address:	813 HEINZ AVE
City,State,Zip:	BERKELEY, CA 94710
Site ID:	445122
CERS ID:	10196956
CERS Description:	Chemical Storage Facilities

Violations:

Site ID:	445122
Site Name:	MicroByre, Inc.
Violation Date:	02-04-2019
Citation:	Un-Specified
Violation Description:	Hazardous Waste Generator Program - Administration/Documentation - General Local Ordinance
Violation Notes:	Returned to compliance on 02/26/2019. Business is reporting on CERS with incorrect EPA ID Number - CAR 000 172 858. Corrective action: Update and resubmit EPA ID Number to CAL 000 430 246 in Business activities section of CERS as well as on the Hazardous Waste Generator Registration form.
Violation Division:	Berkeley City Toxics Management Division
Violation Program:	HW
Violation Source:	CERS

Evaluation:

Eval General Type:	Compliance Evaluation Inspection
Eval Date:	02-04-2019
Violations Found:	Yes
Eval Type:	Routine done by local agency

Eval Notes: Conducted walk through with Denise Lapidus, Alan Yee, and Jerry Wingate. DSM recently moved out and the facility has a lot of unused space at the moment. Hazardous waste generated throughout the facility is properly stored and labeled. Compressed gas onsite is over threshold for hazardous materials reporting - business will relocate nitrogen tank to other facility. Emergency equipment and postings are available through out.
Eval Division: Berkeley City Toxics Management Division
Eval Program: HW
Eval Source: CERS

Eval General Type: Other/Unknown
Eval Date: 10-29-2013
Violations Found: No
Eval Type: Other, not routine, done by local agency
Eval Notes: Went to site to conduct a routine inspection. A representative of the company leasing space to COR informed me that they had closed and vacated during the summer. A chemical disposal company was used to remove the hazmats.
Eval Division: Berkeley City Toxics Management Division
Eval Program: HW

Site Name:	LOOKING GLASS
Violation Date:	10-08-2020
Citation:	22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Description:	Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.
Violation Notes:	Returned to compliance on 10/08/2020. Observation: Label for fixer waste was filled with all required information except for generator information (name, address of generator). Corrective Action: This was corrected prior to report delivery and a photograph was submitted to TMD.
Violation Division:	Berkeley City Toxics Management Division
Violation Program:	HW
Violation Source:	CERS
Site ID:	179178
Site Name:	LOOKING GLASS
Violation Date:	10-08-2020
Citation:	HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(1)
Violation Description:	Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.
Violation Notes:	Returned to compliance on 10/20/2020. Observation: Fixer waste on-site had been accumulating since December of 2019 per the label, which is over the 180 day accumulation time limit. Corrective Action: This was corrected prior to report delivery. Waste was picked up and documentation was submitted to TMD.
Violation Division:	Berkeley City Toxics Management Division
Violation Program:	HW
Violation Source:	CERS
Site ID:	179178
Site Name:	LOOKING GLASS
Violation Date:	03-02-2014
Citation:	19 CCR 4 2729.5 - California Code of Regulations, Title 19, Chapter 4, Section(s) 2729.5
Violation Description:	Failure to submit inventory reports (Activities, Owner/Operator, Hazardous Materials Descriptions and Map pages, if required. Documentation must be resubmitted (for facilities which exceed EPCRA thresholds) or re-certified (for facilities which do not exceed EPCRA thresholds) by March 1.
Violation Notes:	Returned to compliance on 04/30/2014. Notification for annual submittal sent to facility contact on or about 2/5/14 and reminder notice sent on or about 2/27/14. Extension authorized for submittal to 4/30/14. Business initially submitted 4/30/14 and the plan was accepted (GF)
Violation Division:	Berkeley City Toxics Management Division

LOOKING GLASS (Continued) **S121750397**

Violation Program: HMRRP
Violation Source: CERS

Site ID: 179178
Site Name: LOOKING GLASS
Violation Date: 10-08-2020
Citation: 22 CCR 15 66265.32 - California Code of Regulations, Title 22, Chapter 15, Section(s) 66265.32
Violation Description: Failure of the facility to maintain the following emergency equipment or equivalents: 1) An internal communications or alarm system; 2) A device, such as a telephone (immediately available at the scene of Operations/ Maintenance) or a hand-held two-way radio, capable of summoning emergency assistance from local police departments, fire departments, or State or local emergency response teams; 3) Portable fire extinguishers, fire control equipment, spill control equipment, and decontamination equipment; and 4) Water at adequate volume and pressure to supply water hose streams, or foam producing equipment, or automatic sprinklers, or water spray systems.
Violation Notes: Returned to compliance on 10/13/2020. Observation: At time of inspection, fire extinguishers on-site were last serviced in April of 2019 per their service tags, making them overdue for annual servicing. Corrective Action: This violation was corrected prior to report delivery by having the extinguishers serviced, and a photograph was submitted to TMD.
Violation Division: Berkeley City Toxics Management Division
Violation Program: HW
Violation Source: CERS

Site ID: 179178
Site Name: LOOKING GLASS
Violation Date: 09-25-2014
Citation: HSC 6.95 25505(a)(4) - California Health and Safety Code, Chapter 6.95, Section(s) 25505(a)(4)
Violation Description: Failure to provide initial and annual training to all employees in safety procedures in the event of a release or threatened release of a hazardous material or failure to document and maintain training records for a minimum of three years.
Violation Notes: Returned to compliance on 10/24/2014.
Violation Division: Berkeley City Toxics Management Division
Violation Program: HMRRP
Violation Source: CERS

Evaluation:
Eval General Type: Compliance Evaluation Inspection
Eval Date: 10-08-2020
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: Toxics Management Division (TMD) conducted this inspection virtually via a combination of audio and video streaming. Prior to the inspection, Tamara Luck (operator) submitted photographs of employee training records, hazardous waste manifests, and hazardous waste container labeling. TMd observed Emergency Response posting posted, eyewash station, spill kit, and fire extinguishers last serviced in April 2019. TMD observed two (2) 15-gallon waste containers, though only one contained waste at time of inspection. Waste area was free and clear of staining, and sinks were clear from staining as well. Per operator, no waste is disposed of to the sink.

Evaluation:

Eval General Type:	Compliance Evaluation Inspection
Eval Date:	02-01-2018
Violations Found:	No
Eval Type:	Routine done by local agency
Eval Notes:	Facility accepts used paint from the public through the Paint Care program. Facility also generates hazardous waste due to returns, off-spec and damaged material. Confirmed proper management of hazardous waste and containers and maintenance of emergency response equipment. Confirmed manifests. Toxics Management Division to provide information and flyers on locations that accept household hazardous waste and other universal and electronic waste.
Eval Division:	Berkeley City Toxics Management Division
Eval Program:	HW
Eval Source:	CERS

Eval General Type:	Compliance Evaluation Inspection
Eval Date:	02-01-2018
Violations Found:	No
Eval Type:	Routine done by local agency
Eval Notes:	Hazardous Materials Business Plan last reviewed and certified in CERS on 2/28/2017. Please note, the annual certification is due March 1, 2018 and the inventory must include updated hazard categories to comply with the new GHS standards. Confirmed the inventory, site plan and emergency response plan. Facility provides training in accordance with the training plan and provides monthly communication to employees.
Eval Division:	Berkeley City Toxics Management Division
Eval Program:	HMRRP
Eval Source:	CERS

Eval General Type:	Compliance Evaluation Inspection
Eval Date:	06-30-2015
Violations Found:	No
Eval Type:	Routine done by local agency
Eval Notes:	Observed HMs at customer pick up. Amonts, locations are consistent with 2015 Rreporting. Training documented andd available. Note: HMBP E.R. contact and Environmental contact have changed.

Eval Date: 01-28-2020
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: In 2013, TMD and Wareham Development reviewed the consolidated HMBP for 800 Heinz Avenue, which included the generators for 2929 Seventh Street, 820 Heinz, 717 Potter, 725 Potter, and 700 Heinz. TMD required a separate HMBP for 2929 Seventh Street and allowed the other generators to be combined as follows: 820 Heinz (820 Heinz and 700 Heinz) and 725 Potter (725 Potter and 717 Potter). In 2017, Wareham Development submitted HMBPs for generators located at 2910 7th Street (petroleum storage of 2,000 gallons) and 740 Heinz (petroleum storage of 660 gallons). On 5/8/2018, Wareham Development submitted an updated HMBP for 820 Heinz in CERS, which added the inventory for the generator servicing 804 Heinz, which sits adjacent to the generator for 820 Heinz. The combined total petroleum storage capacity for the 820 Heinz submission is 1,356 gallons. Wareham Development, or a Professional Engineer on behalf of the facility owner/operator, must make a judgment of what [Truncated]

Violation Source:	CERS
Site ID:	107798
Site Name:	CONSOLIDATED PRINTERS, INC.
Violation Date:	11-20-2013
Citation:	HSC 6.5 25189.5(a) - California Health and Safety Code, Chapter 6.5, Section(s) 25189.5(a)
Violation Description:	Failure to properly dispose of hazardous waste at an authorized location.
Violation Notes:	Returned to compliance on 12/17/2013. Off-spec inks in 5 gallon drums, est'd 50, marked 'waste' are being held. Allowed option to determine a recycling option, if available, with documentation.
Violation Division:	Berkeley City Toxics Management Division
Violation Program:	HW
Violation Source:	CERS
Site ID:	107798
Site Name:	CONSOLIDATED PRINTERS, INC.
Violation Date:	01-12-2017
Citation:	22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Description:	Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.
Violation Notes:	Returned to compliance on 01/28/2017. Generator did not properly label all containers containing hazardous waste in that the accumulation start dates were absent and buckets of waste did not have names of waste. Corrective Action: For the 55-gal waste drums, always mark accumulation start dates when accumulation begins. For the 3-gal waste buckets, properly label like the 55-gal drums. If waste is transfered to drums as soon as it is generated, then the accumulation start dates is not necessary on buckets.

Violation Date:	01-12-2017
Citation:	HSC 6.95 25505.1 - California Health and Safety Code, Chapter 6.95, Section(s) 25505.1
Violation Description:	Failure to notify property owner in writing that the business is subject to the business plan program and has complied with its provisions.
Violation Notes:	Returned to compliance on 02/15/2017.
Violation Division:	Berkeley City Toxics Management Division
Violation Program:	HMRRP
Violation Source:	CERS

Site ID:	107798
Site Name:	CONSOLIDATED PRINTERS, INC.
Violation Date:	01-12-2017
Citation:	22 CCR 12 66262.34(d) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(d)
Violation Description:	Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.
Violation Notes:	Returned to compliance on 02/22/2017. Corrective action: Ship out all waste that began accumulating over 180 days ago. If the accumulation start date is unknown, ship out the waste.
Violation Division:	Berkeley City Toxics Management Division
Violation Program:	HW
Violation Source:	CERS

Site ID:	107798
Site Name:	CONSOLIDATED PRINTERS, INC.
Violation Date:	11-20-2013
Citation:	22 CCR 12 66262.34(d) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(d)
Violation Description:	Failure to dispose of hazardous waste within 180 days (or 270 if waste is transported over 200 miles) for the generator who generates less than 1000 kilogram per month, but more than 100 kilograms per month.
Violation Notes:	Returned to compliance on 12/17/2013. Accumulation start date indicates storage greater than 180 days. Generator claims that accumulation start date was put on emptied drums and that accumulation did not start until wastes were generated. Agreed to dispose, amend policies.

Eval Program:	HMRRP
Eval Source:	CERS
Eval General Type:	Compliance Evaluation Inspection
Eval Date:	12-11-2019
Violations Found:	No
Eval Type:	Routine done by local agency
Eval Notes:	Observed fluorescent bulbs stored against wall near maintenance shop. Roberto indicates the hazardous waste contractor takes these for recycling. TMD recommends storing these in a box to prevent breakage.
Eval Division:	Berkeley City Toxics Management Division
Eval Program:	HW
Eval Source:	CERS
Eval General Type:	Compliance Evaluation Inspection
Eval Date:	01-12-2017
Violations Found:	Yes
Eval Type:	Routine done by local agency
Eval Notes:	Haz Mat: Hazardous materials are kept in th chemical storage room and also throughout the facility, as needed for certain projects. Hazardous materials are consistenet with the inventory provided on CERS and are properly labeled. Safety: Fire extinguishers are up to date and will be due for servicing in March 2017. Emergency station with phone numbers and phone was not available. Records: Complete training records were not available. Only the 2015 training records were available, the content of that training were compliant. Manifests were not properly maintained in that only the generator initial copy was kept. There were no records for any shipment of hazardous waste within the last 180 days - the last manifest available was from 9-7-14. Property owner is aware of the presence of hazardous materials, but no formal notification of compliance with the HMBP requirements was provided. Storm Water: The only outside activity is loading and unloading- which is sometimes done [Truncated]

Eval Date:	12-11-2019
Violations Found:	No
Eval Type:	Routine done by local agency
Eval Notes:	Reviewed the HMBP submitted in CERS on 2/27/2019. Updated the Emergency Response plan to the updated template.
Eval Division:	Berkeley City Toxics Management Division
Eval Program:	HMRRP
Eval Source:	CERS
Eval General Type:	Other/Unknown
Eval Date:	01-07-2014
Violations Found:	No
Eval Type:	Other, not routine, done by local agency
Eval Notes:	Observed waste storage location. All inks, oil, and fountain solution wastes disposed and documented with manifests and bills of lading. No waste currently accumulated.
Eval Division:	Berkeley City Toxics Management Division
Eval Program:	HW
Eval Source:	CERS
Eval General Type:	Compliance Evaluation Inspection
Eval Date:	01-12-2017
Violations Found:	Yes
Eval Type:	Routine done by local agency
Eval Notes:	Business is regulated by BAAQMD for the solvents used in cleaning process. EPA ID, CAD983625138, is currently inactive. Haz waste: rags used to wipe ink and oil are collected in covered, metal bins and are picked up by aramark about once a week, depending on how busy the business gets. Used oil drum in 32" Press Area is kept in a flammable cabinet. Accumulation start date is 9-17-14. Waste fountain solution drum in 32" Press Area did not have accumulation start date. Used Oil drum in Are of 32" 4 Unit Press is kept in a flammable cabinet. Accumulation start date is 4-30-16. 3-gallon buckets are filled with hazardous waste before being transfered into 55-gallon drums and shipped out. The buckets were found in the 32 " Press Area and in the Bailing Room. The buckets were not properly labeled. The amount of time they have been stored is unknown.

Background Info:	The Colgate-Palmolive Company plant (10.4 acres) in Berkeley, produced soaps, and personal and household cleaning products from 1916 until 1981. It consisted of 27 buildings, a tank farm, several individual storage tanks, and other structures. Colgate-Palmolive Company was issued an Interim Status Document in April 6, 1981. In October 1981 the Colgate-Palmolive plant ceased operation at the site.
Comments Date:	03281988
Comments:	Certified Site. Cleanup of the site began in early 1985 and was
Comments Date:	03281988
Comments:	completed in December 1985. Soils were excavated and disposed
Comments Date:	03281988
Comments:	offsite. Sampling in March 1985, after the cleanup, found

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Violations:

Site ID:	75257
Site Name:	THE PROFESSIONAL TREE CARE COMPANY
Violation Date:	01-09-2018
Citation:	HSC 6.5 Multiple - California Health and Safety Code, Chapter 6.5, Section(s) Multiple
Violation Description:	Hazardous Waste Generator Program - Administration/Documentation - General
Violation Notes:	Returned to compliance on 02/14/2018. Facility generates hazardous waste but does not have an active EPA ID number. CAL000273418 is inactive. Corrective action: Submit the application to DTSC, https://www.dtsc.ca.gov/HazardousWaste/upload/GISS_FORM_1358.pdf, to reactivate your EPA ID number. In addition, ensure to complete the eVerification Questionnaire, electronically, every year. 2/14/18 - Pamela indicates The EPA ID application was submitted by email over 3 weeks ago. She then went online, resubmitted an electronic application and paid the bill 1.5 weeks ago. DTSC hasn't reactivated their EPA ID number.
Violation Division:	Berkeley City Toxics Management Division
Violation Program:	HW
Violation Source:	CERS

Site ID:	75257
Site Name:	THE PROFESSIONAL TREE CARE COMPANY
Violation Date:	01-09-2018
Citation:	40 CFR 1 265.173 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.173
Violation Description:	Failure to meet the following container management requirements: (a) A container holding hazardous waste must always be closed during storage, except when it is necessary to add or remove waste. (b) A container holding hazardous waste must not be opened, handled, or stored in a manner which may rupture the container or cause it to leak.
Violation Notes:	Returned to compliance on 02/28/2018. The used oil drum in the back corner of the hazardous waste storage area is covered with a grate and is not closed. The used oil tank lid is not closed when not adding or removing waste. Corrective action: Maintain these containers/tanks

THE PROFESSIONAL TREE CARE COMPANY (Continued) **S121791550**

closed except when adding or removing hazardous waste. 2/14/18 - Spoke with Pamela and received email. Extension granted.
Violation Division: Berkeley City Toxics Management Division
Violation Program: HW
Violation Source: CERS

Site ID: 75257
Site Name: THE PROFESSIONAL TREE CARE COMPANY
Violation Date: 01-09-2018
Citation: HSC 6.5 25250.22 - California Health and Safety Code, Chapter 6.5, Section(s) 25250.22
Violation Description: Failure to properly manage used oil and/or fuel filters in accordance with the requirements.
Violation Notes: Returned to compliance on 02/28/2018. The 55 gallon drum of used oil filters was not closed and was not labeled as used oil filters or with an accumulation start date. Corrective action: Maintain the container closed except when adding or removing the filters. Label the drum with the contents and an accumulation start date. 2/14/18 - Spoke with Pamela and received email. Extension granted.
Violation Division: Berkeley City Toxics Management Division
Violation Program: HW
Violation Source: CERS

Site ID: 75257
Site Name: THE PROFESSIONAL TREE CARE COMPANY
Violation Date: 01-09-2018
Citation: 40 CFR 1 265.177 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.177
Violation Description: Failure to separate incompatible wastes from the same container, nearby containers, or unwashed containers which previously contained incompatible waste or materials.
Violation Notes: Returned to compliance on 02/28/2018. John indicates the used antifreeze usually gets added to the used oil container for disposal. Used oil may not be mixed with other hazardous wastes or other materials. Corrective action: Maintain a separate container for the used antifreeze and label properly as hazardous waste. 2/14/18 - Spoke with Pamela and received email. Extension granted.
Violation Division: Berkeley City Toxics Management Division
Violation Program: HW
Violation Source: CERS

Site ID: 75257
Site Name: THE PROFESSIONAL TREE CARE COMPANY
Violation Date: 01-09-2018
Citation: 40 CFR 1 262.34(d)(5)(iii) - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 262.34(d)(5)(iii)
Violation Description: Failure to ensure that all employees are thoroughly familiar with proper waste handling and emergency procedures, relevant to their responsibilities during normal facility operations and emergencies.
Violation Notes: Returned to compliance on 02/28/2018. Employees are not thoroughly familiar with proper waste handling as demonstrated by the container management violations observed at the time of the inspection. Corrective action: Provide a training which reviews the hazardous waste management requirements and document the training. Provide a copy of the training record to TMD. 2/14/18 - Spoke with Pamela and received email. Extension granted.

Violation Source: CERS

Site ID: 75257
Site Name: THE PROFESSIONAL TREE CARE COMPANY
Violation Date: 01-09-2018
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Description: Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.
Violation Notes: Returned to compliance on 02/28/2018. The label on the used oil drum in the corner is labeled as hazardous waste, but the label is otherwise illegible. Corrective action: Clean the label on the drum or place a new label on the drum with all required information. 2/14/18 - Spoke with Pamela and received email. Extension granted.
Violation Division: Berkeley City Toxics Management Division
Violation Program: HW
Violation Source: CERS

Site ID: 75257
Site Name: THE PROFESSIONAL TREE CARE COMPANY
Violation Date: 01-09-2018
Citation: HSC 6.95 25505(a)(4) - California Health and Safety Code, Chapter 6.95, Section(s) 25505(a)(4)
Violation Description: Failure to provide initial and annual training to all employees in safety procedures in the event of a release or threatened release of a hazardous material or failure to document and maintain training records for a minimum of three years.
Violation Notes: Returned to compliance on 02/28/2018. John indicates that they are provided on the job training, but he is not aware of any training documentation. Corrective action: Provide a training to employees reviewing hazards of materials, emergency response procedures, coordination of emergency response actions, notification procedures for local emergency responders, CUPA, Cal OES and onsite and offsite personnel, PPE, use and maintenenace of emergency response equipment and supplies, evacuation procedures and any other items included in your in-house developed training program. Document the training and provide a copy of the training record to TMD. 2/14/18 - Spoke with Pamela and received email. Extension granted.

Evaluation:
Eval General Type: Compliance Evaluation Inspection
Eval Date: 05-04-2021
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: Met with John Burke to review and confirm the information in the 2/26/2021 HMBP submittal.
Eval Division: Berkeley City Toxics Management Division
Eval Program: HMRRP
Eval Source: CERS

Eval General Type: Compliance Evaluation Inspection
Eval Date: 01-09-2018
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: Facility generates used oil, used oil filters, used rags from equipment maintenance and oily water/sludge from the oil water separator. John indicates the rags are taken by the uniform service for laundering and the parts washer is serviced as needed. The copies of waste disposal records onsite were illegible. Provide TMD with copies of waste disposal records for the used oil, used antifreeze, oily debris, oily water, used lead acid batteries and used oil filters. For the hazardous waste manifests, provide the generator retains copy, as well as the designated facility to generator copy. In addition, please provide your procedure for submitting copies of the hazardous waste manifests to DTSC.

Eval General Type:	Compliance Evaluation Inspection
Eval Date:	01-09-2018
Violations Found:	Yes
Eval Type:	Routine done by local agency
Eval Notes:	Met with John Burke to confirm the information in the 3/1/2017 HMBP submittal. Please note that the annual review and certification is due 3/1/2018 and must include an update to the hazard categories on the inventory. Please see the items marked on the printed inventory provided by TMD. Observed storage of argon/carbon dioxide, transmission drive train oil, a water bottle of antifreeze, parts washer, propane, used oil, and oil. The 5 gallon water bottle of antifreeze is open and sitting, leaning, on top of the oil tank and is unlabeled. The container must be labeled within 10 days or is considered a hazardous waste. In addition, the container must be stored in a manner to prevent or minimize a release, including closing it.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Violations:
Site ID: 562793
Site Name: Demetrix Inc
Violation Date: 11-05-2020
Citation: HSC 6.95 25508(a)(3) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(3)
Violation Description: Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.
Violation Notes: Returned to compliance on 03/02/2021. OBSERVATION: The inventory does not include all hazardous materials or hazardous wastes onsite, as required per Berkeley Municipal Code section 15.12.050. CORRECTIVE ACTION: Update the inventory to disclose all hazardous materials and hazardous wastes. All hazardous wastes shall be reported separately, by waste stream. In addition, each hazardous material which exceeds 55 gallons, if liquid, 500 pounds, if solid, or 200 cubic feet, if a compressed gas, must be reported separately. All other hazardous materials must be reported, either separately, or may be combined and reported by hazard class. 12/3/2020 - Received email extension request. Approved 12/4/2020. 1/4/2021 - Submittal received in CERS. Not accepted and gave till 2/5/2021 to correct. 1/25/2021 - Emailed Gabriel with reminder to submit corrections in CERS. 1/28/2021 - Submittal received in CERS. 2/19/2021 - CERS submittal Not accepted and gave till 3/1/2021 to resubmit. 2/25/2021 - Email from [Truncated]

Evaluation:

Eval General Type:	Compliance Evaluation Inspection
Eval Date:	11-04-2020
Violations Found:	No
Eval Type:	Routine done by local agency
Eval Notes:	Confirmed hazardous waste management, including container storage, labeling and hazardous waste manifests. Confirmed emergency response equipment.
Eval Division:	Berkeley City Toxics Management Division
Eval Program:	HW
Eval Source:	CERS

Eval General Type:	Compliance Evaluation Inspection
Eval Date:	11-04-2020
Violations Found:	Yes
Eval Type:	Routine done by local agency
Eval Notes:	Conducted inspection via remote video. Reviewed the information in the Hazardous Materials Business Plan submitted in CERS on 3/31/2020. Please update the EPA ID number on the Business Activities page as it lists the old number from your Emeryville address. Confirmed the property owner notification, emergency response plan and training.

CARIBOU BIOSCIENCES, INC. (Continued) **S121769231**

Violation Date:	10-20-2020
Citation:	HSC 6.95 25508(a)(3) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(3)
Violation Description:	Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.
Violation Notes:	The chemical categories used in the inventory should list the individual chemicals in the "components" section of the inventory. Corrective Action: Update inventory to accurately reflect chemicals stored onsite and submit on the California Environmental Reporting System (CERS).
Violation Division:	Berkeley City Toxics Management Division
Violation Program:	HMRRP
Violation Source:	CERS
Site ID:	372375
Site Name:	Caribou Biosciences, Inc.
Violation Date:	03-28-2017
Citation:	HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Description:	Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.
Violation Notes:	Returned to compliance on 03/31/2017. Observed storage of liquid nitrogen and approximately 6 gallons of flammable liquids. These hazardous materials are not disclosed on the inventory. Corrective action: Update the inventory to include all hazardous materials handled or stored and ensure the quantities are listed as maximum daily storage and average daily storage. Update and submit in CERS. Corrective action: Update the inventory.
Violation Division:	Berkeley City Toxics Management Division
Violation Program:	HMRRP
Violation Source:	CERS
Site ID:	372375
Site Name:	Caribou Biosciences, Inc.
Violation Date:	03-28-2017
Citation:	22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Description:	Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.
Violation Notes:	Returned to compliance on 03/28/2017. The hazardous waste containers are labeled as hazardous waste with accumulation start date of empty weekly. Arthur indicates the containers are picked up less frequently than weekly. Corrected onsite. Labeled hazardous waste containers with a date of first hazardous waste accumulation rather than empty weekly. Corrective Action: corrected onsite.

Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Description: Failure to complete and electronically submit a site map with all required content.
Violation Notes: Returned to compliance on 07/10/2017. Site map does not include all of the required content in that the hazardous wazte/mat areas were not identified. Corrective action: Include chemical storage areas and hazardous waste storage area.
Violation Division: Berkeley City Toxics Management Division
Violation Program: HMRRP

PIVOT BIO (Continued) **S112879398**

Violation Source: CERS

Site ID: 412056
Site Name: Pivot Bio
Violation Date: 08-14-2020
Citation: 40 CFR 1 265.173 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.173
Violation Description: Failure to meet the following container management requirements: (a) A container holding hazardous waste must always be closed during storage, except when it is necessary to add or remove waste. (b) A container holding hazardous waste must not be opened, handled, or stored in a manner which may rupture the container or cause it to leak.
Violation Notes: Returned to compliance on 08/14/2020. Observation: Drum ring was not locked on one of the two 33 gallon drums in the main hazardous waste storage area at the time of inspection. Corrective Action: This was corrected at-time-of-inspection by locking the drum ring. Keep all hazardous waste containers completely closed unless actively adding or removing waste.
Violation Division: Berkeley City Toxics Management Division
Violation Program: HW
Violation Source: CERS

Site ID: 412056
Site Name: Pivot Bio
Violation Date: 08-14-2020
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Description: Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.
Violation Notes: Returned to compliance on 10/21/2020. Observation: Of all hazardous waste containers on site, only two containers had the hazardous properties labeled, and two others were corrected at time of inspection. Corrective action: All hazardous waste containers on site must have the hazardous properties labeled. Correct and submit proof to TMD.
Violation Division: Berkeley City Toxics Management Division
Violation Program: HW
Violation Source: CERS

Site ID: 412056
Site Name: Pivot Bio
Violation Date: 08-14-2020
Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Description: Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.
Violation Notes: Returned to compliance on 10/21/2020. Observation: Waste streams with annual through-puts are missing from Hazardous Materials Inventory in CERS. Corrective Action: Add waste streams to Hazardous Materials Inventory and submit to CERS.
Violation Division: Berkeley City Toxics Management Division
Violation Program: HMRRP

PIVOT BIO (Continued) **S112879398**

Violation Source: CERS

Site ID: 412056
Site Name: Pivot Bio
Violation Date: 08-14-2020
Citation: HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(1)
Violation Description: Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.
Violation Notes: Returned to compliance on 10/21/2020. Observation: In the main hazardous waste accumulation area, one container has an accumulation start date of October 2018. This should have been shipped off-site within 180 days of the start date. Corrective Action: Ship off this waste and submit proof to TMD.
Violation Division: Berkeley City Toxics Management Division
Violation Program: HW
Violation Source: CERS

Site ID: 412056
Site Name: Pivot Bio
Violation Date: 08-14-2020
Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Description: Failure to complete and electronically submit a site map with all required content.
Violation Notes: Returned to compliance on 10/21/2020. Observation: Site Map in CERS is missing a North-facing arrow or adjacent streets, and the emergency evacuation assembly meeting point. Corrective Action: Add a North-facing arrow or adjacent streets (for orientation), and add the emergency evacuation assembly meeting point (this is sometimes best accomplished with a wide-view satellite image of the site; this would add a second page to your map). Once these have been added to your map, discard the old map and upload the new map on cers.calepa.ca.gov

Site ID: 412056
Site Name: Pivot Bio
Violation Date: 08-14-2020
Citation: 22 CCR 12 66262.40(a) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.40(a)
Violation Description: Failure to keep a copy of each properly signed manifest for at least three years from the date the waste was accepted by the initial transporter. The manifest signed at the time the waste was accepted for transport shall be kept until receiving a signed copy from the designated facility which received the waste.
Violation Notes: Returned to compliance on 10/21/2020. Observation: Manifests from 2017, 2018, and 2019 were submitted, though none were submitted from 2020. Facility should have a manifest from 2020 due to 2020 accumulation start date on hazardous waste drums. Corrective Action: Submit hazardous waste manifest from 2020 to TMD.
Violation Division: Berkeley City Toxics Management Division
Violation Program: HW
Violation Source: CERS

Evaluation:
Eval General Type: Compliance Evaluation Inspection
Eval Date: 06-12-2017
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: Pivot Bio took over suite 120 around April 2016. Hazardous waste accumulation area near the potter street exit. Not noted in the site map. Hazardous waste (non RCRA solids) properly labeled and kept within a secondary container. Hazardous waste mecraploethanol waste liquids and glutaraldehyde/paraformaldehyde liquids not noted in the inventory provided on CERS. Hazardous materials throughout laboratory including acids, bases, solvents, ect. not noted in inventory. Hazardous waste area is inspected weekly. Emergency stations with phone numbers and evacuation maps are posted throughout facility. Eye wash and shower stations are functioning, available, and checked monthly. Training is conducted initially upon hire and annually thereafter. Training material is compliant.
Eval Division: Berkeley City Toxics Management Division
Eval Program: HMRRP
Eval Source: CERS

Eval General Type: Compliance Evaluation Inspection
Eval Date: 08-14-2020
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: Toxics Management Division (TMD) conducted this routine inspection virtually, via a combination of video and audio streaming. Pivot Bio is a biotech research-and-development facility which focuses on using "genetic persuasion" to encourage nitrogen fixation. Within the facility, TMD observed safety showers, spill buckets, first aid kids, and fire extinguishers current as of April 2020 throughout the facility. Emergency response posting was posted. All compressed air cylinders were seismically braced. Oxygen was stored separately from the other gases in a cylinder storage locker. Prior to inspection,

facility operator sent employee training records from 2018, 2019, and 2020. Operator submitted photographs of small quantity chemicals on-site. Compressed gases observed included: - 5x 300CF nitrogen - 2x 300CF nitrogen/hydrogen blend - 2x 300CF helium - 2x 200CF hydrogen - 2x 300CF hydrogen - 1x 230 liters nitrogen (in dewar) - 2x 300CF compressed air - 2x 200CF [Truncated]

Eval General Type: Compliance Evaluation Inspection
Eval Date: 08-14-2020
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: TMD conducted Hazardous Waste (HW) inspection in conjunction with Hazardous Materials Business Plan inspection. TMD observed satellite accumulation areas and a main Hazardous Waste storage area. All areas were free of debris/staining and were clearly labeled. Most containers were closed, but one drum-ring was not locked on the 33 gal HW drum in the main HW storage area; TMD instructed operator to put on and lock drum ring except when actively adding Hazardous Waste, thus this was corrected at time-of-inspection. Only two hazardous waste containers had the hazardous properties labeled, and two were corrected at time of inspection - all others on site must also be corrected. The main hazardous waste accumulation area was locked, requiring a key for access, and had secondary containment. Prior to inspection, operator sent copies of Hazardous Waste Manifests from 2017, 2018, and 2019. No manifests from 2020 were submitted. TMD observed 4 waste streams: - Non-RCRA Solid [Truncated]

TEMESCAL BUSINESS CENTER (Continued) **S101007045**

Comments: Site screening determined that historic site uses had included automobile manufacturing, rebuilding of marine engines, and storage of chemical metal etching waste. The City of Berkeley has overseen sampling at the site in an effort to characterize the occurrence of chlorinated solvents in area groundwater.

TEMESCAL BUSINESS CENTER (Continued) **S101007045**

Longitude:	-122.292199613492
Case Type:	Cleanup Program Site
Case Worker:	DYP
Local Agency:	Not reported
RB Case Number:	01S0743
File Location:	Regional Board
Potential Media Affected:	Other Groundwater (uses other than drinking water)
Potential Contaminants of Concern:	Dichloroethene (DCE), Tetrachloroethylene (PCE), Trichloroethylene (TCE)
Site History:	The Hall-Scott Motor Car Company began manufacturing automobiles at the site in 1910. This same company overhauled and rebuilt large marine engines at the site during World War II in support of the war effort. Limited information is available regarding site uses between 1945 and 1967. In 1967, Airco purchased the property for storage of old equipment, spent dolomite, and neutralized chemical metal etching waste prior to disposal. In 1978, the site was divided into two properties: 2850 7th Street and 729 Heinz Avenue. The Temescal Business Center, a multi-tenant industrial complex, currently occupies the 2850 7th Street site. This site is a part of the Heinz/Grayson Plume (EnviroStor ID 60000399).

Completed Info:
Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Site Screening
Completed Date: 03/26/1993
Comments: This facility is a possible source for the Cr(VI) found in groundwater below a neighboring facility (Macauley Foundry, 811 Carleton, Berkeley). There is no on-site data available Chromium was found at up to 60ppm in soil and 30 ppm in groundwater at the Macauley facility. The site appears to have no exposed soil, all areas not covered by the building appear to be paved. This facility has a sister facility in Emeryville at 1401 Park St., which has soil and groundwater contaminated with chromium and TCE. A former employee of th city of Berkeley said he beleived that in the past the facility disposed of wastes into the ground. The only known use of groundwater in the immediate vicinity id for indust- rial purposes, according to the the well inventory provided the Alameda County Public Works Dept. A hazard ranking pack age will be prepared.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Preliminary Assessment Report
Completed Date: 10/21/1987
Comments: Preliminary Assessment Done: Recommend Site Inspection (low (priority) -- owner in Chapter 11 Facility has a history of numerous spills of hazardous waste to soil.

Case Type:	Cleanup Program Site
Case Worker:	CH
Local Agency:	Not reported
RB Case Number:	01S0742
File Location:	All Files are on GeoTracker or in the Local Agency Database
Potential Media Affected:	Aquifer used for drinking water supply, Other Groundwater (uses other than drinking water)
Potential Contaminants of Concern:	Not reported
Site History:	Groundwater contamination due to a plating shop operations since 1960's; historical spills and leaks around tanks with chromic acid. Groundwater and soil contaminated with total and hexavalent chromium. Soil and groundwater chromium contamination has been found on- and offsite. In 1991 the City of Berkeley TMD required the RP to prepare a work plan for chromium 6 contamination delineation in soil and GW, a feasibility study for corrective actions to remove chromium from soil and GW, risk assessment, and evaluation of the facility storm water pollution prevention plan. Implementation of the in-situ reduction of Cr 6 to Cr 3 as proposed in the 3/1998 Arcadis Gerathy & Miller revised CAP; installation of 12 injection points on- and offsite and injections of an enriched carbohydrate solution into the saturated and vadose zones in 12/1998 and 4/1999. Site closure requested from the TMD in April 2005 by Tamalpais Environmental Consultants (TEC) based on low concentrations in GW. Additional subsurface treatments in 11/2008 to address residual Cr 6 at the site based on results from well MW-1 downgradient of the former source area. Temporary injection points installed to inject a remediation mixture w/whey and an emulsified soybean oil. An additional round of groundwater remediation injections performed in four locations in June 2013 to address chromium 6 detected in well MW-1.The

ELECTRO-COATINGS OF CALIFORNIA INC (Continued) **1000181777**

concentration of chromium 6 in MW-1 was below 10 ug/L during the groundwater monitoring events conducted in 12/2014 and 12/2015 by TEC .

Environmental Interest/Information System:

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.
US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.
US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Treat To Water:	Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity:	Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Local Agency: BERKELEY, CITY OF
File Location: Local Agency
Local Case Number: TT01-1444
Potential Media Affect: Aquifer used for drinking water supply, Indoor Air, Soil, Soil Vapor
Potential Contaminants of Concern: Gasoline
Site History: The site is an active service station dispensing 76-branded gasoline located on the northeast corner of the intersection of Ashby Avenue and 7th Street in Berkeley, Alameda County, California. The Alameda County Assessor's Parcel Number is 53-1641-95. The site is located on 0.18-acre lot approximately 3,000 feet west of the San Francisco Bay. The service station is located at an elevation of approximately 30 feet above mean sea level. The site is located in a mixed commercial and industrial area and is bounded on the south by Ashby Avenue (State Highway 13), to the north by Potter Street, to the east by a commercial facility (tub makers), and to the west by 7th Street (beyond which is the former Whole Earth Access/West Marine facility). The station facilities include four 12,000-gallon underground storage tanks (USTs) containing regular unleaded, mid]grade unleaded, premium unleaded, and diesel fuels; three fuel dispenser islands; and a small cashierfs kiosk located in the central portion of the site. Other site features include a treatment system compound containing an air-sparging/dual-phase extraction system. A service station reportedly has occupied the site for at least 50 years. Southland Corporation (Southland) reportedly acquired the property in 1982, and installed the existing four 12,000-gallon, single]walled, fiberglass USTs at the site in 1983 for storage of regular, unleaded, premium unleaded, and diesel fuel and operated a Super 7 Service Station at the site. It is not known if USTs were present on]site during previous service station operations. In 1986, ownership of the property was transferred to Mr. Keet Neerhan, who subsequently sold the property to Mr. Marvin Goodwyn in 1987. Mr. Goodwyn then leased the property to Union Oil Company of California (Unocal) in 1987. Unocal operated a service station at the site until 1997. Tosco Marketing Company (now ConocoPhillips) assumed the existing site lease in 1997, and currently operates the 76 service station. In 2003, the property was sold to Mr. Ronald Siegel. Mark Bare will provide summarizing our current knowledge of the nature, extent, potential source of this orphaned groundwater and likely soil vapor plume.

CAMP ASHBY (Continued) **1007211901**

Has Projects: Yes
NPL Status: Not on the NPL
Property History: On 1 January 1942, 12.56 leased acres and 0.88 permit acres were acquired (from private property owners, the State of California, and the City of Berkeley) for the San Francisco Port of Embarkation in the 6th Army area. Total acreage acquired was 13.53. The site was used for a military police installation. Improvements to the site are unknown. There is no record or evidence of underground storage tanks. The leases terminated between 1 January 1942 and 11 October 1946. The permit terminated on 11 October 1946. According to Ms. Evelyn Gahtan, Reference Librarian of the Berkeley Public Library, "Camp Ashby was established for the 779th Military Police, composed of black troops. It was also established for the protection of the city from enemy attack." According to Dr. Lawrence Crouchett, Executive Director of the Northern California Center for Afro-American History and Life, "Camp Ashby was established for black Military Police patrolling the black parts of the Bay Area. The site investigation team found no evidence of hazardousitoxic wastes, explosive ordnance, or building debris from former DOD use of the area.

Project Required: Yes
Feature Description: Not reported
Latitude: 37.85166667

Federal Facility ID: CA9799F5706
RAB: Not reported
NPL Status: Not Listed
Description: The 13.53-acres site is located in the vicinity of Ashby Ave. & 7th St. in the City of Berkeley, Alameda County, CA. The site is now built-over and occupied by numerous private businesses, both commercial & industrial. Examination of the streets and buildings did not identify any remains of Camp Ashby.
History: On 1 January 1942, 12.65 leased acres and 0.88 permit acres were acquired from private owners, the State of California and the City of Berkeley for the San Francisco Port of Embarkation in the 6th Army Area. The total acreage acquired was 13.53. The leases terminated between 1 January 1942 and 11 October 1946. The permit terminated on 11 Oct 1946. The site was used as a military police installation. There are no potential hazards currently identified at this site.

Potential Contaminants of Concern:	Other Acid or Corrosive, Asbestos Containing Materials (ACM), Total Petroleum Hydrocarbons (TPH)
Site History:	The Vegetable Oil Company, a subsidiary of the Stauffer Oil Company, began construction of the earliest known buildings to occupy the site in 1916-17. All that remains of these earliest structures are the Copra Building (currently owned by Garr Land & Resources, Inc.) And the smokestack of the recently demolished Boiler Room Building. Durkee Famous Foods (hereinafter referred to as Durkee), a subsidiary of Glidden Foods, purchased the site and buildings in 1929. Durkee expanded many of existing buildings and constructed the distinctive Art Deco "Durkee Building", 800 Heinz Avenue, on the northern boundary of the site. Additional expansion of the plant occurred following World War II when building permits were issued for the hydrogenation building, cooling tower deodorizer, storage/ office area, lighted electric sign, and the experimental kitchen. These developments allowed Durkee to describe the plant as the largest refinery of edible oil on the Pacific Coast. Durkee ceased refinery operations at the plant in 1974. The plant lay dormant until November 1976 when Agricom, Inc., an oil processing firm from San Francisco, purchased the property and buildings. Agricom continued to refine vegetable oil at the plant until declaring bankruptcy in 1984. During Agricoms occupation, small portions of the site were rented for other light industrial uses, small businesses, and live/work uses. This included the leasing of the 700 Heinz Avenue property to EBWRI in 1983. In 1985, Wareham Development (Seventh Street Properties II) purchased the site from Charles Duck, the bankruptcy trustee for

WAREHAM DEVELOPMENT (Continued) **S101641255**

Agricom, Inc. This purchase included hazardous waste and hazardous materials (caustic liquids) contained in open tanks and sumps on the site, as well as asbestos sidings and coverings on the old Warehouse Building. In June 1985, Wareham Development began the demolition of the buildings on the 2900 Fifth Street property, whereas the 700 Heinz Avenue property was still under lease to EBWRI, who continued to occupy the site until August 1986. In July 1985, the Environmental Health Division of the City of Berkeley, Department of Health and Human Services discovered a blackcolored, caustic (pH = 12.6), oily liquid seeping into the drainage swale located on the adjacent SP right-of-way. After a more detailed inspection of the site, the City of Berkeley contacted the California Department of Health Services (DOHS) to further assist in site investigations. The OOHS issued an Order to Post and Fence the area (29 July 1985) and the City of Berkeley issued an Abatement Order (30 July 1985) requiring that the demolition of the site structures be delayed until contamination characterization work be implemented and a remedial action plan developed. The DOHS issued a Determination of Imminent or Substantial Endangerment and Remedial Action Order (August 1985) after inventorying waste products on the 2900 Fifth Street property and sampling the black liquid found in the drainage swale. The order required the removal of the black liquid, a detailed site characterization clean-up of the waste products identified on the 2900 Fifth Street property, and an investigation into the source of the black liquid. The black liquid was removed from the SP drainage swale in September 1985. However, within two weeks after removal of the liquid, the seepage reappeared in the drainage swale. In response to the DOHS orders, Wareham Development and EBWRI each retained consultants to perform site investigation studies, and clean-up of the 2900 Fifth Street property was initiated.

Comments: Site screening determined that PCBs, lead, nickel, and petroleum hydrocarbons had previously been detected in soil samples collected from the site. The City of Berkeley has overseen sampling at the site in an effort to characterize chlorinated solvent occurrence in area groundwater. See Heinz/Grayson Plume Site - Temescal Business Center for site screening dated 2/15/2005

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Preliminary Assessment Report
Completed Date: 04/01/1986
Comments: Inspection (EPA FIT): E&E Report # C(86)C111; confirmed DHS Preliminary Assessment information. Nine samples taken.

Global Id: T0600191535
Lead Agency: SAN FRANCISCO BAY RWQCB (REGION 2)
Lead Agency Case Number: Not reported
Latitude: 37.852883
Longitude: -122.295667
Case Type: Cleanup Program Site
Case Worker: STG
Local Agency: BERKELEY, CITY OF
RB Case Number: 01S0387
File Location: Local Agency
Potential Media Affected: Other Groundwater (uses other than drinking water), Soil
Potential Contaminants of Concern: Trichloroethylene (TCE), Polychlorinated biphenyls (PCBs), Copper, Lead, Nickel, Zinc, Diesel
Site History: Prior to 1978, this site was operated by Airco Inc, now referred to as Temescal Business Center. The portion of the site referred to as the Berkeley Industrial Complex was historically utilized as a storage area for old equipment, spent dolomite, and neutralized chemical etching waste before disposal. Prior to Airco's ownership of the site, Hall Scott Marine Engine Foundry occupied the site before and during World War II. They produced engines for naval ships during World War II; however, the exact scope of their activities is unknown. The site currently supports three buildings and a nursery on an approximately 1.5-acre parcel. Berkeley Industrial Complex is presently a multi-tenant industrial complex. The main tenants include Magic Garden Nursery, Goldberg Cabinets, and Artworks Foundry. Seventy-five percent of the property is utilized to grow, store and sell plants, shrubs, and trees. The site is bounded by Temescal Business Center to the east, and National Starch and Chemical to the north. A Southern Pacific rail spur forms the northwest boundary.

BERKELEY INDUSTRIAL COURT (Continued) **S102008166**

Since 1978 there has been no chemical storage or heavy industrial practices that would lend to the potential for soil and/or groundwater impaction.

MARCHANT CORPORATION SITE (Continued) **S108054471**

Completed Date: 12/03/2009
Comments: Public notice is going to be published on December 4, 2009 on the local newspaper.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Remedial Investigation Workplan
Completed Date: 06/17/2009
Comments: DTSC approves workplan on 6/17/09. RP consultant to incorporate revisions propsed in Response to DTSC Comments and submit final workplan.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Fieldwork
Completed Date: 10/03/2009
Comments: Field work was completed from October 2-3, 2009.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Other Report
Completed Date: 04/03/2009
Comments: DTSC accepts interim remedial investigation data package, based on discussion of RP responses to DTSC comments at meeting with RP on 4/1/09. RP will submit supplemental workplan, including schedule for implementation and preparation of remedial investigation report.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: *Correspondence - Received
Completed Date: 10/12/2010
Comments: REDICO requested a one-year delay to the timeframes outlined in the RAW for implementation of the remedial action. Request grant over the phone.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Standard Voluntary Agreement
Completed Date: 10/11/2007
Comments: VCA fully executed on 10-11-07. Scope of Work includes investigation and cleanup activities.

Completed Date: 02/21/2017
Comments: CEQA Notice of Preparation (NOP) for Marchant Corporation. DTSC determined that the proposed project would not conflict with the remedial design and previous indoor air investigations. The remedy is

MARCHANT CORPORATION SITE (Continued) **S108054471**

in the basement boiler room and would not be affected by the proposed project, which consists of converting previous office spaces to Medical Practitioner use on portions of the first and second floors, plus all of the third and fourth floors (delineated in the Project Plans on the City of Berkeley website: http://www.ci.berkeley.ca.us/uploadedFiles/Planning_and_Development/Level_3_-_ZAB/2017-02-09_ZAB_ATT2_3100%20San%20Pablo_Project%20Plans.pdf). The NOP anticipates that the project will not have significant impacts related to Hazards and Hazardous Materials and, therefore, analysis of Hazards and Hazardous Materials will be included in the IS checklist as an appendix, but not studied and analyzed at length in the DEIR. However, the NOP anticipates that Air Quality will be analyzed in the DEIR. According to the State Clearinghouse memo, DTSC must respond to the Lead Agency if review of the Notice of Preparation (NOP) indicates that DTSC has discretionary approval power over the project as a Responsible Agency . Based on review, DTSC does not need to act as a Responsible Agency and provide discretionary review/approval of the DEIR, so DTSC response to the NOP (due by 2/24/207) is not required.

from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.
HAZARDOUS AIR POLLUTANT MAJOR
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Reclamation: Not reported
POTW: Not reported
Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

NATIONAL STARCH & CHEM COMPANY (Continued) **S108198152**

File Location: Regional Board
Potential Media Affected: Other Groundwater (uses other than drinking water), Soil
Potential Contaminants of Concern: Dichloroethene (DCE), Tetrachloroethylene (PCE), Trichloroethylene (TCE), Vinyl chloride, Total Petroleum Hydrocarbons (TPH)
Site History: The subject site (Site) is on two parcels at 742 and 800 Grayson Street in Berkeley. A rail spur is located on the sites south side. There are two areas of concern (AOC). AOC 1 is delineated as the 742 parcel that excludes the rail spur. The rest of the site is designated AOC 2 and includes the 800 parcel and the rail spur. Analytical results of soil vapor samples from one probe destroyed during excavation historically contained benzene at concentrations up to 12,000 micrograms per cubic meter (ug/m3). The destroyed probe was not replaced as part of site restoration activities and no post-excavation soil vapor samples were collected. There is a proposed redevelopment.

Address:	742 GRAYSON ST
City,State,Zip:	BERKELEY, CA 94710
Site ID:	533651
CERS ID:	734934
CERS Description:	Industrial Facility Storm Water

Evaluation:

Eval General Type:	Compliance Evaluation Inspection
Eval Date:	05-30-2017
Violations Found:	No
Eval Type:	Industrial Storm Water Compliance Evaluation
Eval Notes:	Site staff takes precautions to control and prevent contaminated storm water from reaching storm drains by use of secondary containment and mats to cover storm drains during dry weather. A minor trash problem was noted. This appears to be associated with homeless encampments on Grayson Street outside facility.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Local Agency:	Not reported
RB Case Number:	01S0045
File Location:	Regional Board
Potential Media Affected:	Other Groundwater (uses other than drinking water), Soil
Potential Contaminants of Concern:	Dichloroethene (DCE), Trichloroethylene (TCE), Vinyl chloride, Diesel, Gasoline, Total Petroleum Hydrocarbons (TPH)
Site History:	The Cutter Laboratory began operations at its present west Berkeley site in 1917. In 1974, Cutter Laboratories was purchased by Bayer AG of Germany and in 1983, was merged into Miles, Inc. In 1992, Miles, Inc. purchased the 5.6 acre parcel then occupied by the Gary Steel Company, the City of Berkeley School Bus Yard, and Western Intermodals. The Miles facility became a nearly 30-acre site located in the industrially zoned flatlands area west of San Pablo Avenue. The project site contains various one-to three-story research laboratories, process/manufacturing facilities, storage/warehouse buildings and administrative/office buildings.The facility has historically used numerous underground storage tanks (USTs) for storage of hazardous materials, all of which have been removed; contamination has been encountered and documented for these USTs.

Case Worker:	MYM
RB Case Number:	01-3602
Local Agency:	Not reported
File Location:	All Files are on GeoTracker or in the Local Agency Database
Local Case Number:	RO0002602
Potential Media Affect:	Other Groundwater (uses other than drinking water)
Potential Contaminants of Concern:	MTBE / TBA / Other Fuel Oxygenates, Gasoline
Site History:	On December 2, 2003, one 10,000-gallon gasoline UST and one dispenser island was removed from the site. Low petroleum hydrocarbon concentrations were detected in soil samples collected from soil in the UST excavation pit and beneath the dispenser island. MTBE was detected at a maximum of 7.06 ppm in the UST excavation. Soil from the excavation was reused to backfill the excavations. In February through May 2004 soil was excavated and groundwater extracted from the former UST location. Groundwater sampled from the tank pit contained petroleum hydrocarbons and elevated oxygenate concentrations. Subsequently further investigations were performed and an ozone-sparge pilot test work plan was submitted and approved in 2008. No results have been submitted.

FORMER HUMBLE SERVICE STATION 70693 (Continued) **S105870777**

Local Case Number: Not reported
Potential Media Affect: Other Groundwater (uses other than drinking water)
Potential Contaminants of Concern: Gasoline
Site History: In September 1996 four soil samples were collected during a geotechnical investigation. Up to 4,600 mg/kg TPHg, 1,000 mg/kg TPHd, 13 mg/kg benzene were detected in soil samples. A Phase I conducted identified the property as a former gasoline station from approximately 1962 until around 1978 when a permit for demolition was issued. No records were obtained on the removal of the USTs or their final disposition. Monitoring wells installed in 1999 contained maximum concentrations of 68,000 a%g/L TPHg, 7,400 a%g/L benzene and 48,000 a%g/L MTBE.

CPS-SLIC:
Name: 1266 66TH ST - LIQUID SUGARS
Address: 1266 66TH ST
City,State,Zip: EMERYVILLE, CA 94608
Region: STATE
Facility Status: **Open - Verification Monitoring**
Status Date: 07/01/2019
Global Id: SL0600120444
Lead Agency: SAN FRANCISCO BAY RWQCB (REGION 2)
Lead Agency Case Number: Not reported
Latitude: 37.8485817465097
Longitude: -122.289448287259
Case Type: Cleanup Program Site
Case Worker: STG
Local Agency: Not reported
RB Case Number: 01S0523
File Location: Regional Board
Potential Media Affected: Other Groundwater (uses other than drinking water), Soil, Soil Vapor
Potential Contaminants of Concern: Other Solvent or Non-Petroleum Hydrocarbon, Tetrachloroethylene (PCE), Trichloroethylene (TCE)
Site History: Liquid Sugars, Inc. (LSI) operated a food-grade vegetable oil and liquid sugar facility on the site since the 1970s. Site investigations performed during property transfer revealed groundwater contamination consisting of chlorinated VOCs, including PCE, TCE, 1,2-DCE, 12-DCA, and vinyl chloride. A risk management plan was implemented in October 1999. Areas of groundwater contamination appear limited to small areas of the site, and groundwater is not migrating.

Completed Date: 09/22/2017
Comments: Estimate of costs for DTSC to provide regulatory oversight for the fiscal year (July 1, 2017-June 30, 2018).

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Remedial Action Plan w/ESD
Completed Date: 12/31/2003
Comments: Explanation of Significant Differences approved. The groundwater remedy was changed from extraction and treatment to long-term groundwater monitoring and deed restrictions.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Design/Implementation Workplan
Completed Date: 08/05/2002
Comments: DTSC approved Groundwater Remediation Workplan. Primary activities included in scope of Workplan are soil excavation from two areas of groundwater contamination and pumping of groundwater from open excavation areas.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Remedial Action Completion Report
Completed Date: 12/31/2003
Comments: Information presented in the Explanation of Significant Differences along with TRC's August 2003 Groundwater Pump and Treat Report provided documentation of groundwater cleanup activities.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Design/Implementation Workplan
Completed Date: 06/26/1998
Comments: DTSC approved Phase I Remedial Design and Implementation Plan. The Plan scope included excavation and off-site disposal of soil with contaminants exceeding residential cleanup levels. Groundwater cleanup was addressed in a subsequent ESD.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Design/Implementation Workplan
Completed Date: 10/25/1996
Comments: Approved Phase IA Design for building demolition.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Fieldwork
Completed Date: 07/26/2006
Comments: Monitoring well installed in deed restricted area.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Monitoring Report
Completed Date: 10/04/2007

MYERS DRUM - OAKLAND (Continued) **1000369037**

Comments: Approval letter signed 10/2/2007.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Monitoring Report
Completed Date: 04/02/2008
Comments: Report approved April 2, 2008; electronic copy of report to follow.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Monitoring Report
Completed Date: 09/29/2008
Comments: The Report presents the results of sampling of two groundwater monitoring wells performed in June 2008. Vinyl chloride and cis-1,2-dichloroethylene still exceed the groundwater cleanup goals in one monitoring well and the detected concentrations were 29 and 180 micrograms per liter, respectively.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Monitoring Report
Completed Date: 03/03/2009
Comments: Not reported

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported

MYERS DRUM - OAKLAND (Continued) **1000369037**

Comments: The report included responses to DTSC's comment letter dated June 23, 2011. In response the those comments the report included information related to boring logs, monitoring well construction details, and groundwater elevation data and gradient evaluations; the responses that were provided were adequate. The results of the groundwater monitoring program were consistent with previous results which showed low levels of chlorinated volatile organic compounds (VOCs) in shallow groundwater; the groundwater data also showed that natural biodegradation of those chlorinated VOCs is occurring since breakdown compounds are present.

Comments: Groundwater samples were collected.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Monitoring Report

MYERS DRUM - OAKLAND (Continued) **1000369037**

Completed Date: 01/24/2013
Comments: The schedule for collection of groundwater samples has been reduced to bi-annual (once every other year). Two groundwater monitoring wells were sampled this period however DTSC recently approved decommissioning of one well (MW-10) so only one well will continue to be monitored. The samples were tested for chlorinated solvents and only vinyl chloride exceeded the drinking water Maximum Contaminant Level (MCL) of 0.5 micrograms per liter (ug/L). The next sampling event is scheduled to occur by January 31, 2013.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Fieldwork
Completed Date: 01/30/2013
Comments: A groundwater sample was collected.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Well Decommissioning Report
Completed Date: 03/27/2013
Comments: The workplan describes procedures for abandonment of one monitoring well (MW-10). The procedure includes drilling out the upper 5-feet, removal of the pipe, and grouting according to the local water agency requirements. Since the well is located in a City of Oakland street, an encroachment permit will be obtained.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Monitoring Report
Completed Date: 05/01/2013
Comments: The groundwater monitoring is conducted on a biennial schedule (one sampling event every 2 years). There is only 1 monitoring well that is sampled and tested; a low concentration of vinyl chloride was detected. The vinyl chloride is a biodegradation breakdown product of the former chlorinated solvent plume in groundwater at the Site.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Well Decommissioning Report
Completed Date: 07/23/2013
Comments: One groundwater monitoring well (MW-10) was properly abandoned by overdrilling and grouting. Only one well at the site remains which is still monitored.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Fieldwork
Completed Date: 06/05/2013
Comments: One groundwater monitoring well was properly abandoned.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Monitoring Report
Completed Date: 09/28/2015
Comments: A groundwater sample from the single site well continues to exceed the drinking water standard for vinyl chloride. For that reason, the request for site closure which was included in the groundwater

MYERS DRUM - OAKLAND (Continued) **1000369037**

monitoring report could not be approved.

Completed Document Type: Annual Oversight Cost Estimate
Completed Date: 09/22/2017
Comments: Estimate of costs for DTSC to provide regulatory oversight for the fiscal year (July 1, 2017-June 30, 2018).

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Remedial Action Plan w/ESD
Completed Date: 12/31/2003
Comments: Explanation of Significant Differences approved. The groundwater remedy was changed from extraction and treatment to long-term groundwater monitoring and deed restrictions.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Design/Implementation Workplan
Completed Date: 08/05/2002
Comments: DTSC approved Groundwater Remediation Workplan. Primary activities included in scope of Workplan are soil excavation from two areas of

MYERS DRUM - OAKLAND (Continued) **1000369037**

groundwater contamination and pumping of groundwater from open excavation areas.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Remedial Action Completion Report
Completed Date: 12/31/2003
Comments: Information presented in the Explanation of Significant Differences along with TRC's August 2003 Groundwater Pump and Treat Report provided documentation of groundwater cleanup activities.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Design/Implementation Workplan
Completed Date: 06/26/1998
Comments: DTSC approved Phase I Remedial Design and Implementation Plan. The Plan scope included excavation and off-site disposal of soil with contaminants exceeding residential cleanup levels. Groundwater cleanup was addressed in a subsequent ESD.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Design/Implementation Workplan
Completed Date: 10/25/1996
Comments: Approved Phase IA Design for building demolition.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Fieldwork
Completed Date: 07/26/2006
Comments: Monitoring well installed in deed restricted area.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Monitoring Report
Completed Date: 10/04/2007
Comments: Approval letter signed 10/2/2007.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Monitoring Report
Completed Date: 04/02/2008
Comments: Report approved April 2, 2008; electronic copy of report to follow.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Monitoring Report
Completed Date: 09/29/2008
Comments: The Report presents the results of sampling of two groundwater monitoring wells performed in June 2008. Vinyl chloride and cis-1,2-dichloroethylene still exceed the groundwater cleanup goals in one monitoring well and the detected concentrations were 29 and 180 micrograms per liter, respectively.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Monitoring Report

MYERS DRUM - OAKLAND (Continued) **1000369037**

Completed Date: 03/03/2009
Comments: Not reported

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Monitoring Report
Completed Date: 10/01/2009
Comments: The report recommended continuation of the semi-annual monitoring program.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Monitoring Report
Completed Date: 02/23/2011

Completed Document Type: Monitoring Report
Completed Date: 02/23/2011
Comments: Not reported

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Monitoring Report
Completed Date: 06/23/2011
Comments: The monitoring results are consistent with historical results. DTSC's Geological Services Unit requested that copies of the monitoring wells borehole logs should be submitted and a compilation of all groundwater gradient evaluations should be completed. DTSC requested that information to be submitted in the next monitoring report.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Monitoring Report
Completed Date: 09/22/2011
Comments: The report included responses to DTSC's comment letter dated June 23, 2011. In response the those comments the report included information related to boring logs, monitoring well construction details, and groundwater elevation data and gradient evaluations; the responses that were provided were adequate. The results of the groundwater monitoring program were consistent with previous results which showed low levels of chlorinated volatile organic compounds (VOCs) in shallow groundwater; the groundwater data also showed that natural biodegradation of those chlorinated VOCs is occurring since breakdown compounds are present.

Completed Date: 01/27/2011
Comments: Groundwater samples were collected.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Public Notice
Completed Date: 08/10/2011
Comments: The Public Notice was published in the Oakland Tribune on page A7 on August 10, 2011.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Public Notice
Completed Date: 02/05/2013
Comments: Not reported

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Fieldwork
Completed Date: 03/21/2012
Comments: Groundwater samples were collected.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Fieldwork
Completed Date: 07/31/2012
Comments: Groundwater samples were collected.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Monitoring Report
Completed Date: 01/24/2013
Comments: The schedule for collection of groundwater samples has been reduced to bi-annual (once every other year). Two groundwater monitoring wells were sampled this period however DTSC recently approved decommissioning of one well (MW-10) so only one well will continue to be monitored. The samples were tested for chlorinated solvents and only vinyl chloride exceeded the drinking water Maximum Contaminant Level (MCL) of 0.5 micrograms per liter (ug/L). The next sampling event is scheduled to occur by January 31, 2013.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Fieldwork
Completed Date: 01/30/2013
Comments: A groundwater sample was collected.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Well Decommissioning Report
Completed Date: 03/27/2013
Comments: The workplan describes procedures for abandonment of one monitoring

MYERS DRUM - OAKLAND (Continued) **1000369037**

well (MW-10). The procedure includes drilling out the upper 5-feet, removal of the pipe, and grouting according to the local water agency requirements. Since the well is located in a City of Oakland street, an encroachment permit will be obtained.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Monitoring Report
Completed Date: 05/01/2013
Comments: The groundwater monitoring is conducted on a biennial schedule (one sampling event every 2 years). There is only 1 monitoring well that is sampled and tested; a low concentration of vinyl chloride was detected. The vinyl chloride is a biodegradation breakdown product of the former chlorinated solvent plume in groundwater at the Site.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Well Decommissioning Report
Completed Date: 07/23/2013
Comments: One groundwater monitoring well (MW-10) was properly abandoned by overdrilling and grouting. Only one well at the site remains which is still monitored.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Fieldwork
Completed Date: 06/05/2013
Comments: One groundwater monitoring well was properly abandoned.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Monitoring Report
Completed Date: 09/28/2015
Comments: A groundwater sample from the single site well continues to exceed the drinking water standard for vinyl chloride. For that reason, the request for site closure which was included in the groundwater monitoring report could not be approved.

Environmental Interest/Information System:
California Department of Toxic Substances Control EnviroStor System (DTSC-EnviroStor) is an online search and Geographic Information System (GIS) tool for identifying sites that have known contamination or sites for which there may be reasons to investigate further. The EnviroStor database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites.
NCDB (National Compliance Data Base) supports implementation of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Toxic Substances Control Act (TSCA). The system tracks inspections in regions and states with cooperative agreements, enforcement actions, and settlements.
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Alternate Address:	6549 SAN PABLO AVENUE
Alternate City,St,Zip:	OAKLAND, CA 94608
Background Info:	The site was a drum recycling facility located in a commercial, industrial, and residential area. Due to poor drum recycling practices, there were releases of hazardous substances at the site.
Comments Date:	02231996
Comments:	Amended RIFS. Feasibility Study amended to propose soil and
Comments Date:	02231996
Comments:	groundwater removal to residential use standards.
Comments Date:	03211999
Comments:	Completed Remedial Action. The RA included excavation of
Comments Date:	03211999
Comments:	contaminated soil for residential development. Approximately
Comments Date:	03211999
Comments:	22,500 tons of contaminated soils were excavated and disposed
Comments Date:	03211999
Comments:	off-site. Approximately 20,000 gallons of groundwater were
Comments Date:	03211999
Comments:	encountered during excavation and disposed off-site.
Comments Date:	04121995
Comments:	Completed RIFS. Feasibility Study approved proposing soil and
Comments Date:	04121995
Comments:	groundwater removal to industrial use standards.
Comments Date:	04281989
Comments:	DHS inspected site as part of drum recycling project.
Comments Date:	05222000
Comments:	In-situ groundwater treatment was performed using
Comments Date:	05222000
Comments:	hydrogen-releasing compounds (HRC). In order to measure the
Comments Date:	05222000
Comments:	effectiveness of the HRC treatment, groundwater was sampled
Comments Date:	05222000
Comments:	approximately every 4-6 weeks over a 12 month period.
Comments Date:	05241996
Comments:	Approved CEQA Negative Declaration.

Completed Area Name:	PROJECT WIDE
Completed Sub Area Name:	Not reported
Completed Document Type:	Site Screening
Completed Date:	03/18/1991
Comments:	SITE SCREENING DONE SITE WAS VETERINARY PHARMACEUTICAL RE- SEARCH AND DEVELOPMENT FACILITY FROM MID 1940'S TO 1950'S. A SCREWWORM REPELENT WAS DEVELOPED & TESTED; IT WAS THEN BLENDED WITH A SOLVENT AND COAL TAR BASE FOR APPLICATION TO ANIMAL WOUNDS. SUR- FACE SOIL SAMPLES HAD CARBON TETRA- CHLORIDE (18 MG/KG), CHLOROFORM 994 MG/ KG) AND OTHER PURGEABLE ORGANICS. ONE AREA HAD TOTAL PETROLEUM HYDROCARBON 2,000 PPM @ 30 INCHES BELOW GROUND SUR- FACE, AND POLYNUCLEAR AROMATICS 410 MG/ KG @ 12 INCHES BELOW THE GROUND SURFACE. A GRAB WATER SAMPLE WAS ANALYZED AND DID NOT HAVE TPH. PEA MEDIUM. THE RP IS WORKING W/CITY HEALTH SERVICES DEPT. IN REMEDIATION

City: BERKELEY
State: CA
County: ALAMEDA
Object ID: 579
USACE Division: SPD
USACE District: Sacramento District (SPK)
Status: Properties with all projects at site closeout
Current Owner: PRIV: PRIVATE The current owners are Timothy and Susan Southwick who purchased the site in May 1987 for use as a car dealership.
EMS Map Link: https://fudsportal.usace.army.mil/ems/ems/inventory/map/map?id=57694
Eligibility: Eligible
Has Projects: Yes
NPL Status: Not on the NPL
Property History: On 9 February 1942, the U.S. acquired 2.46 fee acres by Declaration of Taking. Another 0.48 acre was acquired but records do not indicate when how, or where. Total acreage was 2.94. The Navy used the site as a steel forger facility and installed two USTs during occupation. On 18 June 1963, 2.94 fee acres were quitclaimed to Lerner Invest Co, subject to right-of-way and easement restrictions. There are no recapture rights. Mr. Phelps Dodge of Airco, Inc. acquired the site in 1965. Barker Machinery purchased the property in January 1978 for wholesaling large machinery. The current owners are Timothy and Susan Southwick, who purchased the site in May 1987. The underground storage tanks left by the DoD have not been beneficially used. Known releases of hazardous waste occurred at the site and impacted soil quality but have since been remediated. Currently, there are no further potential hazards identified at this location.

NPL Status: Not Listed
Description: The 2.94-acre site is located at 735 Ashby Avenue in the City of Berkeley, Alameda County, CA. In 1965, Mr. Phelps Dodge of Airco, Inc. installed a high temperature furnace and several transformers on the property. In the 1960s, three underground storage tanks (USTs) were removed and three aboveground storage tanks (ASTs) were removed between 1977 and 1988. In removing the ASTs, the property owner discovered contaminated soil, which he believes was contaminated from adjacent inactive pipelines as the ASTs were not leaking. The property owner stockpiled the contaminated soil for Department of Defense (DoD) removal. There have been allegations of illegal dumping of Polychlorinatedbiphenyls (PCBs) from transformers at the site by Barker Machinery. Two 2,000-gallon USTs were installed in 1985, one for motor oil and one for waste oil. The current owners are Timothy and Susan Southwick, who purchased the site in May 1987 for use as a car dealership.
History: On 9 February 1942, the U.S. acquired 2.46 fee acres by Declaration of Taking. Another 0.48 acre was acquired but records do not indicate when how, or where. Total acreage was 2.94. Site History:	This Site consists of 2.94 acres. The Department of Defense (DoD) owned the Site from 1942 to 1963. The property was utilized for heavy forging operations (I.e., American Forge Company 1942-1945). Ships and Power Equipment Corporation used the property for general storage from 1950 and 1958. American Tractor and Equipment Corp. occupied the site between 1958 and 1963 for forging productions. Ownership transferred from DoD to Leaner Investment Company in September 1963. The Site is currently occupied by Weatherford BMW as an automobile dealership. DTSC was lead agency for site cleanup case 80000154 (Envirostor database) and cleanup status is no further action as of November 27, 2013.

Citation:	HSC 6.67 25270.4.5(a) - California Health and Safety Code, Chapter 6.67, Section(s) 25270.4.5(a)
Violation Description:	Failure to test liquid level sensing devices to ensure proper operation.
Violation Notes:	Returned to compliance on 09/06/2016. the SPCC Plan indicates the overfill prevention devices are tested monthly to ensure proper operation. Staff were unable to provide confirmation that these were tested. Corrective action: Test the overfill prevetnion system in accordance with the SPCC Plan, to confirm it alarms at 95% of capacity and provide results to TMD. Include the testing on the monthly inspections as noted in the SPCC or update the SPCC Plan. 6/3/16 - TMD received extension request and approved an extension for correction from the 6/11/16 deadline to 7/11/16. 6/27/16 - Jair indicates the tank assessment was completed, and are waiting on all documentation. Requested extension and approved to 7/31/16.

Violation Description: Failure to comply with all of the following requirements: 1. Failure to conduct inspections and tests in accordance with written procedures that you or a certifying engineer have developed for the facility. 2. Failure to sign written procedures and/or a record of inspections and/or customary business records by the appropriate supervisor or inspector. 3. Failure to keep written procedures and/or a record of inspections and/or customary business records with the plan. AND 4. Failure to maintain written procedures and/or a record of inspections and/or customary business records for three years.
Violation Notes: Returned to compliance on 09/28/2016. The SPCC indicates the petroleum tank(s) are inspected by a qualified independent tank inspection and testing service. The Plan states initially within one year of the adoption of the SPCC Plan and at least once every five years. The tank(s) were installed in 2012 and the Plan was approved 3/18/2013. The facility could not confirm that an inspection had been completed. Corrective action: Conduct tests and inspections in accordance with the SPCC Plan. Provide a copy of the inspection to TMD for the oil tanks. 6/3/16 - TMD received extension request and approved an extension for correction from the 6/11/16 deadline to 7/11/16. 6/27/16 - Jair indicates the tank assessment was completed, and are waiting on all documentation. with good engineering practices. 3. Failure to have the full approval of management at a level of authority to commit the necessary resources to fully implement the SPCC plan. 4. Failure to prepare the Plan in writing. AND 5. Failure to prepare a SPCC plan that addresses additional procedures/methods/equipment not yet fully operational.

Violation Notes: Returned to compliance on 09/06/2016. The SPCC includes an Appendix 1, the Facility SPCC Cross Reference with 40 CFR 112, as the Plan does not follow the sequence specified in 112.7. The cross reference is not accurate in that for 112.7(a)(3)(ii) & (iii), additional procedures for routine handling (loading/offloading) are included in B.5; for 112.7(j) it indicates it is found in section A.8, but that is the Spill/Release Response Plan, and not discussion of conformance. In addition, a number of the sections do not appear applicable, but are listed as part of the SPCC. Corrective action: Following correction of the procedures and information in the SPCC, update the cross reference showing the location of requirements listed in Part 112 and the equivalent requirements in this SPCC Plan. 6/3/16 - TMD received extension request and approved an extension for correction from the 6/11/16 deadline to 7/11/16. 6/27/16 - Jair indicates the tank assessment was completed, and are waiting on all documentation. Violation Description: Failure to test or inspect aboveground tanks for integrity by a person qualified in accordance with industry standards.

Violation Notes: Returned to compliance on 09/28/2016. The SPCC indicates the petroleum tank(s) are inspected by a qualified independent tank inspection and testing service. The Plan states initially within one year of the adoption of the SPCC Plan and at least once every five years. The tank(s) were installed in 2012 and the Plan was approved 3/18/2013. The facility could not confirm that an inspection had been completed. Corrective action: Conduct tests and inspections in accordance with the SPCC Plan. Provide a copy of the inspection to TMD for the oil tanks. 6/3/16 - TMD received extension request and approved an extension for correction from the 6/11/16 deadline to 7/11/16. 6/27/16 - Jair indicates the tank assessment was completed, and are waiting on all documentation. Requested extension and approved to 7/31/16. 6/28/16 - Contractor completed tank assessment on used oil and used antifreeze tanks only. 8/23/16 - TMD issued NOV to facility 9/8/16 - Requested information on the standard used for tanks to ensure their [Truncated]

Eval Notes: The aboveground storage tank and hazardous wastes, including used oil and used antifreeze are stored in an enclosed and bermed area of the service department building. The used oil and used antifreeze are transferred from a pumping station on the other side of the wall to the tanks. All tanks have an overfill alarm which alarms at the transfer/pump station. The Parts Manager, Don Valdez, indicates he receives notification which provides the level of the tanks. Based on the storage at the facility, facility qualifies for Tier 1 requirements, as the facility has had no single discharge as described in section 112.1(b) exceeding 1,000 gallons or no two discharges as described in section 112.1(b) each exceeding 42 gallons within any 12 month period, and has aggregate aboveground oil storage capacity of

Enforcement Action:
Site ID: 170650
Site Name: WEATHERFORD BMW
Site Address: 735 ASHBY AVE
Site City: BERKELEY
Site Zip: 94710
Enf Action Date: 08-23-2016
Enf Action Type: Notice of Violation (Unified Program)
Enf Action Description: Notice of Violation Issued by the Inspector at the Time of Inspection
Enf Action Notes: 6/3/16 - TMD received extension request and approved an extension for correction from the 6/11/16 deadline to 7/11/16. 6/27/16 and 7/5/16 - Jair indicates the tank assessment was completed, and are waiting on all documentation. Requested extension and approved to 7/31/16. 7/25/16 - email from consultant, Gage Stahlberg, KPA, requesting pre-review of SPCC and notification that Jair was no longer with dealership. 8/3/16 - gave notice to KPA that corrections have not been received and NOV to be sent 8/16/16 - called Gage as we had not received anything. He stated he had emailed on 8/8/16 and 8/12/16, but the files were too large. Received documents. Not all violations corrected. Requested onsite review. 8/23/16 - no response from KPA, NOV sent 8/30/16 - met onsite with Gage, KPA, and Eric Gordon, Weatherford, to discuss issues with the SPCC. Indicated they would contact company to complete review of new oil tank. .

Citation: HSC 6.67 25270.4.5(a) - California Health and Safety Code, Chapter 6.67, Section(s) 25270.4.5(a)
Violation Description: Failure to comply with all of the following requirements: 1. Failure to conduct inspections and tests in accordance with written procedures that you or a certifying engineer have developed for the facility. 2. Failure to sign written procedures and/or a record of inspections and/or customary business records by the appropriate supervisor or inspector. 3. Failure to keep written procedures and/or a record of inspections and/or customary business records with the plan. AND 4. Failure to maintain written procedures and/or a record of inspections and/or customary business records for three years.
Violation Notes: Returned to compliance on 09/28/2016. The SPCC indicates the petroleum tank(s) are inspected by a qualified independent tank inspection and testing service. The Plan states initially within one year of the adoption of the SPCC Plan and at least once every five years. The tank(s) were installed in 2012 and the Plan was approved 3/18/2013. The facility could not confirm that an inspection had been completed. Corrective action: Conduct tests and inspections in accordance with the SPCC Plan. Provide a copy of the inspection to TMD for the oil tanks. 6/3/16 - TMD received extension request and approved an extension for correction from the 6/11/16 deadline to 7/11/16. 6/27/16 - Jair indicates the tank assessment was completed, and are waiting on all documentation. Requested extension and approved to 7/31/16. 6/28/16 - Contractor completed tank assessment on used oil and used antifreeze tanks only. 8/23/16 - TMD issued NOV to facility 9/8/16 - Requested information on the standard used for tanks to ensure their [Truncated]

Citation: HSC 6.67 25270.4.5(a) - California Health and Safety Code, Chapter 6.67, Section(s) 25270.4.5(a)
Violation Description: Failure to adequately describe the physical layout of the facility, or no description of the physical layout of the facility included within the SPCC plan.
Violation Notes: Returned to compliance on 08/23/2016. The facility diagram provided in Attachment A does not include the location of transfer station and connecting pipes, including intra-facility gathering lines that are otherwise exempted. Corrective action: Include an adequate facility diagram in the SPCC. 6/3/16 - TMD received extension request and approved an extension for correction from the 6/11/16 deadline to 7/11/16. 6/27/16 - Jair indicates the tank assessment was completed, and are waiting on all documentation. Requested extension and approved to 7/31/16.

Violation Date: 04-28-2016
Citation: 22 CCR 15 66265.192(h) - California Code of Regulations, Title 22, Chapter 15, Section(s) 66265.192(h)
Violation Description: Failure to obtain and maintain a written assessment reviewed and certified by an independent, qualified, professional engineer stating the new hazardous waste tank system has sufficient structural integrity, is acceptable for the transferring, storing and treating of hazardous waste, and that the tanks and containment system including the foundation, structural support, seams, connections, and pressure controls (if applicable) are suitably designed and that the tank system has sufficient structural strength, compatibility with the waste(s) to be transferred, stored or treated, and corrosion protection so that it will not collapse, rupture, or fail. This assessment shall be obtained prior to placing the tank system in service, and shall be kept on file at the facility. The tank assessment shall be good for five years. This assessment shall also include, at a minimum, the following information: (1) Design standard(s) according to which the tank(s) and ancillary equipment are or will be constructed; (2) Hazardous characteristics of the waste(s) to be handled; (3) For new tank systems or components in which the external shell of a metal tank or any external metal component of the tank system is or will be in contact with the soil or with water, a determination by a corrosion expert of: (A) Factors affecting the potential for corrosion, including but not limited to: 1. Soil moisture content; 2. Soil pH; 3. Soil sulfides level; 4. Soil resistivity; 5. Structure to soil potential; 6. Influence of nearby underground metal structures (e.g., piping); 7. Stray electric current; and 8. Existing corrosion-protection measures (e.g., coating, cathodic protection), and (B) The type and degree of external corrosion protection that are needed to ensure the integrity of the

tank system during the use of the tank system or component, consisting of one or more of the following: 1. Corrosion-resistant materials of construction such as special alloys or fiberglass-reinforced plastic; 2. Corrosion-resistant coating (such as epoxy or fi

Violation Notes: Returned to compliance on 06/28/2016. In addition, the tanks holding hazardous waste, the used oil and used antifreeze, must have a current written hazardous waste tank system assessment provided by a Professional Engineer. The assessment must address tank construction, design, seismic anchoring, thickness of shell, estimated remaining life, compatibility with contents and condition and construction of containment area. Ancillary equipment, such as piping, should be included. Following initial assessment, it must be conducted every 5 years. Alternatively, the facility may request an exemption, not to exceed three years, from the engineering assessment for the used oil and used antifreeze tanks only. Corrective action: Make arrangements to have the tank systems for used oil and used antifreeze assessed by an appropriate PE who is knowledgeable of hazardous waste tank system requirements, and submit a copy of the final report to TMD, or request an exemption. 6/3/16 - TMD received extension request and approved [Truncated]

Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Description: Failure to establish and electronically submit an adequate emergency response plan and procedures for a release or threatened release of a hazardous material.
Violation Notes: Returned to compliance on 08/02/2016. The emergency response plan section of the HMBP submittal on 2/22/2016 includes an Emergency Response Action Plan, and a completed CERS Consolidated Emergency Response/Contingency Plan. The Emergency Response Action Plan is inaccurate in that it lists Peter Burkhardt as the Emergency Response Coordinator; it references "Part 3" of the Action Plan under Evacuation, but the Evacuation Procedures do not reference a part 3 and actually appears to possibly be the 4th section of the Plan; the Fire or Explosion Response Plan references an Exhibit (a), which is listed as the Fire Prevention Plan, but appears to be page 7 of the Emergency Response Action Plan; the Evacuation Procedures list the secondary evacuation assembly point as in front of the Body Shop on W. Grant St, but there is no W. Grant Street in the vicinity. The CERS Consolidated Emergency Response/Contingency Plan llists the State Water Resources Control Board number rather than the Regional Water

Evaluation:
Eval General Type: Compliance Evaluation Inspection
Eval Date: 04-28-2016
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: Onsite to confirm compliance and accuracy of Hazardous Materials Business Plan, hazardous waste management and the SPCC Plan. Service areas are clean. Minimal storage of hazardous materials in this area, includes portable used oil containers, which are properly labeled, Armakleen 4 in 1 aqueous parts washer, which is not listed on the inventory, and oxygen, acetylene, argon/CO2. Most service inventory is stored in Parts Department, oils, antifreeze, batteries. Car wash area drains to sanitary per staff. Storage in this area includes 55 gallons quick rinse wheel cleaner and other cleaners. Detail Department maintains 55 gallons drums of cleaners and soaps. These materials are not listed separately on the inventory, rather a combined cleaners/soaps disclosure, even though they meet the state threshold of 55 gallons per material. Please note, the SPCC Plan also has a Spill/Response Plan, which is similar but not exact same contents as the one in the Emergency [Truncated]

Eval Date: 04-28-2016
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: The aboveground storage tank and hazardous wastes, including used oil and used antifreeze are stored in an enclosed and bermed area of the service department building. The used oil and used antifreeze are transferred from a pumping station on the other side of the wall to the tanks. All tanks have an overfill alarm which alarms at the transfer/pump station. The Parts Manager, Don Valdez, indicates he receives notification which provides the level of the tanks. Based on the storage at the facility, facility qualifies for Tier 1 requirements, as the facility has had no single discharge as described in section 112.1(b) exceeding 1,000 gallons or no two discharges as described in section 112.1(b) each exceeding 42 gallons within any 12 month period, and has aggregate aboveground oil storage capacity of 5,000 gallons or less. The facility has prepared an SPCC Plan that is certified by a PE.

Potential Media Affect: Other Groundwater (uses other than drinking water)
Potential Contaminants of Concern: Alcohols, Acetone, Trichloroethylene (TCE), Diesel, Gasoline, Kerosene
Site History: The Site has operated as a bus maintenance facility for the Berkeley Unified School District (BUSD) from 1971 to 1994, when the property was sold to Miles in 1992. Prior to 1971 it was used by a storage tank and rail car manufacturer. The current Site is a portion of the Miles facility with two (2) buildings, one a vehicle maintenance structure, and the other an office. Four (4) underground fuel storage tanks (UFSTs) and one (1) underground storage tank (UST) and one (1) oil-water separator were removed from the Site in 1993. Approx. 1,850 cubic yards of soil were also removed, along with 2,700 gallons of groundwater in order to help in the excavation process.

RB Case Number:	01-0250
Local Agency:	BERKELEY, CITY OF
File Location:	Not reported
Local Case Number:	TT01-0250
Potential Media Affect:	Under Investigation
Potential Contaminants of Concern:	Gasoline
Site History:	The site is located in a mixed residential and commercial area of the City of Berkeley. The site was historically occupied by a gasoline service station, and is currently occupied by a biodiesel operation (a former site business involved an auto detailing venture). Four underground storage tanks (USTs) were removed from the site in October 1993. Three of the tanks contained gasoline and the fourth, a smaller UST, contained waste oil. Soil samples collected from beneath the USTs and dispensers contained maximum concentrations of total petroleum hydrocarbons (TPH) as gasoline at 450 mg/kg and benzene at 570 mg/kg. Based on the results of this soil sampling, the Alameda County Health Care Services Agency (ACHCSA) requested that the property owner conduct a groundwater investigation. Following the January 2002 soil and groundwater investigation, AEI began quarterly groundwater monitoring and sampling activities on wells MW-1 through MW-3. On March 4, 2003, three soil borings were advanced and converted to groundwater monitoring wells (MW-4 through MW-6).

Case Worker:	TF
RB Case Number:	01-2283
Local Agency:	ALAMEDA COUNTY LOP
File Location:	All Files are on GeoTracker or in the Local Agency Database
Local Case Number:	RO0000063
Potential Media Affect:	Other Groundwater (uses other than drinking water), Soil
Potential Contaminants of Concern:	Benzene, Diesel, MTBE / TBA / Other Fuel Oxygenates, Gasoline
Site History:	Not all historic documents for the fuel leak case may be available on GeoTracker. A complete case file for this site is located on the Alameda County Environmental Health website at: http://ehgis.acgov.org/dehpublic/dehpublic.jsp. Two 2,000-gallon USTs (one diesel, one unleaded gasoline) were removed in July 1996; limited overexcavation was conducted about a week later. Seven Geoprobe soil bores were proposed to be installed in April 1998; however, three Geoprobe bores were actually installed in May 1998 due to deeper than expected groundwater and a gravel layer causing rig refusal. A pre-existing monitoring well (for the former Clear Print site, a now closed, non-fuel related site) has produced elevated concentrations of TPHg, benzene, and MTBE, suggestive of free-phase (the well was not destroyed and given for use by the McGrath site; all other Clear Print wells have been destroyed). In September 2005 an additional work plan was approved. In December 2005, seven Geoprobe bores were installed and soil and grab groundwater samples were collected. Between September 2011 and December 2013, up to 3 feet of Free Phase (FP) was present in well MW-3. As of February 2014 FP in well MW-3 has been diminished; however, wells have not been sample since March 2014, and FP appears to return to the well with deeper groundwater levels than present in March 2014. In January 2013 soil bores B-15 to B-25 were installed, and subsequently wells AMW-1 to AMW-3 were installed in August 2013. The more recent work appears to have defined the northern lateral downgradient extent of the groundwater plume between Clear Print and the McGrath site; however, the apparent primary downgradient extent to the southwest and beneath adjacent property buildings, as based on the established groundwater flow direction, has not been defined. November 2014 and June 2015 indoor air sampling events have occurred at the two adjacent probable downgradient properties that appear to indicate slightly elevated indoor air BTEX vapor concentrations are present above RWQCB ESLs and above outdoor air background samples. This data indicates a potential vapor intrusion risk at and downgradient of the site. The generation of explosive levels of methane from the decomposition of petroleum is additionally of concern beneath the subject site building and adjacent downgradient buildings. Based on the depth to groundwater, there does not appear to be a bioattenuation zone beneath the sites. Interim Remedial Actions have been proposed and approved based on the potential for vapor intrusion at and downgradient of the site. An expansion of the interim system has been discussed and is likely to be proposed to address contamination at the downgradient edge of the

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Phase 1
Completed Date: 03/15/2018
Comments: The Phase I Environmental Assessment Checklist received. The checklist indicates that there has been disposal of hazardous chemicals or hazardous wastes in, on or under the property and that testing of groundwater revealed possible contamination. The Checklist certifies that further investigation is not necessary to determine the existence, nature and/or extent of contamination at the facility.

Background Info:	The site is located between Channing Way to the north and Bancroft Way to the south on San Pablo Avenue. Julius Chase purchased the property in 1939 from Joe Long and operated an auto wrecking yard on site to approximately 1980. The property originally extended from San Pablo to 10th Street and consisted of a storage lot and a brick building used to support auto wrecking activities. The western half of the lot was sold and residential homes were built on 10th Street. In 1967 or 1968, most of the site was paved except, two small areas located west along the fence separating residential homes and this site. Soil contamination is located in an unpaved section of approximately ten (10) feet by forty (40) feet, along the property's western boundary adjacent to residential homes' backyards. An A&W Rootbeer restaurant was built on the eastern portion of the lot and operated until 1980. In 1980, the restaurant closed, and the eastern parcel was divided into two lots, Ali Baba restaurant and Greg's Auto Repair (in the brick building) which occupied the northern and southern portion respectively. The auto repair shop operated under Greg's Auto Repair (Mr. Greg Below, owner of the business) from 1980 to March 1983. In 1983, the shop was rented to Mr. Peter Mitchell. The shop operated from 1983 to 1988 under various names such as Mitchell's Auto Repair, Peter's Automotive Service, Peter Mitchell Imports and Berkeley Auto Repair. Droubi Nahla bought the property in April 1999. The site is fenced off. Currently, there are no business activities at the site.

Project Revenue Source Desc: Not reported
Site Description: This site includes an auto repair shop and a restaurant. The auto repair shop is a small building at the back of a narrow, fenced, asphalt-paved yard and the restaurant is located to the north. There have been auto repair shops on the site for the last 8-9 years. Prior to that, an auto wrecking yard operated at the site.
Hazardous Waste Desc: Moderate levels of methylene chloride in waste oils present in the soil at this site have been detected. Low to moderate levels of lead have also been detected. A citizen's complaint of oily waste runoff brought this site to the Department's attention in 1985.
Threat To Public Health & Env: Not reported
Site Activity Status: As a Tier 3 site, this site will be listed annually in this report. When this site has been abated to the satisfaction of the City of Berkeley, the responsible parties will be encouraged to submit a report of abatement action. If it appears that theaction was satisfactory, this site will be assigned a "no further action" status and deleted from the active site database.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Remedial Investigation Report
Completed Date: 09/12/2006
Comments: Supplement to Phase II Investigation: 32 soil samples, 10 Groundwater grab samples tested. Highest TCE detection in groundwater: 5200 ug/L at 36 ft bgs (middle of parcel, closer to 1171 Ocean Avenue.) No soil source for TCE Identified.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Remedial Investigation Report
Completed Date: 11/22/2006
Comments: Supplement to Phase III Investigation: 4 grab groundwater samples taken. Highest detection was an on-site sample from the southeast corner near the warehouse roll-up door: 6,000 micrograms per liter TCE at 36 feet below ground surface.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Remedial Investigation Report
Completed Date: 09/26/2007
Comments: Report with results of sampling to supplement Phase III and IV Investigations- greatest detections of TCE found in southeast corner of site near warehouse roll-up door: greatest groundwater detection of 10,000 micrograms per liter TCE at 36 feet below ground surface, and soil-gas detection of 860 micrograms per cubic meter (only soil gas detection onsite.) Five off-site soil and groundwater samples taken- no detections of same magnitude as onsite detections, indicating onsite TCE is not from an upgradient, off-site source.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Removal Action Completion Report
Completed Date: 10/26/2011
Comments: Approval of the Removal Action Completion and Third Quarter 2010 Groundwater Monitoring Report for the site located at 1171 Ocean Avenue in Oakland, California. The report documents the implementation of the Removal Action Workplan, which was approved by the Department of Toxic Substance Control in June 2010. The remedy entailed the injection of the in-situ Regenesis compounds RegenOx and HRC . These compounds were advanced into separate areas of the trichloroethylene-dominated plume underlying the site. Following a year of quarterly post injection monitoring a workplan will be developed to propose the additional injections along with additional wells and monitoring analytes indicated by the data reviewed.

Completed Document Type: Other Report
Completed Date: 01/08/2009
Comments: Indoor air sampling performed without formal approval from DTSC. Per letter dated 10/06/2009, data from sampling incorporated into draft RAW. Results indicate concentrations of VOCs were not detected if HVAC system was operated on a normal schedule. A follow up indoor air survey was performed subsequently to show results from worst case scenario under HVAC operation (run HVAC Friday, turn off end of Friday and leave off for duration of weekend, and samples taken on Monday.)

Completed Date:	01/26/2010
Comments:	Based on groundwater, soil, soil gas, and indoor air sampling data collected at the Site, DTSC will not require restrictions on the use of the Site as part of the cleanup. Since in-situ groundwater cleanup is the proposed remedy in the Draft Removal Action Workplan (Draft RAW), access must be provided for implementation (injections) and monitoring of the wells. If conditions at the site change, (i.e. groundwater concentrations rise significantly) DTSC would need to re-evaluate the potential for indoor air effects.

Comments: Work Notice mailed to community July 16, 2008.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Remedial Investigation Report
Completed Date: 09/12/2006
Comments: Supplement to Phase II Investigation: 32 soil samples, 10 Groundwater grab samples tested. Highest TCE detection in groundwater: 5200 ug/L at 36 ft bgs (middle of parcel, closer to 1171 Ocean Avenue.) No soil source for TCE Identified.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Remedial Investigation Report
Completed Date: 11/22/2006
Comments: Supplement to Phase III Investigation: 4 grab groundwater samples taken. Highest detection was an on-site sample from the southeast corner near the warehouse roll-up door: 6,000 micrograms per liter TCE at 36 feet below ground surface.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Remedial Investigation Report
Completed Date: 09/26/2007
Comments: Report with results of sampling to supplement Phase III and IV Investigations- greatest detections of TCE found in southeast corner of site near warehouse roll-up door: greatest groundwater detection of 10,000 micrograms per liter TCE at 36 feet below ground surface, and soil-gas detection of 860 micrograms per cubic meter (only soil gas detection onsite.) Five off-site soil and groundwater samples taken- no detections of same magnitude as onsite detections, indicating onsite TCE is not from an upgradient, off-site source.

Completed Document Type: Removal Action Completion Report
Completed Date: 10/26/2011
Comments: Approval of the Removal Action Completion and Third Quarter 2010 Groundwater Monitoring Report for the site located at 1171 Ocean Avenue in Oakland, California. The report documents the implementation of the Removal Action Workplan, which was approved by the Department of Toxic Substance Control in June 2010. The remedy entailed the injection of the in-situ Regenesis compounds RegenOx and HRC . These compounds were advanced into separate areas of the trichloroethylene-dominated plume underlying the site. Following a year of quarterly post injection monitoring a workplan will be developed to propose the additional injections along with additional wells and monitoring analytes indicated by the data reviewed.

Completed Date: 10/10/1997
Comments: Pursuant to the MOU, DTSC has reviewed a risk assessment and other documents for the Lifelong Medical Care (LMC) facility. The propery, owned by LMC, is a vacant lot which was formerly the site of a Chevron service station. The underground tanks have been removed per City of Berkeley oversight. A risk assessment has been completed and approved by the City of Berkeley and Alameda County. An Indemnification Agreement has been signed by Chevron. A Supplemental Phase I Environmental Assessment was prepared by DTSC and concluded that no action was needed for this property, there is no contamination on the property.

Completed Date: 10/07/2020
Comments: Emailed annual cost estimate letter on 10/7/2020. -EC

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: 5 Year Review Reports
Completed Date: 01/02/2008
Comments: The report recommends continued cap inspections and closure of the two existing monitoring wells. Contaminants in groundwater, mainly petroleum hydrocarbons, continue to remain well below the cleanup levels.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: 5 Year Review Reports
Completed Date: 05/23/2002
Comments: Completed Five-Year Review. The site cap will now be inspected on a semi-annual basis and the groundwater will be monitored annually.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Operation and Maintenance Plan
Completed Date: 04/09/1997
Comments: O&M activiews for the postclosure period at the Site includes groundwater monitoring, laboratory analysis, cap inspection alnd maintenance, and reporting. Both GW monitoring and cap inspection will be performed quarterly during the first year, semiannuallly thereafter.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Remedial Action Completion Report
Completed Date: 02/11/2000
Comments: Approved "Observation and Soil Sampling Report" for Site development for the IKEA.

BARBARY COAST STEEL (Continued) **S102008194**

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Design/Implementation Workplan
Completed Date: 11/26/1996
Comments: Approved Phase II design for placing the pavement at the site except a triangular area which Caltrans is using as a right of way for construction of Highway 80. This area will be paved after completion of Caltrans project.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Remedial Action Completion Report
Completed Date: 04/21/1997
Comments: Completed Remedial Action for Phase II. Placed an asphalt cap on 7.0 acres of unpaved areas and installed three groundwater monitoring wells.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Design/Implementation Workplan
Completed Date: 06/27/1996
Comments: Approved Phase I design for excavation and removal of 3,200 cubic yards of contaminated soil, backfilling and capping and destruction of several wells.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Remedial Action Plan
Completed Date: 06/10/1996
Comments: Approved RAP requiring excavation of contaminated soils to industrial cleanup standards and backfilling with clean soils.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Remedial Investigation / Feasibility Study
Completed Date: 01/29/1996
Comments: Recommended alternative is excavation of PCB and lead-impacted soil as well as soil containing TPH concentrations exceeding 26,000 mg/kg or exceeding 1,000 mg/kg diesel in two specific areas (totaling approximately 2,335 cy).

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Monitoring Report
Completed Date: 10/20/2004
Comments: Cracks up to 0.5" with up to 2.0" of soil heaving observed to the south of the IKEA store. The bulges have already been marked for repair.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Monitoring Report
Completed Date: 05/25/2005
Comments: Repair work are recommended at few locations shown in the attached map.

Completed Document Type: Land Use Restriction - Site Inspection/Visit
Completed Date: 05/30/2008
Comments: Inspection noted no problems. RP repaired cracks noted in their report on April 11, 2008

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Prospective Purchaser Agreement
Completed Date: 10/07/1997
Comments: Signed PPA with IKEA requiring a Soil Management Plan to be approved by DTSC prior to any alteration of the site cap.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Land Use Restriction - Site Inspection/Visit
Completed Date: 04/14/2009
Comments: Cracks were observed along the roadway near the southeast corner of the parking lot structure. However, overall, the roadway, sidewalks and parking lots appeared to be in good condition, with no other significant cracks or signs of damage or disturbance. The Site continues to function as the location of the IKEA retail furniture store, and this use remains consistent with the conditions of the Covenant to Restrict Use of Property. The cracks observed along the roadway near the southeast corner of the parking structure should be repaired.

Completed Document Type: Land Use Restriction - Site Inspection/Visit
Completed Date: 04/03/2014
Comments: DTSC conducted an inspection on March 13, 2014 to verify compliance with the Land Use Covenant and to check the condition of an embankment and pavement in a section of Shellmound Street that serve as a cap over contaminated soil. No evidence of any activity prohibited by the Land Use Covenant was observed. Some cracks and deterioration in the pavement were observed; however, DTSC concluded that current site conditions remain protective of human health and the environment. No evidence of soil disturbance was observed.

Comments: DTSC conducted an inspection on March 13, 2014 to verify compliance with the Land Use Covenant and to check the condition of an embankment and pavement in a section of Shellmound Street that serve

BARBARY COAST STEEL (Continued) **S102008194**

as a cap over contaminated soil. No evidence of any activity prohibited by the Land Use Covenant was observed. Some cracks and deterioration in the pavement were observed; however, DTSC concluded that current site conditions remain protective of human health and the environment. No evidence of soil disturbance was observed.

Completed Document Type: Standard Voluntary Agreement
Completed Date: 04/12/1994
Comments: VCA fully executed to oversee the investigation and any cleanup required.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Voluntary Cleanup Consultation
Completed Date: 10/01/1996
Comments: Not reported

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Land Use Restriction - Site Inspection/Visit
Completed Date: 11/16/2009
Comments: The site includes an embankment and part of Shellmound Street roadway near the IKEA parking area and part of Shellmound Street roadway near the Marriott Courtyard Hotel. The embankment and roadway appeared to be in good condition. There was no evidence of any activity prohibited by the deed restriction.

Completed Document Type: Removal Action Completion Report
Completed Date: 01/18/2011
Comments: The remedial plan consisted of excavation and off-site disposal of soil containing constituents of concern exceeding the remedial goals. Several pre-remediation activities were conducted prior to soil excavation, including demolition of site buildings and other infrastructure, additional soil sampling to further refine the areas and depths of soil to be excavated, permitting, and locating utilities. A total of approximately 1,800 cubic yards of soil classified as Class I non-RCRA hazardous waste were transported to and disposed at WMI s Kettleman Hills Facility located in Kettleman City, California. Approximately 3,400 cubic yards of soil designated as Class II waste was transported to and disposed at the West Contra Costa Sanitary Landfill in Richmond, California. A total of 225 confirmation samples were collected to verify that cleanup goals were met. Confirmation soil sample results and locations are presented in Tables 8 and 14 and on Figures 4 through 7 of the Completion Report, respectively. Concentrations of constituents of concern were below cleanup goals in all of the final confirmation samples collected on the Site.

Alternate Address:	2220 4TH STREET
Alternate City,St,Zip:	BERKELEY, CA 94710
Background Info:	A succession of pesticide companies including, Able Termite Control Company, Able Termite Control, Inc., Terminix Norcal, and its successor Terminix International occupied this property. These companies mixed pesticides with thinners. Peerless Electric Company bought the property from Terminix in 1981. Soil investigation conducted in 1983 identified aldrin, heptachlor, and chlordane at hazardous levels and the underlying groundwater detected chlordane and heptachlor. In 1984, the contaminated soil was removed and the surface was sealed.

Completed Document Type: Certification
Completed Date: 01/01/1983
Comments: Decertified Site. Completed PEA. In 1994, the SF Regional Water Quality Control Board (RWQCB) and the City of Berkeley required additional soil and groundwater investigations. Soil and groundwater sampling report submitted to the City of Berkeley indicated that the soil was impacted by total petroleum extractable hydrocarbon (1 to 6,100 mg/kg), pentachlorophenol (PCB) (1,300 to 130,000 ug/kg), dieldrin (6 to 2,800 ug/kg), and chlordane (36 ug/kg). Levels of chlordane, dieldrin, and PCP in the soil exceed residential screening values. Groundwater samples collected detected PCP (130 to 52,000 ug/l), total petroleum extractable hydrocarbons (440 to 1,700,000 ug/l), chlordane (56 to 620 ug/l), dieldrin (2.5 ug/l), and heptachlor epoxide.

Eligibility: Eligible
Has Projects: Yes
NPL Status: Not on the NPL
Property History: Beginning on 15 March 1942, the United States Government acquired interest in or use of 31 properties that included a total of 42.415 acres, which comprised the Emeryville Ordnance Depot. Of the 42.415 acres, 40.335 acres were leasehold, 0.10 acres were licensed, and 1.98 aces were permitted. The site was established in response to wartime needs for reliable and speedy delivery of vehicles to overseas bases of operations during World War II. The function of the Emeryville Ordnance Depot was to receive, inspect, service, and prepare for shipment all wheeled vehicles passing through the San Francisco Port of Embarkation for overseas destinations. The site included a 72,000 square-foot building, of which 3,500 square feet were used for office space. In addition, there was a motor pool, parts storage area, and 1,181,115 square feet of paved ground utilized for vehicle storage. Emeryville Ordnance Depot had the capacity to process 1,500 vehicles daily on a 24-hour basis of operation. The site was equipped to handle more than 200 different types of wheeled vehicles ranging from motorcycles to tanks. During the war, site personnel inspected for mechanical defects or processed for overseas shipment approximately 200,000 vehicles. Activities did not involve the use, handling, or storage of any weapons or ordnance, other than small arms that are assumed to have been used by military guards. All 31 properties were disposed of between 1943 and 1946.

Project Required: Yes
Feature Description: Not reported
Latitude: 37.842222219999996

FUDS Detail as of Jan 2015:
Fiscal Year: 2013
Federal Facility ID: CA9799F8638
RAB: Not reported
NPL Status: Not Listed
Description: The 42.415-acre site is located in the city of Emeryville, California. The depot consisted of three separate parcels of real estate. The Depot is now utilized by light industry and commercial interest. Much of the area is used for office space and very little remains that might indicate prior U.S. ownership. This property is known or suspected to contain military munitions and explosives of concern (e.g., unexploded ordnance) and therefore may present an explosive hazard.
History: The site was acquired on 15 March 1942 in response to wartime needs for reliable and speedy delivery of vehicles to overseas bases of operations. The function of the depot was to receive, inspect, service, and prepare for shipment, wheeled vehicles passing through the San Francisco Port of Embarkation for overseas destinations. Documentation indicates the presence of tanks and amphibious vehicles; however, no mention of the munitions associated with these vehicles was noted. The site was abandoned in 1946. Processing continued on a limited scale.

Completed Document Type:	Removal Action Completion Report
Completed Date:	06/26/2015
Comments:	A total of approximately 42,580 tons of soil and debris fill was disposed off-site. Approximately 17,967 tons of soil and debris excavated from cells designated as Class I were loaded into licensed hazardous waste trucks for transport to and disposal at the Clean Harbors Buttonwillow Landfill in Buttonwillow, California. Approximately 24,613 tons of Class II material was transported to the Waste Management Altamont Landfill facility in Livermore, California for disposal. Soil containing constituents that exceeded the remedial goals was excavated and disposed off-site. Constituents in verification samples collected from soil at the bottom of the excavation and from soil remaining on the perimeter of the Site did not exceed the remedial goals. DTSC concurs with the Conditional No Further Action Issued by the City.

Completed Date: 09/11/2009
Comments: The Department of Toxic Substances Control (DTSC) has completed a Five Year Review of the cleanup of contaminated soil at the Bay Street Extension (Site) located at 64TH and Powell in Emeryville, California. DTSC has prepared this five-year report and determined that the cap and land use restrictions continue to be an effective barrier to the contaminated soil and protective of human health and the environment. The public notice is published in Oakland Tribune 9/11/2009.

Completed Sub Area Name: Not reported
Completed Document Type: Land Use Restriction - Site Inspection/Visit
Completed Date: 05/02/2018
Comments: DTSC staff performed a Site visit on April 18, 2018. There was construction activity on Shellmound Street south of 64th Street related to the Emeryville Marketplace development. The construction activities were being implemented in accordance with a DTSC-approved Soil Management Plan. Minor cracking was observed and the roadway, medians, and sidewalks were in generally good condition. A portion of Shellmound Street has been abandoned and replaced with a section of street that has been realigned to the west. There was no evidence of any activities prohibited by the Land Use Covenant.

BAY STREET EXTENSION (Continued) **S102564428**

Comments: This deed restriction includs portions of Bay Street (Formerly Shellmound) South of Powell Street

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Land Use Restriction - Site Inspection/Visit
Completed Date: 04/03/2014
Comments: DTSC performed an inspection to verify compliance with the restrictions of the Land Use Covenant that is in place for the site and to check the surface conditions of the roadway the comprises the site. Based on the current site conditions, DTSC concluded that the remedial action remains protective of human health and the environment. Impacted soil remains under the concrete surface, which remains undisturbed. There was no evidence of any activities prohibited by the Land Use Covenant.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Land Use Restriction - Site Inspection/Visit
Completed Date: 09/29/2010
Comments: The property is currently the location of a roadway that connects Shellmound Way to 64th Street. Upon inspection, the roadway, medians, and sidewalk were observed to be in good condition. There was no evidence of any activities prohibited by the Deed Restriction.

Completed Date: 09/11/2009
Comments: The Department of Toxic Substances Control (DTSC) has completed a Five Year Review of the cleanup of contaminated soil at the Bay Street Extension (Site) located at 64TH and Powell in Emeryville, California. DTSC has prepared this five-year report and determined that the cap and land use restrictions continue to be an effective barrier to the contaminated soil and protective of human health and the environment. The public notice is published in Oakland Tribune 9/11/2009.

Evaluation Action Summary:
Evaluations: No Evaluations Found

CPS-SLIC:
Name: TOWER CLEANERS
Address: 1110 UNIVERSITY AVENUE
City,State,Zip: BERKELEY, CA 94702
Region: STATE
Facility Status: **Open - Assessment & Interim Remedial Action**
Status Date: 05/31/2019
Global Id: T10000002262
Lead Agency: SAN FRANCISCO BAY RWQCB (REGION 2)
Lead Agency Case Number: Uni1110
Latitude: 37.8688741459668
Longitude: -122.291307449341
Case Type: Cleanup Program Site
Case Worker: CCM
Local Agency: Not reported
RB Case Number: 01S0744
File Location: All Files are on GeoTracker or in the Local Agency Database
Potential Media Affected: Indoor Air, Other Groundwater (uses other than drinking water), Soil, Soil Vapor
Potential Contaminants of Concern: Tetrachloroethylene (PCE)
Site History: The site was used as a dry cleaning facility for more than 40 years until 2009, with the current structures (a laundry and residential unit on the ground floor, and several apartments on the second floor) built in the 1940s. The current laundry business does not perform any dry cleaning on-site. Planned redevelopment is slated to occur in 2019, pending permit issuance from the City of Berkeley. Based on assessments to date, the dry cleaning solvent perchloroethylene (PCE) is present in soil, soil gas, and groundwater at concentrations which could pose a risk of vapor intrusion into the site's current residential units, and future planned redevelopment of the site. PCE concentrations in indoor air are currently being mitigated by the use of air filtration systems installed in business and residential units. TCE detected in indoor air does not appear to be associated with the PCE releases at the site during dry cleaner operations since TCE concentrations detected in soil vapor or groundwater were very low relative to PCE in December 2018 data.

CA BOND EXP. PLAN:

Reponsible Party:	BACKLOG SITE CLEANUP PLANNING REPORT
Project Revenue Source Company:	Not reported
Project Revenue Source Addr:	Not reported
Project Revenue Source City,St,Zip:	Not reported
Project Revenue Source Desc:	This site is projected for cleanup funded by responsible parties with reimbursement to DHS for staff and related costs. However, if the responsible parties fail to provide funding for cleanup another source of funds will need to be established.
Site Description:	This site is a two acre, undeveloped and vacant area lying directly west of the Westinghouse Electric Company facility. Operations at this facility included maintenance and repair of electrical apparatus, including transformers cotaining polychlorinated biphenyls (PCB) fluids. In the course of maintenance, some of these liquids leaked on, or were discharged to the site.
Hazardous Waste Desc:	The principal contaminant on the site is PCB.
Threat To Public Health & Env:	The concerns for human health are primarily those of direct contact. The Westinghouse site is in an industrial area and, subsequent to the findings of PCB contamination, was fenced to exclude trespassers. A mainline, fenced, railroad right of way also secures the site from trespassers. Offsite contamination at an adjacent property has been identified by DHS sampling. The extent of offsite contamination has not been defined.
Site Activity Status:	EPA assumed the lead responsibility in April, 1981 for the characterization of the site and the development and implementation of a remedial action for the site with advisory roles by DHS and the RWQCB. The remediation consisted of containment of soil and ground water contamination by means of an "engineered cap" and a slurry wall. The RWQCB issued cleanup and abatement order No. 85-006, dated January 21, 1985, pertaining to the prevention of soil movement from the site by surface water runoff control. Additional remedial investigation is currently ongoing because PCB contamination was discovered in a building onsite and along a railroad spur track between Westinghouse and an adjacent property. DHS has not scheduled this site for activity at this time. Any DHS assistance is expected to be limited. If more extensive assistance by DHS is necessary, then advance funding will need to be secured.

Completed Document Type: Technical Workplan
Completed Date: 10/04/2016
Comments: WSP proposes management and disposition procedures for five types of

EMERYVILLE MOUND PARCEL (Continued) **S116165219**

materials generated during pile cap excavation at the site. DTSC agrees with the proposal and requires alternative disposition procedures for Type 2 material.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Technical Workplan
Completed Date: 01/23/2017
Comments: DTSC concurs with the following changes to geolsynthetic clay liner (GCL) installation: 1. The GCL anchor trench shall be omitted; 2. The GCL shall be extended at least 2 feet beyond the outside of the slurry wall where possible; 3. The GCL shall be run at least one foot up the side of the sheet pile (if sheet pile is within 2 feet) or of he remaining aggregate base outside of the slurry wall; and 4. The GCL/slurry wall interface will continue to be inspected to verify a good contact between the GCL and slurry wall.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Technical Workplan
Completed Date: 01/19/2017
Comments: DTSC agrees that an epoxy coating be applied to the floor surface of the hallway area above the Sub‐Slab Vapor Mitigation System where the gravel layer has been reduced due to construction constraint. DTSC will work with Wareham Development to include appropriate inspection and maintenance provisions in the upcoming Operation and Maintenance Plan for the site.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Remedial Action Completion Report
Completed Date: 12/18/2018
Comments: The Report documents the following remedial tasks conducted from June 2016 through June 2018: Collection, transportation, and disposal of 1,271 tons of polychlorinated biphenyl remediation waste generated during foundation construction activities; Management and disposal of 134,110 gallons of potentially impacted accumulated storm water; Installation of the geosynthetic clay liner; Installation of the sub-slab vapor mitigation system; and Installation of groundwater monitoring wells.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Design/Implementation Workplan
Completed Date: 12/19/2014
Comments: The sub-slab vapor mitigation system is intended to prevent the migration of volatile organic compound vapors from soil gas beneath the building slab into indoor air. In accordance with the Remedial Design and Implementation Plan, the vapor mitigation system will encompass ground-floor commercial/industrial space, elevator shafts, stairwells, and subsurface utility corridors. The vapor mitigation system will consist of a vapor barrier component and a sub-slab venting component.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Design/Implementation Workplan
Completed Date: 12/19/2014
Comments: CBS proposes long-term groundwater monitoring at ten well locations.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Work Notice
Completed Date: 04/27/2015
Comments: The Work Notice informs the community about upcoming cleanup activities beginning the first week of May 2015 at the Emeryville Mound Parcel.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Other Report
Completed Date: 06/25/2014
Comments: Conducting the cleanup activities during the dry season is critically important to (a) alleviate the burden in pumping and treating enormous volume of PCB-impacted storm water accumulated in open excavation, (b) reduce the potential for PCB-impacted storm water from discharging into the San Francisco Bay, and (c) ensure that the Total Maximum Daily Load for PCBs is not exacerbated. Therefore, DTSC strongly recommends against soil excavation during the rainy months.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Design/Implementation Workplan
Completed Date: 04/02/2015
Comments: The proposed modification fine tunes the injection locations based on the final building foundation plan and updates the associated text and table.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Remedial Action Completion Report
Completed Date: 06/22/2015

EMERYVILLE MOUND PARCEL (Continued) **S116165219**

Comments: The Injection Report documents the completion of chemical injection as required by the December 16, 2009 Feasibility Study/Remedial Action Plan and subsequent workplans. CBS, the property owner, conducted a one-time injection of treatment chemical to reduce volatile organic compound concentrations in groundwater within the area enclosed by the slurry wall and jump start the natural attenuation process.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Technical Workplan
Completed Date: 06/16/2015
Comments: DTSC agrees that pre-excavation in-]situ soil sampling for disposal characterization purpose is preferable. This approach would streamline waste handling, minimize dust generation, reduce the waste storage duration at the site, and enhance compliance of the Total Maximum Daily Load Program.

Completed Area Name: PROJECT WIDE

Completed Date: 09/17/2015
Comments: Beginning on 9/17/15, WSP will route the empty incoming trucks so that they do not travel on Horton St. between 40th St. and Stanford Ave., but instead travel along Hollis St. to 59th St. and then to the site.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: CEQA - Responsible Agency Review
Completed Date: 04/19/2010
Comments: The City of Emeryville is the CEQA Lead Agency for the development of the project site. On 2/19/10 the City's adopted the Initial Study/Mitigated Negative Declaration (IS/MND) which include impact assessment for DTSC's cleanup project. As a CEQA Responsible Agency, DTSC used the IS/MND in making a discretionary decision on the cleanup project s Feasibility Study/Remedial Action Plan (FS/RAP). On 4/19/10 DTSC prepared the Responsible Agency Checklist, Statement of Findings and Notice of Determination (NOD) pursuant to CEQA. DTSC plans to file the NOD with the Governor's Office of Planning and Research by 4/23/10.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Standard Voluntary Agreement
Completed Date: 04/05/2010
Comments: CBS Corporation and DTSC executed the Voluntary Cleanup Agreement (VCA) on 4/1/10. The VCA includes provisions for CBS to investigate and/or remediate hazardous substance releases at the subject property and reimburse DTSC s oversight costs.
