3. Recommendations for the Formulation of Advanced Fiscal Policies to Institutionalize Strategic Bond Issuance, Optimize Municipal Investment Returns, and Leverage Intergovernmental and Philanthropic Capital Funding From: Councilmember Taplin (Author), Councilmember Bartlett (Co-Sponsor) Referred: June 2, 2025

Due: November 9, 2025

Recommendation: 1. Establish a Structured Bond Issuance Framework
Refer to the City Manager development and presentation to the Council of a comprehensive fiscal policy that institutionalizes a regular, predictive schedule for general obligation bond issuance. This policy should be informed by actuarial and capital market analysis of the City's bonding capacity and be modeled on established frameworks utilized in fiscally disciplined jurisdictions such as San Francisco and Santa Monica. The goal is to remediate the City's substantial deferred maintenance liabilities and strategically advance the Capital Improvement Program (CIP).

2. Modernize Investment Policy and Establish a Capital Grant Matching Fund
Refer to the City Manager the enactment of a detailed review and performance benchmarking of the City's current investment policies, ordinances, and resolutions. Based on this review, the City Manager should recommend:

-Amendments to align Berkeley's portfolio management practices with those of peer jurisdictions in the Bay Area; -Asset strategies that maintain compliance with CA Government Code §53600 et seq. while improving yields through enhanced diversification and duration matching; -Establishment of a dedicated Capital Grant Matching Fund, capitalized with a designated portion of net investment returns, to maximize Berkeley's competitiveness in securing grants under federal programs such as the Infrastructure Investment and Jobs Act (IIJA), the Inflation Reduction Act (IRA), and state-funded resilience initiatives.

3. Develop a Comparative Bond Issuance Analysis and Timeline

Refer the City Manager to conduct a comprehensive analysis of historical general obligation bond issuance and debt service rates in Berkeley and comparable jurisdictions. The analysis should:

-Examine 30 years of municipal bond trends, showing the consistency of low interest rates during fiscally disciplined cycles; -Compare Berkeley's historical borrowing costs with those of San Francisco, Santa Monica, and Palo Alto; -Demonstrate the efficacy of maintaining a regular issuance schedule every 6–10 years to preserve low borrowing rates and steady bond ratings; -Present a 30-year fiscal projection showing that with prudent debt layering and consistent retirement of obligations, Berkeley can issue up to \$250–\$300 million in bonds in successive tranches while maintaining fiscal health and AAA-quality debt service coverage ratios.

The City Manager is requested to return with a projected 25–30 year financing timeline that identifies capital milestones, projected issuances, debt service loads, and cost-saving thresholds compared to inflation-driven delays. This timeline shall be paired with policy recommendations to ensure adherence to long-range financial planning objectives.

Financial Implications: See report
