DRAFT Berkeley SSBPPE Commission Performance Measures
 (original draft linked [here](#))
 Rev. 1/20/2026

The purpose of this document is to present the SSBPPE Commission' (Commission) major performance goals and objectives to which we ask for the Health, Housing, & Community Services (HHCS) Department's feasibility and likely methodology. The Commission's goals and objectives seek to foster an environment that discourages consumption of sugar sweetened beverages (SSBs) and encourages consumption of water (preferably tap) and other healthy beverages.

Goal 1. Create and support community-based strategies to discourage consumption of sugary beverages and encourage consumption of water and other healthy beverages.

Suggested revisions. Pls confirm below is correct interpretation or offer edits.:

Goal: SSB funded programs are successful in decreasing consumption of sugary beverages and increasing consumption of water and other healthy beverages.

Client being served: Contractors/ Grant Funded Community Agencies; Residents/community of Berkeley; Store owners/managers; Other CoB departments

Create strong, community-based grant programs; encourage the community grant application process, analyze and select winning grants, award grants, and monitor grant substantive and financial performance, including an annual grantee presentation to the commission.

Suggested Goal 1, Objective 1: The Commission, with the support of City staff, will clearly establish timelines for RFP process, including criteria for reviews, selection, and awarding of grants.

Commented [CJ1]: @ Commission: is the goal the creation of or the actual decrease in consumption of sugary beverages? See suggested revision below. Please confirm whether the revised goal is an accurate interpretation and provide any additional edits.

Commented [CJ2]: @ Commission: This is a broad statement. How would we know this is done and done well? How would City staff be able to report back to Commission clearly and definitively? Suggested measureable language below. Please confirm that it meets what the Commission is trying to achieve with this statement.

Commented [CJ3]: Commission: Can be moved down to the monitoring and reporting section. See below.

Goal 1, Objective 1 Measure of Success/Impact	Data collected	Measurement tool	Responsible	Feasible?
1.1 Impact measures that represent SSB funded program success will be defined by SSBPPE Commission and included in RFP language as requirement:	Measures included in RFP Reportable performance measures included in contracts	RFP Contract tracking tool	SSBPPE – Impact Measures	Feasible

Support grantees separately and collectively, including at least one meeting per year where grantees learn about each other and explore working collaboratively.

Suggested Goal 1, Objective 2: 1) City Staff will Ensure and support contractors with 1) contract compliance with scope/budget; 2) accuracy and completeness of reporting requirements; 3) and successful achievement of contract deliverables

Goal 1, Objective 2 Measure of Success/Impact	Data collected	Measurement tool	Responsible	Feasible?

2.3 All grantees will receive feedback on data quality and data use within 15 business days of submitting their reports.	# of grantee questions/ requests for TA	Report tracking log TA tracking log	PH	Feasible
	Date progress report received Date feedback provided TA/ feedback provided including: <ul style="list-style-type: none"> • Data (programmatic and fiscal) completeness • Data Accuracy 			Refinements need to be made

Commented [CJ5]: @Evangelista, JoAnn What does data use in this context mean?

Commented [EJ5R2]: "Data use" = how their data is applied and used to inform their activities or how they address challenges. Example: the Data is showing low numbers on outreach; Action - let's look at opportunities for increasing outreach; can they collaborate with other agencies; is there a forum where they can increase their presence/increase outreach? etc. This type of feedback is already being done after review of quarterly reports. If the data suggests some challenges, this is addressed in PH's feedback, with some recommendations.

Commented [CJ6]: @ Commission: Please see alternate proposed measure language below. Does this get to what you are looking for?

Commented [CJ7]: @Evangelista, JoAnn Move this whole row up to Objective 2.

Commented [CJ8]: @ commission: We can certainly do this. However, it may not be the only way to encourage collaboration and learning. Perhaps the grantees can suggest other strategies to support them on this and flexibility on the strategies can be provided here.

Commented [CJ9]: @JoAnn Evangelista: Move this whole row up to Objective 2

Commented [JK14]: Esp needed for store owners/managers re: HCO

Commented [JK10]: I don't see this reflected in next column

Commented [CJ11]: @ Commission: For consistency and efficiency, we might suggest a quarterly review and update of the entire website rather than differing cadences for each ordinance or program. This is noted above in blue font.

Commented [CJ15]: @ JoAnn: What does this mean?

Commented [EJ15R2]: If there was a link on the webpage for website visitors to ask questions, this is what this would be. Deleting because this currently doesn't exist and the priority task will be to update the website (the bullet points listed above that point)

Commented [JK12]: what happens to the other 25% Why just healthy proc inquiries -- can this be all inquiries?

Commented [JK13]: this can be combined with 3.1

Goal 2. Promote the Success of Berkeley's Healthy Checkout Ordinance

Suggested revision for Goal 2. Pls confirm below is correct interpretation or offer edits.: Retail stores qualifying under the Healthy Checkout Ordinance (HCO) are compliant with aware of, and support the HCO.

Client being served: Berkeley Retail Stores over 2,500 square feet

HCO ordinance link: <https://berkeley.municipal.codes/BMC/9.82.030>

Suggested Goal 2, Objective 1: Successful Monitoring and Supporting Stores with HCO Implementation Developing Protocols for use in Monitoring and Supporting Stores

Consider alternative table structure/ column headings:

Goal 1: xxx

2. Xx				
3. xx				

Commented [CJ16]: @ Commission: We suggest more results based language defining success of the HCO, rather than action based language. Please see Suggested language below.

Commented [PC16R2]: Agree, focus should be on protocol development and results

Commented [PC17]: agree

Commented [PC17R2]: have modified columns below

Goal 2, Objective 21: Monitoring Store Compliance				
a. Visiting all HCO stores at least twice a year b. Meetings with store manager whenever possible and at least once per year. Ensure manager is aware of the ordinance and its purpose.				
c. Assessing compliance of store checkout areas				
d. For 100% of all qualifying business identified as non-compliant at the first or second visit: 1. Set a meeting with manager within 10 days of visit to provide TA to provide education materials linked to website and information on noncompliance will be provided with educational materials and TA at the time of the visit, and				
e. Call stores managers within a month after the noncompliance visit				
f. Visit the noncompliant stores three months after the original meeting with store manager to reassess compliance				
g. If still not compliant for same infraction, repeat remediation steps 1-4				
h. After two rounds of remediation for same infraction, if still noncompliant, refer to EHS for enforcement				
i. Reassess in six months to ensure continued compliance				

Commented [CJ19]: @ Commission: If a store is found compliant, is it necessary to meet with the manager in every store? Basically, can a demonstrated compliant store serve as a proxy that the manager is aware of the ordinance and purpose?

Pls see suggested performance measure below (in blue font) as we believe non-compliant stores may indicate a lack or limited awareness by managers.

Suggest we omit the Guiding Principles in favor of defining program impacts and measures.

Commented [CJ23]: @ Commission: For clarification, what is the goal of the HCO Ordinance Review that is conducted every two years?

Commented [PC23R2]: It's to assess procurement compliance over time

Commented [CJ24]: Given that we are recommending 2 follow up visits for non-compliant stores with 3 months windows to address non-compliance, 2 presentations may not provide comprehensive information. Staff capacity for this would be 1 presentation per year.

Commented [PC24R2]: For the first year the commission recommends two meetings per year of one hour in length until further notice.

Goal 3. Promote the Success of Berkeley's Beverage Procurement Resolution

Suggested revision for Goal 3. Pls confirm below is correct interpretation or offer edits.: City of Berkeley Departments and contractors are compliant with the Beverage Procurement Resolution.

Client being served: City of Berkeley Departments

Context: The resolution states that the City of Berkeley and City food services contractors **shall not:**

- 1) Serve SSBs at City meetings and events on City property;
- 2) Procure SSBs with City funds; and
- 3) Sell SSBs on City property, including in vending machines.

Commented [CJ26]: @ Commissioners: There is only one City Manager. Or did you mean all managers in the City? Commented [CJ30]: @ Commission: For consistency and efficiency, we might suggest a quarterly review and update of the entire website rather than differing cadences for each ordinance or program. This is noted above in blue font.

Commented [CJ31]: @ JoAnn: What does this mean?

Commented [EJ31R2]: If there was a link on the webpage for website visitors to ask questions, this is what this would be. Deleting because this currently doesn't exist and the priority task will be to update the website (the bullet points listed above that point)

Last point on the Commission's Draft of Performance Measures: Determining if there is a feasible way to assess results of the procurement ban such as reduced SSB (sugar-sweetened beverage) consumption, weight loss of staff, waist circumference loss of staff, increased water consumption, or other ways in which city employees deal with it. *Some of these questions for City staff may be personal and potentially invasive,*
