

Just Transition Pilot Program

Presentation to Energy & Climate Commission

October 30, 2024

Just Transition Pilot Program Overview

- \$1,500,00
- 2 years
- Partner: Rebuilding Together East Bay North

WE BUILD TOGETHER

Berkeley Existing Buildings Electrification Strategy - Equity Guardrails

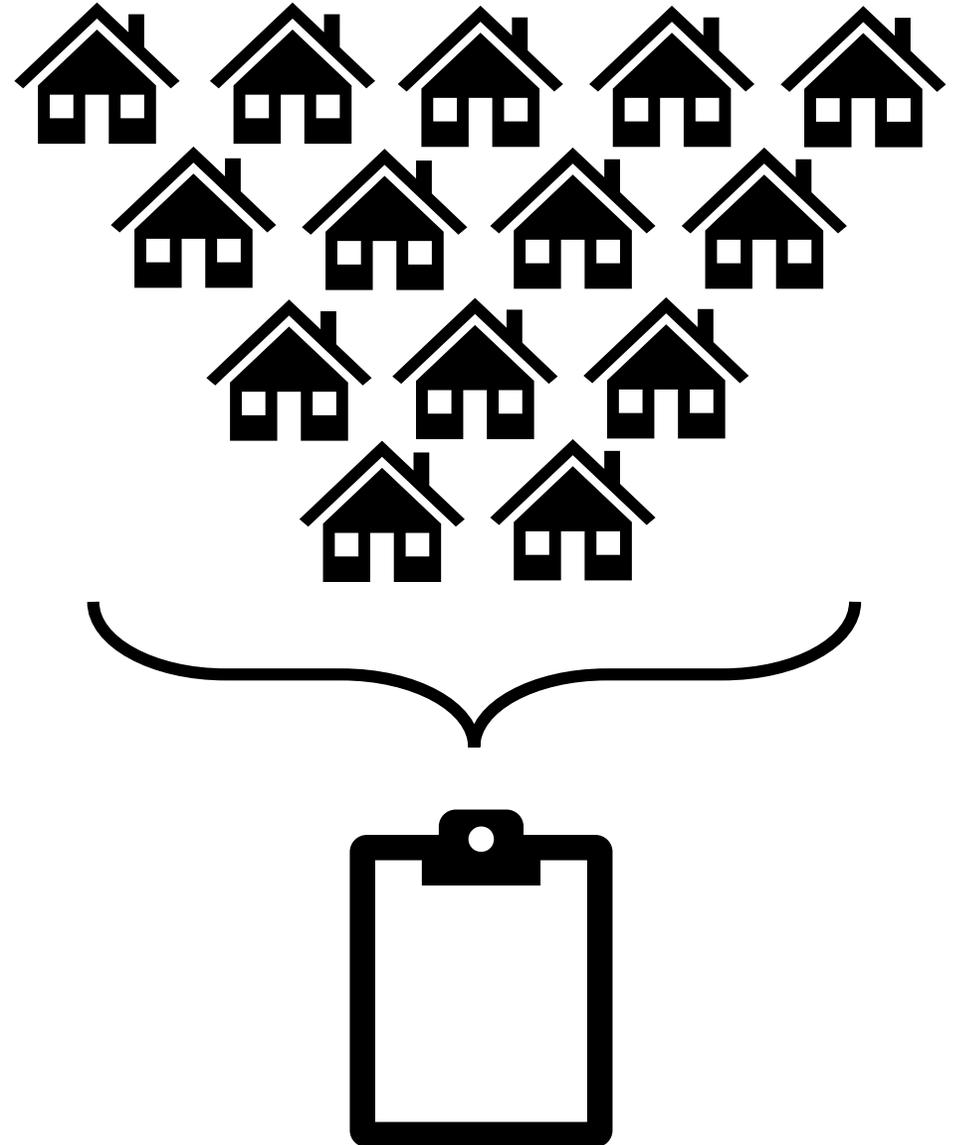

- Maximize Access to Health, Safety & Mobility Benefits
- Maximize Access to Economic Benefits
- Maximize Ease of Participation
- Promote Housing Affordability & Anti-Displacement

Goals of Just Transition Pilot

Expand high-road workforce opportunities in the low-rise residential building sector by **aggregating projects and/or buildings**

Goals of Just Transition Pilot

Advance economic opportunities for residential building electrification contractors and workers, particularly **small emerging contractors including Black, Indigenous, and people of color (BIPOC) and women contractors and workers**, by creating high-road job labor standards, trainings, and inclusive recruitment pathways

Rising Sun

Goals of Just Transition Pilot

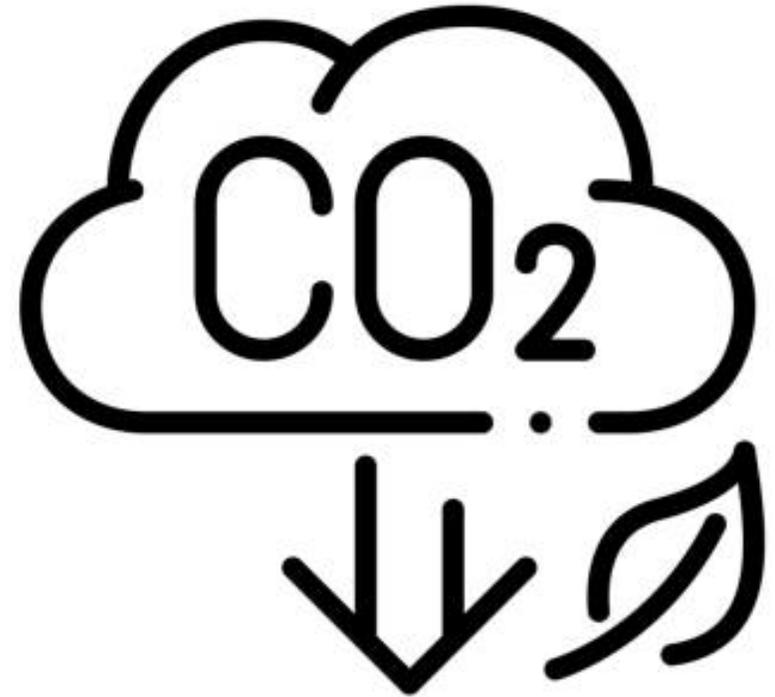

Improve occupant health, comfort and energy affordability for LMI Berkeley residents with high quality installations of efficient electrification measures in homes

Goals of Just Transition Pilot

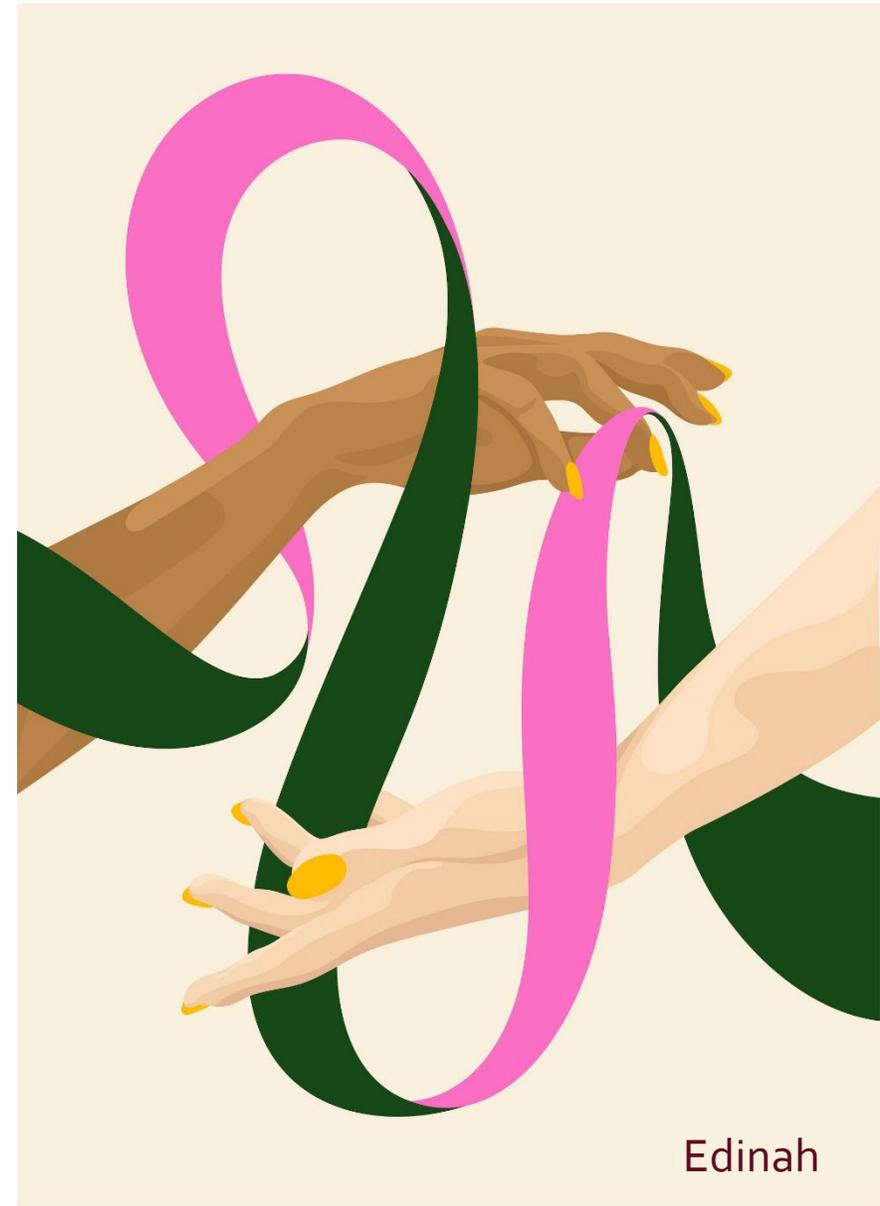

Reduce community-wide greenhouse gas emissions by converting residential gas systems to clean electricity

Related Projects

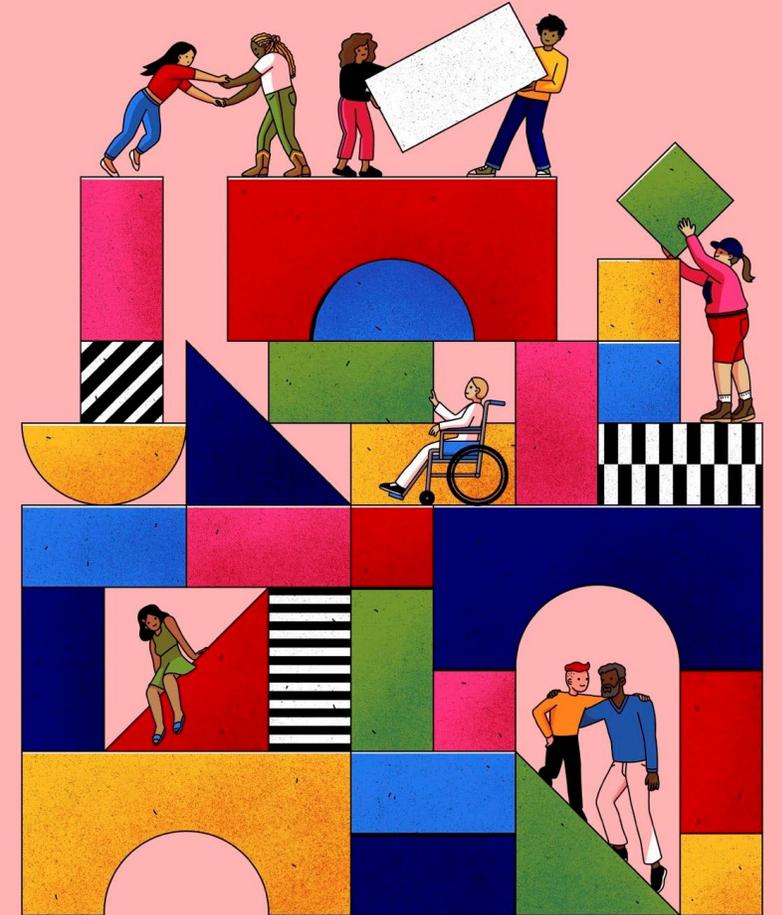

- Climate Equity Fund Pilot
