

Lori Droste, District 8
Susan Wengraf, District 6

CONSENT CALENDAR
July 19, 2016

TO: Honorable Mayor and City Council

FROM: Councilmembers Lori Droste, Susan Wengraf,
Linda Maio, and Kriss Worthington

SUBJECT: Commission Work Plans

RECOMMENDATION

Commissions—with the exception of the Board of Library Trustees, Design Review Committee, and the Zoning Adjustments Board—will submit a work plan detailing its goals and objectives for the year. Plans will be submitted at the start of the fiscal year, annually.

FINANCIAL IMPLICATIONS

Although additional staff time will be needed to assist commissions in drafting work plans, staff time will be reduced overall if misaligned commission referrals are reduced. In addition, if boards and commissions do not direct city staff to perform research, gather information, or otherwise engage in activities involving projects or matters that are not aligned with the City's Strategic Plan, staff will be able to make more efficient use of their time.

BACKGROUND

The City of Berkeley is in the process of introducing its first strategic plan. To ensure that Berkeley's commissions are in alignment with the overall mission of the City, commissions should submit annual work plans. Each work plan should contain the following information:

1. Commission mission statement
2. What are the commission's goals? In order to achieve these objectives, please specify:
 - a. Resources
 - i. What specific resources are needed and available to achieve desired change? (i.e. staff time, \$, time, materials, equipment)
 - b. Program activities
 - i. What will the commission do with its resources?
 - ii. Processes, tools, events, technology, actions that are employed to bring about the intended objectives.

- c. Output(s)
 - i. What will be the direct results of commission activities?
 - ii. How much will be done? (i.e. Number of forums/meetings held, # of participants reached, etc.)
- d. Outcomes
 - i. The specific changes desired/achieved in the short-term (1-3 years) and long-term (4-6 years)

Outcomes should be measurable, action-oriented, and realistic (W. K Kellogg Foundation, 2004).

ENVIRONMENTAL SUSTAINABILITY

1: Logic Model Summary (W.K. Kellogg Foundation)

Logic Model Summary

A logic model brings program concepts and dreams to life. It lets stakeholders try an idea on for size and apply theories to a model or picture of how the program would function.

The program logic model is defined as a picture of how your organization does its work – the theory and assumptions underlying the program. A program logic model links outcomes (both short- and long-term) with program activities/processes and the theoretical assumptions/principles of the program.

The Basic Logic Model components shown above are defined below. These components illustrate the connection between your planned work and your intended results.

They are depicted numerically by steps 1 through 5.

YOUR PLANNED WORK describes what resources you think you need to implement your program and what you intend to do.

1. Resources include the human, financial, organizational, and community resources a program has available to direct toward doing the work. Sometimes this component is referred to as Inputs.

2. Program Activities are what the program does with the resources. Activities are the processes, tools, events, technology, and actions that are an intentional part of the program implementation. These interventions are used to bring about the intended program changes or results.

YOUR INTENDED RESULTS include all of the program's desired results (outputs, outcomes, and impact).

3. Outputs are the direct products of program activities and may include types, levels and targets of services to be delivered by the program.

4. Outcomes are the specific changes in program participants' behavior, knowledge, skills, status and level of functioning. Short-term outcomes should be attainable within 1 to 3 years, while longer-term outcomes should be achievable within a 4 to 6 year timeframe. The logical progression from short-term to long-term outcomes should be reflected in impact occurring within about 7 to 10 years.

5. Impact is the fundamental intended or unintended change occurring in organizations, communities or systems as a result of program activities within 7 to 10 years. In the current model of WKKF (W.K. Kellogg Foundation) grantmaking and evaluation, impact often occurs after the conclusion of project funding.
