

# Help Shape Safety Improvements at Ada Street & California Street

The City of Berkeley is proposing several safety improvements for a safer and more visible intersection for everyone whether you walk, roll, bike, or drive. Proposed changes include:

- **High-visibility crosswalk** markings and pedestrian signage at all four crossings.
- **Chevron warning signs** and reflective markers on the existing traffic diverters.
- **Painted guidelines** on the pavement through the intersection.
- **Quick-build safety zone** (bulb-out) at the southeast corner.

## We Want Your Feedback!

Help shape traffic safety improvements at Ada St and California St.

Scan the QR code or visit our project webpage “**Intersection Improvements at Ada Street and California Street**” to share your input by Friday, September 12, 2025.
