

Berkeley Homeless  
Services Panel of Experts

## REGULAR MEETING AGENDA

June 3, 2026 – 7:00 PM

North Berkeley Senior Center, Aspen Room  
1901 Hearst Ave., Berkeley, CA 94709

**Mayor Ishii:**  
Carole Marasovic –  
Chair

**Rashi Kesarwani:**  
Vacant

**Terry Taplin:**  
Denah S. Bookstein

**Ben Bartlett:**  
Paul Kealoha-Blake

**Igor Tregub:**  
Jerome Solberg

**Shoshana O’Keefe:**  
Vacant

**Brent Blackaby:**  
Steven Segal

**Cecilia Lunaparra:**  
Anais Shergill

**Mark Humbert:**  
Alan Levy – Vice Chair

Josh Jacobs, Homeless Services Coordinator, Homeless Services Panel of Experts  
Staff Secretary, [jjacobs@berkeleyca.gov](mailto:jjacobs@berkeleyca.gov), 510.225.8035

*All items are for discussion and possible action.*

*Public comment for items not on the agenda limited to 2 minutes. No exchange with  
commission permitted.*

*Public comment for items on the agenda taken as items arise.*

1. Roll call.
2. Reading of the land acknowledgment.
3. Public comment for items not on the agenda (limited to 2 minutes).

### **Action Items:**

1. Approval of the agenda. Discussion and possible action.
2. Downtown Berkeley Association (DBA) staff presentation, with Q and A, on DBA Social Services Outreach worker duties and coordination with downtown businesses, the City of Berkeley and local social service providers. Discussion only.
3. Approval of the minutes from the May 6, 2026 meeting. Discussion and possible action.
4. Chair report. Discussion only.
5. Review Homeless Management Information System Data Dictionary. Discussion and possible action.
6. Adjourn.

*A Vibrant and Healthy Berkeley for All*

**Attachments:**

1. Land acknowledgment.
2. May 6, 2026 minutes.
3. HMIS Data Dictionary.
4. 2026 Point-in-Time Count Preliminary Results.
5. Downtown Berkeley Association 12 Month Report.
6. Analysis of the House Fiscal Year 2027 Spending Bill for HUD Programs.

**Correspondence and Notice of Decision Requests:**

Deadlines for Receipt:

- A) Supplemental Materials must be received by 5 PM the day before the meeting.
- B) Supplemental Communications must be received no later than noon the day of the meeting.

Procedures for Distribution:

- A) Staff will compile all Supplemental Materials and Supplemental Communications received by the deadlines above into a Supplemental Packet, and will print 15 copies of this packet for the Commission meeting.
- B) For any Supplemental Material or Communication from a Commissioner received after these deadlines, it is the Commissioner's responsibility to ensure that 15 printed copies are available at the meeting. Commissioners will not be reimbursed for any printing or materials expenses.
- C) Staff will neither print nor distribute Supplemental Communications or Materials for subcommittee meetings.

Procedures for Consideration:

- A) The Commission must make a successful motion to accept and receive all Supplemental Materials and Communications into the record. This includes the Supplemental Packet compiled by staff.
- B) Each additional Supplemental Material or Communication received by or before the meeting that is not included in the Supplemental packet (i.e., those items received after the respective deadlines above) must be individually voted upon to be considered by the full Commission.
- C) Supplemental Materials subject to a Commission vote that are not accepted by motion of the Commission, or for which there are not at least 15 paper copies (9 for each Commission seat, one for staff records, and 5 for the public) available by the scheduled start of the meeting, may not be considered by the Commission.

***\*Supplemental Materials*** are defined as any items authored by one or more Commissioners, pertaining to an agenda item but available after the agenda and packet for the meeting has been distributed, on which the Commission is asked to take vote at the meeting. This includes any letter to Council, proposed Council report, or other correspondence on behalf of the Commission for which a full vote of the Commission is required.

***\*\*Supplemental Communications*** are defined as written emails or letters from members of the public or from one or more Commissioners, the intended audience of which is the full Commission. Supplemental Communications cannot be acted upon by the Commission, and they may or may not pertain to agenda items.

Any writings or documents provided to a majority of the Commission regarding any item on this agenda will be made available for public inspection at Health, Housing & Community Services Department located at 2180 Milvia Street, 2nd Floor.

**Public Comment Policy:**

*Members of the public may speak on any items on the Agenda and items not on the Agenda during the initial Public Comment period. Members of the public may not speak more than once on any given item. The Chair may limit public comments to 3 minutes or less.*

**COMMUNITY ACCESS INFORMATION**

*ADA Disclaimer "This meeting is being held in a wheelchair accessible location. To request a disability-related accommodation(s) to participate in the meeting, including auxiliary aids or services, please contact the ADA Program Coordinator at 510-981-6418 (V) or 510-981-6347 (TDD) at least three business days before the meeting date. Please refrain from wearing scented products to this meeting."*

*Communications to Berkeley boards, commissions or committees are public record and will become part of the City's electronic records, which are accessible through the City's website. Please note: e-mail addresses, names, addresses, and other contact information are not required, but if included in any communication to a City board, commission or committee, will become part of the public record. If you do not want your e-mail address or any other contact information to be made public, you may deliver communications via U.S. Postal Service or in person to the secretary of the relevant board, commission or committee. If you do not want your contact information included in the public record, please do not include that information in your communication. Please contact the secretary to the relevant board, commission or committee for further information. The Health, Housing & Community Services Department does not take a position as to the content.*

## Land Acknowledgement Statement

The City of Berkeley recognizes that the community we live in was built on the territory of xučyun (Huchiun (Hooch-yoon)), the ancestral and unceded land of the Chochenyo (Cho-chen-yo)-speaking Ohlone (Oh-low-nee) people, the ancestors and descendants of the sovereign Verona Band of Alameda County. This land was and continues to be of great importance to all of the Ohlone Tribes and descendants of the Verona Band. As we begin our meeting tonight, we acknowledge and honor the original inhabitants of Berkeley, the documented 5,000-year history of a vibrant community at the West Berkeley Shellmound, and the Ohlone people who continue to reside in the East Bay. We recognize that Berkeley's residents have and continue to benefit from the use and occupation of this unceded stolen land since the City of Berkeley's incorporation in 1878. As stewards of the laws regulating the City of Berkeley, it is not only vital that we recognize the history of this land, but also recognize that the Ohlone people are present members of Berkeley and other East Bay communities today. The City of Berkeley will continue to build relationships with the Lisjan Tribe and to create meaningful actions that uphold the intention of this land acknowledgement.

Berkeley Homeless  
Services Panel of Experts

## MEETING MINUTES

May 6, 2026

1. **Roll Call:** 7:01 PM  
**Present:** Marasovic, Bookstein, Solberg, Levy, Segal, & Kealoha-Blake (absent until: 7:23).  
**Absent:** None.  
**Staff:** Jacobs.  
**Council:** None.  
**Public:** 2.

2. Reading of the Land Acknowledgement.

3. Public Comment: 1.

### Action Items:

4. Approval of the Agenda.

**Action:** M/S/C Segal/Levy move to approve the agenda as written.

**Vote:** Ayes: Marasovic, Kealoha-Blake, Segal, Bookstein, Levy, & Solberg.  
Noes: None. *Abstain:* None. *Absent:* None.

5. Approval of minutes from March 4, 2026 meeting.

**Action:** M/S/C Solberg/Levy move to approve the minutes as written.

**Vote:** Ayes: Marasovic, Kealoha-Blake, Segal, Levy, Solberg, & Bookstein.  
Noes: None. *Abstain:* None. *Absent:* None.

6. Chair report. Discussion only.

Discussion. No action taken.

7. Continue discussion on recommendations for how Measure P and other monies are used to fund homeless services providers and application in the current budget process. Discussion and possible action.

**Action:** M/S/C Solberg/Bookstein move to accept the content of the letter—except for the 5150 transports—and empower the Chair and Vice Chair to modify it for

*A Vibrant and Healthy Berkeley for All*

Homeless Services Panel of Experts  
April 15, 2026

readability and to submit it on behalf of the commission to the Budget and Finance committee.

**Vote:** Ayes: Marasovic, Kealoha-Blake, Segal, Bookstein, Levy, & Solberg.  
Noes: None. *Abstain:* None. *Absent:* None.

8. Adjourn

Meeting adjourned at 9:00 PM.

Minutes Approved on: \_\_\_\_\_

Josh Jacobs, Commission Secretary: \_\_\_\_\_

# FY 2026 HMIS Data Dictionary

**U.S. Department of Housing and Urban Development**  
ALIGNS WITH FY 2026 HMIS DATA STANDARDS | RELEASED OCTOBER 2025

## Revision History

Date	Version	Element	Revisions
October 2025	V1.0	All Elements	XML specifications deprecated, effective for the FY 2026 data standards. No longer referenced in FY 2026 Data Standards Dictionary.
		Program Specific Data Elements (PSDE)	Added HUD: CoC Youth Homeless Demonstration Program (YHDP) to relevant Common PSDEs (Note: there is no change to collection requirements, this is for clarification purposes only). Added HUD: CoC Builds as relevant to Common and Federal Partner specific PSDEs.
		2.06 Funding Sources	Retired HUD: ESG-CV (47) and HUD: HOPWA-CV (48). Add HUD: CoC Builds (56). Added column to indicate which funding sources are retired.
		2.09 CE Participation Status	Corrected Field 4 to be "CE Participation Status End Date".
		3.04 Race and Ethnicity	Clarified in the system logic that Field 2 is optional. Updated label or Hispanic/Latina/e/o to Hispanic/Latina/o.
		3.06 Gender	Retired data element.
		3.20 Housing Move In Date	Added applicability for VA: Grant Per Diem – Case Management/Housing Retention and updated Project Type Applicability.
		4.05 – 4.10 Specific Disabling Conditions	Retired data elements for VA-funded programs.
		4.13 Date of Engagement	Added HUD: CoC – Youth Homeless Demonstration Program (YHDP) as a relevant funding source.
		4.21 Sex	Data element added.
		C4 Translation Assistance Needed	Retired data element.
		R3 Sexual Orientation	Retired data element.
		R4 Last Grade Completed	Corrected name of relevant HUD VASH program.
		R6 Employment Status	Corrected name of relevant HUD VASH program.
		R7 General Health Status	Corrected name of relevant HUD VASH program.
R13 Family Critical Issues	Expanded response options to include "Client doesn't know" (8),		

Date	Version	Element	Revisions
			"Client prefers not to answer" (9), and "Data not collected" (99).
		V2 Services Provided – SSVF	Added response option 10: Healthcare Navigation
		V3 Financial Assistance – SSVF	Added Field 1 Date Provided to reflect the date the financial assistance was identified as a need, separate from Field 2 Start Date of Financial Assistance, which reflects the date the financial assistance began.
		V7 HP Targeting Criteria	Updated language in Dependency P and Dependency Q.
		V10 Mental Health Consultation	Data element added.
		5.04 Information Date	Corrected language to clarify that an end user cannot specify a different date for Information Date when data is collected only at project start or only at project exit.
		5.08 Personal Identifier	Removed reference to Gender 3.06.
		Required Collection Points and Metadata Elements Table Summary	Removed Gender 3.06 and R3 Sexual Orientation. Added Sex 4.21.

## FY 2026 HMIS Data Standards

This document is intended to support HMIS and comparable database vendors, HMIS Leads/Administrators, and HMIS end users in understanding the data element table structures for the [FY2026 HMIS Data Standards](#). Each table defines how data elements should be structured and programmed in HMIS software. The [HMIS Data Standards Manual](#), a partner document to this one, provides details about how the data elements are defined and provides guidance on how to ensure accuracy when collecting data from people experiencing homelessness. HMIS software is expected to be programmed to comply with the HMIS Data Standards defined in this document on October 1, 2025 (the first day of the federal fiscal year). Additionally, HUD expects that vendors will have these updates available for testing in an HMIS demo or sandbox site for communities at least one month prior to the changes taking effect.

## Data Element Structure

Every data element required by HUD and the federal partners to be stored within an HMIS is specified in this document. The following

format is used to describe each data element:

Header	Instruction
<b>Element Name</b>	The name of the data element.
<b>Field # &amp; Response(s)</b>	<p>The field name and any response options associated with the field.</p> <p>Most data elements contain responses of “Client doesn’t know” and “Client prefers not to answer.”</p> <p>“Data not collected” is a response option in this HMIS Data Dictionary. It is not a response option necessary in every system or in every data element. The response option is required for use by any HMIS that requires a response to a data element before allowing the user to move forward in the system. Adding the “data not collected” response option enables a user who did not collect or simply does not have the information to enter a response that does not present a false answer. An HMIS that requires a response to any data element for the system to progress must implement the “Data not collected” response for all data elements that require a response.</p> <p><i>System Note:</i> “Data not collected” will equate to missing data or null values as appropriate for transfer and reporting purposes.</p>
<b>Dependent to Field # and Response #</b>	<p>Dependent fields and dependent response options identify the Field and Response option to which they are dependent.</p> <p><b>The dependencies outlined in the Data Dictionary are expected to be visible to users on-screen. The methods vendors may elect to make dependencies visible/invisible, colored for completion/shaded out, etc. are up to each software developer.</b></p>
<b>Element Type</b>	<p>The type of data element (project descriptor, universal, program-specific, or metadata), which indicates the level at which data are collected, whether they apply to all funding sources, and their relationship to other data.</p> <p><b>Project Descriptor Data Elements (PDDEs)</b> are the required data elements that define the individual projects within an HMIS. They are initially entered at the setup of each project within an HMIS. They must be updated by the HMIS Administrator on a regular basis as information within the data elements is subject to change and is critical for report generation.</p>

Header	Instruction
	<p><b>Universal Data Elements (UDEs)</b> are client level data elements required for collection by all applicable projects participating in HMIS, regardless of funding source.</p> <p><b>Program-Specific Data Elements (PSDEs)</b> are client level data elements required by a specific federal program or program component.</p> <p><b>Common Program-Specific Data Elements (Common PSDEs)</b> are the first subset of the program-specific data elements that are required for collection by most of the federal partners. When combined with the UDEs, these data elements comprise the building blocks for much of the reporting generated by an HMIS.</p> <p><b>Federal Partner Program-Specific Data Elements (Federal Partner PSDEs)</b> are the second subset of the program-specific data elements. These data elements are listed under the federal partner program that maintains the data element. There are data elements maintained by one partner and shared with other federal partners. When combined with UDEs and Common PSDEs, these data elements comprise specific project level reporting generated by an HMIS.</p> <p><b>Metadata Elements</b> are system generated data about data elements documenting required metadata collection for all the above data element types.</p>
<p><b>Funder: Program-Component</b></p>	<p>Identifies the federal department, the program, and the program component that requires the collection of the data element. If a program component is not listed, it does <i>not</i> require collection of the data element.</p> <p>An HMIS must have the ability to enable and restrict visibility of data elements for each project based on the reporting requirements of the federal partner program funding the project. An HMIS may do this in whatever manner the software provider chooses (hard coding, customization via HMIS administrators, etc.).</p> <p>HMIS vendors should note that no federal partner expects that any project would have all data elements visible to the user. The strong preference among the federal partners is that only the data</p>

Header	Instruction
	<p>elements required for the programs that fund a specific project are visible to the users at that project.</p>
<p><b>Project Type Applicability</b></p>	<p>Project type(s) refers to data element 2.02 <i>Project Information</i> and identifies the HMIS project type required to collect and report the data element.</p>
<p><b>Data Collected About</b></p>	<p>Identifies the universe of client(s) for whom a data element response is required (e.g., All Clients, Head of Household, Adults, etc.). Data may be collected about a wide group (e.g., all household members) but may be further limited in data reporting specifications.</p>
<p><b>Collection Point</b></p>	<p>The point(s) at which the data must be able to be collected in an HMIS. For data elements with multiple collection points (e.g., "Project Start", "Occurrence Point", "Project Exit"), each record must be stored with the appropriate <i>Data Collection Stage</i> (as listed in metadata element 5.03 <i>Data Collection Stage</i>). Data elements with only a single collection point need not be stored with any particular <i>Data Collection Stage</i> since their data collection point is inherent in their requirements.</p> <p><b>Record Creation</b> – Indicates the data element is required to be collected when the client record is created. Data elements collected at Record Creation should have one and only one value for each client in an HMIS. Data are collected and entered into an HMIS, and responses must be reviewed for accuracy at each project start and edited as necessary to make corrections or to improve data quality. This includes data elements such as 3.01 <i>Name</i> and 3.07 <i>Veteran Status</i>.</p> <p><b>Project Start (stored with Data Collection Stage of "Project Start" for data elements with multiple collection points)</b> – Indicates the data element is required to be collected at every project start, such as 3.917 <i>Prior Living Situation</i>. Some data elements collected at project start</p>

Header	Instruction
	<p>have associated <i>Information Dates</i>; these data elements must have an <i>Information Date</i> that matches the client's 3.10 <i>Project Start Date</i>. Information must be accurate as of the 3.10 <i>Project Start Date</i>. When a data element with multiple collection points, such as 4.02 <i>Income and Sources</i>, is collected at project start, it must be stored with a <i>Data Collection Stage</i> of "Project Start." There should be one and only one record with a <i>Data Collection Stage</i> of "Project Start" for each relevant data element for any given project start. Data may be edited by users associated with the project to correct errors or omissions; such edits will not change the <i>Data Collection Stage</i> associated with the record.</p> <p><b>Occurrence Point/Update</b> – Indicates the data element may be collected and entered at any point during a project stay to record changes over time or document the occurrence of events (e.g., a service is provided). These types of records must be able to be entered at any point during the project stay. Some data elements are collected once per project stay, such as 3.20 <i>Housing Move-In Date</i>. For others, such as 4.14 <i>Bed-Night Dates</i>, the system must be able to support an unlimited number of records per project stay, each with a distinct <i>Information Date</i>. The <i>Information Date</i> should reflect the date on which the information is collected and/or the date for which the information is relevant for reporting purposes. Information must be accurate as of the <i>Information Date</i>, regardless of the 5.01 <i>Date Created</i>. Data may be edited by users associated with the project to correct errors or omissions; such edits will change neither the <i>Data Collection Stage</i> nor the <i>Information Date</i> unless it is explicitly altered by the user.</p> <p><b>Annual Assessment (stored with Data Collection Stage of "Annual Assessment")</b> – Data elements required for collection at annual assessment, such as 4.02 <i>Income and Sources</i>, must be entered with an <i>Information Date</i> of no more than 30 days before or after the anniversary of the Head of Household's <i>Project Start Date</i>, regardless of the date of the most recent "update" or any other "annual assessment." Information must be accurate as of the <i>Information Date</i>. The data collection stage may not be inferred from the <i>Information Date</i>, although the field must have an <i>Information Date</i> recorded with it. To be considered reportable to HUD as an annual assessment, data must be stored with a <i>Data Collection Stage</i> of "Annual Assessment." The Annual Assessment must include updating both the Head of Household's record and any other household members at the same time.</p>

Header	Instruction
	<p>There should be one and only one record for each data element annually with a <i>Data Collection Stage</i> recorded as “Annual Assessment” associated with any given client and <i>Enrollment ID</i> no more than 30 days before or after the anniversary of the Head of Household’s <i>Project Start Date</i>. Regardless of whether the responses have changed since project start or the previous annual assessment, a new record must be created for each subsequent annual assessment such that it is possible to view a history, by date, of the values for each data element. Data may be edited by users associated with the project to correct errors or omissions; such edits will change neither the <i>Data Collection Stage</i> nor the <i>Information Date</i> unless they are explicitly altered by the user.</p> <p><b>Project Exit (stored with Data Collection Stage of “Project Exit” for data elements with multiple collection points)</b> – Indicates the data element is required to be collected at every project exit. Data elements collected at project exit, such as 3.12 <i>Destination</i>, must have an “<i>Information Date</i>” that matches the client’s <i>Project Exit Date</i>. Information must be accurate as of the “<i>Project Exit Date</i>.” When a data element with multiple collection points is collected at project exit, it must be stored with a <i>Data Collection Stage</i> of “Project Exit.” There should be one and only one record with a <i>Data Collection Stage</i> of “Project Exit” for each relevant data element for any given project exit. Data may be edited by users associated with the project to correct errors or omissions; such edits will change neither the <i>Data Collection Stage</i> nor the <i>Information Date</i> unless they are explicitly altered by the user.</p> <p><b>Post Exit (stored with Data Collection Stage of “Post Exit” for data elements with multiple collection points)</b> – Indicates the data element may be collected after project exit for a period of no longer than 180 days. This is uncommon but includes data elements such as <i>R2O Aftercare Plans</i>.</p>
<p><b>Relationship to Enrollment ID (an enrollment)</b></p> <p><b>Relationship to Personal ID (a client)</b></p>	<p>Indicates cardinality of the data element relative to an enrollment and client. This will often indicate “one or more,” even though the data element is only applicable to certain project types or funders which require the data element and is further limited to clients described in the “Data Collected About” line in the data element.</p> <p>“One or more” does not inherently imply the data element should be collected on every client in HMIS. In general, data elements recorded at least once per enrollment are required at project start.</p>

Header	Instruction
	Data elements recorded 0 or more times per enrollment might only be collected as needed or at exit, e.g., a referral.
<b>System Logic &amp; Other System Issues</b>	Logically required data collection or system structure information for HMIS software development purposes and information on rationale, conditions, constraints, etc. that may be applicable to a specific data element and are important for HMIS software development purposes.
<b>CSV</b>	Primary file in <a href="#">CSV Specifications</a> where the data element is located.
<b>2026 Revision Summary</b>	Documents the initial change(s) to the data element from the FY 2024 Data Standards to the FY 2026 Data Standards. Corrections made throughout the year are tracked in the Summary of Changes.

## PROJECT DESCRIPTOR DATA ELEMENTS

### 2.01 Organization Information

Header	Instruction
<b>Element Name</b>	Organization Information
<b>Field 1 &amp; Response</b>	Organization ID – auto generate
<b>Field 2 &amp; Response</b>	Organization Name
<b>Field 3 &amp; Response</b>	Victim Service Provider
	0 No
	1 Yes
<b>Element Type</b>	Project Descriptor
<b>Funder: Program-Component</b>	All Programs – All Components
<b>Project Type Applicability</b>	All HMIS Project Types

Header	Instruction
Data Collected About	All Organizations
Collection Point	Initial HMIS project setup, reviewed/updated no less than annually
System Logic & Other System Issues	<p>An Organization ID must be assigned to each project via a system generated number or code. There is no specified format for this data element and it can be up to 32 characters in length.</p> <p>Each organization must receive a distinct identifier that is consistently associated with that organization. Each organization must also be able to be associated with one or more projects. The name of the organization must be captured in text within the HMIS.</p> <p>An HMIS must allow the HMIS Administrator to activate and deactivate an organization. An HMIS application may permit the creation of a common name field more familiar to users for use within the application while retaining the legal name for use in reporting.</p>
CSV	Organization
2026 Revision Summary	No revisions

## 2.02 Project Information

Header	Instruction
Element Name	Project Information
Field 1 & Response	Project ID – auto generate
Field 2 & Response	Project Name
Field 3 & Response	Operating Start Date
Field 4 & Response	Operating End Date
Field 5 & Response	Continuum Project
	0 No
	1 Yes
Field 6 & Responses	Project Type
	0 Emergency Shelter – Entry Exit

Header	Instruction
1	Emergency Shelter – Night-by-Night
2	Transitional Housing
3	PH – Permanent Supportive Housing (disability required for entry)

<b>Data Collected About</b>	All Projects
<b>Collection Point</b>	Initial HMIS project setup, reviewed/updated no less than annually
<b>System Logic &amp; Other System Issues</b>	<p>Projects funded with 2.06 Funding Source HUD: Pay for Success (35) and do not provide permanent housing should use Project Type (Field 6) Other (7).</p> <p>A Project ID must be assigned to each project via a system generated number or code. Each project must receive an identifier that is unique within the HMIS and consistently associated with that project. There is no specified format for this data element and it can be up to 32 characters in length.</p> <p>Each project must be associated with one and only one organization (2.01 <i>Organization Information</i>); separate projects operated by the same agency must be associated with the same Organization ID. The name of the project must be captured in text within the HMIS.</p> <p>An HMIS may permit the creation of a common name element more familiar to users for use within</p>

Header	Instruction
	<p>the application while retaining the legal name for use in reporting.</p> <p>The HMIS stores collected project type and retains for historical purposes. It should allow edits if changes or corrections for data entry error are necessary. A project can only have one project type assigned. A project must be able to identify multiple affiliated residential projects if “yes” to Dependent B.</p> <p>Utilization of the Emergency Shelter Night-by-Night project type (2.02 <i>Project Information – Project Type = 1</i>) does not mean that an HMIS must identify a client in a specific bed. If an HMIS supports a custom module that identifies clients in a bed, that module may continue to be used. However, use of that module does not necessarily equate with the night- by-night project type.</p> <p>At the point a project closes, and an “Operating End Date” is recorded in Field 4, all clients must be exited on or before the “Operating End Date.” This may be achieved through a bulk update or auto exit (if such functionality exists), or manually. It is strongly encouraged that at a minimum, an alert or notification is provided to indicate active clients remain in the project once an “Operating End Date” is populated.</p>

## 2.03 Continuum of Care Information

Header	Instruction
Element Name	Continuum of Care Information
Field 1 & Response	Continuum Code [ <i>HUD-assigned CoC codes for the project location (text – 6 characters)</i> ]
Field 2 & Response	Geocode (6 digits)
Field 3 & Responses	Project street address 1 (text)

Header	Instruction
Field 4 & Responses	Project street address 2 (text)
Field 5 & Responses	Project city (text)
Field 6 & Responses	Project state (2 letters)
Field 7 & Responses	Project ZIP code (5 digits)
Field 8 & Response	Geography Type [ <i>From look up table provided by HUD – code the following geography types based on ZIP code</i> ]
	1 Urban
	2 Suburban
	3 Rural
Element Type	Project Descriptor
Funder: Program-Component	All Programs – All Components
Project Type Applicability	All HMIS Project Types
Data Collected About	All Continuum Projects
Collection Point	Initial HMIS project setup, reviewed/updated no less than annually

Header	Instruction
<b>System Logic &amp; Other System Issues</b>	<p>There is a many-to-one relationship between this data element and 2.02 <i>Project Information</i>; there may be multiple current records of this data element at any given time. Add, edit, or remove associations with CoCs as needed to reflect changes. There must be a one-to-one relationship to 2.02 <i>Project Information</i> if the project only serves one CoC (most common).</p> <p>Projects may be funded to provide housing and/or services to clients residing in only one CoC (e.g., CoC: Transitional Housing), or they may be funded for housing and/or services across multiple CoCs (e.g., VA: SSVF). It must be possible to associate a project with the CoC code for every geographic area in which the project operates and for which it will be entering data into an HMIS.</p> <p>Systems operating in a single continuum may set their CoC code as a default value for this field. For data quality purposes, the CoC codes in this data element should be used to populate an option list of CoC codes for 3.16 <i>Enrollment CoC</i> when one is required.</p> <p>HUD will release an updated crosswalk of ZIP codes with a geography type for each ZIP code biennially. This must be incorporated as a table into HMIS applications and used to auto-populate the geography type field.</p>

<b>System Logic &amp; Other System Issues</b>	This is a transactional data element; a single project may have multiple current and historical records. Allow corrections for data entry error.	

Header	Instruction	Retired
	<p>Retired funding sources must remain on relevant projects created prior to FY 2026 but should not be available to be added to new projects.</p> <p>An HMIS must allow projects with multiple funder sources and multiple grants (with potentially different grant terms) from the same funding source to record and store all funding sources for the project.</p> <p>Dependent A has a 100-character limit when exporting in the HMIS CSV.</p>	
CSV	Funder	
2026 Revision Summary	Retire HUD: ESG-CV (47) and HUD: HOPWA-CV (48), and add HUD: CoC Builds (56).	

## 2.07 Bed and Unit Inventory Information

Header	Instruction
Element Name	Bed and Unit Inventory Information
Field 1 & Response	Inventory start date ( <i>[date field]</i> )
Field 2 & Response	Inventory end date ( <i>[date field]</i> )
Field 3 & Response	Continuum Code
Field 4 & Responses	Household type
	1 Households without children
	3 Households with at least one adult and one child
	4 Households with only children
Field 5 & Responses	<i>[If 2.02 Project Type = "Emergency Shelter – Entry Exit" or "Emergency Shelter – Night-by-Night"]</i> Bed Type
	1 Facility-based beds
	2 Voucher beds
	3 Other beds
Field 6 & Responses	<i>[If 2.02 Project Type "Emergency Shelter – Entry Exit" or "Emergency Shelter – Night-by-Night"]</i> Availability

Header	Instruction
1	Year-round
2	Seasonal
3	Overflow
<b>Field 7 &amp; Response</b>	Beds dedicated to chronically homeless veterans ( <i>[integer]</i> )
<b>Field 8 &amp; Response</b>	Beds dedicated to youth-veterans ( <i>[integer]</i> )
<b>Field 9 &amp; Response</b>	Beds dedicated to any other veteran ( <i>[integer]</i> )
<b>Field 10 &amp; Response</b>	Beds dedicated to chronically homeless youth ( <i>[integer]</i> )
<b>Field 11 &amp; Response</b>	Beds dedicated to any other youth ( <i>[integer]</i> )
<b>Field 12 &amp; Response</b>	Beds dedicated to any other CH ( <i>[integer]</i> )
<b>Field 13 &amp; Response</b>	Non-dedicated beds ( <i>[integer]</i> )
<b>Field 14 &amp; Response</b>	Total bed inventory ( <i>[integer]</i> )
<b>Field 15 &amp; Response</b>	Total unit inventory ( <i>[integer]</i> )
<b>Element Type</b>	Project Descriptor
<b>Funder: Program-Component</b>	All Programs – All Components
<b>Project Type Applicability</b>	<p>0: Emergency Shelter – Entry Exit</p> <p>1: Emergency Shelter – Night-by-Night</p> <p>2: Transitional Housing</p> <p>3: PH – Permanent Supportive Housing</p> <p>8: Safe Haven</p> <p>9: PH – Housing Only</p> <p>10: PH – Housing with Services</p> <p>13: PH – Rapid Re-Housing (subtype 2: RRH: Housing with or without services)</p>
<b>Data Collected About</b>	All Residential Projects, except for PH – Rapid Re-Housing subtype 1: RRH: Services Only
<b>Collection Point</b>	Initial HMIS project setup reviewed at least annually and updated as needed to reflect changes.
<b>System Logic &amp; Other System Issues</b>	<p>A project may have multiple current and historical records of inventory.</p> <p>For any inventory record, it must be possible to identify the CoC with which the inventory is associated. If an HMIS produces CoC-level reporting on 2.07 <i>Bed and Unit Information</i> (LSA and/or HIC) for more than one continuum, records of inventory must be separate and associated with the CoC where the inventory is located.</p>

Header	Instruction
	<p>For projects that operate in a single continuum, there is a many-to-one relationship between this data element and 2.02 <i>Project Information</i>; however, at any given time, only one record for this data element will be current. For projects that operate in multiple CoCs, there is a similar many-to-one relationship with 2.03 <i>Continuum of Care Information</i>.</p> <p>Data entry errors should be corrected; a new record should be created to document a change in information. A new record is only required if a change has occurred.</p> <p>Not all fields are required for all projects. These fields must be transactional, meaning they must be able to record multiple values over time.</p> <p>Bed inventory fields are expected to be mutually exclusive categories and must accurately sum to the Total Bed Inventory.</p>
CSV	Inventory
2026 Revision Summary	No revisions

## 2.08 HMIS Participation Status

Header	Instruction
Element Name	HMIS Participation Status
Field 1 & Response	HMIS Participation Status
	0 Not Participating
	1 HMIS Participating
	2 Comparable Database Participating
Field 2	Participation Status Start Date ([date field])
Field 3	Participation Status End Date ([date field])
Element Type	Project Descriptor
Funder: Program-Component	All Programs – All Components

Header	Instruction
Project Type Applicability	All Project Types
Data Collected About	All Projects
Collection Point	Initial project setup reviewed at least annually and updated as needed to reflect changes.
System Logic & Other System Issues	<p>These fields must be transactional, meaning they must be able to record multiple values over time. HMIS Participation Status date ranges are expected to be mutually exclusive and shall not overlap.</p> <p>At any given time, all projects with a blank "Operating End Date" should have an HMIS Participation Status record with a blank Participation End Date.</p>

2026 Revision Summary	No revisions

## 2.09 Coordinated Entry Participation Status

Header	Instruction
Element Name	Coordinated Entry Participation Status
Field 1 & Response	Project is a Coordinated Entry Access Point
0	No
1	Yes
Dependent A – Dependent to Field 1 Response 1	Provided by CE Project
1	Homelessness Prevention Assessment, Screening, and/or Referral
2	Shelter Assessment, Screening, and/or Referral
3	Housing Assessment, Screening, and/or Referral
4	Direct Services (search and/or placement support)
Field 2 & Response	Project Receives CE Referrals
0	No
1	Yes

Header	Instruction
Field 3	CE Participation Status Start Date ([date field])
Field 4	CE Participation Status End Date ([date field])
Element Type	Project Descriptor
Funder: Program-Component	All Programs – All Components
Project Type Applicability	All HMIS Project Types
Data Collected About	All Projects
Collection Point	Initial HMIS project setup, reviewed/updated no less than annually.
System Logic & Other System Issues	<p>These fields must be transactional, meaning they must be able to record multiple values over time. CE Participation Status date ranges are expected to be mutually exclusive and shall not overlap.</p> <p>At any given time, all projects with a blank “Operating End Date” should have a CE Participation Status record with a blank CE Participation Status End Date.</p> <p>Field 1 – applicable to any project which conducts screenings, assessments, and/or referrals to other projects OR provides some direct service related to diversion, rapid resolution, or navigation. Responses in Dependent A are multi-select.</p> <p>Field 2 – This field is used in conjunction with project type to filter the list of projects populating field 4.20.C.</p>
CSV	CEParticipation
2026 Revision Summary	Corrected Field 4 to be “CE Participation Status End Date”

## UNIVERSAL DATA ELEMENTS

### 3.01 Name

Header	Instruction
Element Name	Name

Header	Instruction
Field 1 & Response	First ([text])
Field 2 & Response	Middle ([text])
Field 3 & Response	Last ([text])
Field 4 & Response	Suffix ([text])
Field 5 & Responses	Name Data Quality
	1 Full name reported
	2 Partial, street name, or code name reported
	8 Client doesn't know
	9 Client prefers not to answer
	99 Data not collected
Element Type	Universal
Funder: Program-Component	All Programs – All Components
Project Type Applicability	All HMIS Project Types
Data Collected About	All Clients
Collection Point	Record Creation
Relationship to Enrollment ID (an enrollment)	N/A
Relationship to Personal ID (a client)	One name per client
System Logic & Other System Issues	<p>HMIS end users must be able to edit data to correct errors or reflect changes in client responses. Systems may elect to utilize an extra field(s) for alias or for notes on name changes.</p> <p>Fields 1, 2, 3, and 4 have a 50-character limit when exporting in the HMIS CSV.</p>
CSV	Client
2026 Revision Summary	No revisions

### 3.02 Social Security Number

Header	Instruction
Element Name	Social Security Number
Field 1 & Response	Social Security Number
Field 2 & Responses	SSN Data Quality
	1 Full SSN reported
	2 Approximate or partial SSN reported
	8 Client doesn't know
	9 Client prefers not to answer
	99 Data not collected
Element Type	Universal
Funder: Program-Component	All Programs – All Components
Project Type Applicability	All HMIS Project Types
Data Collected About	All Clients
Collection Point	Record Creation
Relationship to Enrollment ID (an enrollment)	N/A
Relationship to Personal ID (a client)	One Social Security Number per client
System Logic & Other System Issues	<p>System stores collected nine-digit SSN in one field and the appropriate SSN data quality in another. An HMIS end user must be able to edit data to correct errors or reflect changes in client responses.</p> <p>An HMIS may include hyphens or other punctuation within the SSN to improve readability, but the SSN must be exportable as a single alphanumeric field containing a maximum of nine characters and no punctuation.</p> <p>HMIS software and HMIS Administrators may designate special <i>non-numeric</i> characters (e.g., the letter x) to indicate missing digits and otherwise devise methodologies to allow entry and effective matching of partial SSNs (if the system permits). Because missing digits may appear in any one of the nine placeholders, it is critical for the system to have a mechanism to indicate which digits</p>

Header	Instruction
	were missing when entering partial SSNs; an alphabetic character must be interpreted as a placeholder.  HMIS software may reject clearly invalid SSNs at the point of entry. Relevant Social Security Administration rules for a valid SSN are found in the <a href="#">HMIS Reporting Glossary</a> .

2026 Revision Summary	No revisions

### 3.03 Date of Birth

Header	Instruction
Element Name	Date of Birth
Field 1 & Response	Date of Birth
Field 2 & Responses	DOB Data Quality
1	Full DOB reported
2	Approximate or partial DOB reported
8	Client doesn't know
9	Client prefers not to answer
99	Data not collected
Element Type	Universal
Funder: Program-Component	All Programs – All Components
Project Type Applicability	All HMIS Project Types
Data Collected About	All Clients
Collection Point	Record Creation
Relationship to Enrollment ID (an enrollment)	N/A
Relationship to Personal ID (a client)	One Date of Birth per client
System Logic & Other	System stores collected Date of Birth (DOB) in one field and the appropriate DOB data quality type

Header	Instruction
System Issues	<p>in another. An HMIS end user must be able to edit data to correct errors or reflect changes in client responses.</p> <p>“Client doesn’t know,” “Client prefers not to answer,” and “Data not collected” are explanations for missing DOB data. These three responses are only valid in conjunction with a null DOB.</p> <p>One date format field for birth dates should be created in the HMIS software. Date of Birth must be exportable in the [date field] format.</p>
CSV	Client
2026 Revision Summary	No revisions

### 3.04 Race and Ethnicity

Header	Instruction
Element Name	Race and Ethnicity
Field 1 & Responses	Race and Ethnicity (as many as are applicable)
1	American Indian, Alaska Native, or Indigenous
2	Asian or Asian American
3	Black, African American, or African
6	Hispanic/Latina/o
7	Middle Eastern or North African
4	Native Hawaiian or Pacific Islander
5	White
8	Client doesn’t know
9	Client prefers not to answer
99	Data not collected
Field 2 & Response	Additional Race and Ethnicity Detail
	([Text])
Element Type	Universal
Funder: Program-Component	All Programs – All Components

Header	Instruction
<b>Project Type Applicability</b>	All HMIS Project Types
<b>Data Collected About</b>	All Clients
<b>Collection Point</b>	Record Creation
<b>Relationship to Enrollment ID (an enrollment)</b>	N/A
<b>Relationship to Personal ID (a client)</b>	One Race per client (multiple responses selected for a client are considered one data element/field in total)
<b>System Logic &amp; Other System Issues</b>	<p>An HMIS end user must be able to edit data to correct errors or reflect changes in client responses. An HMIS must accommodate the recording of up to seven race and ethnicity response categories per client.</p> <p>The optional Field 2 has a 100-character limit when exporting in the HMIS CSV.</p> <p>This is a multi-select field with logic limitations, as follows: "Client doesn't know," "Client prefers not to answer," and "Data not collected" are not races or an ethnicity; they are explanations for missing race and ethnicity data. None of these three responses are valid in conjunction with any other response.</p>
<b>CSV</b>	Client
<b>2026 Revision Summary</b>	Clarified in system logic that Field 2 is optional

### 3.07 Veteran Status

Header	Instruction
<b>Element Name</b>	Veteran Status
<b>Field 1 &amp; Responses</b>	Veteran Status
0	No
1	Yes
8	Client doesn't know
9	Client prefers not to answer
99	Data not collected

Header	Instruction
Element Type	Universal
Funder: Program-Component	All Programs – All Components
Project Type Applicability	All HMIS Project Types
Data Collected About	All Adults
Collection Point	Record Creation
Relationship to Enrollment ID (an enrollment)	N/A
Relationship to Personal ID (a client)	One Veteran status per client
System Logic & Other System Issues	<p>An HMIS end user must be able to edit data to correct errors or reflect changes in client responses or status, or to enter a response for a client who has turned 18.</p> <p>HMIS end users are not required to ask clients under 18 about veteran status; this does not mean that systems are required to hide or exclude this data element from data entry forms.</p> <p>HMIS end users may enter “No” for any client under 18. Systems may be programmed to automatically create a response for clients who turn 18 while enrolled; the auto-generated response should be “No.”</p>
CSV	Client
2026 Revision Summary	No revisions

### 3.08 Disabling Condition

Header	Instruction
Element Name	Disabling Condition
Field 1 & Responses	Disabling Condition
0	No
1	Yes
8	Client doesn't know

Header	Instruction
9	Client prefers not to answer
99	Data not collected
<b>Element Type</b>	Universal
<b>Funder: Program-Component</b>	All Programs – All Components
<b>Project Type Applicability</b>	All HMIS Project Types
<b>Data Collected About</b>	All Clients
<b>Collection Point</b>	Project start (Edit as necessary to reflect new information)
<b>Relationship to Enrollment ID (an enrollment)</b>	No more than one Disabling Condition per Enrollment
<b>Relationship to Personal ID (a client)</b>	One or more Disabling Condition per Client
<b>System Logic &amp; Other System Issues</b>	<p>An HMIS end user must be able to set the value of this data element to “Yes” independent of any other data element.</p> <p>Disabling Condition may either be entered by the HMIS end user independently of any other special need field, or data in this field may be inferred by the responses to “ability to live independently” for 4.05 <i>Physical Disability</i>, 4.07 <i>Chronic Health Condition</i>, 4.09 <i>Mental Health Disorder</i>, or 4.10 <i>Substance Use Disorder</i> or an answer of “Yes” to 4.06 <i>Developmental Disability</i> or 4.08 <i>HIV/AIDS</i>.</p> <p>If the system auto-populates the Disabling Condition data element, an HMIS end user must be able to override a system-generated “No” with “Yes.” Further, if Disabling Condition is auto-populated with “Yes” based solely on a qualifying record for data elements 4.05–4.10 (i.e., the user-entered response to Disabling Condition was something other than “Yes” but was changed to “Yes” by the system due to an answer in the special needs fields (4.05–4.10)) and the special needs record is later deleted or edited such that it doesn’t meet the criteria for a disabling condition, the auto-populated “Yes” response must revert to the HMIS end user’s original response.</p> <p>Regardless of the response to this data element, if a client’s data indicates a response for data</p>

Header	Instruction
	elements 4.05 <i>Physical Disability</i> , 4.07 <i>Chronic Health Condition</i> , 4.09 <i>Mental Health Disorder</i> , and/or 4.10 <i>Substance Use Disorder</i> that meets the criteria for a disabling condition (Dependent Field A = "Yes"), <b>OR</b> 4.06 <i>Developmental Disability</i> or 4.08 <i>HIV/AIDS</i> = "Yes," reporting should always count the client as having a disabling condition.

### 3.15 Relationship to Head of Household

Header	Instruction
<b>Element Name</b>	Relationship to Head of Household

Header	Instruction
<b>Field 1 &amp; Responses</b>	Relationship to Head of Household
1	Self (Head of Household)
2	Head of Household's child
3	Head of Household's spouse or partner
4	Head of Household's other relation member (other relation to Head of Household)
5	Other: non-relation member
<b>Element Type</b>	Universal
<b>Funder: Program-Component</b>	All Programs – All Components
<b>Project Type Applicability</b>	All HMIS Project Types
<b>Data Collected About</b>	All Clients
<b>Collection Point</b>	Project Start
<b>Relationship to Enrollment ID (an enrollment)</b>	No more than One Relationship to Head of Household per Enrollment
<b>Relationship to Personal ID (a client)</b>	One or more Relationship to Head of Household per Client
<b>System Logic &amp; Other System Issues</b>	<p>There must be exactly one Head of Household for each household (3.15 <i>Relationship to Head of Household</i> = 1).</p> <p>It is expected that both the Head of Household and the household member(s) are always in HMIS together in the same household for any project in which they enrolled together.</p> <p>The system must allow for the Head of Household to leave the household and have the household maintain the same 5.09 <i>Household Identifier</i> while assigning a new Head of Household. If the Head of Household leaves the project while other household members remain, another member of the household currently participating in the project must be designated as the Head of Household (retroactively to the beginning of the household's entire enrollment). This may require additional data entry on this household member as some fields are specific to the Head of Household and may not have been collected at project start. For more information, please see 5.09 <i>Household Identifier</i>.</p>

Header	Instruction
	The system must allow for non-Heads of Household to enter or exit the household without having to complete a full program exit and new project start of the entire household.

### 3.16 Enrollment CoC

Header	Instruction
Element Name	Enrollment CoC
Field 1 & Response	HUD assigned CoC code for the client's location at project start
Element Type	Universal
Funder: Program-Component	All Programs – All Components
Project Type Applicability	All HMIS Project Types
Data Collected About	Head of Household
Collection Point	Project Start
Relationship to Enrollment ID (an enrollment)	One Enrollment CoC per Enrollment
Relationship to Personal ID (a client)	One or more Enrollment CoC per Client
System Logic & Other System Issues	<p>All project stays must be associated with a single Continuum of Care code. This data element must be user-entered for all projects with more than one Continuum of Care code identified in Project Descriptor Data Element 2.03 <i>Continuum of Care Information</i>. It may be auto-populated for projects that operate in a single CoC.</p> <p>To allow projects operating in multiple continuums to enter data into a single "host" HMIS and provide data to each of the continuums in which they are serving clients, a continuum must be</p>

Header	Instruction
	<p>identified at each project start. The Continuum of Care code will be used in continuum reporting in the host HMIS to exclude irrelevant data; it will also be used as a parameter for data export to provide relevant data to other continuums.</p> <p>If this field is collected for household members other than the Head of Household, their Enrollment CoC data must reflect the CoC the Head of Household is located in as of project start.</p> <p>Systems may set up defaults to the continuum code of an HMIS implementation but must be able to accept any other continuum code identified in data element 2.03 <i>Continuum of Care Information</i> for the project.</p> <p>For data quality purposes, the CoC codes in this data element should be limited to the same CoC codes used for data element 2.03 <i>Continuum of Care Information</i>.</p>

### 3.20 Housing Move-In Date

Header	Instruction
Element Name	Housing Move-In Date
Field 1 & Response	Housing Move-in Date ( <i>[date field]</i> )
Element Type	Universal
Funder: Program-Component	<p>All Programs – All Permanent Housing Components</p> <p>Pay for Success – All component types</p> <p>VA: Grant Per Diem – Case Management/Housing Retention</p>
Project Type Applicability	<p>3: PH – Permanent Supportive Housing</p> <p>6: Services Only (VA: GPD CM/HR ONLY)</p> <p>7: Other (Pay for Success ONLY)</p> <p>9: PH – Housing Only</p> <p>10: PH – Housing with Services (no disability required for entry)</p>

Header	Instruction
	13: PH – Rapid Re-Housing
Data Collected About	Head of Household
Collection Point	Occurrence Point: At move-in – must be entered if/when a household moves into any type of permanent housing, regardless of funding source or whether the project is providing the rental assistance to differentiate between clients who are housed and those who are experiencing homelessness at different points during their enrollment.
Relationship to Enrollment ID (an enrollment)	No more than one Housing Move-In Date per Enrollment
Relationship to Personal ID (a client)	One or more Housing Move-In Date per Client
System Logic & Other System Issues	<p>Housing Move-In Date must be a date occurring either on or between the “project start date” and “project exit date.”</p> <p>There can be no more than one Housing Move-in Date per enrollment. Once a Housing Move-in Date has been recorded for an enrollment, it should not be removed from the client’s record, even if they subsequently lose that housing situation. HMIS end users must be able to edit data only to correct errors.</p> <p>HMIS software must NOT auto-populate Housing Move-In Date from one enrollment record (5.06 <i>Enrollment Identifier</i>) to another.</p>
CSV	Enrollment
2026 Revision Summary	Updates for inclusion of VA: Grant Per Diem – Case Management/Housing Retention

### 3.917 Prior Living Situation

The former universal data elements 3.9 *Residence Prior to Project Start* and 3.17 *Length of Time on the Streets, in an Emergency Shelter or in a Safe Haven* were combined into one data element 3.917 *Living Situation* in 2014 v5. The data element was split into two sub-data elements which use only the fields and responses necessary for the population being asked the question. **3.917A** is to be used for all persons entering a Street Outreach, Emergency Shelter (both entry exit and night-by-night), or Safe Haven project and **3.917B** is to be

used for persons entering all other HMIS project types. The internal HMIS field numbers for the fields and dependents of the sub-data elements MUST be the same for like responses. With this separation and clarification, the definition of chronic homelessness as identified in the final rule in the [Federal Register](#) published December 5, 2015 can be fully reported through an HMIS.

### 3.917A Prior Living Situation

**For persons entering HMIS Project Type: Street Outreach, Emergency Shelter, & Safe Haven**

Header	Instruction
<b>Element Name</b>	Prior Living Situation (A)
<b>Field 1 &amp; Responses</b>	Type of Residence [See <a href="#">Appendix A – Living Situation Option List</a> ]
<b>Dependent A – Dependent to Field 1 Response 435</b>	Rental Subsidy Type [See <a href="#">Appendix A</a> ]
<b>Field 2 &amp; Responses</b>	Length of stay in prior living situation
10	One night or less
11	Two to six nights
2	One week or more, but less than one month
3	One month or more, but less than 90 days
4	90 days or more, but less than one year
5	One year or longer
8	Client doesn't know
9	Client prefers not to answer
99	Data not collected
<b>Field 3 &amp; Responses</b>	Approximate date this episode of homelessness started: <i>([date field])</i>
<b>Field 4 &amp; Responses</b>	Regardless of where they stayed last night, <u>number of times</u> the client has been on the streets, in ES, or SH in the past three years including today
1	One Time
2	Two times
3	Three times
4	Four or more times
8	Client doesn't know
9	Client prefers not to answer

Header	Instruction
99	Data not collected
<b>Field 5 &amp; Responses</b>	Total number of months homeless on the street, in ES, or SH in the past three years
101	One month (this time is the first month)
102-112	([integers 2-12])
113	More than 12 months
8	Client doesn't know
9	Client prefers not to answer
99	Data not collected
<b>Element Type</b>	Universal
<b>Funder: Program-Component</b>	All Programs – All Components which are typed as Street Outreach, Emergency Shelter – Entry Exit, Safe Haven, or Emergency Shelter – Night-by-Night.
<b>Project Type Applicability</b>	0: Emergency Shelter – Entry Exit 1: Emergency Shelter – Night-by-Night 4: Street Outreach 8: Safe Haven
<b>Data Collected About</b>	Head of Household and Adults
<b>Collection Point</b>	Project Start
<b>Relationship to Enrollment ID (an enrollment)</b>	No more than one Living Situation per Enrollment
<b>Relationship to Personal ID (a client)</b>	One or more Living Situation per Client
<b>System Logic &amp; Other System Issues</b>	<p>This data element, 3.917A is required for all projects which are typed in an HMIS as Emergency Shelter (either entry exit or night-by-night type), Street Outreach, and Safe Haven. No substitution in language or form may be made in this data element.</p> <p><b>This data element requires no dependencies, and all fields are to be visible and entered by the HMIS end user.</b></p>

Header	Instruction
	<p>HMIS end users must be able to edit data to correct errors or to enter a response for a client who has turned 18. Responses to this data element must always reflect living situation and circumstances as of the Project Start Date and not at the time of collection.</p> <p>The internal field numbers for each of the fields and dependents contained within this data element MUST be the same as the field numbers used for 3.917B.</p>

## PROGRAM SPECIFIC DATA ELEMENTS

### COMMON PROGRAM SPECIFIC DATA ELEMENTS

#### 4.02 Income and Sources

Header	Instruction
<b>Element Name</b>	Income and Sources
<b>Field 1 &amp; Response</b>	Information Date (date information was collected) ( <i>[date field]</i> )
<b>Field 2 &amp; Responses</b>	Income from Any Source
0	No
1	Yes
8	Client doesn't know
9	Client prefers not to answer
99	Data not collected
	<i>[If yes for "Income from any source"]</i> Indicate all sources and dollar amounts for the source that apply
<b>Field 3 &amp; Responses</b>	Earned income (i.e., employment income)
0	No
1	Yes
<b>Dependent A – Dependent to Field 3 &amp; Response 1</b>	Monthly Amount ( <i>[currency/decimal]</i> )
<b>Field 4 &amp; Responses</b>	Unemployment Insurance
0	No
1	Yes
<b>Dependent B – Dependent to Field 4 &amp; Response 1</b>	Monthly Amount ( <i>[currency/decimal]</i> )
<b>Field 5 &amp; Responses</b>	Supplemental Security Income (SSI)
0	No
1	Yes

Header	Instruction
<b>Dependent C – Dependent to Field 5 &amp; Response 1</b>	Monthly Amount ( <i>[currency/decimal]</i> )
<b>Field 6 &amp; Responses</b>	Social Security Disability Insurance (SSDI)
0	No
1	Yes
<b>Dependent D – Dependent to Field 6 &amp; Response 1</b>	Monthly Amount ( <i>[currency/decimal]</i> )
<b>Field 7 &amp; Responses</b>	VA Service-Connected Disability Compensation
0	No
1	Yes
<b>Dependent E– Dependent to Field 7 &amp; Response 1</b>	Monthly Amount ( <i>[currency/decimal]</i> )
<b>Field 8 &amp; Responses</b>	VA Non-Service-Connected Disability Pension
0	No
1	Yes
<b>Dependent F – Dependent to Field 8 &amp; Response 1</b>	Monthly Amount ( <i>[currency/decimal]</i> )
<b>Field 9 &amp; Responses</b>	Private disability insurance
0	No
1	Yes
<b>Dependent G – Dependent to Field 9 &amp; Response 1</b>	Monthly Amount ( <i>[currency/decimal]</i> )
<b>Field 10 &amp; Responses</b>	Worker’s Compensation
0	No
1	Yes
<b>Dependent H – Dependent to Field 10 &amp; Response 1</b>	Monthly Amount ( <i>[currency/decimal]</i> )
<b>Field 11 &amp; Responses</b>	Temporary Assistance for Needy Families (TANF) <i>[or use local name]</i>
0	No

Header	Instruction
1	Yes
<b>Dependent I – Dependent to Field 11 &amp; Response 1</b>	Monthly Amount ( <i>[currency/decimal]</i> )
<b>Field 12 &amp; Responses</b>	General Assistance (GA) <i>[or use local name]</i>
0	No
1	Yes
<b>Dependent J – Dependent to Field 12 &amp; Response 1</b>	Monthly Amount ( <i>[currency/decimal]</i> )
<b>Field 13 &amp; Responses</b>	Retirement Income from Social Security
0	No
1	Yes
<b>Dependent K – Dependent to Field 13 &amp; Response 1</b>	Monthly Amount ( <i>[currency/decimal]</i> )
<b>Field 14 &amp; Responses</b>	Pension or retirement income from a former job
0	No
1	Yes
<b>Dependent L – Dependent to Field 14 &amp; Response 1</b>	Monthly Amount ( <i>[currency/decimal]</i> )
<b>Field 15 &amp; Responses</b>	Child support
0	No
1	Yes
<b>Dependent M – Dependent to Field 15 &amp; Response 1</b>	Monthly Amount ( <i>[currency/decimal]</i> )
<b>Field 16 &amp; Responses</b>	Alimony and other spousal support
0	No
1	Yes
<b>Dependent N – Dependent to Field 16 &amp; Response 1</b>	Monthly Amount ( <i>[currency/decimal]</i> )
<b>Field 17 &amp; Responses</b>	Other source

Header	Instruction
0	No
1	Yes
<b>Dependent O – Dependent to Field 17 &amp; Response 1</b>	Monthly Amount ( <i>[currency/decimal]</i> )
<b>Dependent P – Dependent to Field 17 &amp; Response 1</b>	<i>[If Yes for “Other Source”]</i> Text box for Specify Source
<b>Field 18 &amp; Response</b>	Total Monthly Income [ <u>  </u> <u>  </u> <u>  </u> .00]
<b>Element Type</b>	Program Specific
<b>Funder: Program-Component</b>	<p>HUD: CoC – Collection required for all components except SSO Coordinated Entry</p> <p>HUD: CoC – Youth Homeless Demonstration Program (YHDP) – Collection required for all components except SSO Coordinated Entry</p> <p>HUD: CoC Builds – Collection required for all components</p> <p>HUD: ESG – Collection required for all components except ES-NbN</p> <p>HUD: ESG RUSH – Collection required for all components except Emergency Shelter or Street Outreach</p> <p>HUD: HOPWA – Collection required for all components</p> <p>HUD: Unsheltered Special NOFO – Collection required for all components except SSO Coordinated Entry</p> <p>HUD: Rural Special NOFO – Collection required for all components except SSO Coordinated Entry</p> <p>HUD: HUD-VASH – Collection required for HUD VASH Collaborative Case Management</p> <p>HUD: PFS – Collection required for all permanent housing projects</p> <p>HHS: PATH – Collection required for all components</p> <p>HHS: RHY – Collection only required for MGH, TLP, and Demo</p> <p>VA: SSVF – Collection required for RRH and Homelessness Prevention</p> <p>VA: GPD – Collection required for all components</p> <p>VA: Community Contract Safe Haven</p> <p>VA: CRS Contract Residential Services</p>
<b>Project Type Applicability</b>	All HMIS Project Types
<b>Data Collected About</b>	Head of Household and Adults

Header	Instruction
Collection Point	Project Start, Update, Annual Assessment, and Project Exit
Relationship to Enrollment ID (an enrollment)	One or more Income and Sources per Enrollment
Relationship to Personal ID (a client)	One or more Income and Sources per Client
System Logic & Other System Issues	<p>The system must record the appropriate data collection stage for each record of this data element.</p> <p>Systems must allow users to create “update” records to document changes between required collection points. Allow corrections for data entry errors at all stages.</p> <p>Dependent P has a 50-character limit when exporting in the HMIS CSV.</p> <p>Data for the fields of this data element should be logically consistent. It is expected that an HMIS is programmed to enforce these rules or to notify users when inconsistent data has been entered. If there is a “yes” response to “Income from any source” then at least one source of income must be identified. If a source is identified, then a “Monthly amount” must be entered. If a “Monthly amount” is entered for any source, then a “Total monthly income” amount is required.</p> <p>If there is a “no” response to Field 2 “Income from any source” then the HMIS must automatically record all sources as “no” and leave dollar amounts null or \$0.00.</p> <p>To reduce data collection and reporting burden:</p> <ul style="list-style-type: none"> <li>• Systems are encouraged to auto-calculate total monthly income to avoid mathematical errors and reduce data collection (generate a \$0.00 for total monthly income if “Income from any source” = “no”).</li> <li>• If a client reports receiving income, an HMIS may be designed such that HMIS end users only need to directly enter “yes” for the income source the client receives and have the HMIS automatically generate a “no” response for the other income sources.</li> <li>• An HMIS may facilitate data accuracy by automatically changing a “no” in “income from any source” to a “yes” if source(s) and dollar amount(s) are indicated.</li> </ul>

Header	Instruction
	Updates are required for persons aging into adulthood. An HMIS end user must be able to create or edit the Income and Sources record at project start as well as enter an update as of the participant's 18 <sup>th</sup> birthday.

<b>Relationship to Enrollment ID (an enrollment)</b>	One or more Coordinated Entry Assessment per enrollment
<b>Relationship to Personal ID</b>	One or more Coordinated Entry Assessment per client

Header	Instruction
(a client)	
<b>System Logic &amp; Other System Issues</b>	<p>Field 2 – It is recommended that a list managed by an HMIS Administrator be used for this field. If such functionality does not exist in the HMIS, a text box must be provided.</p> <p>Fields 5 &amp; 6 and Dependents A and B are representative of whatever assessment a community uses. There is no specified structure or format for an assessment, and an HMIS might have more than one type of assessment (crisis needs, housing needs, or multiples of each). The system must be able to treat a single assessment recorded for a client as one unit of data including the fields listed here as well as the community-defined fields.</p> <p>Field 5 and Dependent A are a list of key-value (question and response) pairs for every question in the assessment, e.g., “Where did you sleep last night” / “On the streets.”</p> <p>Similarly, Field 6 and Dependent B are a list of key-value (result type and result) pairs used to contain any number of possible results, scores, or calculations on the assessment. For example, one assessment might have three results: “Housing stability score” / “10”; “Total score” / “81”; “Recommended placement” / “RRH.”</p> <p>Fields 1-4 and field 7 will be required for reporting purposes. Fields 5 &amp; 6 are included as placeholders for communities who currently do, or want to in the future, collect CE Assessment questions, answers, and results in HMIS. These fields also serve as a common frame of reference when transferring data via HMIS CSV.</p> <p>Data must be able to be added in multiple stages to complete a client record for a single assessment.</p>

## HUD-HOPWA Only Required Data Elements

### W1 Services Provided – HOPWA

Header	Instruction
<b>Element Name</b>	Services Provided – HOPWA
<b>Field 1 &amp; Response</b>	Date of Service ( <i>[date field]</i> )
<b>Field 2 &amp; Responses</b>	Type of Service
	1 Adult day care and personal assistance
	2 Case management
	3 Child care
	4 Criminal justice/legal services
	5 Education
	6 Employment and training services
	7 Food/meals/nutritional services
	8 Health/medical care
	9 Life skills training
	10 Mental health care/counseling
	11 Outreach and/or engagement
	12 Substance use services/treatment
	13 Transportation
	14 Other HOPWA funded service

Header	Instruction
Element Type	Program Specific
Funder: Program-Component	HUD: HOPWA – Collection required for all components
Project Type Applicability	0: Emergency Shelter – Entry Exit 2: Transitional Housing 3: PH – Permanent Supportive Housing (disability required for entry) 6: Services Only 12: Homelessness Prevention
Data Collected About	All clients receiving services
Collection Point	Occurrence Point (As Provided)
Relationship to Enrollment ID (an enrollment)	Zero or more Services Provided – HOPWA per Enrollment
Relationship to Personal ID (a client)	Zero or more Services Provided – HOPWA per Client
System Logic & Other System Issues	Data are time sensitive and may change over the project stay. Systems must allow for multiple records per project stay to record each instance and must record the date the service was provided.  The information recorded for this data element is transactional; each time the service is delivered, a record of the date of service and the service data element must be maintained.  If the service benefits the entire household, it may be recorded solely for the Head of Household.

Collection Point	Project Start
Relationship to Enrollment ID (an enrollment)	No more than one Mental Health Consultation Status per Enrollment

Header	Instruction
Relationship to Personal ID (a client)	One or more Mental Health Consultation Status per Client
System Logic & Other System Issues	Only one Mental Health Consultation Status is allowed for each project stay. If a client returns to the project at a later date, the previous data does not apply and must be entered based on the new project start and project exit date service period.
CSV	Enrollment
2026 Revision Summary	New data element

## METADATA ELEMENTS

The term *metadata* is often defined as “data about data.” Instead of capturing information about a project or a client, Metadata Elements capture information about the data itself:

- When it was collected
- When it was entered into HMIS
- Who entered it
- Which project is responsible for it

The Metadata Elements are intended to facilitate reporting from HMIS, to simplify the writing of programming specifications, and to provide an audit trail. These metadata elements do not represent an attempt to standardize the way that an HMIS stores data. As long as an HMIS is able to accomplish the purposes identified for the Metadata Elements, the software is not required to use the exact metadata elements listed here. Future programming specifications for reports will reference these Metadata Elements. The Metadata Elements are:

### 5.01 Date Created

Header	Instruction
Element Name	Date Created
Field 1 & Response	<i>([date field])</i>
Element Type	Metadata
Funder: Program-Component	All Programs – All Components

Header	Instruction
Project Type Applicability	All HMIS Project Types
Data Collected About	All Records
Collection Point	Record Creation
System Logic & Other System Issues	<p>HMIS auto-generated. An HMIS must have the ability to identify the date on which a record was first created in HMIS for any data element. Data elements that are collected together on a single form may share a single Date Created. HMIS end users and HMIS Administrators must not have the ability to enter or to modify the information in this Metadata Element.</p> <p>An HMIS must store this metadata for all client-level data elements. It is not necessary that this information be displayed in the user interface of the HMIS, but it must be accessible in the programming of reports. Date Created must not change when a data element is edited. If two client records representing the same person are merged, the earliest Date Created must be retained for data elements for which an HMIS stores only one value per client (e.g., name, SSN, date of birth).</p>
CSV	<*><DateCreated> (Field collected across multiple files)
2026 Revision Summary	No revisions

## 5.02 Date Updated

Header	Instruction
Element Name	Date Updated
Field 1 & Response	<i>([date field])</i>
Element Type	Metadata
Funder: Program-Component	All Programs – All Components
Project Type Applicability	All HMIS Project Types
Data Collected About	All Data Elements
Collection Point	Record Creation / Edit
System Logic & Other System Issues	HMIS auto-generated. Created by the HMIS when a record for any data element is first created and updated by the HMIS every time the record is saved by an HMIS end user.

Header	Instruction
	An HMIS must be able to determine, for all data elements, the date on which it was last edited by an HMIS end user. Each time an HMIS end user saves data, the HMIS must store the current date as the Date Updated with the data being saved. Data elements that are collected together on a single form may share a single Date Updated. HMIS end users and HMIS Administrators must not have the ability to enter or to modify the information in this metadata element.
CSV	<*><DateUpdated> (Field collected across multiple files)
2026 Revision Summary	No revisions

### 5.03 Data Collection Stage

Header	Instruction
Element Name	Data Collection Stage
Field 1 & Response	Data Collection Stage
	1 Project start
	2 Project update
	5 Project annual assessment
	3 Project exit
	6 Post exit
Element Type	Metadata
Funder: Program-Component	All Programs – All Components
Project Type Applicability	All HMIS Project Types
Data Collected About	All Data Elements with multiple data collection stages
Collection Point	Client Data Entry of Specified Elements
System Logic & Other System Issues	HMIS auto-generated or HMIS end user selected. An HMIS must be able to distinguish between data collected at different points in time or stages (e.g., at project start, project update (during a project stay), and at project exit).

Header	Instruction
	<p>Data elements that are collected together on a single form generally share a single Data Collection Stage.</p> <p>HMIS end users should not have the ability to create more than one record per data element at either project start or project exit (e.g., for a single project stay, a client should have one and only one record of 4.02 <i>Income and Sources</i> identified at project start).</p> <p>The system must allow a user to save a dated record for a client’s annual assessment as an “annual assessment.” The response categories correlate to response categories defined in the CSV specifications. An “annual assessment” is required as noted in the collection stage for some PSDEs. The Annual Assessment must include updating both the Head of Household’s record and any other household members at the same time.</p> <p>Data elements for which a collection point of “annual assessment” is required and must be collected at least once annually for each client. An Annual Assessment and the <i>Information Date</i> must be no more than 30 days before or after the anniversary of the Head of Household’s <i>Project Start Date</i>; information must be accurate as of the <i>Information Date</i>.</p> <p>The date range of the Annual Assessment is based entirely around the Head of Household’s <i>Project Start Date</i>, not on the date of the client’s or Head of Household’s previous assessment. For all projects which require an annual assessment, data collected as part of an annual assessment must have a <i>Data Collection Stage</i> of “annual assessment.”</p> <p>There should be one and only one record for each data element with a <i>Data Collection Stage</i> of “annual assessment” within the 30 days before or after the anniversary of the Head of Household’s <i>Project Start Date</i>. Regardless of whether the responses have changed since project start or the previous annual assessment, a new record must be created for each annual assessment such that it is possible to view a history, by date, of the values for each data element.</p>

## 5.04 Information Date

Header	Instruction
Element Name	Information Date
Field 1 & Response	<i>([date field])</i>
Element Type	Metadata
Funder: Program-Component	All Programs – All Components
Project Type Applicability	All HMIS Project Types
Data Collected About	As Specified in Data Element Definitions
Collection Point	Client Program-Specific Data Entry
System Logic & Other System Issues	<p>This Metadata Element is a hybrid in that it pertains to the client data and not directly to the client, but it will be entered in HMIS by HMIS end users.</p> <p>Throughout the Data Dictionary, this Metadata Element has been added to the data elements where it applies (e.g., 4.02 <i>Income and Sources</i>, with Response 1 Information Date). The Metadata Element is included here to provide further information for HMIS vendors and HMIS Administrators.</p> <p>Data that is collected the first time the client is entered into HMIS (e.g., 3.01 <i>Name</i>, 3.02 <i>Social Security Number</i>) do not require an Information Date.</p> <p>Data that is collected only at project start or only at project exit, may be assumed to have an Information Date that matches the Project Start Date or Project Exit Date, respectively.</p> <p>Data elements that are collected together on a single form generally share a single Information Date. This Metadata Element is applicable to all data elements which can change over time.</p>

CSV	<*><InformationDate> (Field collected across multiple files)
2026 Revision Summary	Clarified language about data collected only at project start or only at project exit.

## 5.05 Project Identifier

Header	Instruction
Element Name	Project Identifier
Field 1 & Response	Project Identifier (2.02 <i>Project Information</i> ) of the project that entered or edited the data
Element Type	Metadata
Funder: Program-Component	All Programs – All Components
Project Type Applicability	All HMIS Project Types
Data Collected About	Specified Data Elements
Collection Point	Record Creation/Edit
System Logic & Other System Issues	<p>HMIS auto-generated or HMIS end user selected. If this is HMIS end user selected, HMIS software must enforce uniqueness of this identifier.</p> <p>Data elements that are collected together on a single form/screen generally share a single Project Identifier. To report on data quality on a project's report, it is first necessary to establish that the project in question was responsible for the data.</p> <p>This is a basic requirement that assumes a simple relationship between clients and projects. In circumstances where one project may be responsible for entering data that would appropriately appear on another project's required report (e.g., a central intake point), it may be necessary to create a more sophisticated method to establish responsibility for the data entered.</p>
CSV	<*><ProjectID> (Field collected across multiple files)

## 5.06 Enrollment Identifier

Header	Instruction
Element Name	Enrollment Identifier
Field 1 & Response	A unique project start identifier used to associate data with a particular period of service.
Element Type	Metadata
Funder: Program-Component	All Programs – All Components
Project Type Applicability	All HMIS Project Types
Data Collected About	All Enrollment Level Data
Collection Point	Record Creation
System Logic & Other System Issues	<p>HMIS auto-generated. The data element should be created by the HMIS at the time that the record of a project start is first entered into HMIS and should be stored with any data that pertains to that particular period of service.</p> <p>Data elements that are collected together on a single form/screen may share a single Enrollment Identifier. An HMIS should be able to correlate data to a specific project stay.</p> <p>This metadata element must be stored with all data elements identified in this document as having a collection point “Project Start.”</p>
CSV	<*><EnrollmentID> (Field collected across multiple files)

## 5.07 User Identifier

Header	Instruction
Element Name	User Identifier
Field 1 & Response	A unique ID used to associate data with the user who entered and/or edited it
Element Type	Metadata
Funder: Program-Component	All Programs – All Components
Project Type Applicability	All HMIS Project Types

Header	Instruction
Data Collected About	All Records
Collection Point	All Data Collection Points/Stages
System Logic & Other System Issues	<p>HMIS generated. Each HMIS end user must have a unique identifier stored in the HMIS. Every time data is entered or edited in HMIS, the HMIS must keep a record of which HMIS end user entered or edited the data based on the credentials supplied at the time of login.</p> <p>The data element should be stored with any Universal or Program-Specific Data Element entered or edited in an HMIS.</p> <p>It must be possible to determine, for all client-level data, which HMIS end user entered it in the HMIS. Each time an HMIS end user saves data, the HMIS must store the User Identifier of that HMIS end user with the data being saved.</p> <p>Data elements that are collected together on a single form may share a single User Identifier. HMIS end users must not have the ability to enter or to modify the information in this Metadata Element.</p> <p>If a data element is edited, the HMIS must retain the original value, along with the User Identifier of the HMIS end user who entered it, in addition to storing the new value and the User Identifier of the editing HMIS end user.</p>
CSV	<*><UserID> (Field collected across multiple files)

## 5.08 Personal Identifier

Header	Instruction
Element Name	Personal Identifier
Field 1 & Response	Personal ID <i>[HMIS Generated]</i>
Element Type	Metadata

Header	Instruction
Funder: Program-Component	All Programs – All Components
Project Type Applicability	All HMIS Project Types
Data Collected About	All Clients
Collection Point	Record Creation
System Logic & Other System Issues	<p>The purpose of this data element is to ensure that, regardless of how many client records exist for a single person in an HMIS, that person is only counted once for reporting purposes. While the expectation is that every effort will be made to minimize duplicate client records, for those instances where duplication is unavoidable, the Personal ID must link a given person’s client records for the purposes of deduplication within reports.</p> <p>A Personal ID is an automatically generated identifier created by an HMIS application. A Personal ID must be static and unique to a single individual within an HMIS implementation, regardless of how many client records exist for the individual. There is no required format for generating a Personal ID; however, the Universal Data Elements used to create a Personal ID should not be visible in the Personal ID.</p> <p>The Personal ID must be able to be attached to the same individual when served by multiple projects. There is a one-to-one relationship between Personal ID and 3.01 <i>Name</i>, 3.02 <i>Social Security Number</i>, 3.03 <i>Date of Birth</i>, 3.04 <i>Race and Ethnicity</i>, and 3.07 <i>Veteran Status</i> or a combination of these that provides a high degree of confidence that multiple client records represent the same individual.</p> <p>HMIS must have functionality to allow the HMIS Administrators to de-duplicate multiple client records with distinct Personal IDs that are identified as representing the same individual based on identifying information.</p>
CSV	Client
2026 Revision Summary	Removed reference to Gender 3.06

## 5.09 Household Identifier

Header	Instruction
Element Name	Household Identifier
Field 1 & Response	Household ID <i>[HMIS Generated]</i>
Element Type	Metadata
Funder: Program- Component	All Programs – All Components
Project Type Applicability	All HMIS Project Types
Data Collected About	All Clients
Collection Point	Project Start
System Logic & Other System Issues	<p>A Household ID will be assigned to each household at each project start and applies for the duration of that project stay to all members of the household served.</p> <p>The Household ID must be automatically generated by an HMIS application to ensure that it is unique. The Household ID must be unique within each HMIS implementation regardless of how many CoCs it covers. This includes data warehouses that may be pulling in data from multiple HMIS instances, and one or more CoCs.</p> <p>The Household ID has no meaning beyond a single “household enrollment”; it is used in conjunction with the 2.02.1 <i>Project ID</i>, 3.10 <i>Project Start Date</i>, and 3.11 <i>Project Exit Date</i> to link records for household members together and indicate that they were served together. The Household ID is to be unique to each household stay in a project; reuse of the identification for the same or similar household upon readmission into the project is unacceptable.</p> <p>Persons may join a household with members who have already begun a project start or may leave a project while other members of the household remain in the project. A common Household ID must be assigned to each member of the same household.</p> <p>Persons in a household (either adults or children) who are not present when the household</p>

Header	Instruction
	initially applies for assistance and later join the household should be assigned the same Household ID that links them to the rest of the persons in the household. The early departure of a household member would have no impact on the Household ID. A household member who leaves and returns to the same household while others in the household remain enrolled should be reassigned the same Household ID as that member's earlier enrollment.
CSV	Enrollment
2026 Revision Summary	No revisions

## 5.10 Implementation Identifier

Header	Instruction
Element Name	Implementation Identifier
Field 1 & Response	Implementation ID [ <i>Vendor Generated</i> ]
Element Type	Metadata
Data Collected About	All HMIS Implementations
Collection Point	Upon creation of HMIS implementation
System Logic & Other System Issues	<p>The purpose of Implementation ID is to indicate the scope of uniqueness of the primary keys within an export. Each implementation of HMIS is unique and the Implementation ID is to identify that exported data is affiliated with a given HMIS implementation.</p> <p>For example, an HMIS vendor providing HMIS software to two distinct CoCs with two distinct HMIS implementations would have different Implementation IDs for those different implementations. Alternatively, an HMIS vendor providing HMIS software to two distinct CoCs sharing an HMIS implementation would have the same Implementation ID.</p> <p>A unique Implementation ID must be created per HMIS instance, but there is no required format.</p>

2026 Revision Summary	No revisions

## REQUIRED COLLECTION POINTS AND METADATA ELEMENTS TABLE SUMMARY

### Required Collection Points

HMIS end users must be able to enter each data element at the appropriate point in time, as identified in each individual data element definition and summarized in the table below.

### Data Elements with Multiple Collection Points

- Data elements with multiple collection points must be recorded with 5.03 *Data Collection Stage*.
- There may be no more than one record per 5.06 *Enrollment ID* of any multiple-point data element with a 5.03 *Data Collection Stage* of “project start” or “project exit.”
- Users must be able to create a theoretically infinite number of records per 5.06 *Enrollment ID* with a data collection stage of “update” or “annual assessment” for multiple-point data elements.

### Data Elements with a Single Collection Point

- Data elements with a single collection point may be recorded with 5.03 *Data Collection Stage*, but it is not required.
- There may be no more than one record per 5.06 *Enrollment ID* of any data element collected only at project start, only at project exit, or only post-exit.
- Users must be able to create a theoretically infinite number of records per 5.06 *Enrollment ID* for single-point data elements with a plain “X” in the “Update/Occurrence Point” column in the table below.
- There may be no more than one record per 5.06 *Enrollment ID* for single-point data elements with “X (0..1)” in the “Update/Occurrence Point” column in the table below.

### Base Metadata

5.01 *Date Created*, 5.02 *Date Updated*, and 5.07 *User Identifier* are not shown in the table below; these base metadata elements are required for every data element. Data elements collected on a single form/stored as fields in one record of a table may share a single set of this base metadata as long as the data elements, as they are defined by this Dictionary, are collected at the same point.

 **Example 1:** 5.08 *Personal ID*, 3.02 *Social Security Number*, 3.03 *Date of Birth*, 3.04 *Race and Ethnicity*, 3.07 *Veteran Status*, 4.21 *Sex*, and V1 *Veteran’s Information* all exist at the same level/have a one-to-one relationship with one another. They may share a 5.01

*Date Created, 5.02 Date Updated, and 5.07 User ID.*

▶ **Example 2:** 3.10 *Project Start Date* and 3.11 *Project Exit Date* both have a one-to-one relationship with 5.06 *Enrollment ID* but have different collection points. To evaluate timeliness of data entry, 3.10 *Project Start Date* and 3.11 *Project Exit Date* must have separate base metadata elements.

## **Project Identifier, Personal ID, and Household ID**

Because 3.10 *Project Start Date* initiates an enrollment, the creation of this data element is assumed to also create 5.06 *Enrollment ID*. Along with the 5.06 *Enrollment ID*, 3.10 *Project Start Date* must also be associated with 5.05 *Project Identifier*, 5.08 *Personal ID*, and 5.09 *Household ID*. The relationship of each of these metadata elements to 5.06 *Enrollment ID* is one-to-one. Every record for any enrollment-related data element (e.g., every data element requiring 5.06 *Enrollment ID*) is associated with a single project, client, and household through the 5.06 *Enrollment ID*.

## 2026 Point-in-Time Count: Initial Results

### Continued Progress. Helping People Home, Together.

Alameda County sees reductions in homelessness for the second consecutive Point-In-Time Count. The 2026 count marks the largest overall reduction to date, alongside continued increases in sheltered homelessness.

#### OVERALL HOMELESSNESS

**↓ 13%**

Down 13% compared to 2024

#### SHELTERED RATE OVER TIME

2019 - 2026 PIT COUNTS

The share of people experiencing homelessness in Alameda County who were sheltered increased from **21%** in 2019 to **37%** in 2026.

#### UNSHELTERED HOMELESSNESS

**↓ 18%**

Down 18% compared to 2024

#### FAMILIES WITH CHILDREN

Down 13% compared to 2024      97% are in shelter

#### UNACCOMPANIED YOUTH UNDER 25

Down 9% compared to 2024      63% are in shelter

#### VETERAN HOMELESSNESS

Up 2% compared to 2024      26% are in shelter

## 12-month report:

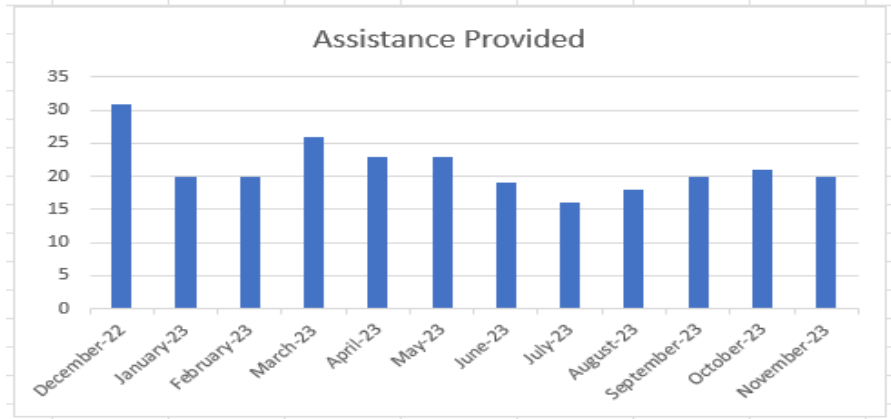

### December 2022 to November 2023

Referral consist of: Daily meals, Daily needs (showers, clothes, laundry), BACS Housing Assessment, and for physical mailing address.

Unhoused population that has moved to shelter, permanent housing, hotels, transitional housing or reunited with their families.

Providing food, clothes, bus tickets, vouchers and whatever can make their days easier. Bus ticket vouchers and ID waivers benefit the street population so they can receive SSI and be eligible for housing. Bus vouchers also allow them to get to services that might be too far to reach by walking.

12-month report: April 2020 to March 2021

Includes shelters, Dorothy Day House (showers and food), Berkeley HUB (food and housing), and HOTT (Homeless Outreach and Treatment Team). An assessment is made during interactions to determine which services will best suit the needs of each individual.

People experiencing homelessness that have moved to shelters, permanent housing, hotels, Safer Ground Program Housing or reunited with their families.

Providing food, clothes, bus ticket vouchers and whatever can make their day easier. Bus ticket vouchers and ID waivers benefit the street population so they can receive their SSI and be eligible for housing. Bus vouchers also allow them to get to services that might be too far to reach by walking.

# NLIHC'S ANALYSIS OF THE HOUSE FISCAL YEAR (FY) 2027 SPENDING BILL FOR HUD PROGRAMS

## OVERVIEW

The U.S. House of Representatives Committee on Appropriations released on May 20 their fiscal year (FY) 2027 Transportation, Housing, and Urban Development (THUD) [spending bill](#), which provides annual funding for the vital HUD programs and services people and communities rely on for affordable, accessible housing, rental assistance, homelessness services, and community development programs. The proposal would fund HUD at \$71.38 billion, a \$5.94 billion, or over 8%, cut from the \$77.3 billion provided for HUD programs in FY26. For details, see NLIHC's [updated budget chart](#).

Overall, the House's FY27 appropriations bill for HUD would likely be inadequate to ensure continued assistance for the families and communities with low incomes served by HUD programs:

- The House appropriations bill provides \$35.4 billion for contract renewals under the Tenant-Based Rental Assistance (TBRA) program, an increase of only \$496 million, or less than 1.5%, from the final FY26 spending bill, and even less than the 1.7% increase proposed in the White House's FY27 budget request. This would likely be insufficient to cover the cost of fully renewing all existing TBRA contracts, including the over [46,000 households](#) who still rely on an Emergency Housing Voucher (EHV) to keep a roof over their heads. Without sufficient funding for contract renewals, Public Housing Agencies (PHAs) cannot reissue vouchers when a household no longer needs one, leading to a drop in the number of vouchers available to help families. When funding is vastly insufficient to cover renewal costs, families currently receiving TBRA are at risk of losing the assistance they rely on to afford the cost of rent.
- The House's FY27 THUD spending bill would not take up the White House's proposal to recast HUD's Homeless Assistance Grant (HAG) program as an "expanded Emergency Solutions Grants (ESG) program" by eliminating Continuums of Care (CoCs). The bill would provide level funding of \$290 million for ESG and cut funding for CoCs by \$232 million - over 5.7% - from FY26, for a total of \$3.78 billion. CoCs provide Permanent Supportive Housing (PSH) and other long-term, supportive services to help people experiencing homelessness find long-term, stable housing. Cuts to CoC funding would likely force programs to limit services, and in some cases may result in people who had previously been experiencing homelessness losing their housing assistance.
- The bill would also cut funding for public housing capital needs by \$914 million, a decrease of nearly 29% from FY26, for a total of \$2.28 billion. Similarly, funding for public housing operations would decrease by \$287 million, for a total of \$4.73 billion in FY27 - a 5.7% decrease from the previous fiscal year. For decades, the federal government has failed to adequately invest in the operation and upkeep of the nation's public housing stock, leaving this vital source of deeply affordable housing in a state of disrepair, and exposing the people living in public housing to unsafe, unhealthy conditions.

- The House’s FY27 THUD spending bill would provide slight funding increases to HUD’s Section 811 Housing for Persons with Disabilities program and Section 202 Housing for the Elderly program of 2.7% and 3%, respectively, for a total of \$295 million for Section 811 and \$1.06 billion for Section 202. The challenges of finding an affordable, available home are compounded for people who also need an *accessible* home; as a result, people with disabilities and older adults are disproportionately likely to experience housing insecurity and homelessness. Programs like Section 811 and Section 202 help communities afford the cost of building, operating, and maintaining deeply affordable, accessible homes.
- The House bill would allocate over \$1.15 billion for HUD’s Indian Housing Block Grant (IHBG) program, an increase of \$46 million, or 4%, from the FY26 enacted spending bill. The IHBG-Competitive program would receive level funding from FY26, \$125 million. Native communities have some of the most urgent affordable housing and infrastructure needs in the country, and HUD’s IHBG and IHBG-C programs play an important role in ensuring federal assistance reaches tribal nations.
- The bill rejects the White House’s request to impose arbitrary and needless time limits and work reporting requirements on recipients of HUD assistance.
- In addition, the House’s FY27 spending bill for HUD programs proposes permanently rescinding unobligated balances from the final FY25 HUD spending bill, including:
  - “Any unobligated balances” for the Community Development Fund.
  - Over \$126 million for Project-Based Rental Assistance (PBRA).
  - \$75 million for the Section 202 Housing for the Elderly program.
  - \$98 million for the Section 811 Housing for Persons with Disabilities program.
  - \$55 million for Fair Housing and Equal Opportunity programs.
  - \$58 million for Housing Counseling Assistance.

With the release of its draft FY27 spending bill, the House Appropriations THUD subcommittee will next review and propose amendments to the bill (a process known as “markup”) on [May 21](#), while the full House Appropriations Committee will markup the bill on [June 4](#). The Senate Appropriations Committee has yet to announce its schedule for releasing and reviewing their draft FY27 THUD spending bill.

## **DETAILED ANALYSIS**

### ***Tenant-Based Rental Assistance***

The House proposed a \$356 million decrease in funding for Tenant-Based Rental Assistance (TBRA) in FY27, bringing total funding for the program to \$38 billion. This includes \$35.4 billion to renew existing HCV contracts, an only \$496 million, or 1.5%, increase from FY26 and even less than the 1.7% increase proposed in the President’s FY27 budget request. This would likely be insufficient to cover the cost of fully renewing all existing TBRA contracts.

Because the cost of rent increases from year-to-year, flat funding acts as a cut to rental assistance programs, so it is crucial that TBRA receive increased annual funding just to maintain services for currently assisted households. Without sufficient increases, HUD may be

unable to ensure all current TBRA contracts are fully renewed, resulting in the loss of vouchers through attrition – once a household no longer needs their voucher, rather than being reissued the voucher is taken offline, decreasing the number of vouchers available to help families in need.

TBRA, like all rental assistance programs, is vastly underfunded compared to the level of need. Only one in four households who qualify for any kind of rental assistance receive it, leaving the other 75% of otherwise eligible families to languish on waitlists while they struggle affording the cost of rent. If funding is cut, currently assisted households would be at risk of losing the assistance they rely on for safe, stable, affordable homes. Failing to fully renew all existing TBRA contracts would represent a massive step backwards in the fight for housing stability.

The bill does not provide funding for new vouchers under the Veteran Affairs Supportive Housing (VASH) program. On May 15, the House passed its Military Construction, Veterans Affairs, and Related Agencies (MilCon-VA) [FY27](#) bill, which included \$3.8 billion for “Veterans Affairs homeless assistance programs.” The MilCon-VA bill notes “the value and impact of the HUD-VA Supportive Housing (VASH) program,” and “recommends that VA’s budget for case managers be increased commensurate with any increases in HUD’s budget for new vouchers;” however, the House’s HUD bill did not provide funding for new VASH vouchers. The Tribal VASH program, which serves Native veterans, would receive level funding at \$10 million.

The bill would provide flat funding for Family Unification program (FUP) vouchers at \$30 million. The House’s bill would not provide funding for new incremental vouchers in the FY27 budget, nor would it provide funding for new Section 811 Mainstream vouchers.

In addition, the bill cuts funding for the Tenant Protection Voucher (TPV) program by over 50%, from \$601 million in the final FY26 spending bill to \$300 million in the House’s FY27 bill. Congress provided additional TPV funding in the FY26 spending bill to help ensure PHAs could continue serving households with expiring Emergency Housing Voucher (EHV) contracts, but more funding will be needed in a final FY27 spending bill to ensure the over [46,000 households](#) who still rely on an EHV continue receiving assistance and are not pushed back into homelessness. PHAs are also still waiting for guidance from HUD on how to use TPV funding to continue serving EHV families; HUD should release this guidance as soon as possible.

### ***Project-Based Rental Assistance***

In addition, the bill cuts funding for the Tenant Protection Voucher (TPV) program by over 50%, from \$601 million in the final FY26 spending bill to \$300 million in the House’s FY27 bill. Congress provided additional TPV funding in the FY26 spending bill to help ensure PHAs could continue serving households with expiring Emergency Housing Voucher (EHV) contracts, but more funding will be needed in a final FY27 spending bill to ensure the over 46,000 households who still rely on an EHV continue receiving assistance and are not pushed back into homelessness. PHAs are also still waiting for guidance from HUD on how to use TPV funding to continue serving EHV families; HUD should release this guidance as soon as possible.

## ***Homelessness Assistance***

The House calls for \$4.16 billion for Homeless Assistance Grants (HAG), a decrease of \$257 million, or nearly 6%, from FY26-enacted levels. The proposal would provide flat funding - \$290 million - for the Emergency Solutions Grants (ESG) program, and would decrease funding for CoCs by \$232 million from FY26, for a total of \$3.78 billion.

HAG provides crucial funding for communities to address the needs of people experiencing homelessness. With more people experiencing housing insecurity and falling into homelessness, more funding is needed for communities to sufficiently address the needs of unhoused neighbors, including finding safe, stable, affordable housing. Over the course of 2024, homelessness response systems only had enough housing for [16% of households](#) in shelter, which does not account for those currently residing outside. To ensure that life-saving programs can continue to operate, NLIHC and the National Alliance to End Homelessness are calling on Congress to provide at least \$5.1 billion in FY27 funding for the HAG program.

## ***Public Housing***

The spending bill would allocate \$2.28 billion to public housing capital needs, a decrease of \$914 million - nearly 29% - from the \$3.2 billion provided in FY26. In addition to formula funding, the House's bill for FY27 would provide \$30 million in funding for emergency/disaster grants, level funding from the previous year.

The bill provides \$4.73 billion for public housing operating costs, a decrease of \$287 million from FY26. Operating support includes both formula funding and an additional \$50 million, to be allocated based on need.

## ***Eviction Protection Grants***

The House does not provide funding for HUD's Eviction Protection Grant Program (EPGP). The EPGP program, first authorized in 2021, provides communities with funding to provide people facing eviction with legal aid services and other resources to help prevent evictions before they occur.

## ***Native Housing***

The House FY27 spending bill would provide the Indian Housing Block Grant program with \$1.15 billion, an increase of \$46 million, or 4%, from the previous fiscal year, and provide level funding of \$125 million for the IHBG-Competitive program.

The House proposal would provide \$15 million for the Native Hawaiian Housing Block Grant program, which received \$22 million in the FY26 budget - a nearly 47% decrease in funding.

## ***Other Affordable Housing and Community Development Programs***

The House bill includes \$1.06 billion for the Section 202 Housing for the Elderly program, an increase of \$30 million, or 3%, from FY26. This includes \$122 million for service coordinator contracts, flat funding from the previous year.

The proposal would provide \$295 million for the Section 811 program to support affordable, accessible housing for people with disabilities, an \$8 million, or 2.7%, increase from FY26 enacted levels. It is not clear whether this funding would be sufficient to renew all existing Section 202 and Section 811 contracts.

As with other rental assistance programs, it is crucial that Section 202 and Section 811 accounts receive increased funding every year to maintain the number of people being served by these programs. Cuts or insufficient renewal funding could cause the older adults and people with disabilities who rely on these programs to lose their housing assistance, putting them at risk of housing instability, eviction, and in the worst cases, homelessness. These programs also provide key financing for the construction and operation of deeply affordable, accessible rental homes for older adults and people with disabilities; any cuts to the programs' funding would delay housing construction and further exacerbate the affordable housing shortage.

The House bill would provide level funding of \$3.3 billion for the Community Development Block Grant (CDBG) program, and \$2.52 billion for Economic Development Initiatives (EDI) projects, better known as "earmarks," which are spending requests submitted by members of Congress for specific projects in their districts.

The bill would eliminate CDBG's competitive PRO Housing Grants program, which provides grants to encourage communities to adopt more inclusionary zoning practices to allow for the development of affordable housing. The program received \$50 million in the FY26 budget. The President's FY27 budget request eliminated both the CDBG and PRO-Housing grant programs.

The House proposes funding the HOME Investment Partnerships Program (HOME) at \$500 million, a decrease of \$750 million, or 60%, from the \$1.25 billion in funding the program received in FY26. The Choice Neighborhoods Program, which was funded at \$25 million the previous fiscal year, would not receive funding in the House bill. Both HOME and the Choice Neighborhoods Program were eliminated in the President's FY27 spending request.

The bill would not provide funding for the Preservation and Reinvestment Initiative for Community Enhancement (PRICE) program, first funded in FY23 to provide grants to preserve and vitalize manufactured housing communities. The PRICE program did not receive funding in the FY26 budget.

Under the House's proposal, the Housing Opportunities for People with AIDS (HOPWA) program would receive level funding, \$529 million, in FY27. The President's FY27 spending request would not provide funding for HOPWA.

The Family Self-Sufficiency program is funded at \$125 million, a \$31 million decrease from FY26-enacted levels. This program would not receive funding in the President's FY27 spending proposal.

Housing Counseling Assistance - which funds services like financial management, budget and credit counseling, fair housing education, and homebuyer education to help people meet their housing and homeownerships goals - would receive \$26 million in the House proposal, a \$32.6 million decrease, or nearly 58% cut, from FY26. The President's FY27 budget request did not include funding for Housing Counseling Assistance.

### ***Healthy Homes***

The bill would provide flat funding, \$296 million, to the Office of Lead Hazard Control and Healthy Homes' grants. The President's budget request would reduce funding for the program to \$110 million.

## ***Fair Housing***

The House proposal calls for drastically decreasing funding for HUD's Office of Fair Housing and Equal Opportunity by nearly 44%, or \$37.9 million from the previous fiscal year, for a total of \$48.5 million.

The budget would provide \$20 million for the Fair Housing Initiatives Program (FHIP) - a 64% decrease from FY26. FHIP provides grants to state and local fair housing organizations to conduct fair housing testing, investigations, education, and outreach. FHIP received \$56 million in the final FY26 budget.

Under the House's proposal, the Fair Housing Assistance Program (FHAP) would receive \$26 million, a decrease of \$400,000 from the FY26 budget. FHAP funds state and local agencies responsible for processing Fair Housing Act complaints.

## ***U.S. Interagency Council on Homelessness (USICH)***

The House THUD spending bill would provide \$200,000 for USICH. The agency received \$3 million in FY26 - an over 93% cut to the agency.

## ***Other Provisions***

The House's proposal would remove the "Coronavirus Aid, Relief, and Economic Security (CARES) Act" 30-day eviction notice requirement, which requires HUD-assisted housing providers to give tenants at risk of eviction notice of at least 30 days before carrying out an eviction action.

The House bill would undermine efforts to curb the harmful impacts of climate change by restricting HUD's ability to use appropriated funds to update minimum energy efficiency standards for new HUD-funded housing, as outlined in the federal notice, "Adoption of Energy Efficiency Standards for New Construction of HUD- and USDA-Financed Housing."
