

To: Honorable Mayor and Members of the City Council

From: Jenny Wong, City Auditor

Subject: City Auditor's Office 2021 Peer Review Results

#### **INTRODUCTION**

The Association of Local Government Auditors (ALGA) has again issued an opinion that the City Auditor's Office's internal quality control system was suitably designed and operating effectively to provide reasonable assurance of compliance with *Government Auditing Standards* for the period of November 1, 2018 to October 31, 2021.

#### **CURRENT SITUATION AND ITS EFFECTS**

Auditors from Fairfax County, VA and the Transportation Authority in Orange County, CA completed an External Quality Control Review (peer review) of our internal quality control system. They followed the *ALGA Peer Review Guide* standards and guidelines in examining our system, including our efforts for ongoing monitoring and improvement.

The peer reviewers examined seven projects representing 100% of our audits and 80% of our auditing hours over the peer-review period. They also reviewed a selection of our non-audit service assessments in which we evaluated the impact of those services on our audits and identified safeguards for maintaining independence. It is in the opinion of the peer review team that our internal quality control system was adequately designed and operating effectively to provide reasonable assurance of compliance with *Government Auditing Standards* for the period of November 1, 2018 to October 31, 2021.

#### Strengthening Auditor Accountability and Oversight

The peer reviewers noted one area where our office can strengthen our internal control systems. As the Payroll Audit Division functions as a division of the City Auditor's Office, payroll-related audits require independence impairment assessments and additional monitoring of potential threats to independence. Our office will look for methods of strengthening this level of independence and ensuring there are no conflicts with payroll-related audits.

#### City Auditor's Office Areas of Excellence

The peer review team recognized our commitment to a high-standard of audit quality by identifying areas in which we excel:

- Employing highly-qualified audit staff.
- Ensuring staff skills are maintained through training. The peer review team noted that Berkeley's staff training far exceeds the minimum continuing professional education standards.
- Developing well-organized workpapers and procedures that demonstrate adherence to Government Auditing Standards.

The efforts of many led to the peer reviewer's positive opinion and our ability to demonstrate a commitment to audit excellence. I would like to thank the following for their current and past contributions:

- Ann-Marie Hogan, Former City Auditor whose unwavering belief in the value of *Government Auditing Standards* provided continuous support of a well-designed and effective internal quality control system.
- Erin Mullin, Senior Auditor; Caitlin Palmer, Senior Auditor; Alejandra Barrio-Gorski, Auditor I; Pauline Miller, Auditor I; Kendle Kuechle, Auditor I; Claudette Biemeret, Former Audit Manager; Tracy Yarlott-Davis, Former Auditor II; Farkhad Askarov, Former Auditor II; who remained committed to upholding our internal system of quality control.

#### **BACKGROUND**

The Berkeley City Charter requires our audits to be performed in accordance with government auditing standards and those standards require that we undergo a peer review every three years. The City Auditor's Office has consistently passed peer reviews since its first review in 1997.

Government Auditing Standards help ensure that government auditors maintain competence, integrity, objectivity, and independence in planning, conducting, and reporting their work. Auditors enhance their credibility by following standards so their work leads to improved government management, decision making, and oversight.

#### **ENVIRONMENTAL SUSTAINABILITY**

The peer review team maintained workpapers in electronic format, which greatly reduced the use of paper and ink. There are no other identifiable environmental effects or opportunities associated with the subject of this report.

#### POSSIBLE FUTURE ACTION

Due to the influence that nonaudit services have on our ability to remain independent and remain compliant with *Government Auditing Standards* independence requirements, we may explore reasonable and suitable courses of action to our nonaudit activities.

#### FISCAL IMPACTS OF POSSIBLE FUTURE ACTION

None known at this time.

Ms. Jenny Wong Berkeley City Auditor 2180 Milvia Street, 3<sup>rd</sup> Floor Berkeley, CA 94704

Dear Ms. Wong,

We have completed a peer review of the Berkeley City Auditor's Office for the period of November 1, 2018 to October 31, 2021. In accordance with generally accepted government auditing standards peer review requirements, we followed the standards and guidelines contained in the *Peer Review Guide* published by the Association of Local Government Auditors (ALGA).

We reviewed the internal quality control system of your audit organization and conducted tests in order to determine whether your internal quality control system was adequately designed and operating effectively to provide reasonable assurance of compliance with *Government Auditing Standards* issued by the Comptroller General of the United States and applicable legal and regulatory requirements. Our procedures included:

- Reviewing the audit organization's written policies and procedures.
- Reviewing internal monitoring procedures.
- Reviewing a sample of audit and attestation engagements and working papers.
- Reviewing documents related to independence, training, and development of auditing staff.
- Interviewing auditing staff and management to assess their understanding of, and compliance with, relevant quality control policies and procedures.

Due to variances in individual performance and judgment, compliance does not imply adherence to standards in every case but does imply adherence in most situations. Organizations can receive a rating of pass, pass with deficiencies, or fail. The Berkeley City Auditor's Office has received a rating of pass.

Further, based on the results of our review, it is our opinion that the Berkeley City Auditor's Office internal quality control system was adequately designed and operating effectively to provide reasonable assurance of compliance with *Government Auditing Standards* and applicable legal and regulatory requirements for audits and attestation engagements during the period from November 1, 2018 to October 31, 2021.

We have prepared a separate letter offering suggestions to further strengthen your internal quality control system.
