Tom Bates Regional Sports Complex

SECOND COMMUNITY MEETING

Community Meeting on Upcoming Artificial Turf Replacement

The existing artificial turf at Tom Bates Regional Sports Complex is reaching the end of its useful life. Turf replacement is necessary to provide uninterrupted service to the users of this popular facility.

An informational meeting was conducted on January 28th, 2017. Community priorities were identified from that meeting to facilitate the City's evaluation process on selecting a desirable infill material. You are invited to join us at this follow-up meeting to discuss and provide us your input on the preferred **infill material** for this Artificial Turf Replacement project.
